The steamer Alaska, which reached San Francisco last evening, brings Japan news to March 10th. The insurrection had been entirely squelched. A volcanic eruption. occurred in Yedo on the 8th of February. On the 1st of March the public of Japan saw, for the first time, a portion of the interior of an imperial residence, that being the day upon which commenced the third annual exhibition of Kloto, which was held in a former residence of the Japanese sovereign. Among the items of interest will he found an account of the origin of the Simonoseki indemnity matter, so often referred to in Japanese news, and about which so little is known to the general reader.
