IMMENSE COAL PROPOSITION

Ogden People After a Mountain Of Fuel In Southeastern Utah.

SCHOOLS WILL OPEN SEPT. 10

Record Breaking Beef Crop Assured—Elisha Bingham Injured in a Bicycle Accident—Wedding.

Ogden, August 25.—"A mountain of coal" was the report brought back by I. L. Reynolds, secretary of the Weber club and about 20 other prominent citizens who have just returned from a week's inspection trip to the southern part of the state to a large tract of land in which they are interested. The gentlemen left Ogden by train, going from here to Price where they took a stage and drove to the coal lands located south of that place about 65 miles. The property was discovered about six years ago, and ever since then those interested have had some one on the ground continually prospecting it, and now they have a 30-foot vein of excellent coal equal to any on the market, and the strata on the mountain side shows the entire mountain to be a bed of coal, as it crops out all over the surface. The land is not included in that which the government has recently withdrawn from entry. There are over 20,000 acres of land the gentlemen claim which shows evidence of coal, and an effort will be made to get sufficient men to locate on the land so it can be patented and then it will be opened up and the coal placed on the market.

SCHOOLS OPEN SEPT. 10. Changes in Teaching Force—Question Of Military Training In High School.

Ogden, Aug. 25.—The board of education decided last evening at its regular meeting to open the Ogden public schools on Sept. 10. The question of military training at the high school was discussed and the board decided to refer the matter to the president and superintendent to further investigate and report at the next meeting. The janitors who served last year were reappointed at all the schools at the same salary. Miss Katharine Woodcock, who was graduated last year and was tendered a free scholarship at the state university, declined the same, and someone else desiring the same may be able to secure it. Florence Pohlman, who was engaged to supervise the kindergarten and primary departments, resigned, claiming that her understanding of the appointment was that she was only to supervise the kindergarten work. The resignation was accepted. Edwin G. Nowitz, Ida D. Tanner and

SERIOUS BIKE ACCIDENT.

Elisha Bingham Runs Into Open Trench and Badly Bruised.

Ogden, Aug. 25.—Elisha Bingham, the insurance man, met with a painful injury last evening, by being thrown from his bicycle into a sewer trench. He had been visiting with friends on Twenty-seventh street with Austin Wintle and the two started home on their bicycles. The night was very dark and the open trench could not be seen sunning out into the street. They were riding at a fair speed, when near the bottom of the hill Mr. Bingham's wheel struck the opening about three feet deep. He was thrown head-first into the trench and struck heavily on his head and shoulders. His wheel came in on top of him. Mr. Wintle, who missed going in also and quickly stopped his wheel and rushed back to Mr. Bingham's assistance. He found him lying on the bottom of the trench unconscious. With the aid of others he was lifted out, but did not regain consciousness for some time. He was taken to his apartments and later to his parents' home in Wilson, this county, where Dr. Rich is attending him. While no bones were broken he received a severe shaking up and some bad bruises, which will lay him up for a week or more. There was no light or danger signal at the trench to warn anyone coming down the hill, which would appear to be gross carelessness on the part of someone.

IMMENSE BEET CROPS.

Promising Prospects of Greatest Output in History of the Industry.

Ogden, Aug. 25.—Those who planted sugar beets this year will have no cause to complain, as the prospects are for the greatest harvest in the history of sugar beet raising in Utah. The acreage planted in Weber county this year was not so large as in former years, only 3,700 acres having been planted, but according to estimates made by the officials of the Amalgamated Sugar company, the production will be much greater than last year. The season has been unusually favorable to the beet growers. The recent rain storms it is estimated increased the yield 5,000 tons, and if a couple of weeks of warm weather comes now the saccharine will be increased, bringing the beets up to the required percentage in sugar qualities. The sugar beet harvest in Cache county will be almost double that in Weber county.

this year. This will be quite a change from other years, as beets have had to be shipped from Ogden to the Logan factory to make the run there a success.

The Amalgamated Sugar company's factories have been thoroughly gone over and are now ready to make the season's run. The beets are now being tested and the opening run to see that the machinery is in running order may be made about Sept. 10.

PERRY IRRIGATION CO.

The Perry Irrigation company has filed its articles of incorporation with the county clerk. It is incorporated for a period of 50 years, with Ogden City as headquarters. It is capitalized for \$10,000, divided into shares of the par value of \$20 each. The company is organized for the purpose of constructing and maintaining canals and laterals, to furnish water for irrigation and culinary purposes. There are a large number of incorporators who own tracts of land for which they expect to get water for irrigation purposes, which will greatly enhance its value. The officers elected for the ensuing year are: Conrad Layman, president; William Field, vice president; S. W. Perry, secretary and treasurer, and they with John E. Alfred form the board of directors.

CATARRH A DANGEROUS DISEASE.

People grow so accustomed to having "Slight Catarrh" as they term it that they neglect it, until it reaches a dangerous point—and then they gladly pay double what it would have cost in the first place to have it cured. We are becoming a Nation of "Sitters." Stand on the street corner any day—and watch the crowds. You will see men after man hawk and spit while refined ladies hold their ears, and give them wide berth—and the men never know why they are repulsive to women. The ladies themselves are not all guiltless—for you will see many fashionably dressed ladies stop to the curb and do the same thing, and a blush of shame creeps over their faces because "THEY CAN'T HELP IT." This filthy habit, which has become so dangerous that it was necessary to pass an ordinance prohibiting spitting on the streets—CAN BE STOPPED IF the people would wake up and have their Catarrh CURED. Banish the street spitter, banish the cuspidor from the home—don't contaminate young and healthy ladies and children, CURE THAT CATARRH NOW—and you will feel better yourself and not be repulsive to friends. Come to Drs. Shores' offices any time before Friday night and DR. SHORES WILL TREAT ALL WHO APPLY WITH CATARRHAL, CHRONIC DISEASES FOR \$1 PER TREATMENT OR \$15 FOR A COMPLETE COURSE, UNTIL CURED. CONSULTATION FREE AND CONFIDENTIAL FOR ANY DISEASE.

WE TREAT AND CURE

HOME TREATMENT

To properly administer this new Catarrh treatment at home, Drs. Shores have secured two kinds of instruments for use of their patients who cannot call at the office. One for cleansing and removing the membrane, anti-septic and one for administering the curative oils direct to the diseased membrane. These two instruments are given FREE with each full course of treatment, and the entire course, including instruments and medicines to completely cure is \$15 only. Remember, this does not mean \$15 a month, but \$15 for a cure. There is no more "treating by the month" for Catarrh since this new discovery came quickly and surely.

SPECIAL DEPARTMENT FOR MEN.

Drs. Shores have a Special Department exclusively for the treatment and cure of all diseases of Men, no matter how caused. You may consult Drs. Shores about the most delicate and embarrassing troubles, with the assurance that you will be given honest advice and skillful treatment, and everything will be STRICTLY PRIVATE AND CONFIDENTIAL. Men who are weak and failing—the victim of Blood Poison and all others who need the counsel and aid of experienced and kind physicians, are cordially invited to consult this department and be advised FREE OF CHARGE.

WEAK MEN.

So-called "Weakness" in men is merely a symptom of chronic inflammation in the prostate gland, brought on by early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is therefore, a question of restoring the prostate gland to its normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely. It is original and scientific, and has been proved absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.
