Pres't. Hayes and Party.

WINDSOR, Vt., 18.—The President in his speech at Brattleboro this afternoon said: My father left this city sixty years ago next month, and went to Ohio where I was born, but my older brother and sister were born here. When a boy of eleven years, forty-three years ago, I first came to this place on a visit to my uncle John, who then lived in this village. During my visit I walked over the very road by which I rode this morning, and from the very house where I slept last night. The place was beautiful then. There has been many changes since, but the beauty continues and has been enhanced. I hope the beauty and prosperity of Brattleboro will continue to increase and I hope then again and often I shall come hither to meet you. But I am extending my remarks beyond two or three sentences and so must close by again thanking you for the hearty welcome you have given me.

The remarks of the President were received with cheers. The band discoursed airs familiar to the President, who remarked that in this respect the band exceeded any other he had heard in the State.

Secretary Evarts, Attorney General Devens, and Wm. Hunt of Louisiana followed. Three strong, enthusiastic cheers were given for President Hayes, Postmaster General Key, for Attorney General Devens, for Secretary of State Evarts and for Mrs. Hayes and our country. The band played "Sweet Bye and Bye," hundreds of voices taking up the refrain.

A Town Destroyed by Fire.

DEADWOOD, D. T., 18.—The town of Gayville, two miles from this place, was almost entirely destroyed by fire this morning. Only one or two houses were saved. The fire originated in Varnes' restaurant. There being no water for fire purposes the flames spread rapidly, and in three hours destroyed about 200 houses, ranging in value from $50 to $2,500. Total loss estimated at $60,000. No insurance.

Strikers Compromise.

NEWARK, N. J., 18.—Striking employes of the Newark silk mill here, 250 in number, will resume work on Monday, the company having arranged a compromise by which the highest wages are reduced and the lowest raised.

Wool Market.

BOSTON, 18. — Wool very dull. Sales of the week have been quite limited. The principal transactions have been in delaine and combing fleeces, sales comprising 262,000 pounds at from 50 @ 55 for washed, and 35 @ 40 for unwashed. The transactions in fleeces have been very limited; prices rule in favor of buyers, sales include 88,000 lbs. of Ohio at 44½ @ 47½ for No. 1 and X, and 50 for choice XX, and above, medium and X 44 @ 47, and XX at 48 @ 50. Manufacturers are not disposed to purchase to any extent at these figures. The transactions in Michigan, Wisconsin, and other fleeces comprise 700 lbs. of Michigan at 41 @ 42½; 1,000 lbs. of Wisconsin X at 40½ @ 41; 10,000 lbs. of New Hampshire at 43 and 23,300 lbs. of low and coarse fleeces at prices that would be no criterion. Pulled has been very quiet; the stock is light, but the demand limited; sales of 51,000 lbs. at prices ranging principally from 35 to 44 for super and X. In California wool there has been a fair business doing. Sales, comprising 363,700 lbs. Some lots of desirable spring is selling at 32 @ 38, down to 18 to 20 for ordinary. Sales of fall ranged from 15 to 22, as to quality and condition. Territory wool sympathizes with other grades, and very little has been done.

WESTERN.

Reported Shooting.

SAN FRANCISCO, 18.—A San Diego dispatch says, there is a rumor from San Rafael that the Elliott boys, recently captured by Mexicans, and confined at San Rafael, were fired upon by a mob of Mexicans, while going from dinner to jail under guard, and that one was killed. The report is not fully credited, and parties in San Diego preparing to go to rescue the survivor, and avenge the death of his brother, were cautioned that the news lacks confirmation.

FOREIGN.

GREAT BRITAIN.

Eastern War News.

LONDON, 18. — Advices from Bucharest and Sistova show that the Russians have made no preparation against bad weather. Even the flat, sandy island, over which is an approach more than a mile long to the pontoon bridges, shows no sign of road making, although 100 infantry soldiers have idled away their time there for several months.

On the Sistova side, where the roads to Biela and Tirnova run up steep hillsides, there was also no preparation. Severe showers on Wednesday night caught the Russian army service department utterly unprepared.

A part of the Dobrudscha force has already passed through Roumania and again crossed the Danube about ten miles above Rustchuk, but operations on the other side are delayed by rain, which has rendered all roads practically impassable.

The great part of the line of communication with the army is over a mere cart track beaten into dust in fine weather, and churned into deep mud when it rains.

Wood is scarce in the country now occupied by the Russians, and the enormous forces about to be encamped in the heart of Bulgaria will probably leave it as bare as the allies left the plains before Sebastopol.

During the occupation of Dobrudscha lately, the sick were sent back at the rate of 300 per day, and there are signs of increasing sickness within the lines on the other side of the Danube.

Shipka Pass, which is held by Russians, was blocked at the southern entrance and will probably have to be evacuated unless the Russians attack and defeat one of the three Turkish corps which now form a semi-circle from Rasgrad to Plevna.

Some critics appear to think that the Russian advantage lies in continued inactivity and further concentration, but increasing ravages of disease in the Russian camp is an offset against the arrival of reinforcements, and may compel their generals to attack Plevna or Rasgrad before strategical considerations would authorize such an undertaking.

It is reported also that public opinion in Russia is powerfully affected by the failure before Plevna. Echoes of this dissatisfaction may reach the army in the field and tend to tempt the military advisers of the Emperor to urge some enterprise that might well be deferred till stronger forces can be concentrated.

AUSTRIA.

The Russian Positions.

VIENNA, 18.—The *Political Correspondence* has a Bucharest telegram saying Gen. Gourka, declares that the Russian positions from the Danube to Shipka Pass are so strong that the Turks will not venture an attack. Both armies are constantly entrenching themselves. The Turks especially hold a wonderfully strong position at Plevna, but Osman Pasha is nevertheless in a difficult situation, because numerous cavalry attached to 80,000 Russians confronting him, completely cut off his communications with Sofia and capture his convoys of ammunition and provisions. The Russians will not undertake operations until the whole guard arrives from St. Petersburg. This signifies a pause of two or three weeks.

Last Night's Dispatches.

EASTERN.

The Russian and Turkish Armies Standing Face to Face.

NEW YORK, 19.—The *Times* special, from London, says, I have just received a letter from a correspondent of the New York *Times*, dated Bucharest, Tuesday 14th, in which he says, the main hope of the Russians now is that they may succeed in winning a decisive victory at Tirnova, and that in case this should crown their efforts, the Czar will be ready to agree upon terms of peace at once. The Emperor of Russia is not entirely hopeful of final success in the campaign now going on beyond the Danube. It is said he constantly upbraids his advisers, both military and civil, for having led him to make war against Turkey. To those around him he is continually repeating the warning of Emperor Nicholas, his father, that the nation should never make war except to repel invasion. Alexander II will not forget the prophecy that he will never live to see the 60th anniversary of his birthday. He still seems in constant fear of assassination, and it is almost impossible for a stranger to penetrate to his headquarters. His 60th birthday anniversary will, if he lives, occur April 29th, 1878.

The same correspondent states, that the Czar has removed his headquarters to the town known as Schauchmashia. The place does not appear on any of the maps, but it is located at the junction of the two roads leading, one to Plevna, the other to Biela, both connecting at Sistova, and lies a few miles north of Tirnova. This retrograde movement of the emperor and his staff is ostensibly to conduct pending operations, but is really to avoid the possibility of being cut off from his line of retreat in case of another defeat of his army.

Hafiz Pasha is reported marching on Schipka Pass, with a strong force of Turkish troops. The pass is still held by the remnants of the gallant division, led by General Gourkha, which made, some time since, such a brilliant, but seemingly fruitless, raid across the Balkans. Gourkha's forces are certainly in a most critical position. With Suleiman Pasha and a strong army to the south, and Hafiz Pasha to the north of them, they can hardly escape capture if not total annihilation.

A small force of Russian soldiers is still guarding Nikopolis or rather the ruins of that place. They have no easy duty to perform, however, for Bashi Bazouks and other irregular horsemen pass nightly and pay bloody visits to the outposts. They come from the direction of Plevna and succeed in doing much injury to the troops in front of Nikopolis.

News of serious agitation in the Galacia province of Austria lying between the Carrathain mountains and the Russian frontier reaches me from a trusty correspondent. The news is reported as of the most critical character. A Polish revolution is momentarily expected and altogether the outlook for the Russian empire is by no means encouraging.

The compassionate fund which is being raised in this city in aid of the Turkish cause, has already reached a considerable sum. The fund was started by Baroness Burdett Coutts and money is passing into the treasury quite rapidly. The fund thus raised will be distributed among suffering families of those who are serving in the Turkish armies. Midhat Pasha's reconciliation with the Sultan is looked upon as entirely unfavorable to early peace.

The latest news from the front is to the effect that belligerent forces are standing face to face and anxiously awaiting word to engage in a general battle. The Russian army is believed to be favorably situated for the struggles, and all are confident of success, except the Czar, who, though evidently despondent, is really anxious for an immediate and supreme effort on the part of his forces.

Another Strike.

The shipwrights and sparmakers of the navy yard have struck against a reduction of their wages from $3.-50 to $3 per day.

The Forgers.

CHICAGO, 19.—Weston and Grosner, the two men referred to in these dispatches yesterday as being connected with a gang of forgers, operating throughout the country, were taken in charge by the officials, last evening, and left for New York. Stevens, one of their associates, was arrested, yesterday, near Grand Haven, Mich. It is believed the operations of the gang are more extensive than is known, and that they have swindled a number of banks in the country to the extent of millions of dollars.

Foundered at Sea.

The schooner *Denham*, which arrived to-day, announces the foundering of the schooner *C. J. Vanname*, from this city for Baracoa, and the loss of the steward and two passengers.

Fatal Boiler Explosion.

St. Joseph, Mo., 19.—A locomotive on the Hannibal and St. Joe road exploded at the depot here, this morning. The fireman who was terribly scalded, died in a few hours. The engineer was badly scalded. The foreman of the yard was blown twenty feet, but not dangerously hurt.

Drowned.

PORTLAND, Me., 19.—Stephen Hall, Wendell Small, and Frank Houston were drowned in Sebago Lake.

FOREIGN.

GREAT BRITAIN.

Eastern War News.

LONDON, 19.—The Egyptian contingent in Turkey will be increased.

The Russian army has occupied Kustendji. There are no signs of either the Turkish army or fleet. The Russian army occupies in force the line extending from that town to the Schipka Pass. The Turks are a considerable distance off, and do not make any demonstrations. It is said the Russians intend to blockade Plevna, but will not attempt to take it by assault. Osman Pasha's supplies are beginning to fail.

At the special request of Grand Duke Nicholas, the mobilization of two more divisions of Grenadiers and one division of cavalry have been ordered.

On Saturday, the Russians, to the number of 35,000 infantry, ten regiments of cavalry, and 110 guns, attacked Mukhtar Pasha along the whole line, extending from Mardgdjk to Yakinlar. The cannonade begun at 7 o'clock in the morning, and, at six in the evening the Russians retreated in good order to their encampment, pursued by the Turks. The Turks lost 165 killed and wounded, and the Russians 1,200.

For the future the army and imperial headquarters will remain united, which seems to imply that the Emperor will encourage the soldiers by his actual presence on the battle field. The Emperor is pleasantly quartered in a good house outside the village, and seems in excellent health and spirits. The air is pure in contrast to that of Biela. The health of his staff is much improved, but Gen. Ignatieff is still ailing. Prince Galatzin has been obliged to leave for Carlsbad.

A stream of reinforcements is flowing now steadily through Roumania. It is expected that both the Guard and Grenadier corps will be in Bulgaria by the first week in September.

The staff, here, calculate that 180,000 men are now actually on the march to reinforce the army. The next battle, about Plevna, is meant to be decisive, hence the delay for the sake of insuring success.

The Fourth Cavalry division has been detached on an independent expedition for the purpose of stopping Turkish communication with Sophia, by blocking the Orchardik Pass, the main thoroughfare and easiest marching route over the Balkans. It is felt here that this should have been done earlier, but if successful now, it will still have good results.

Records! Records!

WE ARE NOW PREPARED *to receive orders for BRANCH and WARD RECORDS, of a new and improved form, which has been approved by the presiding Bishopric and others.*

We shall make them of four, five and six quires each, holding 2,040 2,550 and 3,060 names each, respectively, and the price will be for four quires, $12.00, five quires, $13.00, six quires, $15.00. Each book will contain a suitable index, and be well bound in Cloth and Russia Leather with ornamental lettering pieces for name of the Ward on the side. The book being of a large size, we do not think it advisable to make them over six quires.

Specimens can be seen at this Office, and orders received for size of book required.

Bishops in the Country desiring Records can order by mail, and we will make accordingly and forward them.

FAMILY

RECORDS.

WE ARE NOW PREPARED to receive orders for FAMILY RECORDS of an approved form.

Each book is divided into four forms.

The first form is that of a "FAMILY RECORD," with ruled and printed spaces for births, marriages, and deaths, in each family, also for names, dates, and places, one page acommodating one family.

The second form is a "CHURCH RECORD," with spaces for blessings, baptisms, confirmations, ordinations, endowments, and patriarchal blessings and various particlars of the same.

The third form is a "SEALING RECORD," with spaces for name of person sealed, birth, death, time, place, etc.

The fourth form is a "BAPTISM FOR THE DEAD RECORD," with spaces for names, dates, birth death, baptism, confirmation, etc.

Each book is furnished with a title page, on which the person owning the record can enter his or her name. An explanation of the forms, or instructions how to keep the record is also printed in each book, and its pages are numbered.

These Records are well printed and ruled on good ledger paper, substantially bound in full sheep, English roan, or Bock. We can furnish them of any size, from one to five quires, or larger, but probably five quires is as large as will be desired. We can also furnish the various forms in a record, proportioned to each other to order.
