CHARLES W. PENROSE, EDITOR.

Tuesday, - Jan. 9, 1883.

EDITORIAL NOTES.

The mint turned out silver coins of all denominations to the amount of $27,000,000 during 1882.

It is announced that Gambetta's death was the result of "sepityhylite pesicolite." This is enough to kill almost anybody.

According to the New York *Times*, Mr. Talmage's sermons consist of one-tenth ideas and nine-tenths arms and legs.

For eleven months of 1882 the grain sales in the New York produce exchange, including futures, were 613,000,000 bushels of corn.

The secretary of the New York chamber of commerce reports that the exports for the year by American vessels aggregated $107,585,560, while foreign vessels carried away goods valued at $798,813,709.

Washington mail carriers are to experiment with the tricycle in the collection of mail matter. Machines will be built for the purpose, with mail-bag attachments, and the busiest routes in the city will be first tried.

Several well-attended meetings have recently been held in Baltimore for the purpose of organizing a movement to secure the prohibition of the sale of liquor in that city. The "local option law" now prevails in 14 of the 23 counties of Maryland.

The detailed project for a submarine tunnel between Italy and Sicily has been finished, and will soon be submitted for Government approbation. The length of the tunnel will be about eight and a half miles. The expense is calculated at $14,250,000.

Increased safety in steam carriage of passengers has made as marked progress on water as on land. Supervising Inspector Dumont reports that the loss of life on American steam vessels this year averaged one in every 1,173,772 persons carried, while in 1850 the loss was one in each 55,714.

The February *Century* (the "Midwinter" number) will contain a frontispiece portrait of Mr. George William Curtis, which is said to be one of the most successful engravings that Mr. Cole has yet made. The accompanying article will be from the pen of Mr. S. S. Conant, of *Harper's Weekly*.

The ladies have distinguished themselves once more in the London University class lists. The scholarship and gold medal for obstetrics are taken by a lady; two ladies are placed in the first class, one a student from Girton College; five more have gained second classes, and several others are in the third class.

In the Atlantic States the leaders of the Republican party favor the abandonment of the liquor question at the next election. They played it for a winning card and lost, and now they are ready to join hands with the liquor dealers in a crusade against temperance. It shows their sincerity as temperance advocates.

Chief Justice Sharwood, Pennsylvania, said, in a speech at a Philadelphia banquet given in honor of his retirement from the bench: "Indeed, it may be questioned whether great learning is a desirable quality in a judge. He is apt to wish to display it on all occasions, by elaborate and tedious opinions, and delivering charges unintelligible to juries."

Governor-elect Glick, of Kansas, denies that the number of persons in the penitentiary has decreased under the prohibitory liquor law, and makes the counter statement that there were eighteen more convicts at the close of the first year of prohibition than at its beginning. He also insists that the law has increased the sale of liquors, a clandestine trade being easy through shipment to individuals by express companies.

Vienna is about to imitate Berlin in the convenience of an electric railway, to run from Modling to Bruhl, in the suburbs of the city, for the construction of which the ministry has granted a concession to the Southern Railway Company. It will be a single line, two miles in length, of one meter gauge, the maximum speed to be allowed upon it is twelve and one-half miles an hour, and it must be opened for traffic by July 15, 1883. The carriages are to contain eighteen seats and standing room for a few passengers.

Advices from London state that a process for the cheap production of aluminum has been discovered, and that the discovery has caused no little excitement in the metal trade at Birmingham and Sheffield. Aluminum is one of the most widely dispersed of all the metals, existing in nearly all clayey soils, in combination with other earths. It possesses many peculiar and valuable properties, among which are great lightness, tensile strength and resistance to oxidation. The great difficulty has been, heretofore, to separate the ore from the earths with which it is combined. If, as above stated, a process for doing this cheaply has been discovered, it is likely to work a revolution in many of the arts and sciences, and aluminum, now expensive and rare in its isolated state, will enter largely into the articles of household use.

THE ANTI-WOMAN-SUFFRAGE BILL.

THE bill introduced in the House of Representatives by Mr. Cassidy of Nevada, for the abolition of woman suffrage in Utah, is not likely to meet with much success. The professed object of all the special legislation by Congress affecting Utah is the suppression of polygamy. It will be very difficult for the Nevada "Mormon-eater" to explain what connexion his bill has with that object. He cannot plead that it is to prevent plural wives from voting, because under the operations of the Edmunds Act, as construed by the Utah Commissioners, neither first wives nor plural wives of polygamists are permitted to vote at any election.

The intent of the bill is quite apparent to all observers. It is to reduce the vote of one party in Utah who are in the majority, to help another party who are in the minority and whose cause this partisan Congressman espouses. Very high-minded statesmanship is it not?

At a preliminary meeting of the members of the Woman Suffrage Association held in Washington recently, Mrs. Belva A. Lockwood, the noted lady lawyer, denounced this dastardly blow aimed at the liberty of woman, and the following was adopted:

Resolved, That the bill introduced into the House of Representatives by the Hon. G. W. Cassidy, of Nevada, to deprive the women of Utah of the ballot is a retrograde movement, and aimed at the perpetual disfranchisement of all women, notwithstanding his assertions to the contrary, as women who are polygamists cannot vote there now; and we will use whatever power we possess to defeat that measure."

The *Silver State*, a Nevada journal, which is very pronounced in its sentiments against polygamy, yet holds that a whole community should not be made to suffer for the offenses of a few, and on the bill introduced by the member from Nevada says:

"The suffrage is given women in Wyoming Territory, and there is no reason why they should not have the same privilege in Utah. Polygamy is the only crime of which the "Mormons" are accused, and it does not seem to be the right way to suppress it to deprive women of the privilege of voting. Surely, Mr. Cassidy can devise a less objectionable method of suppressing polygamy than by depriving women of the ballot. Under existing laws, neither men nor women who are living in polygamy are permitted to vote or hold office in Utah, and, under the circumstances, there is no more justice in depriving the women of the voting power than there would be in an act of Congress prohibiting all the members of the "Mormon" church, whether married or single, from exercising the right of suffrage."

We do not think the women voters of Utah need be under any anxiety in regard to Mr. Cassidy's endeavors to rob them of the franchise, but they should nevertheless be on the alert and stand ready to defend their rights by all proper means when opportunity is afforded for their protest against such injustice.

THE WORK IN SCANDINAVIA.

By letter from Elder C. D. Fjelsted to President Joseph F. Smith, it appears that there are now in the missionary fields of Scandinavia eighty-three missionaries from Utah, who are all working diligently and do not meet with very great opposition. There are now 4,956 members of the Church in Scandinavia. During the year 1882, 990 persons were added by baptism, and 1,130 souls emigrated to Utah, the largest emigration since 1866. During the past year no less than $30,000 was sent by Scandinavians in this Territory to assist their friends in coming to this land. This speaks loudly of the prosperity of the people here, and of their liberality towards the poor of their native land.

There has been a famine in Iceland, and the brethren there have had a hard time in the midst of the prejudice that exists. Money and the printed word have been donated by the Scandinavian mission to assist the brethren in Iceland.

The Elders in Scandinavia appear to be full of faith and energy and performing an excellent work, in which they are aided by the people of the same nationality who have gathered to Zion. Their works are worthy of imitation.

THE MARCH STORM.

PROFESSOR WIGGINS, the Canadian astronomer, whose prediction of a terrible storm to take place on the 9th—11th of March next has been published in this paper, has not based his calculations on astrological theories or impressions from any supernatural source. He claims to have reached his conclusions from data and principles of which he has no doubt, but the correctness of which he has demonstrated many times, by successful forewarnings and their exact fulfillment. He says he knows of the March storm in the same way that he knows of the time of an eclipse.

In an interview with a correspondent of the New York *Herald*, Professor Wiggins stated that he had sent a warning to the Marquis of Lorne advising that the Princess Louise should not be at sea on the 9th of February, when a severe storm will strike the Atlantic. The March storm he declares will be felt all over the world from sea to sea and from pole to pole.

In addition to the generally accepted principles of meteorological science, Mr. Wiggins has acquired information of planetary influences on the earth's atmosphere, and it is on this, coupled with established theories, that he bases his calculations of storms, which he is satisfied he can foretell to the minute on the sea coast, where no mountain chains obstruct the atmospheric currents.

The publicity which has been given to Professor Wiggins' prognostication will draw general attention to the weather in March next, and the ninth day will be approached with dread by many people who live in the line of the predicted aerial agitation.

Horrible Explosion in a Coal Mine

COULTERVILLE, Ills., 9.—Yesterday afternoon a terrible explosion occurred in the coal mine of Jones & Nesbitt, near here, cause unknown. Twelve persons were in the mine at the time, and but two escaped, a man named Mason and a boy. Mason was at the mouth of the shaft and was badly hurt, the boy is uninjured. At 8 o'clock at night relief parties had not been able to enter the mine, the foul air rising in dense volumes from the shaft and overpowering them at once. The fate of the ten men is not known, but it is believed impossible that any can escape. The scene about the mine is heartrending, for 8 of the 10 have families who are calling in agony for their loved ones, whom they hope are yet alive. The names of the prisoned men are Nicholas Kohl, Frank Byron, Henry Furey, Thomas Hanson, Harry Starr, Sr., Robt. Dunlap, Jas. W. King, A. H. Combs, Frank Stanford and Harry Starr.

Killed by a Policeman.

CHICAGO, 9.—Early this morning Policeman Peter Soergel, shot and killed John Mozek, a Bohemian. Soergel had attended the Catholic Bohemian Church Fair, and at a dance which followed the supper, was obliged to arrest a man for fighting. The crowd attempted to resist him and the officer fired, killing Mozek.

The Fires of '82.

The *Commercial Bulletin* says: The fire record of '82 made mention of no fewer than 1,705 fires where the loss was $10,000 and upwards, to say nothing of several thousands of less destructive fires. There were 1,309 fires whose destructiveness ranged between $10,000 and $50,000 each, 244 between $50,000 and $100,000, 101 between $100,000 and $200,000, 35 between $200,000 and $500,000, and 16 where the loss was between $500,000 and $2,000,000. The aggregate loss caused by 152 of these fires was $34,250,000. By the smaller fires of the year an additional loss of at least $56,000,000 was caused, making the year's ash heap cost the United States and Canada $90,250,000. No wonder the year '82 was a hard one for insurance companies and the unburned policyholders who might have had their insurance cheaper if other's carelessness and recklessness had not made insurance so costly to all concerned.

The *Bulletin* includes in its list of large fires the conflagrations in Los Angeles, Stockton, Willows, San Jose, Oakland, Fresno, Eureka, Susanville, aggregating 1,135,000 dollars, also losses at Tombstone, Spokane Falls and Portland, Oregon, aggregating another million.

Murdered.

The body of a seaman, who had apparently been murdered was found on the ice at Wells Street Bridge this morning. The police think he was dragged there by murderers. That they tried to sink the body and that it caught in the wire of the bridge.

A Confessed Assassin.

ROCHESTER, N. Y., 9.—A man who went by the name of Patrick O'Reilly, confessed to being one of the participants in the murder of Lord Cavendish and Under Secretary Burke, in Dublin last May. He confessed as Hugh O'Donnel, at Holly, Orleans County, and is now in jail at Albion.

The Mutual Union Fight.

Attorney-General Russel appeared to-day in the Supreme Court before Judge Barrett, to make application for leave to vacate the charter of the Mutual Union Telegraph Company. He would serve the papers in the suit to-morrow. He asked that the order be made returnable on Friday next and Judge Barrett signed it. It directs the Mutual Union Telegraph Company to show cause on Friday next why its charter should not be vacated.

Bloody Work in a Ball Room.

A Lynchburg, Va., special says: At a ball in Bedford County on Saturday night, a young lady named Adele Read, said to Scott Clayton, who was calling the figures, that he was not calling correctly; he made some sharp response, which was resented by one of Miss Read's admirers, Armstead Barksdale. The latter called Clayton out, hot words passed when Barksdale drew a knife, sprang on Clayton and inflicted a horrible gash from the eye to the back of of his neck, severing the jugular vein, and causing his immediate death. The scene in the ball room was sickening. The women in their fancy ball dresses, fainting and falling into pools of blood and a regular melee followed among the partisans of the two men. Barksdale escaped unobserved and wandering to another part of the county, borrowed a gun from an acquaintance and ended the tragedy by shooting himself through the bowels.

A Bully Shot.

LEWISTON, Minn, 9.—Hank Flyck killed a local bully named Jim McHugh in a drunken quarrel.

FOREIGN.

LATEST TRANS-ATLANTIC DISPATCHES.

Seized.

ROME, 9.—The police seized two busts of Overdank, on two successive occasions, during the unveiling by Socialists in a room here. In connection with the seizure there were twenty-five persons arrested.

Corea.

St. Petersburg, 9.—Telegrams from Vladivostock report a movement by China against Corea possible.

Another Terrible Disaster at Sea.

London, 9.—The British ship *British Empire* from Shields for Bombay, was burned at sea. Ten persons were saved, but two boats, containing the captain, mate and 14 hands, are missing.

Frozen to Death.

Toronto, 9.—Samuel Miles, a seven year old boy, was found frozen fast in the ice in the middle of the Bay. He left home to skate on Saturday afternoon and it is thought that he was driven out by the strong wind which prevailed, and being unable to return lay down and was frozen to death.

Another French General Dead.

Paris, 9.—General Horix Davaldan chief of staff to General Vinoy during the siege of Paris, and signatory to the capitulation of that city in the Franco-German war, died at Lisle, on Saturday, of apoplexy, on hearing of the death of General Chanzy.

An Ambitious Briton.

Joseph Cowen, M. P., in addressing his constituents at Newcastle said that government would be compelled to annex Egypt which would lead to breaking up the Turkish Empire and the commencement of the formation of the British North African Empire.

The sum of some shoe manufacturers now-a-days seems to be to make a shoe that can be sold at a low price and will hang together until the purchaser gets it home. To avoid this the home-made articles should be bought.

Deseret Sunday School Union.

Pursuant to adjournment the Union met in the Assembly Hall, Monday evening Jan. 8th, Asst General Supt. George Goddard presiding.

Opened with the usual singing exercises by the Fourteenth Ward Sunday School Choir, and prayer by Bishop Thos. Taylor.

Most of the Sunday Schools of the city, and many of the country Wards of this Stake were represented.

Supt. H. P. Richards reported the Sunday School of the Fourteenth Ward in a very satisfactory condition. Among the good features of the School were the large Theological and Primary classes, the exercises of which, after the School was opened, were conducted in the east and west vestries of the Hall. The School had a circulating library of between 300 and 400 volumes, and was productive of much good among the children. The speaker very pertinently remarked that to his mind there was no surer way of carrying on a Sunday school successfully than by having the officers and teachers prompt and regular in their attendance.

The next exercise was a song by the choir.

Elder John Morgan followed with a highly interesting historical discourse on the introduction of the Gospel into the Southern States. Since Oct., 1875, some three thousand souls have been added to the Church, nearly one half of whom have already emigrated. Notwithstanding the fact that much missionary labor is now being done by the seventy odd Elders now laboring in the South, there are yet whole States almost if not entirely without the Gospel. Not one in five of the inhabitants of the Southern States have yet heard anything in regard to "Mormonism." Elder Morgan spoke eulogistically of the young Elders sent on missions to the South, particularly of those who had been trained in Sunday Schools and Improvement Associations. They were, as a general rule, fitted to perform any and every duty assigned to them with credit to themselves and honor to the Church of God.

Supt. Goddard remarked that the organization of the Deseret Sunday school Union was first suggested in Bishops' meeting many years ago by Elder John Morgan. He addressed a few excellent remarks to the young, urging them lo lay the foundation of a life of usefulness by the cultivation of good habits. Announced the Sunday School Union Brass Band was now fully organized, and practising regularly.

Bro. Geo. Reynolds announced that music cards and other printed matter had been sent to the Sunday schools of the Southern and Northwestern States Mission.

The Fifteenth Ward Sunday school will furnish the music and doorkeepers at the meeting of the Union in February.

Benediction by Elder George Chase. J. H. P.

A Fine Performance.—A very large audience last evening in the Theatre witnessed the fourth performance in this city of the very attractive play of "His Amber Witch." Miss Adams is fortunate in securing the right to this play which is sure to be popular wherever presented as ably as it was last night. "Practice makes perfect," and it needs practice to present such a piece in a style befitting it. All the performers were at home in their respective parts and, with the splendid scenery, magnificent dresses, and excellent stage management exhibited, the play was thoroughly enjoyed. The Dramatic Combination deserve credit for the manner in which they present this striking original and well-arranged production. It will bear reviving again and again.

Just His Way.

"I see," she observed as she looked up from her paper, "that another woman who was perfectly sane all the time has just been released from a lunatic asylum after a detention of three years."

"Yes," briefly replied the husband.

"She was incarcerated by her husband."

"Yes."

"Who wanted her out of the way that he might marry another woman."

"Yes."

"In case you desired to dispose of me you would probably have me shut up in a lunatic asylum?"

"No, ma'am; I should poison you: That's the cheaper and better way. As a man of business, and as an advocate of financial economy, I have thought this matter over time and again, and I should certainly prefer to spend fifteen cents for arsenic to pay out ten or fifteen dollars per week for goodness knows how long."

She looked at him a long time with a whole iceberg in each eye, and then turned to her paper with the remark:

"Just like your stingy ways: you never want me to have anything like other folks."

When a cowboy goes into a Western newspaper office to demand satisfaction, the editor always explains that the assistant who wrote that article "has just gone out to kill a man, but will be back in a few minutes." The cowboy never waits.—*Ex.*

The *American Chemist* says if owners of flagstone walks will cover them with oil when clear of ice there will be no further trouble to keep them clear. Very likely; but we don't see the advantage of being made to slip by oil over being downed by ice.

DIED.

REID.—In the 16th Ward, January 8, 1883, of inflammation of the bowels, Ray Spencer Reid, son of Peter Reid, Junr. and Alice Spencer Reid, aged 6 months and 5 days.

SMITH.—At Bonnington, Bear Lake County, Idaho, December 31, 1882, of measles, Thomas Robert, son of Nellie and Alfred W. Smith aged 2 years, 4 months and 23 days.

STEVENSON.—At Brixton, London, December 3, 1882, of convulsions, George Henry, son of Walter and Ellen Stevenson. Born in London, April 15, 1882.—*Mill. Star.*

HORTON.—At her residence in the city of Worcestr, England, December 1, 1882, Cecilia Horton, aged 83 years.—*Mill. Star.*

LARSEN.—At Richmond, Cache County, Utah, January 1st, 1883, of croup, Mette Elina Larsen, infant daughter of Mary and G. J. E. Larsen. Born Dec. 31, 1882.

NOTICE TO ICE PACKERS.

WALKER BRO'S

WHOLESALE GROCERY

DEPARTMENT!

We desire to inform the public and our numerous patrons, that on and after January 2nd, 1883, we shall continue the

WHOLESALE GROCERY BUSINESS

At the Old Stand until the building season opens, when we shall erect a first-class building exclusively adapted for the purpose.

We are now prepared to fill orders and respectfully solicit a continuance of the public patronage, guaranteeing Goods and Prices will be satisfactory.

DRY GOODS DEP'T:

(*WHOLESALE AND RETAIL.*)

In view of remodeling our present building and occupying the whole of it with

DRY GOODS,

CARPETS,

Gents' Furnishings, Clothing, Hats, and

BOOTS & SHOES,

We shall commence the day after Stock-taking, January 5th, 1883, offering all classes of goods in this department

AT GREAT REDUCTION IN PRICES

as we desire to open with an

ENTIRE NEW STOCK

on the moving of the Grocery Department to the New Building.
