FIFTY-SIXTH YEAR

Settlement of the Street Car Strike Brings Joy.

Carmen Make Merry Over Results.

Parade the Streets Headed by Their Own Band, and Hold Ratification Meetings at the Barns Where Several Speeches Were Made.

DESERET NEWS SNAPSHOTS ON LAST DAY OF STRIKE.

Thousands Pay Their Fares Today.

Are Exceedingly Glad to Do So—Merchants Happy Over The Outcome and Business of All Kinds Shows A Decided Improvement.

HEADING THE PARADE.

Chairman Pratt and Bert Muth, the latter a Veteran of the Philippine and China Campaigns.

AN INTERESTING PICTURE.

B. H. Roberts the Successful, and Pratt the Sidetracked, Talking It Over.

H. T. B. GREY,

Veteran Leader of the Streetcar Men, Commonly Called "Old Wise Head."

"KID" BERNSTEIN.

"American" Party Prize Fighter, Who Lead Riot and Cheered Passive Police for Non-Interference With Mob.

The carmen, with both day and night shifts, 250 men strong, assembled at the intersection of Main and First South streets, at 3:45 a. m., after the hall meeting in Jennings block, and marched to the car barns, led by their band of 20 pieces. There was cheering all along the route, the entire procession waving their hats and applauding loudly as they passed the police station.

GREY'S SPEECH.

On reaching the barn, the carmen hurried up to their waiting rooms on the second floor, where the band played lively music for some time. All the men appeared to be enjoying themselves. When no more men could get in, order was called, and Motormen H. T. B. Grey mounted the rostrum. Mr. Grey delivered an impassioned speech, largely in the nature of an oration, in which he congratulated the railroad officials and felicitated himself on being able to turn over to the company the body of carmen whom he characterized as one of the best aggregations of employees in the United States. Mr. Grey was proud that the men had been able to show to the people of Salt Lake City that they were law abiding, and had done nothing savoring of violation of law.

NO ILL FEELING.

They had now returned to their labors without a particle of ill feeling. Said he, "We realized that our cause was just. The conditions obtaining in this city warranted us in asking for better wages, no more than any other body of citizens would have done under the circumstances. I wish to turn these men, Mr. Arnold, over to you as loyal as they have been at any time during their term of service. They were taught by the union to obey the rules, given to understand that violation of these would not be tolerated. They are loyal to the city, to the citizens."

Mr. Grey's effort was loudly applauded, and Mr. Arnold was called upon for a reply. He mounted a table and stated his pleasure in taking the men back again into the railway fold. He said, "We will bury all differences, let us build up the road and labor for the good of the public and the company. I thank you all. Several rounds of loud cheering followed. The night shift was called on to withdraw, leaving the day men to receive their car assignments, with the band playing a lively march.

AS TO TELEPHONE STRIKE.

Bel and Independent Companies do Not Expect One. Inquiry at the telephone offices this morning, showed that the officials of both companies are regarding with complacency prospects of a strike on the part of the linemen. The latter made their demands some time ago, but were turned down by both companies with a positive refusal to advance wages. The men argue general prosperity all over the country, and think they ought to be awarded as large a slice as possible, but the companies reply that with the prices of copper and lead at the present high, there is no incentive to engage in construction work.

ELECTRICAL WORKERS.

Hon. B. H. Roberts at Work Trying to Adjust Existing Difficulties. The Electrical Workers yesterday submitted an ultimatum to the Utah Light & Power company, authorizing their international representative, L. Lynn, to act for them, and requesting a conference on the matter of future employment. This was conveyed to General Manager Bancroft in the form of a note, and in reply Mr. Bancroft declined to treat with Mr. Lynn as the representative of the men, but expressed a willingness to meet a committee composed of actual employees. The Electrical Workers then took the matter up with B. H. Roberts, with the request that he negotiate for the men with the company. In pursuance of this step, the executive committee of the Electrical Workers' union, composed of L. Lynn, S. A. Brinkhaus, W. F. Hamner, L. E. Woodworth, F. A. Savage and B. E. Peacock met with Mr. Roberts at his office this morning and took up the side of the employees. This afternoon Mr. Roberts will meet with representatives of the Light & Railway company in furtherance of the attempt to adjust the differences existing between the workers and their employers, and meanwhile the impending strike has been postponed, pending negotiations for amicable settlement.

B. H. ROBERTS OPTIMISTIC.

Sees Nothing in the Way of Final Settlement of Troubles. When asked for a statement of the situation among the men and his view of the outlook, B. H. Roberts was diligent at work on a statement of the demands by the electrical workers, trying to get into shape where it

could meet approval by the company. In this new problem he had already passed the other, as settled. "You must understand," he said, "however, that the memorandum agreement so far made is not final, and that there still remains other matters to be adjusted before the end of the controversy. I found that the company was not disposed to be overbearing or to inflict injustices and I depend on this attitude in saying that I think the future is hopeful, and that there is nothing in the way of final settlement. While there was no word indicating this on the surface I am inclined to think that the men unconsciously perhaps, brought on this controversy soon after the company had offered to give a vasty question in dispute might be settled at the beginning of the new regime. In the future I look for an era of peace without serious questions between employees and the employer."

J. S. WELLS GRATIFIED.

Looks for Permanent Peace as Result of the Settlement. General Manager Joseph S. Wells declared this afternoon that he was much gratified at the successful outcome of the controversy and that the men are back to work with some understanding that will insure future peace. "We have a great deal of construction under way," he said, "and as soon as franchises are granted allowing us to connect terminals and make needed extensions, this work will be undertaken, and we will have a permanent peace as the result of this settlement."

SEALING SEASON OVER.

Catch Estimated at 100,000 Lower Than Last Year. St. Johns, N. F., April 30.—The sealing season closed today with a catch estimated at 100,000 lower than that of last season. Twenty-three steamers engaged in the industry and in every instance reported unusually severe ice and weather conditions. Several of them were caught in the ice for several weeks of the time and two of the six steamers still remaining out are expected to be in the ice of the Gulf of St. Lawrence. The rookeries are very different and this season's catch is estimated at 240,000 as against 345,000 last year.

M'COY MAKING READY.

St. Louis, April 30.—Aeronaut J. C. Mc Coy, at 10 o'clock this morning, having been informed by the weather bureau that air currents from the west now prevailed, began arranging to start his proposed balloon flight to Washington in the balloon "America." Capt. Chas. D. Chandler, United States signal corps, will accompany him. The start will be made between noon and 3 o'clock if the conditions are favorable.

GOULD DEFEATS PAGE.

London, April 30.—Jay Gould won the semi-final in the international chess championship games today, defeating Page in three straight, 6-0; 6-0; 6-2. Page was outclassed by the young American.

Gould and Pennell, the champion of 1904, will meet in the final tomorrow.

HAMILTON FOUND GUILTY.

He Murdered Rachael Engle Because She Refused His Attention. Grand Island, Neb., April 30.—John Hamilton, who has been on trial here for the murder of Rachael Engle, aged 13, was last night found guilty of murder in the first degree. Hamilton shot the girl when she refused to receive his attentions.

WILL STOP WORK.

Streetcar Men, Printers, Bakers and Factory Employes of Warsaw. Warsaw, Russian Poland, April 30.—The employes of the street railroads, the printers, bakers and factory employes have decided to stop work on Friday night and the authorities are taking energetic steps to forestall disorders. The police are making wholesale arrests of socialists and detachments of Cossacks will patrol the streets day and night until there is no further danger of trouble.

DISORDERS IN JAPAN.

Tokio, April 30.—Serious disorders have broken out at the coal mines near Hamaori, in the Honkaido administrative district, where 2,000 miners have struck work. The strikers have burned the office buildings and a number of residences. Sharp collisions occurred between the strikers and police and numbers on both sides were wounded.

UP-TO-DATE SUMMARY OF THE STREET CAR SITUATION.

All cars are running on regular schedule this morning. One car to each run went out at 6:30 o'clock this morning, and the remainder were put on between 10 o'clock and noon.

At 9 o'clock the men held a ratification meeting in their hall, and marched to the car barns, behind their band. H. T. B. Grey turned the force over to Supt. Arnold in a neat speech, which was replied to, in a speech of acceptance.

Peace was arranged by Hon. B. H. Roberts, who secured from the company a concession to the men's demands for an increased wage scale. They will receive, during from May 1, 25 cents per hour for the first year, and 30 cent per hour thereafter. All other questions were dropped.

The present working agreement, which was declared void by the men on announcing their strike, is being reconstructed with amendments embodying the requests for alterations made by the men, except that calling for recognition of the union, and a closed shop.

There are in the service 74 men now receiving 27 cents per hour, 111 men receiving 25 cents, and 89 receiving 20 cents. The company announces that the raise means the distribution of \$50,000 additional salary among the men.

Tonight a public ratification meeting will be held at midnight, at which the carmen will celebrate the happy outcome of the difficulty.

A special purse was raised today by small contributions from each member, to give C. O. Pratt some token of appreciation for his efforts. A silver service for his wife was considered as the probable selection. Mr. Pratt was guest of honor at a social meeting of the executive committee of the local union this afternoon. He will probably leave here tomorrow night for San Francisco, although he refuses to give out his destination.

The electrical workers were in conference for five hours today with B. H. Roberts, who declared at 1 o'clock that negotiations were on, looking to a settlement of their difficulties without a strike, and that the situation looked hopeful.

While there is a recognition of Pratt on the one side, it is more than hinted that there will be substantial reward by the company on the other to the twenty-three men who stood by their posts in the crisis just past.

PRESIDENT AS A SOCIOLOGIST

Answers "The Doctor in the Public School" on Question of Race Suicide.

A PROBLEM OF CIVILIZATION.

Greatest in the Fact That the Well-to-Do Families Tend to Die Out—Apologists Condemned.

New York, April 30.—In a letter to the editor of the Review of Reviews, President Roosevelt takes exception to certain statements made in an article on "The Doctor in the Public School," published in the April number of the periodical, and takes occasion to renew his expressions on the subject of race suicide. "This writer states clearly," says the president, "that it is an erroneous idea to assume that the average family should have a larger number of healthy children than the present birth rate shows. The vital statistics of a state like Massachusetts shows that there the average native American family of native American descent has so few children that the birth rate has fallen below the death rate. This, of course, means race suicide, and it ought to be understood that after a while there are no children to go to school the question of their health in school would not even be academic."

"Our people could still exist under all kinds of injustices in government; under a debased currency; under official corruption, under the rule of a socialist proletariat, or a wealthy oligarchy. All these things would be bad for us, but the country would still exist. But it could not continue to exist if it paid heed to the expressed or implied teachings of such articles as these."

HAS A JUROR THE RIGHT TO VISIT SCENE OF CRIME?

New York, April 30.—Excessive zeal by a juror in the murder trial of Mme. De Massy, now proceeding in the criminal branch of the supreme court, caused an abrupt adjournment of the trial yesterday and may result in a mistrial. Mme. De Massy, who is reputed in some quarters to be a baroness, is charged with having fatally shot Gustav Simon, a waist manufacturer, last November in his office in a Broadway business building. A dispute over the wages paid is said to have led to the man's death.

The juror whose absorption in the case caused summary action by Justice Blanchard, who is presiding over the case, is George W. Guernsey, a bookkeeper. Without asking the permission of the court or being accompanied by any fellow jurors, he visited the scene of the alleged crime and examined a stairway there. Justice Blanchard hastily adjourned court to give himself time to consult authorities before deciding whether the trial can go on under these circumstances. Guernsey's action was learned by the rather startled court from the juror himself. A policeman was sent to the scene of the alleged crime and examined a stairway there. Justice Blanchard hastily adjourned court to give himself time to consult authorities before deciding whether the trial can go on under these circumstances.

Guernsey's action was learned by the rather startled court from the juror himself. A policeman was sent to the scene of the alleged crime and examined a stairway there. Justice Blanchard hastily adjourned court to give himself time to consult authorities before deciding whether the trial can go on under these circumstances.

Guernsey asked permission to make a statement, but his request was refused. "I do not want any statement. I do not know what effect your action may have on this case, though," he then adjourned court until today.

FIRE IN LEESVILLE, IA. Leesville, La., April 30.—Fire started early today in the Regal hotel, and spread rapidly, destroying buildings, in which were housed a business firm, including the First National bank and the Leesville National bank. Loss estimated at between \$100 and \$200,000 with insurance of about \$200,000.

The origin of the fire is unknown.

WOMAN BURNED TO DEATH. New York, April 30.—Miss Sarah Mc Dowan, 31 years old, was burned to death early today in a fire which damaged the five-story tenement at 234 East Fifty-ninth street. Miss McDowan lived on the top floor and her escape was cut off by the flames. The firemen made several attempts to rescue her but failed.

LOOKING AFTER UTAH INTERESTS

Rep. Howell in Washington Visits Different Departments in Behalf of Constituents.

FREE DELIVERY FOR MURRAY.

Will be Instituted as Soon as Postmaster Thomas Returns, Which Will Be Next Week.

(Special to the "News.")

Washington, D. C., April 30.—Representative Joseph Howell, who has just returned from Jamestown, will remain in Washington until Thursday, looking after Utah interests in the different departments. Mr. Howell called at the postoffice department today and secured the appointment of one additional carrier for the Salt Lake office and for an extension of the free delivery service to Murray. He also discussed several pending appointments of postmasters of the presidential class and was assured that matters will remain in statu quo for the present. Concerning the Jamestown exposition, Mr. Howell said that it will be a month before the exposition proper will be fully ready, but the naval and marine display is well worthy of a visit from those unfamiliar with the various types of naval vessels and other types of water craft. Mr. and Mrs. Howell will sail from New York on the S. S. Celtic for Champsaur on their way to Paris on May 4, and will remain in Europe during the months of May and June.

POSTMASTER THOMAS. Postmaster Thomas, who accompanied Congressman Howell to the postoffice department, has been informed by First Asst. Postmaster General Hitchcock that as soon as his recommendation is received in the department, the order for the extension of free delivery to Murray station will be made. Postmaster Thomas will file his recommendation today and the service will be put in operation as soon as Mr. Thomas reaches Salt Lake, which will be early next week. This will be shore

easily accomplished because of the recent change in the rules whereby the department will hereafter be governed solely by the recommendation of local records of local postmasters for extension of service and the appointment of additional carriers certified by the civil service commission as eligible instead of referring such cases to an inspector for report, as was formerly the custom.

BID FOR CEMENT.

The chief of the reclamation service has received bids for 10,000 barrels of cement for the Strawberry valley irrigation project, Utah, and the secretary of the interior will award the contract. The bidders are the Universal Portland Cement company, Chicago, \$1.30; Western State Portland Cement company, Independence, Kan., \$1.35; Portland Cement company, Denver, \$2.05 per barrel. All bids are for "free on board" at the place of manufacture.

IDAHO POSTAL MATTERS.

Gertrude Graham has been appointed postmistress at Eden, Weber county, Utah, vice P. R. Shupe, resigned.

Robert J. Deering has been appointed regular in Sawtooth, Louis D. Edwards, Warren, forest guard in Payette national forest reserve.

Alfred Christensen, Idaho Falls, and J. V. Williams, Arden, forest guards in Caribou national reserve.

IDAHO FOREST SERVICE.

These appointments have been made in the forest service in Idaho, to become effective May 1: Charles West, Boise, and Christopher E. Foley, Thunders, forest guards in Sawtooth; Louis D. Edwards, Warren, forest guard in Payette national forest reserve.

Alfred Christensen, Idaho Falls, and J. V. Williams, Arden, forest guards in Caribou national reserve.

NEW HOTEL AND THEATER BUILDING FOR CHICAGO.

Chicago, April 30.—A hotel and theater building, to cost nearly \$5,000,000 (including the ground on which it will stand), will be erected inside the elevated loop district of Chicago.

The theater will be the property of the United States Amusement company.

The outgrowth of the recent merger of Klaw & Erlanger and other syndicates, the hotel will be the property of the same people, although they will incorporate for this purpose under another name. A site for the structure has been practically agreed on, but will not be made public until another name, the final one to the deal, has been determined.

A. E. Erlanger, president of the company and its managing director, spent the day in Chicago yesterday. He left last night on a tour of inspection of the company's properties and will concern all over the country. He was in consultation for some time with Levy Mayer, counsel for the company and, afterward, he said the plans for the theater, which will be known as "The Chicago," had been drawn. The new theater is due to open within a year or so, and it is expected the hotel will be ready soon afterward.

TWO NEW CORPORATIONS.

Two new companies filed copies of their articles of incorporation in the secretary of state's office today as follows: Two Pine Springs Land and Livestock company. The capital stock of the company is \$200,000, divided into the par value of \$20 each. The directors are Jonathan Heaton, Alvin Heaton, C. E. Heaton, Junior Heaton and G. F. Carlson. The company will be known as the Pine Springs Land and Livestock company.

WORKING ON BIG ROBBERY.

Detective Smith of Los Angeles Looking Into Daynes Burglary.

A thief track who announced himself as "Detective Smith from Los Angeles," is in the city, and is at work on the big robbery which occurred at the Daynes jewelry store recently. Whether or not Mr. Smith is a member of the Pinkerton force or from a private agency is not known. Mr. Smith is not giving out any information and Mr. Daynes said he didn't know. The latter was asked this morning if his firm had employed Detective Smith and his reply was: "Well, not yet."

On Main street today there is not the slightest evidence that there ever have been two days of serious street car trouble. The drug stores took in their supplies of foot-cases from the display windows, and the merchants were happy smiles while they watched their usual supply of customers pour off the cars, and enter to make three days purchases in one.

The only man in town who hadn't a happy smile was Sergeant Hempel, who spent the morning interviewing tailors and taking bids on a new uniform to replace the egg besmear garment which he wore while making the one lone arrest credited to the police department during the carnival of rioting.

In the final settlement the company retained its position rigidly against men to the government of its treatment with any but employees, and against granting union recognition, while it conceded to the demands of the men for more pay, that was the only concession it made.

Among the men gladness was of the unconfined variety which expressed itself in a parade to the car barns this morning with their band playing lively tunes, and the men cheering for their old superintendents and foremen who were ready to receive them back to work. In the interchange of compliments at the barns, National Vice President H. T. B. Grey, who is one of the oldest employees in the car service in Salt Lake, made a speech in which he complimented the men on their behavior during the strike, and congratulated them on their happy termination. O. P. Arnold, Jr., assistant superintendent, who received the men, responded in behalf of the company in a way to bring forth a hearty cheer and bury deep all ill feelings of the past few days.

IN SECRET SESSION.

At the Kenyon hotel the executive committee, with officials of the Federation of Labor, went into a protracted session this morning to talk over the situation, and to make a recommendation of what had been accomplished. At noon they went to lunch in a body, after which they adjourned to put on their hats and go to the police station to see whether it is fully sustained.

PRESIDENT LAMONT'S VIEWS.

President J. H. Lamont of the local union declared at noon that he wished to express the appreciation of the carmen to the government of its treatment with the union, who seized the opportunity to engage in violence and rioting. "And I wish you would mention," he added, "that we voted to fine any carman \$25 who was found on the streets of Cleveland, today rescinding instructions sent yesterday to join him at Salt Lake, and prepare for a long stay here through a protracted struggle. He said this morning that he was very much surprised and equally delighted at the turn things had taken."

TO AGITATE ELSEWHERE.

G. P. Pratt began to pack his trunk this afternoon, to go tomorrow for San Francisco, probably, although he does not admit that that city is his destination. He wrote a long letter to his wife, and a shorter one to the outskirts of Cleveland, today rescinding instructions sent yesterday to join him at Salt Lake, and prepare for a long stay here through a protracted struggle. He said this morning that he was very much surprised and equally delighted at the turn things had taken."

FUNERAL OF WELL KNOWN REVOLUTIONIST WOMAN.

St. Petersburg, April 30.—The funeral today of Mme. Maszheda Baradina, a well known revolutionist, who, contrary to the usual custom, the greatest interest in revolutionary circles, on account of her romantic history. Mme. Baradina was the daughter of a rich manufacturer of good social position and left her home to engage in the revolutionary propaganda. She was sent to Kiev, where she was arrested and imprisoned for two years, being released in October, 1896, on condition that she go abroad, where she met Mr. Baradina, who was known as an energetic member of the organization, and married him. A few days ago Mme. Baradina accidentally opened a letter showing that her husband was a traitor who had planned the arrest of an important group of terrorists and even proposed to bring his wife back to Russia in order to deliver her into the hands of the police. The police advised him to delay the matter in order to avert suspicion. Mme. Baradina, after reading the letter, took poison.
