Stomach and Liver Troubles, Costiveness, Biliousness, and Sick Headache : General Harrison, INDIANAPOLIS, Nov. 24 .- The President-elect took a half holiday this afternoon, and the weather being pleasant went fishing. The party com-prised only General Harrison and his old friend R. S. McK e. Under the guidance of Samuel Hanway, an experienced sportsman, who is familiar with all the good fishing grounds up and down White River, the party left the city about 11:30, driving north along the river three miles. They had remarkably good luck, for on the return home, at 3:30, they exhibited a string of twenty-five shiping black bass. They were all very proud of their catch, but the General could not be presented.

not be prevailed upon to tell how many were captured on his hook, as they had agreed to pool the result of the afternoon's sport. From another source, however, it is learned the President elect was the LUCKIEST FISHERMAN in the party, as his catch exceeded either of the other gentlemen's . Several of the largest bass on the string were left at Hairison's residence, the remainder, Messrs. McKre and Han-way die tribu ed among their friends. Today's mail brought a photograph from Albion, Idaho, of a high peak in

Cassia County which has recently been named Mount Harrison. The ceremony of chilstening the mountain, the accompanying letter explains, took place last Sunday evening, when Frank Roberts and J. A. Gordon, of Albion, climbed to the top of the mountain, 10,000 feet above the sea, and there erected an octagon tower o altar some twenty feet higa, on top of which they placed the stars and stripes and sang "Columbia," and other national songs. Mount Harrisson is the highest point in Cassia County. Its twin, looming nearly as high, has long borne the name of Mount Independence.

WASHINGTON, Nov. 24 -At a m eting of the executive committee of the inaugural ceremonies this evening Colonel Elliot Sheppard and Robert F. Porter, of New York, were appointed on the finance committee. Captain George E Lemon, chairman of the latter committee, reported subscriptions to the guarantee fund to date of \$36.50. On October 5th President Aro of Bolivia arrived at Potosi with the northern division. On his approach the revolutionists abandoned the city and proceeded towards Laginullias. On the same date a private letter, written in Potosi, said: "The situation is not a bright one, as the Lucra rebels are marching on this place Belasaro Salinas and Ricardo Mejia and a

number of the best known civil and militar authorities are with them." Another letter dated the 8th said: "Immediately after reaching Potesi, Pre-sident Arce adopted measures to prevent the advance of the rebels and we have over 2200 men at Carachipampa, four leagues from Potosi,

THE SWITCHMEN. Indianapolis, Nov.24.—The railroad managers and striking switchmen do not seem to be any nearer an agreement than yesterday. The superintenents of all the lines held a conference this afternoon and it was unanimously agreed that no concessions should be made. The number of freight trains leaving the city during the last 24 hours was not more than a dozen. The regular freights continued to arrive ati day, however, and the blockade is be-coming serious.

So you see, help came to me

Who would begrudge the cost of this medicine
(One Dollar a bottle) for such a biessing, or refuse this simple though sincere token of gratitude, for being perfectly cured? I owe everything to Dr. David Kennedy's Favorite Remedy,
of Bondont, N. Y., and hope my writing this
will induce others to use the medicine who
suffer from a Kidney or Blood disorder. But
my recove y was not more remarkable than
shat of my son George, who when a boy fell
from a fence, bruising his leg, which was followed by disease of the bone. Large pleces
were removed by surgical operations. His

and the future to him was dark and gloomy, expecting to be a helpless cripple for life. He was
induced to try Dr. Kennedy's Favorite Remedy,

THE PATENT

PREPARED BY

Boasting never before attained in any

Cooking Apparatus, and will

Revolutionise the Present Methods of Cooking ITS THEORY Is that all Food Bakerd or Cooked, should be cooked in fresh air freely admittled to the even. This is done by discarding the close even deer heretofore used, and substituting for it a door containing a sheet of Wire Gauze nearly as large as the door itself. Through this Gauze Boor the air freely circulates, facilitating the process of cooking, and producing food that is unequalled in flavor and nutrition, and actually cooked with less consumption of fue than in an oven with a closed door.

It makes an enormous saving in the weight of meat. weight of meat.

It also produces larger Loaves of Bread, requires less attention from the cook, and promotes the health of the family by the SUFERIOR QUALITY OF THE FOOD

OPINION OF AN EXPERT. MRS. MARY B. WELCH, Teacher Domestic Economy, Iowa State University, says:
"My deliberate judgment is that the oven of the Range, as compared with others, is not only more equally heated in every partiront and rear—but as a result of its superior ventilation the food placed therein is better cooked, while retaining a sweeter davor, and a larger proportion of its best juices. I find, also the consumption of fuel in this Range is much less than any other or same work.
