

HENRY H. ROGERS ABOUT DONE FOR

His Face is Distorted. His Speech Affected. Left Side Not in Normal State.

HE TRANSACTS NO BUSINESS.

Physical Condition Shown in Massachusetts Supreme Court on Proceeding to Show Was Able to Testify.

Boston, Sept. 16.—That Henry H. Rogers is in a very weak physical condition, that his face is distorted, and his speech is affected, that his left side is not in its normal state, and that he is unable to transact any business, or even discuss ordinary affairs, was the substance of testimony given by Mr. Rogers' son-in-law, Urban K. Broughton, in the supreme court this afternoon.

Mr. Rogers, Jr., testified that his father had signed but three checks and a power of attorney to open a vault, since July 22, his condition, Mr. Rogers, Jr., said, has shown some slight improvement in the past few weeks. Mr. Broughton testified that recently Mr. Rogers had told him to take up the business where he had left it, as he, Rogers, was "about done." After hearing this testimony, Judge Hammond denied the motion to bring H. H. Rogers into court for the purpose of showing that he was capable of testifying.

The true physical condition of Henry H. Rogers was a question before the supreme court today when counsel for C. M. Raymond of Boston, who is suing Mr. Rogers for \$200,000, sought to prove that Mr. Rogers was able to appear in court, in spite of the objection of his counsel, Deputy Sheriff William of New Bedford testified that he saw Mr. Rogers in the first national bank at New Bedford last week, talking with President Winsor and Rufus A. South, and that later Mr. Rogers walked down the street, apparently in good health. President Winsor admitted that he talked with Rogers last week, but said that the latter spoke with difficulty, and that his physical condition apparently was not as good as it had been earlier in the summer. He knew of no business which Mr. Rogers had transacted during the past two months.

ALLEGED MEXICAN REVOLUTIONISTS RELEASED.

Los Angeles, Cal., Sept. 16.—Antonio Villarreal, Ricardo Flores, Magan and Labrado Rivera, alleged Mexican revolutionists, were released from custody by the police today on the charges of criminal libel and resisting officers, only to be immediately rearrested on the charge of murder and robbery, by Deputy United States Marshal B. H. Franklin, whose warrant alleged that the trio had murdered an unidentified man and robbed the postoffice at Jimenez, Mexico.

Antonio Loranza, Mexican consul, swore to the affidavits alleging the allegations were true, and said they were based upon representations from Enrique Creel, formerly Mexican ambassador to the United States. That they were not to be permitted to enjoy their freedom for long appeared to be known to the prisoners. Their faces were marked and they appeared in Police Judge Frederickson's court at 10:30 this morning. Scores of their sympathizers, lined up on the sidewalk outside the jail building, cheered them as they marched handcuffed into the building.

DIFFICULT TO SECURE JURY TO TRY TIREE FORD.

San Francisco, Sept. 16.—Four jurors were added today to the five already sworn to try former Attorney-General, T. J. Ford, chief counsel of the United States, for the bribery of Supervisor Thomas F. Lomenzo, but only three of them were finally added to the trial panel. One, who was peremptorily dismissed by the prosecution by special permission of the court, on account of his alleged intimacy with John Daly, a politician, said to be in the employment of the defendant corporation. Among the eight jurors thus far accepted to pass upon the guilt or innocence of T. J. Ford, two who voted for the conviction of Vice President Glass of the Pacific Telephone and Telegraph company, accused of bribing Lomenzo, the supervisor named in the indictment, upon which Ford is now being tried. The failure of the defense to exercise against Mr. Mortenson and Mr. Strange the right of peremptory challenge, caused considerable surprise. Mr. Rogers wrote this explanation in response to a question addressed to him by newspapermen: "However innocent Mr. Glass may be, as I view the matter, our case is stronger than was his. The human mind swings like a pendulum; and if a good case is presented now, it will receive added consideration by contrast. So I reasoned by experience and from observation of the workings of the average mind. Having prejudice and indications of opinion, whether acquiescent or not, I am never afraid of a jury whose inclinations and character are fair."

ROSY COMPLEXION WITHOUT COSMETIC

Home Prescription for the Skin Said to Work Wonders on the Complexion.

A good complexion is essential to facial beauty, and if it can not be attained naturally, then artificial means must be resorted to.

But all ladies regret the necessity of using imitation beauty and would gladly possess the natural rosy glow with which some of their sisters are so beautifully favored.

Here is a prescription that comes across the ocean, from France, the home of so many beauty secrets, and it is said to be the most effective preparation known to science for rejuvenating the skin and restoring the bloom of youth as well as promoting the growth in undeveloped or shrunken parts.

Obtain from your druggist, two ounces of Rose Water, one ounce Spirit of Cologne, four ounces crystallized Sartin (skin food).

Put the Sartin in a pint of hot water (not boiling) and after it is dissolved and cooled strain it through a fine cloth and then add the Rose Water and Cologne Spirits. Put it in a bottle or fruit jar and keep well corked when not in use.

This wash is to be applied twice a day or oftener, and massaged well in to the skin. It is an inexpensive mixture, the ingredients being obtainable at any good drug store and is well worth a trial.

Do not grant the 2-cent fare rate. This puts the question squarely up to the railroads of either granting the 2-cent fare without a special or of forcing a fight for freight reduction. The chairman of the railway board, G. W. Kanavel, says the board has been working for some months on the new distance tariff rates, and has figures so that an investigation could be quickly made.

S.S.S. DRIVES OUT RHEUMATISM

A good liniment or plaster, or some good home remedy will usually give temporary relief from the pain of Rheumatism, but the disease is more than skin deep and cannot be rubbed away, nor can it be drawn out with a plaster. Such treatment neither prevents nor cures; the excess of acid, which produces Rheumatism, is still in the blood and the disease can never be cured while the circulation remains saturated with this irritating, pain-producing uric acid poison. The trouble will shift from place to place, settling on the nerves and causing pain and inflammation at every exposure or after an attack of indigestion of other irregularity. When neglected or improperly treated, Rheumatism becomes chronic and does not respond upon climatic conditions to bring on an attack, but remains a constant, painful trouble. S. S. S. drives out Rheumatism by neutralizing and expelling the excess of acid from the blood. It purifies and invigorates the circulation so that instead of an acid-laden stream, constantly depositing uric acid in the joints, muscles, nerves and bones, the entire system is nourished and made healthy by rich, life-giving blood. Book on Rheumatism and any medical advice desired will be sent free to all who write.
