

break up this system of *claque* in the House.

After considerable debate the question was again taken, and this time the republicans did not withhold their votes.

WASHINGTON, 10.—Cox reported from the committee on banking and currency, the bill for the issue of ten millions of silver coinage in exchange for legal tender notes. He moved the previous question and refused to admit an amendment proposed by Mills, of Texas, to repeal the resumption act. The previous question was seconded, 85 to 35, and the House then voted by yeas and nays on ordering the main question, which was ordered, and the bill passed without division.

Randall's bill authorizing the coinage of twenty million dollars of silver, and authorizing the purchase of bullion for that purpose was passed.

Patterson, from the committee on territories, reported back the Senate bill to further the administration of justice in the State of Colorado. It provides that when Colorado shall be admitted as a State, the laws of the United States shall have the same force as elsewhere; and said State shall constitute one judicial district; passed.

Leyde, from the judiciary committee, reported back the Senate bill amending the bankrupt law; passed.

Banning, from the committee on military affairs, reported back the Senate bill for reducing the number of medical corps of the army; passed. It fixes the number of assistant surgeons at 125, and abolishes the office of medical storekeeper; and, in addition to the grades allowed by law, provides for four surgeons with the rank of Lieut. Colonel.

Lynde, from the judiciary committee, reported a bill to facilitate and encourage the philosophical, mechanical and scientific exhibitions; passed. Also the bill in relation to emigration. It provides that when any two persons shall file with the collector of any port of the United States an affidavit that on board of any vessel in said port there are persons prohibited from landing, it shall be the duty of said collector to make an inspection, and prevent their landing; passed.

Randall's twenty million dollars silver bill was amended by striking out the provisions that any of this coinage shall be exchanged for legal tenders.

On motion of Randall, chairman of the committee on appropriations, the Senate amendments to the executive, legislative and judicial appropriation bill were non-concurred in.

Levy, of La., offered a resolution instructing the special committee on Louisiana affairs to investigate the outrages alleged to have been recently committed in West Feliciana, La.; adopted.

WASHINGTON, 12.—The Clymer committee has made a unanimous report of the committee on the charge against Speaker Kerr, fully exonerating him from such charges.

The House has passed a joint resolution to modify the treaty with China so as to restrict immigration.

The appropriation committee have reported the army appropriation bill some ten millions less than the estimate, and with sections reducing the force of the army and the pay of officers.

WASHINGTON, 8.—The post route bill was taken up and passed.

Luttrell, from the post office committee, reported a bill, the object of which is to prevent what is known as the system of straw bids. Passed.

Knott, from the judiciary committee, reported a bill prescribing oaths to be taken by the grand and petit jurors in the United States courts.

In the course of the discussion it was explained that this law proposed to repeal the iron-clad oath. Attention was called to the fact that under this bill, forbidding that any other oath than that prescribed, be administered, conspirators could sit upon jurors on the trial of their co-conspirators, so that members of a whiskey ring at Milwaukee and elsewhere might sit upon grand and petit juries. Pending the discussion, the morning hour expired and the bill went over till to-morrow.

On motion, Tucker's amendment to the bill in relation to the execution of Custom House frauds, was concurred in.

CAPE MAY, N. J., 8.—Two brothers, named Clark, were drowned while bathing this morning.

NEW YORK, 8.—The yacht race of the New York Yacht Club, which took place to-day, was won by Idler, Palmer second.

JULESBURG, Colorado, 8.—The Sioux Indians made a raid on the herders of George Keeline at Courcel Bluff, killing three. Fourteen ranchmen are in pursuit.

NEW ORLEANS, 8.—The congressional committee examined several witnesses to-day, who for the most part only confirmed the statements already made by other witnesses. One witness, Dyche, testified to the fraudulent shipping of tobacco and whiskey by means of collusion on the part of the revenue collectors, General Benton and W. P. Kellogg.

DENVER, Col., 8.—A duel was fought at River Bend, Col., to-day, by Alfred D. Jes up, Jr., and a man named Davis, who were respectively armed with the Winchester rifle and Colt's navy pistol. Jessup was killed in the second exchange of shots.

SAN FRANCISCO, 8.—Advices from Carson report the anti-coolie clubs demoralized by the arrest of the leaders, who are now in jail under a military guard. No further disturbance probable.

A dispatch from San Diego says all is quiet on the border; the Mexicans have disbanded and scattered.

NEW YORK, 9.—The *World's* Washington correspondent says, "The galleries were well filled to-day, to hear what was expected, a sharp contest in the House. When Tarbox rose a feeling of surprise ran through the galleries, that a new member and one of so slight a build, should dare to brave the bully of the House. His opening, however, developed so much ability as a speaker that the closest attention was paid him from first to last.

Having no answer to make to Tarbox's speech, Blaine had recourse to his customary methods, and gave another exhibition of his smartness, by coaxing his man Frye to make another and meaner insinuation, that Tarbox improperly possessed himself of an advance proof of Blaine's currency speech. This Tarbox denounced as untrue; whereupon, Blaine thrust Frye aside, and said in parliamentary language that he did not believe Tarbox's statement, and closed his brilliant performance with a promulgation of a terrible anathema, but he did not and would not speak to Tarbox. On this firm of Blaine & Frye, Garfield & Company are announcing, to-night, with a flourish of trumpets, that Blaine has devoured Tarbox. On the democratic side the only criticism of Tarbox's efforts is, that he did not go far enough; that while showing the probable crookedness and official malfeasance, he did not take the Blaine Fisher letters and comment on them in the order of their dates; and that when Blaine made his last insulting remark, Tarbox did not show him up as deserved. Blaine's evident animus, however, for the past week has been to force the democrats to martyr him, and his great grievance is, that they will not do it. Blaine is nothing more nor less than a bully; he bullied the Southern members from the very first in this session; he now bullies the House democrats. The House, had it shut up Blaine under the rules, which, of course, he deserved, would, under the circumstances, have made a martyr of him. The House allowed him great latitude, but it was, after all, only giving him sufficient rope. The country has had a great variety of presidential candidates, but since Aaron Burr it never had a bully until Blaine took up successfully the character. Every American citizen interested in the welfare of his country feels the utmost interest in the character and disposition of a candidate for the highest office in the land, and, as Knott said on the floor of the House, "If the American people can elect such a man for President, then God help the American people."

WASHINGTON, 9.—Jacob Thompson, formerly Secretary of the Interior, was served this morning with a process in a civil suit to recover one million dollars, principal and interest, of the bonds taken from the Interior Department while he was Secretary. Thompson says that his enemies have abandoned the charge that he is guilty of abstracting these bonds, and this suit

is brought to make him peculiarly responsible for the dishonest acts of the clerks. Thompson is fortified with letters from Chas. Case, of Indiana, and Isaac N. Morris, of Illinois, members of the congressional committee which investigated the matter at the time of its transpiring, wherein they say the committee's report, exonerating him, was a unanimous one, and they are of the same opinion still.

The House committee on Indian affairs to-day authorized representative Page to report, with recommendation, the passage of the joint resolution introduced by the delegate from the Territory of Wyoming, declaring all the territory north of the North Platte River and east of the summits of the Big Horn Mountains, commonly known as the Black Hills country, to be open to exploration and settlement.

CAYUGA, Ont., 8.—A fire broke out in the store and dwelling of Mr. Edgison to-day, and spread until the following property was destroyed—Cameron's drug store, the post office, express office, two telegraph offices, Senates hotel, Bert Bro's harness store, Grant's jewelry store, Robbs tinware store and dwelling house, Barnes' barber shop, Wigg's bakery, the *Advocate* printing office, Douglas's tailor shop, Campbell's shoe store, Carpenter's bakery, and a number of dwelling houses. A correspondent at Paris telegraphs the contents of a note which appears in the evening papers there, and says he thinks it comes from an official source. There is not a trace of any disagreement between Germany and Russia, and the situation of the latter toward England improves daily.

CONSTANTINOPLE, 7.—The official report on the cause of the death of the late Sultan, signed by nineteen physicians of all nationalities contains the following statement: Upon being summoned by the Sultan to ascertain the cause of the death of Abdul Aziz Khan, we found the body lying on a mattress. All parts of the body were cold and bloodless, except that the outside was covered with coagulated blood. The body was not rigid; the eyes and mouth partially open, and limpid streaks of blood upon the arms and legs. The veins and cavital artery, below the bend of the left arm, were cut. Only the small veins of the right arm were cut, the arteries were intact. We were shown a pair of very sharp and blood-stained scissors, and were told that Abdul Aziz himself inflicted the above described wounds. We are unanimously of the opinion that death resulted from hemorrhage of the vessels of the arm, and that the scissors might produce the wounds. The nature of the wounds, and the instrument which is said to have produced them, caused us to come to the conclusion that it is a case of suicide.

PARIS, 8.—Georges Sand is dead. She was conscious to the last moment but unable to speak for some time before death.

LONDON, 9.—A Paris correspondent telegraphs the following rumor circulating there; it comes from a good source, that the oldest son of the late Sultan has committed suicide.

MADRID, 9.—During the debate yesterday in the Senate on the new constitution, the Bishop of Salmer said the Spanish prelates would always oppose religious toleration as incompatible with Catholicism.

BERLIN, 9.—The *National Zeitung*, to-day, says it learns, from a well informed source, that Prince Bismarck was summoned to Berlin to-day to personally report to the Emperor upon the latest phase of the events in Turkey. It adds, the German policy continues to aim, above all, at the preservation of the peace of Europe, and the leading political circles are convinced that the efforts in that direction will be successful.

LONDON, 9.—A telegram from Berlin says the Czar has prevailed upon Servia to adopt a peaceful policy.
