age of wonders in science and religion, and the greatest wonder to the world was what men called "Mormonism"—the Church of Christ. He had frequently been surprised, when traveling in the United States, at the feel-

clude that that they were a formidable people in all that makes nations dreaded by their neighbors. But in Utah the

people were quietly going about their business, apparently their chief object being to redeem the desert in fulfil-ment of the prophecies of Isaiali.

> THE PROBLEM SOLVED. HOW TWO WAGON TRAINS PASS ON THE SAME TRACK OUT WEST.

'Did you ever see two trains pass each other on the same track?" inquired a passenger from the west of the brakeman. That lordly official looked up contemptuously, grabbed another apple from the train-boy's basket, and deign-ed never a word in response. The Priesthood of the Seventh Ward "Oh, you needn't turn up your nose," said the passenger from the west;

Now listen while I tell you how we pass, two trains on the same track out west. I was on a mule train once going tyrdom for the testimeny of the Gospel of Christ. The Lord had declared, when lie lived on the earth, that it was necessary that a man should be born up to a mining camp. We were circling about a mountain when we met another train coming down. The road was just a bit of a ledge in the mountain again in order to enter the kingdom of Got. This referred not only to the birth of the water baptism, but that of the Spirit. With the disciples of Jesus there had been a change of heart, new side, and was plenty wide for one wag-on, but not quite wide enough for two "I was as green as you are, and couldn't see how we were to get out of the scrape. But the mule-whackers knew just what to do, and lost no time doing it. The Lord, in answer, taught set the brakes on one and put blocks under the wheels of the other. Then they started the mules up and pulled the hubs of one wagon right over the hubs of the other. The inside wagon was them to pray to Our Father, and that tight agin the rocks, while the tires of PAID UP CAPITAL. . . \$200.00 His kingdom would come; He also prayed for great blessings on the Twelve. THE DESERET HOSPITAL, UNDER ilef was called treason, and the faith of the Saiuts in that prediction had undergone no change, they believed in it as firmly now as ever. Another reason was that they had assembled themselves together and were organized with Apostles and Bishops and other officers of the Priesthood. Again, at Nauvoo, and in 1857, in Utah, plural marriage was not the pretext. There was another grand cause for all this persecution. When Rome, in her national growth overcame one people afmoved to that large and commodious build ing lately occupied by the Deseret Univer-sity. The appointments are new and of the first order. The hails and rooms are thoroughly ventilated, and warmed by a furnace and steam heating apparatus extending through the whole building. this persecution. When Rome, in her national growth overcame one people after another, she interfered but little with their political customs, but had them acknowledge her supremacy, and made no interference with their various religions. But when Jesus, who "spake as never man spake," came, and organized His Church, all this was reversed. The Roman government joined in the persecution of His disciples, hunting them from village to village, from city to city, and causing them to wander in the deserts and in the holes and caves of the earth. The reason of this was that Satan was not dead. So long as men did not worship H. B. CLAWSON, President. W. F. ANDERSON, Medical Supt. M. P. HUGHES, House Surgeon. E. B. WELLS, Secretary.
