MINING, BUSINESS AND STOCKS

HEAVY SALES OF UNCLE SAM

Colorado Sold Down During the Forenoon Calls of Mining Exchange.

SEVEN TROUGHS IS HIGHER.

Calls for Iron Blossom—Ohio Copper—Closing Quotations and Sales.

Holders of Uncle Sam Consolidated, who bought in at the late low water mark, were engaged in taking profits again today. The stock came up weak at the beginning and there were some heavy offerings, but the demand was fairly good and price gradually moved up to 76 during the regular call and closed at 77 cents on the open board. One lot of 100 shares of Mammoth came out at $2.02½. Colorado sold down to $2.92½ and closed weak, while Beck Tunnel hung around 65 and 66 cents. Considerable Iron Blossom came out on the open board and Seven Troughs moved up to 30 cents. Ohio Copper continues to be attractive to some and the impression prevails that it is one of the copper stocks that is due for a sharp turn upward in the near future.

The closing quotations and sales were:

UTAH CONSOLIDATED.

Bingham Mine Has Advantages Over Some Other Copper Producers.

Utah Consolidated has not declined as rapidly of late as most of the other coppers, says Geo. L. Walker in the Boston Commercial. For example, Utah is off about 67 per cent from its highest price, while Anaconda has declined about 66 per cent. Amalgamated 61 per cent and North Butte 75 per cent. It would appear, therefore, that intrinsically Utah Consolidated is not in a weak position after all.

The decline in the price of copper will not cause Utah Consolidated to suffer nearly so severely by comparison as it will the other three companies mentioned. Its copper is produced at a much lower cost than that of any of them. Utah is running its smelter to its full capacity, and on a 12½-cent copper market is earning at least 5 cents per pound net, or more than $3 per share on its stock, which is equivalent to about 12 per cent on its current selling price.

There is every reason to hope that Utah Consolidated will get its mine back into shape by reopening caved stopes, developing new rich ore bodies and shipping its high grade lead-silver ore to the custom smelters, so that it will be able to again produce its copper at 4⅞ cents to 5 cents per pound, as it has in times gone by. It should be remembered, also, that the management plans to build a very much larger smelter and greatly increase the company's production. After these plans are carried out larger dividends and higher prices for the stock may be expected.

When in Bingham recently I saw very rich ore where the Utah Apex company's Parenue tunnel cuts either the Utah Consolidated or Yampa limestone at a point nearly 2,000 feet below the bottom of the Utah Consolidated mine. The character and location of this ore tends to strongly confirm the opinion that Utah Consolidated's ore deposit maintains its richness to indefinite depth. If development proves this to be true, Utah Consolidated stock can easily be made worth more than $100 per share, even on a 12-cent copper market. The company has about $2,000,000 in its treasury, and yet recent market quotations have put a valuation of less than $8,000,000 on the entire enterprise. Utah Consolidated stock is unquestionably one of the safest investments and surest speculations to be found in any market.

WAGES REDUCED.

Houghton, Mich., Nov. 1.—Notices posted yesterday about the Calumet & Hecla copper mine works announce a reduction of wages on Dec. 1 of 12½ per cent, approximately equal to the increase granted early in the year. The reduction affects 2,500 men.

SALES OF COPPER.

Ten Millions in Gold for 100,000,000 Pounds of Red Metal.

(Pollock Special Wire.)

Boston, Nov. 1.—The president of one of the large producers says the News bureau is quoted as saying:

"My investigation of the copper situation in New York discloses the fact that the United Metals Selling company has sold a total of 100,000,000 pounds of copper, most of which goes to the other side. They will get gold for this copper to the amount of about $16,000,000 and this will help the banking situation in New York. The lowest price at which copper was sold was 11⅝ cents per pound and I understand that the Metal Selling company started foreign purchases with the transfer of a considerable block of copper at this price."

GREEN CANANEA.

Production to Be Cut Down to Minimum Basis.

(Pollock Special Wire.)

Duluth, Nov. 1.—Regarding orders to shut down the Greene-Cananea, it is officially stated here that the production of the Greene-Cananea will be cut at once to the minimum. Development work will continue and a small force only will be maintained until such time that copper sells at what the management considers a reasonable price.

RETURNS FROM COUER D'ALENES

D. P. Rohlfing Visits Gold Hunter Mine and Talks of Conditions.

LEAD MINES AER WORKING.

Does Not Believe They Have Curtailed Production Very Much.

D. P. Rohlfing returned from a trip to the Couer d'Alene mining district, in northern Idaho, today, where he went to make an inspection of the Gold Hunter mine, of which he is manager. This property is controlled by a syndicate to Chicago people and is destined to become one of the leading producers of the northern country. Recent developments have been of a character which fully justifies this statement and naturally, Mr. Rohlfing is feeling in a pretty jubilant mood over the prospects for the future.

"The lead mines of the Couer d'Alenes," Mr. Rohlfing said today, "appear to be working right along about as usual and judging from what I could observe while in the district the curtailment in production of lead ores has been slight. The copper mines are not turning out as much ore as they did before the late slump, but otherwise things are moving along quite satisfactory. The Stewart company is operating the lead portion of its mine and leaving the copper for future disposition." Mr. Rohlfing returned by way of Butte. There, he states, the situation is not so encouraging. So many men have been laid off during the past month or two that the camp has taken on the aspect of hard times.

THE MINING CONGRESS.

Some of the Things That Will Interest Visitors to Joplin.

Joplin, Mo., Nov. 1.—Visitors to Joplin to attend the meeting of the American Mining congress will find much here to interest them. They will find the handjig process of separating ore from rock still in use here, illustrative of early day mining, and in marked contrast, possibly on the same tract of ground they will find in operation one of the modern electric-driven concentrating mills.

The Continental tract in the western city limits of Joplin affords illustration of the earth's faulting, causing rich deposits of disseminated ore. The more modern milling operations are to be found in the Webb City-Carterville districts, where the "blanket vein" is found, requiring plants of large capacity and heavier machinery. The Yellow Dog, north of Webb City illustrates conveyor hoisting, and the Gundling mill at Oronogo, extensive application of vanning. The Continental mine on the land of the American Zinc, Lead & Smelting company at Prosperity, uses skip hoists.

At Galena, west of Joplin, will be found hundreds of miners at work, using horse hoisters to get the ore to the surface, and in some instances the old fashioned windlass will be found. Galena, while having many modern milling plants, is known as "the poor man's camp," and hundreds of individual miners are working their own mines there.

REDUCTION IN B. C.

Seattle, Wash., Nov. 1.—Grand Forks, B. C., miners and smelter employes of the Granby Smelting company will have their wages cut 50 cents a day, commencing Nov. 1. Word has been received from New York to this effect. This will affect all the miners in the Phoenix camp, as the British Columbia Copper company and the Dominion Copper company will make a similar cut. The Grand Forks labor union will decide as to whether the men will accept the reduction or go on a strike. Much uneasiness is felt over the situation.

COPPER HIGHER AGAIN.

(Pollock Special Wire.)

New York, Nov. 1.—All grades of copper advances one-quarter of a cent a pound. Lake is quoted at 14¼@14¾; electrolytic, 14@14½; casting, 13⅝@14¼.

MAMMOTH GOLD.

Old Time Tintic Producer's High Grade Ore.

The Mammoth Mining company expects to draw down the proceeds today from the rich shipment of ore sent out from its property in the Tintic district a few days ago. Altogether, the car contained about 50 tons, 30 of which carried gold values of about 100 ounces to the ton; 20 tons runs between 40 and 50 ounces in gold, while the balance consists of high grade silver ore. The company marketed a few days ago 100 tons of ore which averaged 15 ounces in gold to the ton.

CLAIM DISCRIMINATION.

Unjust discrimination against Goldfield is being made by the Smelter Trust, says the Goldfield Review. A comparison of the charges on ores from this camp and from Cripple Creek evidences that the charge for handling Goldfield ores is nearly three times that exacted from Cripple Creek mine owners. This fact, taken in connection with the extortionate shipping charges, should certainly be brought to the attention of the Man with the Big Stick. Regulation of smelting rates could certainly be accomplished by the administration in protection for the paramount industry of a state that may again, unless industrials get on a firmer basis, save the credit of the nation.

BOSTON COPPER CLOSE.

James A. Pollock & Co., bankers and brokers, 6 west Second South street, furnish the following, received over their private wire, this afternoon:

Black Mtn., 4¼@4½; B. Exp., 10@15; Cum Ely, 5@5¼; Dom. Cop., 2@2¼; Giroux, 3½@3¾; Hancock, 5½@5¾; Kew, 5¼@5½; Nev. Utah, 2⅝@2¾; Raven, 83@85; Troy, 60@65; Bing. FILES ARTICLES.

The Utah Comstock Mining company of American Fork has filed articles of incorporation with the secretary of state. The capital stock of the company is placed at 50,000 in shares of 10 cents each. The company's officers are: Jack Greenwood, president; E. J. Wild, vice president; Robert Anderson, secretary and treasurer.

CONCENTRATES.

E. J. Waugh departed for Nevada today. He will visit Fairview and other camps before returning.

M. M. Johnson of the Newhouse staff departed yesterday for Tonopah and other Nevada points.

The Wabash Mining company has levied an assessment of 3 cents a share. Delinquent Nov. 30. Sale day, Dec. 23.

Word comes from the Lost Packer mine in Idaho to the effect that the smelter is still running. It will soon close, however, for the winter.

The ore and bullion settlements reported late yesterday by McCornick & Co. were: Crude ore and concentrate, $16,000; base bullion, $90,000. The total settlements for the month of October aggregated $3,012,000.

Sam M. Pendergast has returned from a trip to the coast, where he has been recuperating his health. Mr. Pendergast was an active broker on the Salt Lake Stock and Mining Exchange for several years.

The Utah Comstock Mining company filed articles of incorporation with the secretary of state yesterday. The capital stock is $50,000 and the shares are valued at 10 cents each. The company owns claims in American Fork canyon. The officers are: Jack Greenwood, president; E. J. Wild, vice president; Robert Anderson, secretary and treasurer.

Dog's Homing Instinct.

The other day, writes a correspondent, a dog was sent by carriage to Heandon station, in Norfolk, en route for London, from Buckingham Hall. At Ely it slipped its collar as the guard took it out to give it water; the time was after dark on a winter evening and the dog dashed away and could not be found.

At 6:30 on the following morning one of the stablemen at Buckingham heard a low whining and howling under the window. It was the same dog returned. The distance from Ely to Buckenham is computed at 17 miles.

The dog is a female spaniel and it is virtually certain that its local knowledge of the country about Buckingham on the side toward Ely was limited to a mile from the former. This would leave it an unknown tract of 16 miles to travel through the dark in a single night. By what sense was it guided?—Country Life.

LOCAL MARKET REPORT.

In today's local markets, it is noted that flour is up 10 cents, due, it is claimed, to rising prices of wheat, and the scarcity of grain in this state. It is by such object lessons as this that the folly is made evident of shipping out of the state grain needed for home consumption. The article becomes scarce, it has to be shipped in from outside, and then up goes the price. The receipts include car lots of eggs, bananas, lemons, Utah and Idaho potatoes, and broken shipments of grapes, bloaters, celery, squashes, pumpkin, carrots, peppers turnips, with filberts and Brazil nuts from the coast. Grapes are about ended for the season. Eggs have become so scarce at home, that it is paying now to ship in from Kansas. Eastern Concord grapes are expected to be along next week. Oysters are not selling as well as they did last year at this time, but dealers do not profess to know the actual cause. Butter is taking a fall instead of going up to 50 cents a pound as the butter speculators would like to have it, and it is likely to be lower by another week. The following prices are obtaining today:

RETAIL.

Timothy, per cwt....95
Alfalfa, per cwt....80
Corn, per cwt....1.70
Wheat, per cwt....1.60
Oats, per cwt....1.70

PREVENTING DUSTY ROADS IN SAXONY.

Consul T. H. Norton, writing from Chemnitz, says that a Saxon firm has introduced a new road-binding composition called "Apokonin," which has been tried on the macadamized streets of Leipzig and other places with much success. The material is thus described:

It is a mixture of the heavier residual oils obtained in the distillation of coal tar with high boiling hydrocarbons. The method of mixing apparently involves a certain degree of chemical combination, in which phenol and similar constituents play a role. manufactured material is prepared for use by heating in iron caldrons, identical with those used for asphalt, to temperatures ranging from 212 to 248 degrees F. (100 to 120 degrees C.). It is then sprayed evenly over the surface of the roadway with a special form of apparatus, and under such high pressure that the fluid mass penetrates to a certain distance into the upper layer of dust or dirt. The result is the formation of a compact lustrous black coating, which meets the demands of heavy traffic and is not disintegrated into dust particles. A marked advantage of the new process over the methods hitherto employed for the same purpose, and based upon the use of ordinary tar, is the total absence of odor after the application.

STOCKS WERE IN FAIR DEMAND

Not Many Imoprtant Changes From Last Night's Closing Quotations.

UNION PACIFIC SOUGHT FOR.

Amalgamated Copper Was Steadily Sold and Caused Some Heaviness.

New York, Nov. 1.—Prices of stocks moved irrigularly in the opening dealings, but there were not many important changes from last night's level Pennsylvania rose ⅛ and afterwards relinquished the rise. Baltimore & Ohio advanced a point, Toledo, St. Louis and Western preferred ⅝ and Union Pacific ⅝. General Electric and St. Paul fell 1 and Reading and New York Central and Northern Pacific and American Smelting large fractions. Some of these declines were quickly recovered.

A more definite tendency developed after the opening sales had been executed. Support to Pennsylvania and Union Pacific aroused a moderate demand for other stocks and the list rose slightly above yesterday's closing, but became very dull on the rise. Union Pacific was in demand and touched 110⅛, a gain of 2⅛. American Tobacco preferred, Manhattan and Westinghouse Electric rose 1. Pressure continued against a number of other stocks. United Pipe preferred losing 2, Federal Mining preferred 1¼, Utah Copper 1⅝, New York, Chicago and St. Louis 1¼ and the first preferred, Illinois Central Leather preferred 1. Call money opened at 20 per cent.

Pennsylvania rose an extreme 1⅛, Northwestern 1⅜ and Great Northern preferred 1. Prices reacted in sympathy with Amalgamated Copper, which fell 1⅝, American Smelting stocks declined 1. The market became very dull at small rallies.

Bonds were irrigular.

Steady selling of Amalgamated Copper caused heaviness, and some leading stocks receded to below yesterday's closing. Amalgamated Copper lost 1⅞. Denver and Rio Grande 1⅝ and Atchison preferred 1. Northwestern extended its advance to 2⅝ and Canadian Pacific moved up 1⅝. When the selling of Amalgamated Copper stopped the market became virtually stagnant.

LIVERPOOL GRAIN.

Liverpool, Nov. 1.—Closing: Wheat spot dull; No. 2 red western winter 8s 1d; futures steady; December 8s, 2½d; March 8s 4½d; May 8s, 3½d.

Corn spot easy prime fixed American 5s, 9d; futures steady, December 5s 9d; January 5s 5¼d.

LIVESTOCK.

CHICAGO.

Chicago, Nov. 1.—Cattle—Receipts about 6,000 head. Market steady to strong. Beeves 3.60@4.25; westerns 3.00@5.50; stockers and feeders, 2.40@4.50.

Hogs—receipts 11,000 head. Market strong to 5c higher. Light 5.70@6.25; mixed 5.60@6.30; heavy 5.40@6.25; rough 5.40@5.60; pigs 4.70@5.50; bulk of sales, 5.70@5.90.

Sheep—Receipts about 8,000 head. Market steady; natives 2.50@5.25; westerns 2.50@5.25; yearlings 5.00@5.15; lambs 4.25@6.85; western 4.25@6.75.

KANSAS CITY.

Kansas City, Nov. 1.—Cattle—Receipts 4,000 including 200 southern. Market steady; native steers 4.50@6.40; southern steers 2.50@3.60; southern cows 1.75@2.65; native cows and heifers 1.50@4.25; stockers and feeders 2.30@5.00; bulls 2.00@2.25; calves 2.50@6.00; western steers 3.35@5.40; western cows 3.00@3.85.

Hogs—Receipts 4,000. Market steady. Bulk of sales, 5.65@5.80; heavy 5.60@5.75; packers 5.60@5.85; pigs and light 5.00@6.80.

Sheep—Receipts 6,000. Market weak; muttons 4.00@5.40; lambs 5.25@6.40; range wethers 4.50@5.50; fed ewes 3.50@5.25.

OMAHA.

Omaha, Nov. 1.—Cattle—Receipts 1,800. Market active and stronger, native steers 4.00@6.25; cows and heifers 3.25@4.00; western steers 2.25@4.00; range cows and heifers 2.25@3.25; canners 1.50@2.50; stockers and feeders 2.75@4.50; bulls, stags, etc., 2.00@3.50.

Hogs—Receipts 2,500; market strong to 5c higher. Heavy 5.50@5.65; mixed 5.60@5.65; light 5.65@5.70; pigs 5.00@5.60; bulk of sales 5.57½@5.65.

Sheep—Receipts 5,000. Market steady to weak. Yearlings 4.75@5.25; wethers 4.50@4.75; ewes 4.00@4.50; lambs 5.75@6.25.

PRODUCE.

CHICAGO.

Chicago Nov 1—General liquidation in wheat caused a weak opening to the local wheat market today. Lower prices at Liverpool was the chief cause of the selling, although fairly liberal receipts in the northwest also made a depressing factor. December wheat opened ⅜ to ½c lower at 96⅛ to 96½c and closed at 96⅜c.

Minneapolis, Duluth and Chicago reports receipts of 573 cars.

The corn market opened steady because of wet weather throughout the corn belt. Later prices eased off along with wheat.

December corn was unchanged to ⅛c higher at 58⅝ to 58¾c and sold down to 58⅛c. The break in wheat caused a slump in the oats market and prices were weak. December oats opened ⅛c higher at 49c and sold off to 48⅝c.

There was no quotations in the early trading. January lard opened 2½c lower at 8.50. Ribs were unchanged at 7.67½. January pork was down 15c at 14.52½.

Chicago, Nov. 1.—The market was weak most of the day. The low point for December was 94⅞. In the last half hour a rally took place. The close was steady with December 1 cent lower at 95⅞.

Wheat—December 95⅞; May 1.04¼.
Corn—December 59½@⅝; May 60⅛@⅝.
Pork—January 14.45; May 14.55@14.55.
Lard—January 8.47½; May 8.62½.
Ribs—cash 7.75@7.78.
Barley—cash 79@80.

Prices were strong all day. The high point for December was 59⅞. The close was strong and up ⅝@⅝@60⅝.

EVAPORATED FRUITS.

New York, Oct. 31.—The market for evaporated apples is unsettled, but there is no quotable change in spot prices.

Prunes are quiet and unchanged.

Apricots remain dull at recent prices.

Peaches are steady on a moderate demand.

Raisins from California are arriving slowly, but the market is easier in tone, with loose muscatel quoted at 9¾@10c; seeded raisins at 7½@12½c, and London layers at 1.75@1.85.

BUTTER AND EGGS.

Chicago, Nov. 1.—Butter weak; creameries 20@29½; dairies 18@27.

Eggs steady at mark cases included, 17½@19½.
