NOTICE

Money can be forwarded from Salt Lake City to Liverpool as late as the middle of September for the company that will leave that port on or about the 14th of October

ALBERT CARRINGTON, President of P. E. Fund Company

Tabernacle Meeting—Elder Albert Carrington preached yesterday afternoon

Excursion—The Wasatch Fire Company and their friends go to Lake Side to-morrow

At His Office—Bishop Paul A. Scheitler visited his office at the City Hall to-day. His health keeps improving daily

Silver City, Idaho—A grand banquet and ball was to be held at the above named place to-night, to commemorate the extension of the Nevada and Northern Telegraph Co. line

Gene England—Mr. and Mrs. Marks, of the 14th Ward, left this morning for England, for the purpose of paying a visit to their relatives and acquaintances in that country. They expect to return in the Spring

Petty Theft—On Saturday evening one Charles Kelly entered the store of A. Frazer and stole \$5 from the till, \$2 of which was recovered. For this he was sentenced to operate with pick and shovel twenty-five days

Fine Crops—From Mr. James A. Thompson, who has been rusticated in the Ogden Valley, we learn that crops of every kind throughout are splendid, both in quantity and quality, with the exception of wheat, which has sustained some damage from rust, caused by the frequent heavy rains

Tricky—One Myers, a discharged soldier, is under arrest on a charge of disposing of an order on the Camp Douglas Quartermaster

Medical Profession—It will be observed by advertisement, in another part of the News, that the Board of Examining Physicians

A Set to—Shortly after nine o'clock this morning considerable excitement was caused on East Temple Street by a fracas between a boy about sixteen years of age

NOTICE TO THE PUBLIC—We are determined not to be hindered by anyone

Missed From His Home—The following was handed in this morning, with a request to publish—

"Missed from his home since last Wednesday evening, Fred Senior, commonly known as 'Red', the boy by the name of Fred Sugen. Any information respecting him will be handsomely rewarded by William Sugen, opposite Brown's, 15th Ward, or by Edward Senior, barber saloon opposite the Railroad Depot."

The party who sent in the foregoing should have said something about the lad's age and appearance.

Fatal Accident—On Saturday evening, while Brother John McDonald, Sen., was assisting to stack a load of hay at his residence in the 14th Ward, he slipped from the hay stack, fell upon a coal-burner, striking upon his head and fracturing the ground. The injuries sustained were so severe as to cause his death at 10 o'clock this morning.

Brother McDonald was, as will be seen by obituary notice in another column, seventy-seven years of age. He was a good citizen and much respected.

Large Meetings—Two very large meetings were held on Saturday and Sunday, at American Fork, in a bowery. The number present is estimated at something over four thousand people.

President Brigham Young and George A. Smith, Elder Wilford Woodruff and Bishop E. D. Woodruff were present and preached to the congregation. The speakers were blessed with great freedom and power, and the people paid the most wrapped attention to their remarks. Besides the American Fork people, many were present from adjacent settlements.

A Collision—About seven o'clock this morning the delivery wagon of Mr. Stevens, butcher, collided with an ox-team and wagon, on East Temple Street. Mr. Stevens' team ran away and when it collided the crash, when they came together, was tremendous.

Angry—the ox team snatched in fear as if it had been a match, the oxen were thrown to the ground and the team of Mr. Stevens shared the same fate. The boy received some cuts and bruises, besides being fearfully scared, and the horses were set about the legs. The stolid old gelding did not seem to be much worse for the bumping they got, but, being tough, they seemed to treat the matter with mild indifference.

Theatre—An audience fair in point of numbers assembled in the theatre on Saturday evening for the comedy of "Woe at Last," very well played, and elicited considerable applause. Mr. Chaplin presented his parts with the easy ability for which he is well known. Mr. Margretts in both plays was well received, and enacted the characters assumed by him in a superior style, eliciting the repeated approval of the audience. Miss Walters played "Constance Warburton" with energy and ability. Mr. Macintosh deserves praise for the shrewd manner in which he on short notice took the part assigned to Mr. Thorne, who was indisposed.

The burlesque was put through in a spirited manner, but would be considered pruned.

Letters Patent—Messrs. William J. Silver, of this City, and George Atwood, of the Emma mine, have received from Great Britain letters patent for their "Improvement in pumps," invented by the first named gentleman.

The document is quite formidable, being sheepskin parchment, and 30 inches by 21 inches. The great seal is not one of those that can be stuck upon the document, but has to be attached by means of a cord, being in the form of a huge medallion, 6 1/2 inches in diameter by three quarters of an inch thick, and made of some kind of composition, principally wax.

One of the pumps on the improved principle has just been completed and will soon be in operation at the Emma mine. It has a 16 inch cylinder, a 10 inch plunger and a 24 inch stroke. It is 60 horse-power and is the largest piece of machinery of the kind ever built in the Territory.

We congratulate the patentees on their success in getting letters from the British Patent Office. The term of the patent is fourteen years.

The Lost Child—The chief of police of this City has received a postal card, with the name of Charles Brewster Ross, the Philadelphia boy, who disappeared from his father's house on the first of July. The fate of the little fellow is enveloped in mystery, and the papers all over the country have commented on the extraordinary disappearance of his abduction. He was taken from Germantown, Pennsylvania, by two men who were in a buggy at the time.

The likeness indicates that he is a beautiful, bright and intelligent young man, and a diligent student. He was about 12 years of age when he was taken, and is now about 14 years of age. He is of a fair complexion, with light hair, and is of a medium height. He is a native of Philadelphia, and is a member of the Philadelphia Boy's Club.

Here is his description, when stolen— "Light flaxen hair, worn curled, brown or hazel eyes, clear light skin, round full face, straight nose, thin lips, fresh color, small fat hands and feet, well formed body, carriage erect, no marks except those made by vaccination on the arm. He is bashful and strange, and has a habit of putting his arm before his head when in the presence of strangers."

He was four years old last May.

More Pipe-Laying—The Gas Company are laying mains along Second South Street. The work of peculiar construction, is the best safeguard that could be placed around the open trench for the prevention of accidents. We believe the Gas Company of this City are the first to put it to this use, the most that is generally used being a rope. This fence can be put up with astonishing rapidity, being movable, and would be just the thing for temporarily located sleep pens in this country.

Levan—H. W. Hartley writes from Levan, Aug. 22, 1914

"The health of the people of this settlement is wonderfully good and hearty, and has been all summer, there having been but two deaths. The United Order has been considerable of a success so far, and being vigorously advocated by our energetic Bishop. We have in successful operation, a farming company, a logging or lumber company, a small shoe-making company, a brick-making and a mill company to manufacture salt at our salt works. The two last named companies having turned out a very superior article. Elders Geo. Q. Cannon and A. M. Musser preached a good and well-attended household last night, giving some very interesting sermons and explanations on the United Order."

That Pump—In alluding, the other day, to the hand pump invented by Mr. W. Higgs, brother of Thos. Higgs of this City, we did not give it credit for all it could do, a subsequent test proving that it is capable of throwing a stream easily a distance of fifty-five feet, and water through the spray nozzle forty-three feet, which is rather extraordinary for so small an engine.

A Bad Wound—On Saturday a little daughter of Mr. Daniel Greig was struck on the forehead with a rock, which inflicted an ugly wound, making an indentation in the skull. The rock was thrown by a boy named R. Donovan, who was arrested. The case was set to be tried this afternoon.

Stealing Tools—To-day Charles Kelly, the same who stole money from Mr. Frazer's store, on Saturday, was tried in the police court to-day for stealing \$50 worth of carpenter tools, was found guilty and fined \$100, which he will work out at a dollar a day.

THE BEST PLACE TO BUY

We have now on hand the largest and best stock of Summer Clothing in this city of our own manufacture, which enables us to sell from 15 to 20 per cent. less than any other house in this city.

The trade we supply at New York Wholesale rates.

L. Goldstein & Co., 1234 1/2 W. Wasatch Hotel Building.

DIED

In the 20th Ward of this city,
