# DESERET EVENING NEWS: MONDAY, MAY 9, 1904.

water in the mine. The roads are im-proving slowlyl.—Park Record.

Work at the American Flag is progressing under the most encouraging conditions. The 700 and 1,000-foot levels are especially promising and from all appearances will yield more and rich-er ore as development continues. Some very fine ore is being sacked and stored on top and it will not be long before the shipping will begin -- Park City Miner.

Martin McGrath, who with A. F. Mayne has been working the Kentucky group of eight claims adjoining the Cre-STILL IN THE DARK and King, has just put in a whim his property. The shaft is down 300 t and has cut the Woodside contact. There has also been about 600 feet of exploration work elsewhere. It is the intention to sink another 1,000 feet and drift for the lower contact.—Park City

Miner. LOCAL MARKETS.

# A number of minor changes have oc-curred today in the local markets. Po-tatoes have risen 10 cents per bushel, and are new \$1.20, due to the lateness of the season, and the bad roads that have prevented the farmers from hauling heavy loads to market. In green gro-cories there have been a number of changes towards lower prices, owing to the advanced spring. In fish, sea heave white fish and Mackinaw trout to the advanced spring. In fish, sea bass, white fish and Mackinaw trout are in the market. The slight fall not ed in flour products was stated in the "News" late last week. The prices ob-

Would Require Much Capital and Rich Ore to Make Mining Profitable There.

Henry M. Crowther, who was called the domains of Diaz to examine into a mining proposition for eastern clients, has returned; having come in on a late train Saturday night. While he considered it would be unprofessional to say anything about the particular prop-osition he went to exploit, he did say his investigations carried him into the peninsula of Lower California. The country, Mr. Crowiner states, is one of the most barren he ever laid his eyes on and conditions are such that any mining proposition must have great merit to it to be made to pay. Besides much capital would be required.

During his absence work has pro-ceeded in a very satisfactory manner at the Continental-Alta mine at Alta, of which he is manager. Notwithstand-ing that the roads are soft, ore shipments are coming down to the smelters regularly.

At the Blue Acre in Beaver county, also being piloted by Mr. Crowther, de-velopment has moved along steadily and without anything happening which tend to discourage.

# STOCKS SALES LIGHT.

#### Little Business Transacted on the Mining Exchange.

There was little done with mining stocks today. The total sales this forenoon brought \$836, representing the transfer of 4,300 shares. Consolidated transfer of 4,500 shares. Consolidated Mercur opened in good order and closed firm. Daly-West did not participate on the sales at all, but it closed with a bir of \$21. Daly sold on the open board at \$2.50

are heavily interested. The distinguished officials arrived Saturday afternoon and took up head-quarters at the Knutsford. They will leave on the return trip tomorrow. Governor Dunbin is a distinguished character. He was one of the young-ment of the young-In speaking of his visit to the mine last week, President McMillan express-ed himself as being favorably impressed and thought the outlook for the fu-ture is anything but discouraging. The report of the special committee dele-rested to make an express extinuation est soldiers in the Civil war and dis-tinguished himself many times upon the field. In the war with Spain he commanded an Indiana regiment as its colonel, and was commended by the war department for spiendid service,

### FIGURES ABOUT STONE.

## The Geological Survey Gives Out Information on the Subject.

Limestone, not including furnace ux, increased more in value of production during 1902 than any other kind duction during 1902 than any other what of stone. The production for 1902 was valued at \$24,959,751 and for 1901 at \$21,-747,061 showing a gain of \$3,212,690. The value of limestone used for blast iur-nace flux and not included in the above ncreased from \$4,659,836 in 1901 to \$5,-71,252 in 1902.

Granite, including trap rock, increas, ed from \$15,576,961 in 1901 to \$18,257,944 in 1902. The trap-rock production increas-ed from \$1,710,857 in 1901 to \$2,181,157 in

Sandstone, including bluestone but not including grindstones and whet-stones, increased from \$8,138,680 in 1901 to \$10,601,171 in 1902. The value of blue-stone, included in the above figures, was practically the same for 1901 and 1902, being \$1,164,481 in 1901 and \$1,163,525 in 1902,

The value of marble production in-creased slightly in 1902. For 1901 it was \$4,965,699 and for 1902, it amounted to \$5,044,182 The sinte production in 1902 increased

in value from \$4,787,525 in 1901 to \$5,696,-51 in 1902.

GETTING ON SPLENDIDLY.

R. E. Waterman Returns from Sloux City-Promoting a Coal Project.

Ralph E. Waterman, who, with his Raiph E. waterman, who, with his uncle, Ed Waterman, are promoting a coal mining proposition near Rock Springs, Wyo, has arrived from Sloux City, his present headquarters, to spend a few drys with his parents. Mr. V., erman says splendid head-way is being made with the opening of the parents that

of the proposition and anticipates that next summer's work will place it in or-der for the production of "black dia-monds" for the fall trade,

# UTAH DIRECTORS.

#### A Dividend of \$1,000 Will Probably be Posted Today.

The directors of the 'Jtah mine, of the Fish Springs district, are scheduled to meet at 4 o'clock this afternoon. It is expected that the usual dividend of a cent a share, or \$1,000, will be posted. A letter received from Supt, Charles Crismon this marring stated that Crismon this morning stated that conlitions at the property continue to look encouraging and the a carload of ere ts expected to leave Oasis for the valtey smelters tomerrow morning,

# TONOPAH ANNUAL REPORT.

#### The Gross Receipts of Company Last Year Exceeded \$615,000.

The annual report of the Tonopah Mining company has reached local shareholders. The financial statement shows that the company's fiscal year spened with \$187,329,10 on hand. Re-relpts from smelter on the 4,066 tons of pre shipped were \$598,224,29; from roy-titles \$12,430 was collected, while the receipts from other sources amounted to \$4,812.03, or a total of \$615.475.32. Thus the total resources are shown to be \$802,804.42.

The diabursements for the year amounted to \$557,520.75, leaving a bal-ance in the treasury of \$215,783.67. The postt of operating at Tonopan, including mining, superintendency, engineer-ing, machinery, insurance, taxes, freight, etc., was \$480,404.74. On rail-road account \$259,880.28 was checked out, the other disbursements being divided between interest on preferred stock,

kinds of stone for 1902 was \$64,559,099. By far the largest producer among the states was Pennsylvania, which constates was Pennsylvania, which con-tributed \$12,589,202 of the total \$64,559,-099. Pennsylvania's production in-cludes every kind of stone. Vermont, which, with a production of \$5,889,208, stands second in the list, produces no sandstone. Ohio, producing only lime-stone and sandstone, valued at \$5,280,-472, is third. New York is fourth, fel-lowed by Massachusetts, Maine, Illi-nois Indiana and California each of nois, Indiana, and California, each of which has a production of over \$2,000,.

Further details regarding the pro duction of stone in 1902 may be ob-tained from the report on that subject contained in the annual volume of Min-eral resources published by the United States geological survey.

# NEVADA'S MINERAL EXHIBIT.

5% 17 3-1

Visitors to St. Louis Fair Find Some thing to Interest Them There.

Nevaúa's exhibit in the mining build-ing at the St. Louis fair is most favor. ably situated near one of the main enably situated near one of the main en-trances, and no visitor can miss seeing it, says a Nevada paper. This building is itself a size that covers 20 acres. Ne-vada people can form some idea of its extent by comparison. Practically it would cover 20 blocks in Carson City. The thing that is causing more interest and more comment than anything among the exhibitors, is the 29-mule team which illustrates the method of transportation of borax from Death valley, and which takes in the grounds Death twice each day. This is more worthy of attention when it is known that no worthy other exhibitor was allowed to make other than a stationary exhibit. Nevada's mining exhibit eclipses them all in Mr. Yerington's opinion and he looks to see the state realize very heav. ily upon its investment.

## AT THE SHEBA.

### A Gravity Tramway Being Installed-

Some Recent Appointments. Ed Copley, who has been making an aspection of the Shoba mine in Humboldt county, Nevada, and other propa-sitions in which he is interested, has returned home. He brought in with him a large lot of samples from the Sheba, Conditions in this property are ported to be very encouraging indeed 'he mill is running and is turning out

nice concentrate. The company has now under con-The company has now under con-struction a gravity tramway, about a third of a mile in length, which will connect the lower tunnel with the mill and thus greatly reduce the expense of handling the product of the mine. C. D. Morrison has been made super-intendent of the mine and mill; J. A. Kunkel, mine foreman, and G. E. For-rester, mill foreman.

rester, mill foreman. Tonopah-Salt Lake Meeting.

The adjourned session of the meeting f the stockholders of the Tonopah-Salt Lake Mining company is in session this afternoon to decide on the matter of consolidating with the Jim Butler-

Tenopah Mining with the similar Tenopah Mining company. At the last meeting a statement was made by Charles E. Knox, of Phil-adelphia, who is extensively interested in Tomopah, to the effect that it was possible for the present Solt Lake stockholders to get a cash offer for their holdings if they chose to dispose of them. Accordingly an adjournment was taken unvil today. Mr. Knox pas wired that the stock will be accepted on the basis of 50 cents a share. Many of the local shareholders favor its acceptance

WILLIAM H. CHILD 221 Dooly Bik., Salt Lake, 'Phone 1042-K. Industrial, Utah Bank and Mining Stocks BOUGHT AND SOLD.

quarterly instead of monthly as has been the case heretofore, and on the basis of \$1.25 per share, or \$5 per /enr

Several of the directors are in favor several of the directors are in favor of this. Besides, it is argued, a quar-terly dividend would satisfy eastern shareholders better than one coming monthly and lessen the burden of the staff of the local office very materially. It is believed, too, a \$1.25 dividend will have a tendency to strengthen the stock and orticablish a more uniform relieved. and establish a more uniform price.

# CONCENTRATES.

Silver is quoted higher again today. Superintendent John Rhodin of the American Flag mine of Park City was n town over Sunday.

E. W. Griffith, accompanied by George Wilson, expects to leave for Nevada tonight on mining business.

Henry Catrow, secretary of the Ohio Copper company, and wife, are expect-ed to arrive home from thelh bridal tour tomorrow.

President George Crismon of the Utah mine at Fish Springs, expects to leave for Canada in a few days on a business errand.

E. A. King, one of the heaviest stockholders in the Tonopah-Belcher mine of Tonopah, is expected to arrive in the city almost any hour.

President and General Manager Tony acobson, of the Columbus Consolidat-d, is expected to arrive home from his eastern trip tonight.

President White and Manager Dun-can McVichie of the Bingham Consoli-dated, are inspecting the Eagle and Blue Bell mine in Tintic today.

The leasers at work on the Chloride Point property of Lion Hill are raising some good ore and will have a shipment in the local market in a few days.

Shipments from the mines of Park City last week amounted to 5,258,320 pounds. From the Daly-West, 2,794,000 pounds were shipped; from the Silver King, 1,749,320 pounds; from the Ontario, 686,000 pounds; from the Creole, 35,000 pounds.

H. C. Brownlee was seriously injured yesterday while attempting to get abroad a First South street car. He slipped and while reaching forward to save himself from a fall struck the fen-der with his left hand. His ring caught in the metal work, resulting in the flesh of the ring finger being badly lacerated.

The air pipes at the American Flag are all in and the compressor is now working very satisfactorily. Superin-tendent Rhoden states that work is progressing much faster now that bad air causes no trouble, though the spring thaw is causing considerable surface

MARKET OPENING SLIGHTLY EASIER.

New York, May 3.-The stock market today opened with a slightly easier tone for the more important spe-Rallroad stocks were dalties. for the most part unchanged. Prices drifted slowly downward on scanty offerings. Pressure against some of the specialties and the absence of any inquiry for the standard stocks contributed to the market's heaviness, Anaconda and Metropolltan Street Rallway declined I, Metropolitan Securities 11% and Kanawha & Michgan 2½, Woolen Goods preferred gained , Kansas City Southern 1% and Wells-Pargo 2.

Fargo 2. The market was slightly better but the demand was apathetic. Special stocks made sharp declines, New York Air Brake losing 2, Lackawanna 2%, New York Cen-tral 1% and Consolidated Gas a point. At noon bonds were irregular. Earlier losses in the opecialties were re-covered but Consolidated Gas relapsed to the lowest again on fresh selling. Not much interest was manifested in rull-road stocks.
