was used for pinions alone. Jem Smith, the English pugllist is announced to sail from England for America on the 29th inst., for the pur-pose of enjoying the distinction of be-ing whipped by John L. Sullivan.

Barnum's great African lion, "Ken-nedy," axed over twenty years and valued at \$6,000, which had for a year suffered from paralysis of the limbs, was put to death in New York recently with sixteen ounces of chloroform.

him, to call in to his aid other intel-lects, and thus the Tsar is compelled, in reality, to yield up, divide and wide-ly distribute that authority, which, in Already half a dozen city editors in hicago have decided upon the head "Seven Up!" to put over the account of the hanging of the convicted anar-chists. It is hoped the Supreme Court will not eacher them out of their little

game

According to the United States cen-sus the Pacific slope had in the year 1880 a population of 1,393,857. In this we include California, Nevada, Oregon, Washington, Idaho, Utah and Arizona. The population has since then consid-erably increased.

The population has since then consid-erably increased. The main building for the American Exhibition in London this year will be constructed of steel railroad rails, and it is thought that this plan solves the problem of erecting fire-proof tem-porary buildings with the utmost speed and at the least cost. Stands, next to the Tsar himself, the arch-chapcellor of the empire. file is the man, of all Russians, the most necessary to, and the most trusted by, his autocratic master. He is his most intimate counsellor. +His is the spirit which guides the Tsar's will in the channels alike of foreign and domestic policy. The arch-chancellor is respon-sible to the Autocrat alone. His post is a difficult one, for he has to stand per-

The lot of the baseball pitcher next season will be most emphatically not a happy one. He will now have toggaard against three costly errors: Giving the better big between autocratic authority, the needs of a hundred millions of people and the jealousies aud demands batter his base on balls, striking the batter and making a balk. It requires very little under the new rules to con-stitute a balk.

very little under the new rules to constitute a balk.
The noted desperado, Jim Court-wright, was killed at Fort Worth, Tex-as, a short time since, by a gambler named Luke Short. It is said that Courterright was a "killer by profes-sion," and that the lives of fourier-men had been forfeited at his hand. Sooner or later, such characters meet a man who is more than their match.
The Omaha Bee declares; that when the Sobart of the legislature go home to the bosom of their families, but that when the Missouri legislature go home to the bosom of their families, but that when the Missouri legislature takes a recess, the entire body of sakesmen sek relaxation in hunting coons, fand it is impossible to get a quorum a long stater is a coon in sigh.
Since Stevens, the bicylist, arrived in New York, there have appeared in three different store windows, bicyles store; a second in the Bowery, and a third in Camal street.

claded from the right of succession to varied assortment of people whit the throne. It is true that one Tsar make up the class known as "profe sionals." It is not the stage alor can undo what a previous Tsar has done. But so imbedded are those con ditions in imperial custom, and so vital is the necessity of sustaining the exaltsionals." It is not the stage alone which numbers among its disciples women whose yielding and pliant na-tures render them susceptible to the influences for evil which may surround them. Unfortunately, they are no aggressive influences else would the sound their own note of warning. The are furtive watchful, but discriminat-ing. In every walk of life women who are obliged to write failure after every honest effort, may be driven to a loss of self respect, as men are to dis-honesty; but such results must follow where there is lack of ability or a pro-

theory, is his sole prerogative. The executive machinery of the em-pire, as established by Peter the Great, where there is lack of ability or a pro-fession overcrowded. It is only cotended here that a young woman will and as it exists to this day, was derived

requisite talent and the physical en endowments which must go with need have no fear that she cannot pur and as it exists to this day, was derived mainly from the German model. Its chief instrument is the vast, powerful, consistent and thorough, and not less tyrannical and corrupt, beaurocracy, which is known in Russia has the Tschinn. At the very top of the Tschinn stands, next to the Tsar himself, the sue unmolested her work upon t stage, nor has she reason to feel proud er of her victory than if she had fo lowed any other bread-winning voca tion with like moral success.-Georg Cayvan, in Brooklyn Magazine.

From Forest to Capital. The good old gentleman, my venerat ed grandfather, whom I never saw soon after his arrival in "the city, received a contract from the Govern received a contract from the Govern ment to open certain avenues and streets and "lay off" the President's garden, all which work he executed dilligently and faithfully. Those were the days when duty to the country was held as sacred as duty to an individual A portion of the assigned task was what the map designated as Pennsyl-vania Avenue; and going to work with hearty will, he felled the forest on its course and filled the swamps, produc-ing for us and our successors the out-line of the grandest thoroughfare in the world. the needs of a hundred millions of people and the jealousies and demands of rival powers. Immediately under the Tsar and the arch-chancellor are the four great councils of state; the council of the empire, the ruling sen-ate, the holy synod and the committee of ministers. All the members of these

the world. Immediately south of the mansion two small hills or mounds dotted with large trees may be seen in the Presiden-tial Park. Shoy are much admired, especially by the gay crowds roving over them during summer "music evenings," and most enthusiastically by the troop of children then and there evenings," and most enthusiastically by the troop of children then and there assembled in their bolsterous and happy gambols. I have often heard praised those emerald bosoms of nat-ure. Nature? My grandfather afore-said knew better than that. He pos-sessed a degree of poetical and pic-turesque, sentiment, and the pretty twins herein described rose at his in-vocation from the level ground. Ob-serve them carefally, and though they will continue beautiful, the fecit, arti-ficial, will be evident, for these knolls are regular, methodical, similar, and Nature's never arc so. The illustrious dame delights in diversity.—Brooklym Magazine.
