PRICE OF GOLD.

Bought by BANK OF DESERET, SALT LAKE CITY, September 8, 1871, at $1.10; Selling at $1.12.

WEATHER ITEM.—The highest point reached by the thermometer to-day was 78.

LOCAL AND OTHER MATTERS.

THEATRE.—As will be seen by advertisement there will be a performance at the above to-morrow (Saturday) evening. The entertainment will open with the interesting drama, "Miriam's Crime," after which the charming little public favorite, Georgie Clawson, accompanied by Joseph Daynes, will sing the beautiful temperance song, composed by E. W. Clift, "Has Father Been Here," chorus and orchestra. The performance will conclude with the sprightly and fun-making piece, "To Oblige Benson." A good programme should attract a full house.

SILVER MINES.—From Mr. J. F. Alexander we learn that the Camp Floyd district is opening rich, and the spirits of the miners are excellent. The Maryland mine has been sunk to a considerable distance; about two weeks ago the owners struck a cave of rich mineral, which, our informant says, as he ever saw. Some of the rock will produce as high as $500. Mr. R. himself is sinking a shaft on the flat. He has reached a depth of about 30 feet, and has struck good miner-als. He is putting in a cut for water, and is succeeded in obtaining some; he expects that it will be a success. Professor Tuck is making arrangements for the erection of a mill in that locality. He expects to have a furnace on the ground in about six weeks. The Professor owns the mine Silver Queen. Altogether the miners feel much encouraged at their prospects in that district.

SICKNESS.—Considerable sickness prevails in this city and vicinity, probably induced partially by the long continued heat of the month, and the checking of the heat by the cool nights. The sickness is mild, as usual in the Fall, derangment of the stomach and intestines, with some cases of typhoid fever. As the evenings become cooler, greater care of the health is advisable, or colds and other affections arising from keen climatic changes are likely to increase in prevalence.

STREET PERFUMERY.—Everybody has heard of the "spicy breezes" and of "Araby the blest," but anybody can pass any day through any of the streets of our city, and the perfume is remarkable. Of course it all comes of the dry weather. But it seems to us that some municipal regulation and improvement thereof will be necessary, or at least exceedingly grateful to the olfactories, to bring about a removal of corrals, stables, piggeries, chickencoops and all sorts of similar outbuildings to a greater distance from public thoroughfares than is now the case, or otherwise to require early removal of offensive matters, and the liberal use of what has been recently elsewhere urged—the dry earth cure. Rain would help, not much immediately but eventually. But rain, though it threatens, still refrains, and if it were to come liberally would not prove a "perfect cure." As a sanitary blessing, removal of the perfume breeding institutions to a more agreeable distance from the streets, and the use of the dry earth, on the Mosaic principle, will be the only satisfactory policy to be pursued.

SURGICAL OPERATION.—TUNNELLING FOR COAL.—Our correspondent at Fountain Green, Sanpete Co., writes, on the 6th inst., that the day previous to that date, Dr. Heber John Richards, of this city, amputated the right arm, above the elbow, of George Peterson, a boy 15 years old, and son of Lars Peterson of that place. The amputation was rendered necessary by injuries received by the lad in being thrown from a horse.

Coal was being tunnelled for a short distance west and south-west of Fountain Green, and a shaft was being sunk for the same object, there being every indication of the presence of an abundance of coal in the mountains thereabouts.

UTAH AND CALIFORNIA TRADE.—Large amounts of goods have been shipped to Salt Lake during the past week, consisting of liquors in bulk and case; also teas, rice, tobacco (pressed and in leaf,) cigars, rubber goods; also a large stock of China and Japan goods consigned to a new house. Salmon (in half bbls, and cases,) codfish, rope, shoes and boots, machinery, and a variety of goods too numerous to mention, have been forwarded. We welcome the Utah, Montana, Idaho and Nevada trade, and feel confident our people will do all in their power to make it to their customers' interest to buy in this market.—*S. F. Mail.*

Correspondence.

SALT LAKE CITY,
September 7th, 1871.

Editor Deseret News:—In my late roaming in the southern country, I fell in with an old acquaintance, who showed me a letter, purporting to be sent to him by a lady of this city. I was much amused on its perusal, to see how ingeniously, though a woman, a system of levying black mail was resorted to. The facts in the case are these:

My old friend was accused of committing some awful crime, the penalty f r which might be a life of imprisonment, and to avert so great a misfortune the kind hearted and generous lady proposed to stop all anticipated prosecution in that case if the snug little sum of one thousand dollars were sent to her. She was a woman of influence, and though a Gentile could sympathize with the unfortunate Mormons. She further says: "What a woman undertakes she will generally accomplish, and no trace of the crime should be found in the records of the Court." The letter was evidently copied by a female and contained just errors enough in orthography and syntax to hide the scholarship that evidently indited it. How could a woman know what the decision or ruling of a judge might be? I am a Yankee, and guess the woman must be in the judge who, fearful that evidence would not warrant conviction, wished to make a little money by levying black mail. Though we live in a very strict land, yet such transparencies will sometimes appear.

The foregoing is about the style in which I talked to my friend, and found that my views reflected his own, who said they could put in their eye all the money they got from him, and in this I felt that he was right.

I am, most respectfully,
AN OBSERVER.

DIED.

In the 13th Ward of this city, at 7 o'clock last evening, of lingering consumption, Mr. Chas. F. Jones, late of Birmingham, England. His funeral services will take place at residence to-morrow morning at 10 o'clock. Friends are invited to attend.

At Coalville, Summit County, September 1, 1871, MILDRED ANN, daughter of Isaac F. and Mary Ann Shaw, aged 2 years and 4 months.
Mill. Star, please copy.

At Spanish Fork, Sept. 6 MARY ANN, daughter of William and Susan Boyack, aged 1 year, 7 months and 26 days.

At Wales, Sanpete Co., Aug. 29th, after an illness of fourteen months, of consumption, MARTHA FIELD, aged 62 years and 8 months, she emigrated to this country in 1856, crossed the plains in Edward Bunker's hand-cart company, and died, as she lived, in full faith of the gospel. She leaves many friends to mourn her loss.

At Providence, Cache county, August 30th, MARTHA ANN, wife of Charles M. Johnson. Born Aug. 19, 1826, in Averill District, South Carolina, England; united with her husband in Nauvoo in the spring of 1846, and moved to Winter Quarters in 1847. She first her husband on the banks of Salt Lake Valley in 1848. She was much beloved and respected by all who knew her, and lived and died a faithful Saint.—Com.

NEW REFORM.—The introduction of Soda Water and Sarsaparilla, by Day & Co., has done more in the way of a Temperance Reform than all the lectures that have been delivered in the country. The natural condition of man is a thirsty one, and it has long been an established fact that water will not quench thirst. The question then arises, can we find a substitute as harmless in its effects, and more delicious in taste than anything yet discovered? We find it in Day & Co.'s Soda and Sarsparilla. If every one would sign the Pledge and drink nothing but this Celebrated Beverage, much degradation, misery, shame and crime would be prevented in the world. If any one doubts the truth of our remarks let them step into the first place they come to and try it. It will vouch for itself.
