

## WOMAN SHOT BY BAD BOYS.

Mrs. Jane Wilson, the Victim, Died  
This Morning.

## WERE "OUT FOR A TIME."

Purchase a Keg of Beer and Start Out  
to "Celebrate"—Get a Ride and In-  
dulge in Promiscuous Shooting.

Mrs. Jane Wilson of Holliday was  
dangerously shot in the neck about  
noon Sunday and it is more than likely  
that she will die as a result of the loss  
of blood occasioned by the wound. In  
the event of her death the boy who  
is supposed to have done the shooting  
will probably have to answer to a  
charge of murder.

On Saturday night six boys, Frank  
Shurtliff, aged 16; Ham Ferguson, aged  
18; Frank Lark, aged 15; Mark Bean,  
aged 18; John Cooper, aged 15, and  
George Nielsen, aged 15, went from  
Holliday to Murray and purchased an  
eight-gallon keg of beer, which they  
took back to Holliday. On Sunday  
morning the boys reached the keg and  
by the time they had reached the bot-  
tom of it all of them were more or less  
under the influence of intoxicants. One  
of them then procured a 22-caliber rifle,  
and the boys proceeded to have a little  
rifle practice, aiming at various ob-  
jects around the road. Arriving in the  
neighborhood of Holliday, one of the  
boys, who is supposed to be the shooter,  
deliberately fired two shots at Wilson's  
house. One of the shots passed through  
a screen door, and the other through  
the window of a chamber in which Mrs.  
Wilson was making a bed. The second  
shot struck the old woman in the neck,  
rupturing the carotid artery, and Dr.  
D. C. Beale, who bound up the broken  
vessel, says that it is a marvel that  
Mrs. Wilson did not die from loss of  
blood.

Mrs. Wilson said that after she felt  
the smart of the bullet in her neck she  
ran into the yard to call for help.  
But the rush of blood in her throat  
must have choked her, and she was  
found some time later by her sons ly-  
ing in a pool of blood. A cot was  
brought out from the house and the  
wounded woman was laid upon it under  
the shade of a tree. Dr. Hauscher, a  
retired physician of that neighborhood,  
was summoned, but being unable to lo-  
cate the bullet, sent to Salt Lake for  
Dr. Beale. Sheriff Naylor and Deputies  
Raleigh and Moss arrived on the scene  
about 1 o'clock, and with a party of  
men the six boys were arrested along  
with Ben Shurtliff and Will Foulke,  
two 13-year-old boys, who were later re-  
leased, but not being implicated in the  
affair in any way. The sheriff says that  
the boys were very non-committal for a  
long time, but finally Ham Ferguson  
threw the blame of the shooting on  
Frank Shurtliff, who he says admitted  
that he was shooting at the house.  
Ferguson says that he left after this  
admission, fearing that some one might  
be hit with the bullets. Miss Beale  
Jensen, who was with a party of wom-  
en in the neighborhood at the time of  
the shooting, says that the shots were  
fired by a tall young man, but which of  
the boys she could not say.

The six boys, who were caught before  
Justice Dana Smith probably this  
afternoon, charged with drunkenness or  
disturbing the peace, and the prelimi-  
nary hearing will decide who shall be  
held over on the charge of killing.

MRS. WILSON DEAD.  
Later—Word was received by the  
"News" this afternoon that Mrs. Wil-  
son died this morning.

## ACADEMY BUILDING BEGUN.

Interesting Commemorative Exercises  
Mark the Event.

Special Correspondence.  
Provo, Utah Co., July 1.—Ground was  
broken this morning for the new train-  
ing school and gymnasium of the Brigh-  
am Young Academy. Appropriate exer-  
cises were conducted at 8 o'clock on  
the grounds north of the college build-  
ing. The presidency of the college, Dr.  
C. W. Smith, presided. The college  
faculty and members of the summer  
school were present on the occa-  
sion.

The services were opened by a cornet  
solo, "O ye mountains high," by Prof.  
Miller. All present then sang:  
"Our God we raise to Thee,  
Thanks for Thy blessing here."

Led by Elder J. R. Boshard, Stake  
chorister, President David John made  
remarks appropriate to the occasion. A.  
L. Niekamp, in behalf of the students,  
whose united and untiring efforts dur-  
ing the past year for a gymnasium is  
largely to be credited with the splendid  
outcome.

President Brimhall then stepped for-  
ward, picked up a stone from the hard-  
pan, and introduced Uncle Jesse Knight  
as the man to have the honor of break-  
ing the ground. But Brother Knight  
got permission to make a speech, and  
in it dissipated any such hope. What  
he had given had been no more to him  
than the single dollar given by others  
had been to them. He proposed that  
the honor of breaking ground be given  
to President Brimhall, and called on  
the voters. The pleasant incident was  
ended by Dr. Brimhall using the pick  
and Brother Knight the shovel.

"May the truths of God sink into the  
heart of every student who comes into  
the building, as this pick sinks into the  
soil," were the solemn words with  
which President Brimhall broke  
ground, and to which every one  
present said Amen.

Brother Knight prefaced his work  
with a short speech admonishing the  
students present that it was doing the  
will of God, not expressing it merely,  
that brought blessing upon us. As wit-  
ness the work begun here today.

Annette Reed Smith then offered the  
dedicatory prayer, after which all  
joined in singing "We thank Thee, O  
God, for a Prophet" and Elder Joseph  
B. Keeler pronounced the benediction.

## NOT DUE ENTIRELY TO WINDS

Shortage of Water Caused by Obstruc-  
tion—Increase in Parley's Canyon.

Land and Water Commissioner West-  
erfield does not hold the north head-  
winds entirely responsible for the  
shortage of water in the Jordan and  
Salt Lake canals. He thinks that it is  
up to the board of canal presidents to  
take some steps in the matter if they  
desire to do anything towards improv-  
ing the system of diverting the water.  
Mr. Westerfield says that last year the  
Utah and Salt Lake canal company and  
the power company put in cement ob-  
structions in the bed of the river. As  
a result they get plenty when the wa-  
ter users in Salt Lake City suffer dur-  
ing a north wind.

The flow from Parley's canyon this

year has increased 1,700,000 gallons a  
day which the commissioner lays to his  
having had the water distributed over  
the neighboring lands during the  
winter and spring, which has caused a  
great increase in the flow of the springs  
feeding Parley's creek.

## GOLD WOOLLEY DEAD.

Promising Young Man Passes Away  
in Alberta, Canada.

Many young people in Salt Lake will  
learn with regret of the death of Gold  
Wooley, the 29-year-old son of Orson A.  
and Alice Goddard Wooley. His de-  
mise occurred at his home in Alberta,  
Canada, on Saturday last, resulting  
from erysipelas.

Gold formerly lived in Salt Lake with  
his parents and always had scores of  
friends who were drawn to him by his  
kind and lovable nature. He was intel-  
ligent beyond his years, and had he  
lived would doubtless have had a bright  
future.

The sympathy of the community is  
extended to the bereaved parents.

## AT THE RESORTS.

The Opal Travels club took an outing  
to Castilia Springs yesterday, leaving  
the Rio Grande Western depot at 8:30  
in the morning, and arriving back in  
Salt Lake City at 10:30 at night. Many  
strangers from Provo, Springville, and  
other points took advantage of the  
cheap rate to Castilia, and a train  
load of about 250 persons was included  
in the party. Held's band accompanied  
the excursion, and although the band  
refused to play dance music to the  
chagrin of some of those who wished  
to take a whirl on the dancing floor, a  
musical ensemble band concert was pro-  
vided. The band left on an early train  
having to play at the Salt Palace in the  
evening.

The Sunday drinking law seemed to  
be as strictly observed in Utah as in  
Salt Lake county, and no intoxicants  
of any kind were sold during the day.

## HEAT WAS TOO MUCH.

Frank L. Lawrence Suffers From Men-  
tal Derangement.

(Special to the "News").  
Provo, July 1.—Frank L. Lawrence, a  
civil engineer of Salt Lake, has been  
visiting his father-in-law, Mr. Olson,

tack of mental derangement which is  
attributed to the heat. He suffered  
from a first and similar attack about a  
year ago. A telegram was sent to his  
Salt Lake authorities asking that his  
examination be held here and his com-  
mitment secured, if deemed advisable.

## JUDGE TIMMONY'S COURT.

In Judge Timmony's court this after-  
noon Robert Sothorn, a laborer, was  
charged with assaulting and beating his  
wife. The fellow pleaded guilty. He  
denied that he kicked her, but it was  
shown that on Saturday night he went  
home and became enraged at some-  
thing his wife did, and knocked her  
down and kicked her in a shameful  
manner. Mrs. Sothorn was in the court  
room and Judge Timmony asked her if  
it was the first time her husband had  
abused her.

"It's only the second time," said she.  
"He's a bad husband and gives me  
all the money."

"He must be," remarked the court,  
and turning to Sothorn continued: "I  
only regret that the ordinance does not  
provide for a more severe punishment, but I  
am going to give you all I can. The  
sentence of the court is that you pay a  
fine of \$100 and that you also be im-  
prisoned for a period of 100 days at hard  
labor."

The case against Ed Brown, a colored  
boy charged with petit larceny, was  
dismissed on motion of Ditch.

Sheldon Land pleaded guilty to turn-  
ing out the lights on a Lagoon train  
and will be sentenced tomorrow at 2  
p. m.

The case against H. Korn and O. H.  
Williams, charged with burglarizing the  
Nebraska second hand store, was  
continued until Wednesday.

## LATE LOCALS.

Annie Dunn was adjudged insane this  
afternoon and committed by Judge (pro  
tem) James to the State insane asylum.

Mrs. Dunn was examined by Drs.  
May and W. S. Elder, who de-  
clared that she was suffering from  
mania, under the spells of which she  
wandered away from her home, and at  
times became violent. The sheriff will  
take her to Provo tonight.

Numerous friends of Mr. C. Orlieb,  
of the C. M. & St. P., paid him a visit  
yesterday, congratulating him on his  
birthday. They were entertained in ex-  
cellent style by the host and hostess  
and spent a pleasant evening with the  
family.

## PEOPLE WHO ARE PASSING

At the Knutsford today were three  
guests from foreign countries, namely  
L. V. Rodt, of Bern, Switzerland; C.  
F. Kaysor, of Bern, Eliza, of Bern,  
Africa, and William Kohlbrunner, of  
Bombay, India. So anxious were they  
to see the sights of Salt Lake that just  
as soon as their baggage was stowed  
away they were out of the hotel and  
flitting about town upon a visit to  
points of interest.

Representative E. W. Kelly and  
James A. Melville, member of the state  
land board, are a Filmore team in the  
city for a day or two upon a mission of  
controversy. If there were anything "car-  
rying on" in Millard county and these  
gentlemen don't know it, then it isn't  
worth knowing about. They are na-  
tives of the little city which was once  
intended to have been the state capital,  
and doubtless each of them, in his  
boyhood days, has "shied" many a  
stone through into the old, deserted  
stone state house that reared its  
gaunt walls in the middle of the  
square upon which stood the hotel and  
courthouse and the Co-op. store, with  
Jackson's blacksmith shop behind the  
latter. They speak of Filmore with  
much pride, as they have a right to  
be in a pretty town and has a future  
before it.

Hon. Geo. L. Shoup, former United  
States senator from Idaho, was at the  
Knutsford yesterday and left here last  
night for his home. Loyal as he is the  
senator speaks highly of the progress  
of Idaho and never tires of singing her  
praises. On his way home Mr. Shoup  
will stop at Porterville to hurry work  
upon a contract survey of a tract of  
land from the reservation which was
