

MINING, BUSINESS AND STOCKS

GREAT STACK AT GARFIELD PLANT.

Last Brick Has Been Laid and Contractors Prepare to Leave the Camp.

ITS HEIGHT IS 300 FEET.

Elevation Five Hundred Feet Above Floor of Reverberatory Building—Started Last September.

The great brick stack out of which the furnace arising from the furnaces of the new Garfield smelting plant will issue, is completed. The last brick was laid on Saturday and word comes from the works today that the scaffolding is being taken down and the contractors are getting ready to pull up stakes and move elsewhere.

The stack is one of the largest ever built in the United States in connection with any smelting plant. It towers to an elevation of 500 feet above the foundation on which it rests and the inside measurement is 30 feet across.

The location is above the floor of the building containing the reverberatories 500 feet, while connection with the furnaces is made by a system of three flues 200 feet long.

The construction of the stack was started about Sept. 1 last year and the work has progressed steadily since that time. The flues are not yet finished, but they will be within the next few weeks.

ON MINING EXCHANGE.

May Day the Feature of the Regular Call Transactions.

The bulk of the business done on the floor of the Salt Lake Stock & Mining exchange was left to the open board. During the regular call, however, considerable May Day copper hands at 22 1/2 cents. Ohio Copper was called out on the open board, but the stock was weaker, it selling down to \$1.35. A small lot of Daily Judge was picked up at \$10, while Carlsbad found favor at 3 1/2 cents. New York Bonanza opened strong, but closed a shade lower.

The closing quotations and sales were:

GREAT BEND STRIKE.

Recent Developments Are of a Flattering Nature.

Recent developments at the Great Bend property in the Diamondfield section of the Colorado district are of the most flattering nature, and as development progresses the conditions continue to improve, says the Goldfield Review. A great deal of ore is being taken out of the mine, which is being sent on the ledge in a drift from the 70-foot level. No effort is being made, however, to do any stoping, all the ore coming from development work. The mine has reached the depth of about 25 feet and in the bottom the ledge continues to hold out strong while the values are slightly increasing. A sample was recently taken and the entire ledge showed shipping values, running from \$40 to \$60 to the ton in the yellow metal.

WIRES TO ALTA DOWN.

All Communication With Wasatch Camp Has Been Cut Off.

All wire communication between the city and Alta is out of commission, and it may be several weeks before service is established again owing to the deep snow.

Manager Hatfield of the Albion Mining company in receipt of a letter from camp, however, which conveyed the information that conditions at that property are very satisfactory at the present time.

The Albion will be a heavy shipper of ore during the present year.

BULLY BOY BONDED.

Marysville Property Will be Worked By W. E. White and Associates.

Former Representative White of Butte county has secured a bond on the Bully Boy mine in Butte county, near Marysville. This property is one of the old time producers of that section of the state and contributed largely to the state's wealth. It was very high grade ore has been produced from the mine, at intervals during late years, it has been worked by leasers.

BUTTE'S COPPER OUTPUT.

Over 30,000 Pounds of Red Metal, the January Record.

The January copper production of the Butte district amounted to 30,735,400 pounds, to which the various companies contributed as follows: Anaconda 7,234,000; Butte and Boston 945,000; Trenton 1,025,000; Washoe 855,000; Parrot 975,500; North Butte 4,120,000; total for Washoe 11,860,000 pounds. Boston & Montana 7,914,000, making total Anaconda 23,724,000 pounds. United Copper 224,000; Clark's Original 2,604,000; Pittsburgh & Arizona 2,300 East Butte 558,000; miscellaneous 531,000; total for Butte 20,735,400 pounds.

The daily ore tonnage mined and the average yield per ton in copper were as follows:

Companies—	Tons ore.	Copper Lbs.
Boston & Montana	3,700	63
Anaconda	3,600	65
Butte & Boston	500	61
Trenton	500	60
Washoe	425	68
Parrot	450	70
North Butte	950	160
United Copper	1,500	65
Clark's Original	1,200	70
Pittsburg & Arizona	150	80
East Butte (dessees)	100	180
Miscellaneous	300	70

Total daily tonnage 13,525.

Average daily output of copper: Boston & Montana 253,000; Anaconda 234,000; Butte & Boston 30,500; Trenton 30,000; Washoe 28,500; Parrot 31,500; North Butte 152,000; United Copper 104,000; Clark's Original 14,000; Pittsburgh & Arizona 18,000; miscellaneous 21,000; total, 1,004,200 pounds.

BUTTE COALITION.

Boston and Butte Investors Indulge in A Little Frenzied Finance.

The sensation of the day furnished by the Pollock wires was the introduction of Butte Coalition certificates on the Boston curb.

The Butte Coalition company was formed several days ago to take over the properties in Butte operated formerly by F. Augustus Helms, but which passed into the control of Thomas F. Cole recently.

The certificates were started off at \$15 a share and before the day's business closed sales were made up to \$43 a share. Boston and Butte investors were the buyers.

Anything with the name of Thomas F. Cole attached to it is of deep local interest at the present time in view of the fact that the noted mining magnate has been seeking a foothold in this state.

ST. PATRICK COMPANY.

The St. Patrick Mining and Milling company of this city filed its articles of incorporation in the county clerk's office today. The company is capitalized at \$100,000, divided into shares of the par value of 20 cents each. D. A. Buck is president; Walter Webber, vice president; B. A. M. Froiseth, secretary. A. Smith, treasurer. The company owns the St. Patrick group of six claims located in the Big Cottonwood district.

CONCENTRATES.

W. M. Wantland has returned from making an inspection of mining interests at Alta.

It is the intention of the Western Exploration company to open an office in Chicago shortly.

President Catrow of the Ohio Copper company will leave for the east again on an early train.

President James A. Pollock of the Salt Lake Stock & Mining Exchange is on his way home from the east.

John A. Kirby and several others have secured interests in the new camp of Baxter Springs, Nevada.

The ore and bullion settlements reported last Saturday by McCormick & Company, showed returns for the week of \$429,500.

M. M. Johnson of the Newhouse mine was at the Montgomery Shoshone mine

in the Bullfrog, Nevada, district a few days ago.

Several snow slides have occurred in the Cottonwood canyon during the past few days, one of them did not serious damage.

A report from the Clifton district, Deep Creek, brings the information that high grade galena ore has been struck in a tunnel run on the property of C. E. Johnson.

General Manager D. C. Jackling and General Superintendent R. C. Gemmell of the Utah Copper company visited the new Garfield mill of the copper company during the day.

During the month of January the Amalgamated turned out more than 18,000,000 pounds of copper at the Washoe smelter. The company expects to exceed this quantity during February.

Col. George W. E. Dorsey has become interested in Tonopah mines. Last week the colonel and associates acquired the Accidental lode mining claim, which is situated near the Ohio Tonopah Mining company's ground.

Miners in from the mountains and ranchers from the gulches say that the snow has slid to the bottom of the ravines and mountains, and that this will not melt before July. An abundance of water is therefore assured for this year.—Hailey, Idaho, Times.

G. D. R. Turner has returned from a brief trip to Silverton, Colorado, to make an inspection of the L. N. L. mine, which is being operated under his direction. Mr. Turner says the property is on a paying basis and a shipment of ore sent out a few days ago netted \$58.

Before leaving for Los Angeles on Saturday last, Col. John Veir of the Nevada Consolidated Copper Corporation held a conference with General Manager R. E. Wells, it is said, when arrangements were completed for the early building of the Pioche extension of the Salt Lake road.

The Reosacker & Hasselbacher Chemical Co. of New York City has built up a large Mexican trade in cyanides for use in the mining industries, has applied for a concession from the government to establish a plant there for the manufacture of cyanides. The company states that at least \$200,000 will be invested in the business.

The Last Chance mill in Bingham is to be remodeled and placed in commission again. The success achieved by Henry M. Adkinson, manager of the New England mine, adjoining the Last Chance, has demonstrated that the Last Chance ore can be profitably worked on the ground, and Superintendent Kirk has received orders to proceed to put the plant in shape for business.

The departure for the east of Charles A. Walker has added to the belief that the iron holdings of the American Pacific Iron company are being shipped up for the consumption of a deal for the disposition of the properties to a formidable syndicate of capitalists. The ground is said to be under examination at the present time by R. S. Dickman, who has been in the region before in behalf of the Colorado Fuel & Iron company.

Mr. Ellerbach of Salt Lake has taken up a line rock quarry along the foothills this side of the Timpany canon. His rock is considered of a very fine quality and will be used as flux for the Garfield smelters. A branch road is being surveyed from the main line of the Western Pacific to the quarry. Some very high grade ore smelters, Rock crushers will be put up and run by steam and the rock will be crushed before being loaded on the cars.—Tooele Transcript.

MARKET BULL, PRICES FIRM.

Opening Saw Stocks Inclined to Sag Followed by an Advance.

CREPT UP WITH SOME HALTS.

Dealings Largely Confined to Leaders In Which Profitable Terms Were Recently Made.

New York, Feb. 26.—Very light buying orders were in the stock market at the opening today and prices were inclined to sag. St. Paul was a prominent exception with a rise of 1/2 cent. The market was quiet and prices were not important. Dealings were largely confined to the leaders. Union Pacific rose 1/2 cent. to 24 1/2. Reading, Illinois Central, Consolidated Gas and Central Leather rose 1/4 cent. to 10 1/4.

Prices continued to creep upward with occasional halts but the market was not important. Dealings were largely confined to the leaders. Union Pacific rose 1/2 cent. to 24 1/2. Reading, Illinois Central, Consolidated Gas and Central Leather rose 1/4 cent. to 10 1/4.

Prices continued to creep upward with occasional halts but the market was not important. Dealings were largely confined to the leaders. Union Pacific rose 1/2 cent. to 24 1/2. Reading, Illinois Central, Consolidated Gas and Central Leather rose 1/4 cent. to 10 1/4.

Prices continued to creep upward with occasional halts but the market was not important. Dealings were largely confined to the leaders. Union Pacific rose 1/2 cent. to 24 1/2. Reading, Illinois Central, Consolidated Gas and Central Leather rose 1/4 cent. to 10 1/4.
