

## WILL ABATE THE SMOKE NUISANCE.

Council Adopts Resolution Requiring Installation of Consumers By Next Fall.

### DAVIS ANXIOUS ABOUT BONDS.

Meter Inspector Ordinance Introduced—Franchise Not Yet Ready.

Now that the cold weather is over the city council will begin the smoke consumer agitation again and see that all the big furnaces in the city are supplied with smoke consumers before next fall. Monday introduced a resolution at the adjourned session of the council last night, instructing the chief of police to notify the owners of big holdings where furnaces are used to install smoke consumers within 60 days or be prosecuted. The resolution was adopted by a unanimous vote.

### ANXIOUS ABOUT BONDS.

A. J. Davis is anxious to know what is going on in regard to the sale of the water and sewer bonds and to see that he introduced a resolution requesting the mayor and city recorder to produce at the next meeting of the council all of the communications received by them from the purchaser of the bonds since the sale was made. Barnes and Tuddenham opposed the resolution and said that if any of the councilmen wanted information on that subject they could get it by calling at the office of the mayor or recorder. They could not see any reason why this letters should be brought before the council.

A. J. Davis and Black stated that they wanted to know just what conditions were in relative to the bonds and they did not think the councilmen should be compelled to run around to the different offices to get information which belonged to the council. The resolution was adopted by a vote of 7 to 5.

### FOR METER INSPECTOR.

The ordinance drawn up by President Hewlett creating the office of meter inspector, defining the duties of the office and fixing the salary at \$900 per annum, was read the first time and referred to the municipal law committee.

### SLOAN CONFIRMED.

The appointment by City Recorder Whitlow of Walter J. Sloan as a deputy to serve as clerk of the juvenile court, was confirmed by a unanimous vote of the council. Mr. Sloan has been a clerk in the civil division of the city court and was made deputy so that he could act as clerk of the juvenile court.

### FRANCHISE NOT READY.

Nothing was done on the franchise last night, owing to the fact that the amendments agreed upon at the committee meetings have not yet been put in shape to be inserted in the franchise. It is very probable that the matter will be taken up at the regular meeting Monday night.

### WORK ON STATE STREET.

Black and Davis Want Abutting Owners to Pay for It.

There was quite a little discussion at the meeting of the streets committee last night in regard to macadamizing State street from Fifth to South streets. Supervisor Seddon asked for an appropriation of \$2,000 with which to commence the work. Black and A. J. Davis opposed the proposition unless the cost of the work is taken against the abutting property owners. It is the intention to macadamize the street for a distance of 20 feet on each side of the street, as it is almost impassable during the winter. President Hewlett, Tuddenham and other councilmen claim that it is a disgrace to the city and is the worst road in the entire street. The matter was finally referred to the city engineer to furnish an estimate of the entire cost of the improvement.

### FENCE MUST BE MOVED.

The fence on the west side of the Salt Palace grounds will have to be moved back off the sidewalk onto the property line. The committee on streets rejected Frederick Heath's offer to lease from the city that part of the sidewalk enclosed by the fence and instructed the street supervisor to see that the fence is moved at once.

### CIRCUS LICENSE REDUCED.

The license committee decided to reduce the license for Barnum & Bailey's circus to \$200 for the first day and \$100 for the second. The regular license is \$400 per day.

### THE ART OF DANCING.

Subject of an Address by L. P. Christensen at University.

L. P. Christensen made an address on "The Art of Dancing" at the state university yesterday, and in the course of his remarks said:

"With many it is only an excuse for a gentleman to put his arm around a lady. The remedy for this is with the ladies. Every gentleman would keep his place if the lady insisted on it. Dancing should be dignified. The present immoral forms of dancing breed familiarity and contempt. Many of

These forms of dancing that are being daily imitated by respectable people originated in immoral and vile places. We are blind to these facts, but there is no excuse. Do as you please about these matters, but by following the bad you mark yourselves.

"Dancing should be polite and dignified, for it is an art that requires perfect facility of the muscles. The music for the dance should be light and joyful. To dance well one must get into the mood and rhythm of the music. Dancers frequently pay little attention to the music and go through dance after dance without apparently hearing a note. What many dancing is a sort of catch-as-catch-can. There is too much wrestling, baseball and football in the dance. In the tuxedo and waltz the dancers make a quick grab for one another and jump about as best they can. Such people assume all sorts of distorted shapes and their movements are too often characterized by the detestable bowery swag."—B

### HOW TO BE SAVED.

Rev. Benjamin Young Cites Paul's Answer as Sufficient.

Rev. Benjamin Young preached last evening, in the series of revival meetings being held in the First Methodist church, from the text "What must I do to be saved?" In the course of his sermon Mr. Young said:

"History records some memorable crossings of the Hellespont. The invasion of Thrace by Macedonia was important, as was the journey of Nereus to conquer the Greeks. Alexander crossed this arm of the chert sea on his campaign of conquest. However, there was never a journey across the Hellespont fraught with more consequences to the world than this of the missionaries Paul and Silas. The mission to Philippi was the beginning of a new epoch for the world. To the efforts of these two men in that Roman colony can be traced an influence which transformed European civilization.

My purpose tonight is to call attention to a suggestive incident in connection with the work of these two evangelists. For a trivial matter they had been thrust into one of the dungeons of the city. The authorities were more earnest to protect prejudice than to help a principle. They subjected these men to indignities, but unconsciously they made a contribution to history. Religion and dungeons have contrived to get some things into human thinking. Thus we get the epistle of the captivity. In this way Bedford Jail and Bunyan are immortalized. In this jail the keeper cries out: "What must I do to be saved?" It was a great question, and the apostle gave a great answer: "Believe on the Lord Jesus Christ." Now this question comes to us often with great intensity. Business cannot bury it. Worry and anxiety only give it point. The answer of the apostle to the inquiry of the jailer was simple but profoundly philosophical. "Believe on the Lord Jesus Christ."

Good Friday services will be held tomorrow, in the First Presbyterian Sunday school room, with a prayer meeting at 7 p. m., and service at 11 a. m., when Rev. Dr. Paden will speak.

## FRANK CANNON AS A CONTORTIONIST.

His Agility Shown in Present Attitude and That of Three Years Ago.

### HOW HE DEFENDED THE FAITH.

Contribution to Millennial Star Contained Unaltered Praise of President Joseph F. Smith.

Under the heading, "Frank Cannon Exposed," a recent issue of the Ogden Standard contained the following:

Some one has said that Frank J. Cannon is a hypocrite, and worse, that he would sell his soul in a pinch for money. Since his court engagement with the Kearns hippodrome much of his real character has been exposed to those who thereby have had an opportunity to see the two sides to his life—the one he puts on to his intimates and the one he wears when posing for public admiration.

For the benefit of those who do not know the trickery in his nature as well as we do, this paper will from time to time disclose the double-dealing and unreliability of the man, as shown by his past life.

Three years ago his was ambitious to return to the United States senate and in his efforts to gain favor and win preferment he fawned at the feet of Joseph F. Smith and bestowed on the new President of the "Mormon" Church all the fulsome flattery of his empty soul. He was then in New York, working liquid air, over which a national scandal arose, and also proclaiming a newly discovered light in which a Salt Lake was induced to put nearly all his wealth, the loss of which led to a suicide's grave. The *Millennial Star* of Jan. 8, 1902, page 25, contains correspondence, the author of which was Frank J. Cannon. Read it, and in the light of recent events, tell us what you think of this fellow who is so free to call those who do not bow to his purposes, liars. The letter is as follows:

"IT IS GOD'S WORK."

"We are in receipt of a letter from a friend in the Eastern States of America, which may be comforting and edifying to the readers of the Star. We quote in part as follows:

"If only the dead and gone persecutors of the Prophet Joseph and his sainted brother Hyrum could be back upon earth now for a little time, how many would seem all their purposes of hate and how utterly insufficient would seem all the murder in which they imbrued their hands or to which they gave their assent. Joseph Fielding Smith, nephew of Joseph and son of Hyrum Mack Smith, is an apostle of the Lord. And the Church over which the Prophet Joseph Fielding Smith now presides is established in such might of numbers, wealth and power, as to be an infinite mockery to the deeds, the threats, the hopes of the assassins, who thought that, in the massacre of Joseph and Hyrum and the driving of the Saints across the frozen Mississippi, they had destroyed the work and had annihilated the people. What would Liburn W. Boggs, once governor of Missouri, say if he were back on earth in this hour and could know that Joseph Fielding Smith, son and nephew of the murdered Prophets, would preside over a people so mighty as these the Latter-day Saints? What would Thomas Ford, once governor of Illinois, say if he could be here to witness the ordination of a son and grandson of the martyred Hyrum to presidency and apostleship in the Church, whose leaders Ford betrayed to cruel death? What would the Lawa

## QUEEN OF ACTRESSES PRAISES PE-RU-NA.

MISS JULIA MARLOWE  
Heartily Approves of Peruna For the Nerves.

In a recent letter to The Peruna Medicine Co., Miss Julia Marlowe, of New York City, writes the following:

"I am glad to write my endorsement of the great remedy, Peruna, as a nerve tonic. I do so most heartily."—Julia Marlowe.

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are the reservoirs of nervous vitality. These centers become blood less for want of proper nutrition.

This is especially true in the spring season. Every spring a host of invalids are produced as the direct result of weak nerves.

This can be easily obviated by using Peruna. Peruna strikes at the root of the difficulty by correcting the digestion.

Digestion furnishes nutrition for the nerve centers. Properly digested food furnishes these reservoirs of life with vitality which leads to strong, steady nerves and thus nourishes life.

Peruna is in great favor among women, especially those who have vocations that are trying to the nerves.

Buy a bottle of Peruna today. If you do not receive all the benefits from Peruna that you expected, write to Dr. S. B. Hartman, Columbus, Ohio.
