

dict sentenced six counterfeiters to various terms of imprisonment. Five of the members were Sicilians, members of a band of which Russo, already sentenced, was the head. One of them, Condetero Bettino, was an associate of the men now in prison for murdering Fiacchino. While the detectives were taking three of the Italian witnesses to court, three Italians walked from an alley and threatened the witnesses with death if they persisted in testifying. The detectives arrested them and locked them up.

New York, 30.—The seizure of the American steamer *Haytian Republic* has become an international episode, as may be seen by the following letter from Secretary of State Bayard:

DEPARTMENT OF STATE,  
Washington, Oct. 29.

Messrs. Lord & Austin, New York City.

Gentlemen—I have to acknowledge the receipt of your letter of the 27th inst., in which you inform the department of the seizure of the American steamer *Haytian Republic* at St. Marc, and request that in view of the serious state of affairs in Hayti at the present time, and of the jeopardy in which the lives and property of Americans are now placed, a man-of-war be sent thither immediately. The department has received information of similar purport from the United States minister at Port au Prince, and in reply has instructed him to protest instantly against the action of the Haytian authorities, and informed him that a man-of-war will be ordered to proceed to Haytian waters as soon as possible.

I am, gentlemen, your obedient servant,  
T. F. BAYARD.

The Department states it has received cablegrams from him fully explaining the situation which will be laid before the cabinet meeting today.

The navy department has been requested by the secretary of State to send a man-of-war to Hayti to look after American interests there which appear to have been jeopardized by the seizure of the American steamer *Haytian Republic* at St. Marc, and other disturbing events at Port-au-Prince. At present all of the vessels of the North Atlantic are laid up in the navy yards for repairs, except the *Boston* which is now at some Central American port beyond the reach of the telegraph.

LONDON, Oct. 30.—The Parnell commission reassembled today. Attorney-General Webster asked the court to enforce its order, giving the *Times* counsel permission to inspect the books of the League in the keeping of the Hibernian National and Munster banks. Sir Walter Palfreman, counsel for the Hibernian Bank, contended that the commission has no power to compel the production of the books. Presiding Justice Hannen said he would not discuss that question. If the banks, under color of protecting the privacy of their clients, obstructed the orders of the court, the court would be constrained to put its powers into force.

Sir Charles Russell, counsel for the Parnellites, intimated that his clients had not the slightest objection to the production of the books.

The court then heard formal evidence proving the correctness of the shorthand notes of the speeches from which the Attorney General quoted in his presentation of the *Times* case last week.

WASHINGTON, Oct. 30.—Acting Secretary Thompson today received a long telegram from San Francisco, signed by Senator Hearst and others, informing him of the perilous situation of the crews of about a dozen whalers, supposed to have been wrecked near Herald Island, in the Arctic Ocean, and asking that a revenue steamer be sent at once to their assistance. There are said to be nearly 500 men in the party, in no condition to withstand the rigors of an arctic winter. The revenue steamer *Bear* is desired for the purpose of sending them provisions and clothing, without which it is said they will perish of hunger and cold. Acting Secretary Thompson visited the White House during the day and laid the matter before the President, saying that there was no vessel now in the revenue service in a fit condition for a winter cruise.

SALIDA, Col., Oct. 30.—On the Villa Grove branch of the Rio Grande road an air brake of an engine pulling a pile driver gave way. The engine shot down the mountain at a terrific speed, and jumped the track when rounding a curve, going down an embankment 30 feet. Fireman Ludlow and Conductor Vinson were killed, and Engineer Whitlock and Brakeman Allen were seriously injured.

POMONA, Cal., Oct. 30.—The National Democratic Committee has telegraphed the postmaster at this place to offer a reward of \$1000 for the name of the author of the Murchison letter, and to spend another thousand dollars in detectives and means to apprehend the author. Several republicans here who positively know the man say he lives here, and that neither Patrick Egan nor any non-resident whatsoever had anything to do with the letter.

LONDON, Oct. 30.—Sir Charles Russell, Parnell's counsel, raised a question regarding the order in which the evidence should be submitted. He said if the *Times* counsel conducted their case in a way anything like Attorney-General Webster's opening address they would never get to the bottom of it.

Justice Hannen said he hoped the evidence would be brought out in orderly sequence.

The attorney-general promised to consult the convenience of the parties implicated and said as far as possible he would apprise them of the order in which his side would submit their evidence. Adjourned for the day.

WASHINGTON, Oct. 31.—The acting Secretary of the Navy has detached Commodore Allen G. Brown from duty at the naval academy and ordered him to command the United steamer *Kearsarge*. She will be put in commission as soon as possible and sent to protect American interests in Hayti.

TERRE HAUTE, Ind., Oct. 31.—During the parade last night, Dollie Phillips, aged twenty years, was murdered on the street. She was standing and watching the parade when a man approached pointing a revolver at her and pulling the trigger, said: "There, take that." She fell to the sidewalk with a bullet in her head and died a few minutes later. The murderer, who escaped, is a man named Galloway. The cause of the shooting is unknown.

ST. PETERSBURG, Oct. 31.—The official statement regarding the accident to the Czar's train on Monday is as follows: "The train containing the Czar and Czarina and suite left Tarnovka at noon on Monday. While passing through a deep gorge near Berki the train left the rails. At the time of the accident the Czar and Czarina were in the saloon carriage at breakfast. When the first carriage left the track the rest of the train oscillated and the succeeding carriage keeled over. The saloon carriage, although remaining on the track, was badly shattered. The roof fell in but rested on a portion of the track, thus forming a shield for the occupants. It seems incredible that with such havoc among the occupants of the train should have escaped unharmed, but God protected the Czar and his family, who were taken from the debris uninjured. Some other occupants of the train received slight contusions. The only person severely injured was Gen. Scheremeteff, aide de camp of the Czar.

Grashdanin states the train was drawn by two engines, and consisted of several carriages besides the saloon carriage. The latter is of massive construction. The train was running 65 versts an hour. When the first engine left the track it plowed up the road bed and imbedded itself in the earth. The second engine ran on top of the first and was wrecked. The first and second carriages were also wrecked. They were occupied by court servants and railway officials, among whom was Baron St. Johnval, chief inspector of railways, who was badly injured. Generals Vannovski and Tcherevin, who were in the saloon carriage with the imperial family, received contusions. The Czar and Czarina remained at the scene some time, giving attention to the injured. Towards evening they returned to Zosowoje, the last station they left.

Religious services have been held throughout the Empire, giving thanks for the escape of the imperial family.

Grashdanin contradicts the official report of the accident in regard to casualties. It affirms that 20 persons were killed, including Captain Bresch, staff courier, three couriers, and eight soldiers of the railway battalion, and also says 18 others were injured. The imperial family passed over the Chackoff & Nicolaleff Railway last evening on the way to Gatschina; all well.

ROME, Oct. 30.—In receiving the Archbishop of San Francisco yesterday, the Pope complained bitterly of his position and of the action of the Italian government. He exhorted the Archbishop to stimulate American Catholics to a peaceful agitation for a restoration of his temporal power.

MINNEAPOLIS, Oct. 30.—The *Journal's* special: An attempt was made last night to burn the Canadian Pacific bridge at Headingley, Manitoba. The bridge was saturated with oil and considerably damaged. The fire is supposed to be the work of settlers who side with the government in the troubles with the Canadian Pacific.

The Manitoba legislature meets Thursday. The intention is to adopt retaliatory measures against the Canadian Pacific, which will probably include the removal of the exemption from taxation.

WASHINGTON, Oct. 30.—The situation of affairs in Hayti, according to reports received at the Department of State, has assumed so serious a phase that it has been decided to send the United States steamer *Boston* now running in the West Indies, but this plan was abandoned owing to the difficulty of communication with the vessel. Finally it was decided to send the *Kearsarge* now undergoing repairs at Norfolk, and Commodore Harmony today sent instructions to hasten work on that vessel so she can be put into commission in a few days. She will proceed direct to Port au Prince.

New York, Oct. 31.—The republican procession composed chiefly of colored men, met the democratic procession at Twenty-sixth street and Sixth Avenue today, and a riotous struggle ensued. Store windows were smashed and seven persons injured. The colored republicans far outnumbered the members of the Jeffersonian Association of the Ninth Assembly District, with whom they fought. Numerous colored inhabitants of the neighborhood fell to and assisted the colored paraders. Missiles flew in all directions, and hand-to-hand fights were everywhere. The stores were all closed between Twenty-ninth and Thirtieth streets and the shopkeepers

with drawn revolvers protected their property as best they could. A large force of police were summoned and quickly dispersed the rioters, and arrested several. Four men were seriously wounded, two of them being stabbed. Several shots were fired during the fray, but so far as learned did not take effect.

EL PASO, Oct. 31.—The Mexican Central passenger train was held up sixty-two miles below El Paso, at 4:30 this morning, by three masked men. They came on the engine over the tender and forced the engineer to stop the train and get off. They cut off the express car getting \$2000. The express messenger jumped out of the side door while the robbers were breaking open the end door and ran off with the keys of the safe, preventing the robbers getting the valuable contents. The robbers then came on with the engine nearly to Juarez and abandoned it. They cut the telegraph wire and it was 8 o'clock before a telegram was received at Juarez, telling of the robbery. The men were Americans. No clue.

MINNEAPOLIS, Oct. 31.—The *Journal* says: A state organization of railroad clubs was formed here yesterday. It is learned from outside sources the clubs are political in object. They claim to control 10,000 votes. The two candidates for governor have been interviewed and asked to pledge themselves to name a state railroad commission favorable to the clubs. The brotherhood men are fighting the clubs. They claim the clubs are but the tools of the railroads, and that they control not over 1000 votes.

PITTSBURG, Oct. 31.—While testing the rope of a fire escape at the Monongahela House this afternoon the rope broke and three boys, James McClure aged 14, John Dudley 15, and Daniel Nazle 16, were precipitated to the pavement, 70 feet. McClure and Dudley were killed instantly and Nazle will probably die. The agent of the fire escape, H. C. Wilson, who hired the boys to come down the escape, has been arrested pending an investigation. He is almost crazy over the unfortunate affair.

PHILADELPHIA, Oct. 31.—Powderly in the next issue of the *Journal of United Labor*, will warn the Knights against paying attention to political circulars. He says he is informed a scheme is on foot to circulate among the Knights just before election an alleged interview with him in a circular advising the Knights to vote for certain candidates for the Presidency. He warns them that any such documents will be spurious.

ST. PETERSBURG, Oct. 31.—An official report says the accident to the Czar's train was beyond question due to designs upon the Emperor's life.

The Czar and suite were received at Charkoff with boundless enthusiasm. The Czar visited the injured at the hospital. He was deeply moved and said he would never forget the reception that was being accorded him.

INDIANAPOLIS, Oct. 31.—The publication by the *Sentinel*, democratic, this morning of what purports to be a fac simile type-written letter sent out by W. W. Dudley, treasurer of the national republican committee, giving instructions regarding the election in Indiana, is the political sensation here. Copies of the alleged letter were furnished correspondents of the democratic newspapers last night. There is a great variety of opinion as to its genuineness.

Early in the day Col. Dudley wired the editor of the *Indianapolis News*, declaring the letter a forgery, and threatening to prosecute any paper publishing the same.

Editor Morse of the *Sentinel* avows his conviction as to the genuineness of the authorship and the signature of the letter.

Chairman Huston of the republican committee, is out in a card stating that Colonel Dudley has had nothing to do with the management of the Indiana campaign. That he (Huston) has not been advising or corresponding with Dudley, and knew nothing of any intentions on the latter's part to address any letter to anybody in Indiana. That in so far as the letter suggested the employment of improper or illegal methods in connection with the coming election he utterly repudiates it on behalf of himself and the state central committee. The suggestion is entirely contrary to the plans and purposes of his committee.

The letter bids fair to prove the sensation of the Indiana campaign. The printed letter heads of the National republican committee, such as are found at the headquarters of the state committee, do not correspond in type or style with the fac simile letter head printed in the *Sentinel*.

LONDON, Nov. 1.—At the sitting of the Parnell commission today, Captain O'Shea was recalled to the witness stand. He submitted the protest referred to in his evidence yesterday regarding his exclusion from Parliament by Parnell. Taking the evidence of policemen, who had shorthand reports, as to the correctness of their notes, was resumed.

It is stated that in government circles it is considered the Sackville incident is ended. Sackville has not yet advised the government as to the date of his return. It is possible some time may elapse before a new minister is sent to Washington. American circles here are anxious to have Dufferin appointed to the post.

The illness of Cardinal Newman is reported very serious.

Baron Newborough is dead. He was 85 years of age.

The *St. James Gazette* says, referring to the action of the United States in

the case of Sackville: "It would be most creditable to English good sense if Secretary Bayard's insolence were treated with contempt. If the American eagle is screeching, let him screech. We are not exactly prepared to send iron clads to Long Island because Bayard is outrageously offensive. Respectable Americans, who stand in neither with Cleveland nor Harrison, are nearly as much disgusted with the affair as Englishmen."

The *Pall Mall Gazette* expresses the hope that the ire of democratic wire pullers is now assuaged. Cleveland could do no more without throwing Lord Sackville into jail. What a silly business it is all through. British consolation is that President Cleveland eclipses Lord Sackville's indiscretion. It is one thing to be tricked into making a slip in private, but it is quite a different thing to plunge headlong into an abyss of folly and ill-temper. We owe Cleveland thanks for showing that the silliest man in Washington was not born in England.

SAN DIEGO, Cal., Nov. 1.—Frank P. Burgess, just arrived from Pomona, states that while there he met a German count named Menzon, and President Finney of the local republican club, and that Murchison for several weeks past has been on most intimate terms with them. The two former repeatedly referred to the political thunderclap about to break over the democratic party, but it was only after the publication of the West letter that they made any admission regarding it. It then transpired that the letter was really written by Murchison at the dictation of Count Menzon and Finney. Five letters in all were addressed to prominent men in the east. The British minister was the only one who replied. Burgess says he does not understand why the names of the originators of the scheme have not been learned before this.

FALL RIVER, Mass., Nov. 1.—James M. Eady, of Horseneck, R.I., has unearthed 1500 Spanish doubloons in his backyard, and calculates there are 100,000 on his farm. His father was Lieutenant-Governor of Rhode Island. One of his ancestors, who sailed with Captain Kidd, returned to his Horseneck farm and sowed it with doubloons. Among his papers was a chart locating his buried wealth. The lieutenant governor did nothing with the plan, but James M. Eady, into whose possession the paper came at the same time as the farm, thought it was worth trying.

NEW YORK, Nov. 1.—Tommy Flanagan, of Cincinnati, and Pete McCabe, of Albany, fought a desperate battle of ten rounds at City Island last night. Flanagan was declared the victor, after almost demolishing McCabe. The battle was so wicked to ward the finish that many spectators turned their heads away to avoid the sickening sight. Just before the seventh round, McCabe had the misfortune to take a swallow of ammonia which his trainer gave him by mistake for brandy. It seriously injured his chances.

ST. PAUL, Nov. 1.—Pat Killen has signed articles for a fight with Dominick McCaffrey, who is on his way to the Pacific Coast. The fight will be fifteen rounds for \$1000 a side and 75 and 25 per cent of the receipts. Time and place not determined.

ATLANTA, Nov. 1.—The festivities yesterday in honor of the twenty-fifth anniversary of King George's accession to the throne, were on a grand scale. The King headed the procession to the cathedral where *Te Deum* was sung. Returning to the palace the King addressed the people. Fearr, United States minister, presented a telegram of congratulation from President Cleveland.

BELIEF IN A BOIL.—The mind cure has ceased to be a nine-days' wonder. The devotees of the idea are divided 1 to not only the three main sects with which they began, but into some half dozen more distinct shades of thought, ranging from an abstract mental materialism to the simplest form of old-fashioned religious prayer cure. The Christian science branch, who are doubtless in the majority, continue to employ the familiar phraseology about a "belief of a cold," an "illusion of indigestion," and so on, refusing to speak of any of these accustomed ills as real. There was an instance of the use of this language the other day which sounded very queerly. A lady called to see a friend, another lady, whose mother, a very firm believer in Christian science, lives with her. The mother came down to meet the caller and remarked, apologetically, but cheerfully, as she came in: "My daughter has a belief in a boil and can't come down!"—*Boston Transcript*.

THE LARGEST WOMAN IN THE WORLD.—It is claimed that the largest woman in the world lives at Springfield, Ill., where she was raised in the family of Mr. J. W. Schader. She is colored, and is but 19 years old, and is yet growing very perceptibly. Her name is Sallie McCallister. She is 6 feet 2 inches high, measures 7 feet 3 inches around the waist and 3 feet 6 inches around the arm above the elbow. She weighs 632 pounds. Minnie Johnson, who recently died in Baltimore, weighed 733 pounds when she was on exhibition in this city, and was the acknowledged largest person on earth. The McCallister woman makes her living at the wash-tub and enjoys excellent health. She can walk but very little. It is predicted that she will soon weigh more than Minnie Johnson ever did.—*Louisville Post*.

## A Series of Hurts and Mishaps.

On Sunday afternoon Mr. J. T. McIntosh, was kicked on the right thigh by a horse. He had taken a drive to the Hot Springs, and the horse being taken out for a rub down, was very skittish. He was walking past when the animal struck out behind and succeeded in landing a terrific blow on his thigh. Yesterday the gentleman was limping around but felt he would soon recover from the blow.

On Monday, Mr. James Bune was shoeing a horse when he met with a very painful accident. While he was in the act of striking a nail the horse jerked away its foot and the hammer landed on the knee cap of Mr. Bune. The pain made him very faint and it was some time before he was able to speak. Later in the day he was again hurt while attempting to continue work, and was unable to get home without assistance. He was unable to go to work yesterday.

Last evening a break down occurred in front of H. C. Wardleigh's music temple. Mrs. C. W. Chase, of Mound Fort, with two or three other ladies were in the buggy, which was stationary at the time. A number of young men coming along in a wagon ran into the buggy, smashing one wheel. They claimed that the horse attached to the buggy backed into their wagon, while Mrs. Chase held to the contrary. At any rate she won the day, for the boys went off and purchased a new wheel.—*Ogden Standard*.

## First Stone on the Reform School

Yesterday afternoon a number of people gathered at the Reform School grounds to witness the laying of the first stone on the foundation. It was laid at 3:50 p.m., and from this time forth the building will be pushed with the greatest vigor. Inside of three weeks the foundation will be finished, and the water table laid; so says the superintendent.—*Ogden Standard*.

The Denver News says that on Saturday last about 6,000 persons assembled to witness Spaulding's grand aggregation of tired base ballists give an exhibition of how little they cared to exert themselves to play. While no one could dispute the ability of the aggregation to play ball if they wanted to, there seemed to be a determined effort on the part of the majority of the players to avoid any semblance of that feature. Such a proceeding in Salt Lake will not meet with much approval, and the players may as well make up their minds to act squarely with the audience.

**RICHLY REWARDED** are those who show this and then act: they will find honorable employment that will not take them from their homes and families. The profits are large and sure for every industrious person, many have made and are now making several hundred dollars a month. It is easy for any one to make \$5 and upwards per day, who is willing to work. Higher pay, young or old, credit not needed; no experience. Everything new. No special ability required; you, reader, can do it as well as any one. Write to us at once for full particulars, which we mail free. Address: Silvanus A. Co., Portland, Maine.

## THE VERDICT UNANIMOUS.

W. D. Salt, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all the diseases of the Liver, Kidneys and Blood. Only half a dollar a bottle at H. C. Smith & Co's drug store.

## A WOMAN'S DISCOVERY.

"Another wonderful discovery has been made, and that too by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest test, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night, and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N.C. Get a trial bottle at A. C. Smith & Co's drug store.

The 'Exposition Universelle de l'art Culinaire' awarded the highest honors to Augustura Bitters as the most efficacious stimulant to excite the appetite and to keep the digestive organs in good order. Ask for the genuine article, manufactured by Dr. J. G. B. Siegert & Sons, and beware of imitations.

## DOCTORS' BILLS.

Nearly all diseases originate from action of the liver, and this is especially the case with chills and fever, intermittent fevers and malarial diseases. To save doctors' bills and ward off disease take Simmons' Liver Regulator, a medicine that increases in popularity every year, and has become the most popular and best endorsed medicine in the market for the cure of liver or bowel diseases.—*Telegraph*, Dubuque, Iowa.

In 1850 "Brown's Bronchial Troches" were introduced, and their success as a cure for Colds, Coughs, Asthma and Bronchitis has been unparalleled.
