But Passengers Will be Delivered on Site.

It is the plan of the Denver & Rio Grande railroad people to deliver Grand Army visitors coming in over the Rio Grande during encampment week next August, at the grounds of the new passenger station now being constructed on Third West and Fourth South street. The main depot-building will not be

completed, but the grounds will be leveled up and placed in permanent shape, and the tracks will all be built according to the plan arranged for the completed depot, with coment walks and platforms all as they will be when the station is up, so that passengers may be handled at the new depot without trouble

A force of 75 men was put to work this morning building a track from the main line of the Denver & Rio Grande ralifoad at Tenth South and Fifth West street. The track will run along Fifth West to Fourth South, where it will veer eastward toward the new pas-senger station structure, now being built.

STEEL COMING.

STEEL COMING. The grounds of the passenger sta-tion are assuming an air of decided activity. The firm having the general contract, Ethenberger & Co., of Chi-engo, now has its building superin-tendent, Mr. Reinke on the ground, and the first work of constructing an office for the occupancy of the office force of the construction department is now being done. Mr. Reinke said this morning that a carload of steel and a carload of each of marble and torra cotta are now on the way from the east to Sait Lake, and the mater-ial will begin arriving here in about a week. BRICK CONTRACT. The brick work on the station was

a week. BRICK CONTRACT. The brick work on the station was yesterday awarded to George Curley, a well known local contractor, and it is expected work on the walls will commerce next Monday or Tuesday. The brick masons and helpers will be local men, and in fact the great majority of the laborers required on the building will be supplied right here in the city. Only the heads of de-partments will be brought from the offices of the construction company having the contract to do the work. The contract for the effire mill work required in the new station has been given to the Sierra Nevada Lum-ber company of this elty. Supt. Reinke has commenced work freparing the foundation to receive the superstructure by giving it a coat of asphaltum. As soon as this is done the work will begin in earnest. Most of the supply tracks have heen built, so that no delay will be exper-fenced when the material starts to arrive in delivering it to the workmen on the ground.

Radical Change in Method of Rate

Making Proposed to Commission. Chicago, May 13.—The most radical change in western ralizoad history in the method of rate making will soon be made if a plan prepared by the transcontinental ralizoads should be approved by the interstute commerce commission. A committee of traffic ex-ecutive officials of western roads is in Washington and will present to the

ever undertaken by a private corpora-

tion. More than 1,000.000 trees will be plant-ed, making a total of 3,400,000 set out during the last three years. In addition to their own activities the Pennsyl-vania road has followed the policy of encouraging reforestration on the part of the public. Some 151,000 trees and 8,000 private hedge plants have been

8,000 private heage plants have been furnished practically at cost to private corporations and individuals. Other raironds are said to be con-templating a similar plan to that of the Pennsylvania to protect themselves against the constant diminution in the timber supply timber supply:

Cannon, Jr., of this city writes as fol-lows to his parents: For the last four days we have been salling up the Red Sea and have passed many boats of all sizes, kinds and na-tionalities. Ther is a great deal of traffic upon these waters. All day long we have been passing up the very nar-row strip of water toward the south end of the canal. Some high moun-tains have been passed, one of which they say is Mt. Sinal. It is very righ and rights to a cone-shaped top, looking as barren as does the surrounding country. country. After leaving Suez, a city of 18,000 inhabitants situated at the entrance of the canal, we continued our course steaming between the two largest consteaming between the two largest con-tinents on the globe, Asia and Africa. The sh'p's band is playing as we go. The isthmus is here very low and it looks as though it would be easily cut with a canal, but it took many years to build the canal, which is about twice as wide as the Jordan river. Its course is quite straight. The stormer has a searchlight in front which casts a very strong light ahead into the canal. At the entrance to the canal dozens of buoys were passed, those on the left having red lights and those on the right having green lights, which marked the ship's course in the night. ship's course in the night. The change in the weather has here been very marked. A few days ago the passengors were all fairly meiting with the heat, but they are now glad to put on their coats and shawls. As soon as the ship anchored at Suez in the evening about a dozen sailing In the evening about a dozen shifting boats containing five Arabs each came out to the ship. The Arabs were loaded down with trinkets of all kinds to sell to the passengers, but they were not allowed to board the ship until the pas-sengers wer examined by the health officers. When this was done they all made for the ten of the best with a made for the top of the boat with a leap. They crowded up the stairs and some of them even climbed up the slde by ropes. Two of them were coming up on the same rope and on reaching the top they were ordered back by one of the officers. They hestated for a moment, when the officer opened his pocketknife and began cutting the rope, whereupon they both slid to their boat below like a flash.

## FUNERAL OF MRS. JANE CARTER

Esteemed Woman Laid to Rest After Impressive Service.

Impressive Service. The funeral of Mrs. Jane Harriett Chittendon Carter, an old Church member and a woman of the strictest integrity, took place yesterday after-noon in the Tenth ward meetinghouse under the direction of Bishop Joseph Christensen. There was a large at-tendance of friends and the floral offerings were very numerous and beautiful. The speakers who referred to their acquaintance with deceased in the mission field were Andrew Fjeld of Lehi, A. E. Carr and F. E. Barker of this city. Bishop Robert Morris of the Eleventh ward and Bishop Christensen also spoke. Mrs. Carter was born in Sydney, Australia, Aug. 19, 1840. In 1854 she was baptised into the Church of Jesus Christ of Latter-day Saints. That was during the labors of Augustus Farn-ham in that country. In 1904 she came to Utah with some of her numerous family. Others have come since then and there were present at her bed-side when she passed away, six of her 10 children living. They were Mrs. William B. Peay of Provo, and Mary, Joseph, Eddie, Frank and Al-fred of this city. Other members of the family living in Australia are William D., Terence, John and Mrs. Robert Lutton. ### **BUSINESS AND REALTY**

Eight building permits were issued today by the building inspector. They call for the expenditure of \$31,100.

John H. Kimball of the Salt Lake Livery & Transfer company, has just let the contract for the erection of a double apartment house at the rear of 62 cast North Temple, the George Romney Lunber company being the successful bidder. Each apartment will contain four rooms and accessories, the cost being \$3,000.

The sale of a 21-acre tract of land to the National Real Estate and Investthe National Real Estate and Invest-ment company has just been completed by John R. Smith, The property lies near Twelfth South and Twenty-third East, just south of the Laurehurst ad-dition. The price paid was \$10,000. It is the intention of the new owners to immediately plat the property and offer part of it for sale unimproved. Some of it may be built on by the company, with the view of offering cheap homes for the people. Streets will be graded and trees will be planted with the view of making it an attractive residence part. part.

The increase of the Merchants' bank capital from \$100,000 to \$225,000, will be made June 5, when the number of di-rectors will also be increased from seven to 15, and applications be made for a national charter. The additional number of directors is to bring onto the board prominent mining and busi-ness men of this city. It is believed that the bank will occupy the new banking apartment in the Newhouse building.

Henry Ives Cobb. Jr., son of the de-signer of the Newhouse buildings, in-cluding the new hotel which is to be cluding the new hotel which is to be built, arrived in the city last evening from New York, and is now a guest at the Knutsford. Mr. Cobb's visit at this time is for the purpose of discussing the plans for the new hotel with Mr. Newhouse. His father intended coming to Salt Lake, but was compelled to change his plans at the last moment and take a much needed rest.

and take a much needed rest. It is reported that a 30-day option has been given by -W. G. Bradshuw and Peter Haack of Los Angeles, on the property between the Utah Implement company's building and the Indepen-dent Telephone company's building on Sinte Strees. The property has a frontage of 76% feet. The old buildings on the site are to be cleared away, pre-paratory to the erection of a one-story building by the present owners. If the present deal goes through it may mean the prection of a more pretentious building, which, when the Holmes-Knox building on the corner of Second South is completed, would make a very uniform block between First and Sec-ond South streets. and South streets.

UNIVERSITY NEWS

The library building yesterday bore the air of a polling station on presi-dential election day. The student of-ficers had procured a voting machine and polls were open from 8:30 a. m. to 4:40 p. m. The greatest excitement was over the election of Chronical edi-tor. At the opening of the polls the names of James E. Alley for presi-dent and George Roberts for editor, had no rivals. Frank Johnson had withdrawn from the field as a candi-dat for president. He is a man of some literary ability, however, and a clique of his friends placed his name up for editor, early yesterday. A vig-

clique of his friends placed his hande up for editor, early yesterday. A vig-orous campaign was worked by the Johnson faction and they succeeded in running their man within 16 votes of Roberts' ballot. They think, had Johnson's name been before the stu-dents since the nomination he would have been elected.

have been elected. A general feeling of satisfaction over the results of the election seems to be prevalent among the students. The officers elect are without doubt the strongest set of officers ever called upon to handle the student affairs and great things are looked for for the next year. Mr. Alley, the president elect, will be a senior next year. He was treasurer of the student body last year, and editor of the 1909 Junior Year Book. The following is the complete list Mrs. Lon Sadler entertained at two delightful affairs yesterday is honor of Miss Anna Brain, one of the June brides, and in the afternoon at a bundle shower, when about 30 were present, and in the evening at dinner, with covers laid for about a dozen. At the meeting of the Scribbler's club last evening the following of-ficers were elected; D. M. Draper, president; Loren Whitmore, vice pres-ident; L. H. Haimen, secretary, and John Gibbs, treasurer. It was decided that the club should give its annual, banquet on May 28.

W. W. Ray has been selected to preside at the banquet of the next an-nual reunion of the Alumni associa-tion, and Miss Charlotte Stewart will represent the present year graduating class. The full banquet program has not yet been completed.

In order to raise funds for the en-tertainment of the senior class, June 4, the junior officers have had to levy an assessment on the class members. They decided yesterday to place the names of those who have not paid on the board in the assembly room.

New Stoking Machino Displaces Fire-men on Railroad Locomotives. Chicago, May 13.—The Alton road has recently conducted a series of tests of an automatic stoker. On a train of fifty loaded freight cars hauled from Chicago to St. Louis all records are said to have been broken for long distance firing. The value of the stoker under tests is said by railroad offi-cials to rest in the fact that it gives a uniform distribution of coal in the fire box, resulting in an even heat to all parts of the boller and a substan-tial saving in fuel.

It is said for this newest mechanical improvement that by its use the en-"assistant engineers" giving them more time to watch signals and giving a greater safety to the traveling pub-lic.
