Pending the autumn sales holders are not pressing to sell, but are inclined to stay for higher prices or better ad-vances from Rio. Mild coffees are selling at about previous prices, but buyers are only purchasing for a supply of the immediate wants.

The raw sugar market is a little stronger and the local demand is better, and out of town orders are being received more freely at slightly higher rates. Refined sugars are in good demand with quick sales. The tea market is steady with a good opportunity for selection, both TOOTH, EAR as to quality and assortment and prices are fairly well maintained.

> Boston, 22 .- The demand for wool is good, the market is quiet and firm with an upward tendency in prices. Sales are 2,000,000 pounds of all kinds—fine, medium and coarse, with an increas d demand for the latter. Sales of Ohio and Michigan have been made to some extent; X and XX Ohio at 41@11 and XX and above and XXX at 440 45, but 44 was offered and refused for large lots of choice XX, as holders look for better prices at an early day. Michigan fleeces have been selling at 39@10 for X and fines. Combing and delaine are in demand with sales at 42@46 for fine delaine and 46@50 for fine and No. 1 combing. Coarse combing has been sold at 33@41 as to quality. Unwashed fleeces have been in demand at 17@ 23 for low and cearse, 28@33 for fine and medium, and 34@35 for choice. THE CASE

DURSUANT TO AN ORDER OF SAID

Utah.

Dear Sir .- The J. I. Case Agitator we bought of you last season is the best machine we ever saw or used; it will thresh more grain and thresh it better and cleaner than any other machine we have ever seen, and we can confidently recommend it to any persons wishing to purchase a good Thresher. Yours, etc., G. W. LUFKIN,

W. A. BARRON,

ASHLEY'S FORK, UINTAH Co., Feb. 26th, 1882. John W. Lowell, Dear Sir.—The Agitato | Separator and Woodbury Power that we

bought of you, we can truly say give entire satisfaction. It beats any-thing that we ever saw to thresh and clean. We have run seven different kinds of machines, but this is the champion. The cleaning and the sep-arating are perfect. We have not had a man find fault with it yet, and we believe that the people here will tes-tify to our statement as being the truth. It comes as near being per-Best Paint in Use for Wood | fect as it is possible for a machine to be. We cannot tell you upon paper all its superior qualities or how much we think of it, but can say this, that could we not get another like it, no money would buy it.

Yours truly, GEORGE BROWN, S. J. CAMPBELL, WM. P. REYNOLDS, ROBERT BODILY. CEDAR CITY, Sep. 23rd, 1881.

John W. Lowell. Dear Sir.-Our machine, Agitator, is doing excellent work. Cleans the best and threshes faster than any Thresher we ever saw.

We remain, CORRY & HUNTER, LEHI, Utah County, February 7th, 1882.

To John W. Lowell, Esq., Dear Sir .- As our opinions have often been asked about the merits of the Agitator Threshing Machine we purchased from you last fall, we take pleasure in sending you the following as our experience with it. To answer the numerous inquiries, and perhaps others who would like to know, we recommend the following points of superiority over all other machines we are acquainted with-1st.—Lightness of draft. Our team of five span of average native horses and mules, being fully equal to the work, and without crowding

or hurrying them, they gave us all the speed and power we needed. 2nd.—Thorough threshing and cleaning, and that without extra effort on our part; such a thing as the sieves being crowded or clogged, or requiring the attendance of one per-son at the tail end of machine having never occurred or been needed. 8rd.—Lightness of wear. After having thereshed 18000 bushels of

grain, lucern seed, etc., the general wear on the machine being scarcely perceptible. 4th.—Lightness of running ex-penses. By comparing notes with our friends of other machines, we

find ours have not exceeded half of We also consider the capacity for threehing in quantity, superior to other makes of machines. Although the farms here are small, necessitating a great deal of moving, and often to distant points, yet we threshed as high as 800 bushels per

We also consider the Straw Stack er, End Shake, Elevator principle and many other points are all worthy of notice and examination of any and all persons who may con-template purchasing a machine.

A. J. EVANS, M. T. WOODHOUSE, H. M. ROYAL, M. B. BUSHMAN. I have helped wear out four machines of other kinds, and I heartily endorse all of the foregoing points.

A. D. RHODES, Jr.

CEDAR CITY, March 18th, 1882. Mr. J. W. Lowell. We bought one of the J. I. Case 32 inch Agitator Threshers last year and consider it by far the best Thresher ever brought to this country. It runs very light, saves all the grain and is a very durable machine. We threshed grain at the
