U. P. BRAKEMAN'S SERIOUS WISHAP.

Was Knocked from Train Into Weber River and Nearly Drowned.

COMMENCEMENT EXERCISES.

Of City and County Schools and Weber Stake Academy.—Death of Mrs. Sarah B. Slade.

A. M. Bruce, a Union Pacific brakeman, had a narrow escape from death yesterday afternoon and his injuries may yet prove fatal. Mr. Bruce was on duty coming down Weber canyon about 3 o'clock yesterday afternoon. He was riding on top of a large freight car looking after the brakes, as the train has to be managed very carefully coming down the canyon. When the train came to one of the bridges over Weber river Bruce evidently did not see it and was struck on the head a severe blow, which knocked him from the moving train to the Weber river below, a distance of about 20 feet. The train crew missed him a few moments afterwards, and as they were going very slowly the train was stopped and the crew went back and found him in the water. He was taken to the Ogden General Hospital where the company's physician attended him. It was found that his skull was very badly fractured and he received serious injuries in the fall, and doubts are entertained as to his recovery. Bruce is a young man who just came to Ogden and entered the Union Pacific's employ. He is not much known in Ogden, but has relatives and friends in Evanston.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided. Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. CO-OP STORE BURGLARIZED

Last Saturday night the Lower Canyon Co-operative store was broken into by two men by breaking through the transom at the rear. While a close watch is being kept by the county and city officials, nobody has yet been apprehended for the deed.

A deal has been consummated which has been under consideration for some time whereby the United States Smelting & Refining company has purchased from Otto Hudson and S. J. Taylor their large limestone deposits near the Twelve Mile Creek valley, about 10 miles south of Mercur. The consideration is supposed to be somewhere around \$7,000.

A move is on foot to have the base ball team of the leading towns in Utah county join together and form a county league. It is expected that the presidents of the various clubs will meet together soon to perfect arrangements for a series of games for the present summer.

Decorations day was spent very quietly. All the graves had been cleaned off during last week, and the day was solemnized by the people by putting flowers on the graves of the dead.

Our town has had a trying time of it. First, a number of petitions were sent to the interior department at Ottawa. Finally, one with proper wording, explaining all our hopes and aspirations, was sent, and soon we received papers for a preliminary survey of the town.

At the preliminary survey, the government would abrogate the settlers from living on their homesteads; the government would receive \$4 per acre for townships. The town plat is now surveyed into lots one acre each, with 20-acre public square in center. The Belly river runs parallel, flowing to the north street, while the Crownest Road passes along the

The town plat is now surveyed into lots one acre each, with 20-acre public square in center. The Belly river runs parallel, flowing to the north street, while the Crownest Road passes along the

south boundary of Tabor. The town coal mine is in operation, putting out No. 1 coal, and is located two miles from center of town, north. Town lots are being sold for \$17.50 and \$25 each. A number of good wells have been dug, depths ranging from 15 to 30 feet.

Less than one year ago there was nothing in the way of shelter but a few wagons. Today 50 comfortable dwellings are being built, and many more are on their city lots. The town has one general mercantile store, three implement dealers, two lumber and timber merchants, two blacksmith shops, and a contracting and building firm, and the business enterprises are present.

Through the kindness of Thomas H. H. people have been permitted to assemble at the hall during the week days for worship. Latter-day Saints' wood has offered the use of his large frame house, centrally located, for Sunday services, rent free, and it was gladly accepted. Pine plank and chairs are used for seats, and covered with red blankets. But for the generosity of Messrs. Hull and Sherwood, the people would have been compelled to hold their meetings on the ground. The proceedings which always proceed the erection of public buildings have been made, and now a large town hall is to appear on the public square.

Thus far the spring weather has been ideal. Grains and garden truck are growing fast.

A social gathering with dance and program is to be held at Clark Sherwood's Thursday evening, June 3, for the sum of \$10.00. The school district is assured, the trustees appointed, and the work toward a schoolhouse is moving.
