

THE RUSSIAN BUREAUCRACY.

Condemned in Resolutions Passed By the Polish National Alliance.

IT WILL GIVE MATERIAL AID.

Poles of America Pledge Themselves to Do What Lies in Their Power to Aid Their Countrymen.

Boston, Dec. 25.—The Russian bureaucracy is condemned in resolutions presented last night at meetings of the local branch of the Polish National Alliance. The object set forth was to show sympathy with the demand now being made in Russia for constitutional government and for the assistance of our Polish fellow countrymen battling for freedom, poor and suffering hunger and other privations at the hands of a relentlessly oppressive government.

John Romaszewski, vice-president of the Polish National Alliance, presided, and several others made speeches in Polish. The resolutions say in part:

"We condemn the murders and bloody assaults of a defenseless people, committed at the instigation of the minions of the czar's bureaucracy. Actuated by a feeling of righteous indignation at the commission of such crimes unheard of in the history of the world, and realizing the gravity of the present situation in Russian Poland, we appeal to a free people of America, who at all times have expressed sympathy and given assistance to those oppressed and struggling for freedom, that they will not forget our beloved country, which sent forth to the assistance of the struggling new American republic Kosciuszko and Pulaski when furnished hundreds of volunteers in the ranks of the army that struggled for the freedom of the colored man; Poland, whose sons in hundreds enlisted under the American flag in its latest war for the independence of Cuba."

"In the face of the news sent to us from our native land, and where the Polish people are missing themselves in support of their natural rights to a political existence as a nation; where our people are falling as martyrs to the cause; where the prisons are being filled with innocent people, we, Poles now living in America, do not only sympathize with our countrymen in Poland and do not only unreservedly approve the demands made by them of the Russian government, but we obligate ourselves to support, according to our means, the cause of our countrymen in Poland."

DEWEY SENDS GREETINGS TO ALL AMERICAN SAILORS.

Washington, Dec. 25.—Aboard the ships of the American navy scattered in foreign and home waters, today will be observed a holiday. The Christmas greeting sent around the world last night by Admiral Dewey will be communicated to the officers and men of all the vessels in the service that can be reached. In the ships the only work required today is the necessary cleaning, and by 9 o'clock this morning most of the officers and men

Two Men Quarrel Over It and One Shoots the Other.

Tacoma, Wash., Dec. 25.—W. H. Howell, proprietor of the Steamer saloon, shot Oscar Weisger, and Charles G. Steele, longshoreman, in his saloon at four o'clock this morning as a result of a quarrel over a bottle of whisky. Weisger was shot through the lungs, received a very dangerous wound in the abdomen, and the way to the hospital he escaped from the saloon and ran several blocks. He will die. Steele is said to be an ex-convict, generally known as "Gib" Steele.

A NEW KIND OF SLAVERY.

New York, Dec. 25.—Prof. Felix Adler, speaking yesterday before the Society for Ethical Culture, said among other things:

"A new kind of slavery has grown up in the last few years is the employment of young children. In southern mills there are 60,000 children under the age of 14 working from 10 to 14 hours a day, besides being compelled to work alternate nights. Four or five years ago there were only 24,000. There are also 8,000 children working in and about mines, and thousands employed in clothes factories when they should be at home, and this terrible form of slavery is spreading."

REPLY TO POLK'S CRITICISM.

Jefferson City, Mo., Dec. 25.—The board of prison inspectors tonight gave out a reply to Gov. Polk's letter to them criticizing their report to him on the penitentiary, and in which the governor charged this board with being responsible for the conduct of the institution. The board denies that they are responsible because they have no voice in the selection of the men who are to manage the institution. They say that they did establish a system of civil service examination for applicants for positions at the penitentiary, but this had not been complied with for half of the men whom the inspectors have asked to be discharged for incompetency were appointed by the present administration. They charge that this indicates that patronage has been used to pay political debts. They call upon the governor again to have appointments made without reference to politics.

FIGHTING SOON BECAME BUTCHERY

Machine Guns, Grape and Canister Used Against Moscow Insurgents.

ATROCITIES OF COSSACKS.

It is Estimated that Five Thousand Were Killed and 14,000 Wounded—Riga Perfectly Quiet.

St. Petersburg, Dec. 25, 1:10 p. m.—Direct telegraphic communication with Moscow was severed last night, but the government succeeded in restoring communication by a roundabout route this morning. All reports agree that the fighting yesterday, which continued until midnight, assumed the nature of a butchery, machine guns of the army, grape and canister being employed mercilessly against the ill-armed insurgents.

Atrocious tales are told of the Cossacks, who, pilled with vodka until drunk, fired down the streets, sometimes charging with lances. The insurgents displayed great stubbornness in holding barricades, even advancing in a mass to the slaughter, where bombs were thrown from the windows. The artillery was summoned and battered the houses to pieces. The plan of the insurgents, it is stated, is to hold the outskirts and gradually enclose the troops in the center of the city. Leaders announce that an army of 20,000 is concentrated at Orskhousoff, northeast of Moscow, and will soon be ready to march to the city's assistance. The latest report is that both sides were exhausted at midnight, when firing ceased. The streets were in absolute darkness, save for searchlights in the towers of bivouacs behind barricades.

KILLED AND WOUNDED.

London, Dec. 25.—The correspondent of the Daily Telegraph at St. Petersburg, in a dispatch dated 6:25 p. m., Dec. 25, says:

"At an early hour this morning the casualties at Moscow were estimated at 5,000 killed and 14,000 wounded, with the fighting still proceeding. The inhabitants of Moscow have been forbidden to leave their dwellings after 7 o'clock in the evening. It is impossible to move about the city in consequence of the frequency of the stray bullets. Many innocent persons have been accidentally killed. A scarcity of provisions is threatened."

The same correspondent, telegraphing at 1:38 p. m., says:

"Your Moscow correspondent's telegram have not been accepted, because all private messages were refused this afternoon."

"It is learned, however, that cannon firing is now proceeding in various parts of the city where, tonight, very near the railroad stations, the barricades erected by the revolutionaries are being desperately defended. The Kursk terminus at Moscow is being pillaged and the many wagons laden with provisions are being looted. The emperor is engaged daily in reviewing at Tsarkoe-Selo the regiments of the St. Petersburg district. The spirit of the troops is decidedly high."

"From fragmentary accounts received from Moscow, I gather that the civil war has brought no decisive action, but only a thickening of the blood cloud, an intensifying of the horrors and an increase of the prevailing bitterness."

"The driving force behind both the troops and rebels is no longer that of

enthusiasm or any human impulse. It is the force of the superhuman hate, and hence the deeds reported are not the acts of patriots, soldiers or otherwise, but the enormities of manmen."

"It is impossible to understand how any emotion, even of the extremes of despair or hate, can impart such foolhardy courage as some of the rebels display."

"Every barricade destroyed Sunday two or three appeared in other places. Orders were given by the revolutionaries to shoot only when there was good hope of bringing a man down but otherwise to fire out the troops until they lost patience."

"In the meantime, in their houses, the bulk of the population covers in the inner recesses of kitchens and cellars, stricken with fear and trembling at every boom of the cannon or the explosion of a bomb."

"The most surprising thing of all is the loyalty of the troops, which nobody here anticipated. Talking with an intelligent group of St. Petersburg revolutionaries I was informed that, while they believed the strike would be victorious, they fully realized they were staking everything upon the issue, and that failure would set back their cause for several years. They said they were devoting their efforts to shaking the foundations of Russian finance, in full confidence that once the existing regime was overthrown they could as quickly build another, and that foreign nations would be ready to advance money to a democratic republic as to the autocracy."

"They emphatically denied that they were inciting the peasantry to commit outrages, declaring that the Socialists, but they did not deny their advocacy of the distribution of the crown lands among the peasants."

"In conclusion, they declared that in the event of the failure of their cause they would have recourse from all classes of society."

RIGA PERFECTLY QUIET.

Riga, Dec. 25, via Edytukhonn, Dec. 25.—The railroad employees throughout the Baltic provinces went out on strike last night. The newspapers reported against the strike, but the effect was to the effect that Riga was bombarded and was burning, and that revolutionaries blew up a train carrying 200 Cossacks, and the Associated Press is able to deny these rumors. The town is perfectly quiet, the inhabitants go about unmolested, street traffic is carried on in good order and there are no performances daily, though attended by small audiences. Soldiers and police are patrolling the streets day and night. Three cruisers are anchored in the harbor at the disposal of the new governor-general, Lelchub, who has not yet arrived. Foreigners are in perfect safety at present, but they are of the opinion that it would be a wise precaution if each of the principal powers had warships cruising in the Baltic sea in readiness for emergency, as passenger steamers would be unable to embark refugees in case of armed opposition.

The revolutionaries continue a program of agitation, holding daily meetings, and they posted an order to partisans to disarm soldiers. At Libau the cruiser Okean and the torpedo boat Prochey have arrived. The town is in full control of the troops and the agitators are quiet and holding few meetings.

The public affairs of Goldingen for nine days have been in the hands of an administrative committee. An autonomous committee has organized a police service, the policemen wearing red ribbons on their sleeves. The regular police laid down their arms and took of their uniforms after one of their number was executed. The revolutionist administration has declared paper money valueless and gold is scarce. The committee meets daily at the university, where about 2,750 students are registered for the winter semester. All the lectures, however, have been suspended.

DEATH VALLEY SCOTT WOUNDED BUT NOT KILLED

Los Angeles, Cal., Dec. 25.—A letter from Walter Scott, the cowboy miser who was reported murdered in Death Valley some days ago, was received by the miner's friend, Roi King in this city today, stating that Scott had been shot but was not fatally hurt. The letter which had been eight days in transit, was dated Rhyolite, Nev., which is in Death Valley. The letter gave no details of the shooting, but stated that Scott's wound was not necessarily serious, and that he expected to be in Los Angeles by the middle of January. The letter was in Scott's handwriting.

MURDERERS PARDONED.

Columbus, O., Dec. 25.—Gov. Herrick granted two Christmas pardons, Patrick Moran, serving a life sentence for murder in the second degree and Marvin Kuhns serving a life sentence from Seneca for murder in the second degree were the lucky men. Both had the recommendation of the board of managers, the warden and the officials of the penitentiary. Moran and Kuhns left the institution together.

LUKE E. WRIGHT AT HOME.

Memphis, Tenn., Dec. 25.—Luke E. Wright, governor-general of the Philippines, arrived today to spend the holidays at his home here. Gov. Wright is quite optimistic as to the future of the islands. As to his plans he is reticent. Regarding the reports that he would resign his office and return to Memphis, he said nothing further than that he had heard of the rumors but was unaware of the source from which they came.

"THE LIGHTNING CONDUCTOR."

Trenton, N. J., Dec. 25.—"The Lightning Conductor," a three act comedy with Herbert Kealey and Effie Shannon leading the cast, was produced for the first time on any stage today at the Taylor opera house. The house was crowded at both the matinee and evening performances and the comedy was well received. The play is a dramatization by Harry B. Smith of the story by the same name. The comedy situations are numerous and give Mr. Kealey and Miss Shannon a fine opportunity to display their talents. A pleasing effect in the first act is an automobile going through the law lands of France at high speed.

ANARCHIST COMMITS SUICIDE.

Barcelona, Spain, Dec. 25.—The anarchist who last night attempted to stab Cardinal Sarras Cusumany Fages, bishop of Urgel, as he was leaving the cathedral, committed suicide by taking poison soon after his arrest.

The Colonel's Waterloo.

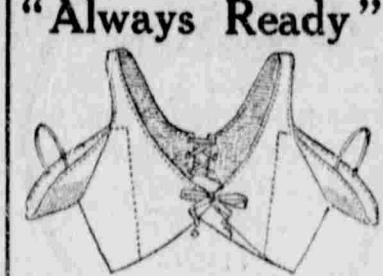

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter he says: "I was nearly dead of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me of these complaints, and gave you the knowledge to make them." Sold, and guaranteed to cure, Dyspepsia, Biliousness and Kidney Disease, by Z. C. M. I. Drug Dept., 112-114 South Main Street, at 50c a bottle.
