

ROLLINS WAS ACCEPTED

For Purchase of County's \$350,000 Issue of Refunding Bonds.

INTEREST AT 4 1/2 PER CENT.

County Will Make a Saving and Will Also Receive Premium of \$8,900—Held Secret Meeting.

At a meeting of the county commissioners yesterday afternoon at 4 o'clock the bid of E. H. Rollins & Sons of Chicago for the purchase of the county's \$350,000 issue of refunding bonds was accepted. The bonds will bear interest at 4 1/2 per cent per annum and shall run for 20 years with the privilege of redemption in 10 years. The bid of Rollins was 4 1/2 per cent interest on the entire issue, and the payment on the entire issue of a premium of \$8,900, to the county of Chicago on the entire issue of the bonds. The old bonds which were redeemed at the rate of 5 per cent interest at the county will save 1/2 of one per cent interest by refunding and will also receive a premium of \$8,900.

THE BIDS RECEIVED.

Following are all of the bids received by the commissioners:

Premium.	
Gus & Rough, Cleveland, entire issue, 4 1/2 per cent, \$3,425	
McDonald-McCoy company, Chicago, entire issue, 4 1/2 per cent, 1,091	
E. H. Rollins & Sons, Chicago, entire issue, 4 1/2 per cent, \$8,900	
N. W. Harris & Co., Chicago, entire issue, 4 1/2 per cent, 1,630	
Ready for Savings, Cleveland, entire issue, 4 1/2 per cent straight state bond land commissioners, \$8,000 at 4 1/2 per cent	
Mason, Lewis & Co., Chicago, entire issue, 4 1/2 per cent, \$3,935	

Mason, Lewis & Co. also agreed to pay \$350,000 for \$345,000 issue. After the bids were opened, shortly after noon, an adjournment was taken until 2 o'clock, but at that time another adjournment was taken until 4 o'clock. The commissioners, however, held an informal session in the private office of the county assessor at which personal representatives of Rollins & Sons, Mason, Lewis & Co. and N. W. Harris & Co. were present, as were also representatives of the five daily papers of this city.

TRIED TO UNDERBID.

At that meeting the representatives of the bond buyers present announced themselves by trying to underbid each other. One of them stated to the commissioners that his company would pay \$350,000 for \$344,000 worth of bonds with interest at 4 1/2 per cent. Another offered \$350,000 for \$342,000 worth of the bonds, while Rollins & Sons' representative offered \$350,000 for \$340,000 worth of the bonds, which was practically a premium of \$2,000.

HELD SECRET MEETING.

At the conclusion of the grand stand trial of the bond buyers, the commissioners requested all to leave the room except the county clerk. The newspaper men present objected to leaving, and contended that a matter of such great importance should not be attended to behind closed doors. To this the commissioners replied that they were simply meeting in a committee, and would not award the bids until 4 o'clock and that they wanted to talk the matter over privately, and if the reporters would not leave the room they would go out in the hall and have their private talk. The reporters then left, and after a very short talk the commissioners came out of the office and announced that they would at 4 o'clock accept the original bid of Rollins & Sons, with further legal expenses attached to the transaction. To these subsequent and additional conditions the Rollins representative agreed. These conditions were reduced to writing and attached to the original bid of the company so that they would be binding, and at 4 o'clock the formal resolution accepting the bid of the company was adopted by the board of commissioners.

TERMS AMBIGUOUS.

Apparently the best bid received was from the Society for Savings of Cleveland, O. This company bid for the bonds with interest at the rate of only 4 1/2 per cent per annum. This would have meant a saving of \$12,500 per year in interest, which in 20 years would have amounted to \$250,000. After deducting from this the premium of \$8,900 offered by Rollins, it would mean a saving of \$17,250 if the bid of the Society for Savings had been accepted. Its bid, however, was not accompanied by a certified check, as required in the advertisement for bids, and further than that its terms were somewhat ambiguous and hence the commissioners could not see their way clear to accept it.

IN THE FEDERAL COURT.

Smoke Cases on Trial—Decision by Judge Marshall.

The smoke case of James Godfrey et al. against the four smelting companies of Murray and vicinity engaged the attention of the United States district court yesterday. The action is a bill in equity for alleged damages to the defendants and an injunction to prevent the smelters from longer continuing in business at their respective plants. Arguments are being made in the case from testimony taken by court examiner S. H. Lewis.

A decision has been handed down by Judge John A. Marshall of the United States district court in the case of Ralph Kellogg against the Provo Mining company and the Lily Mining company. The case against the latter company was dismissed at cost of complainant, the court holding that defendant company had not trespassed on plaintiff's rights and property. A contrary decision was rendered as to the Provo Mining company, and a decree will be entered at the defendant's expense.

BOARD HELD MEETING.

Considered Many Items of Importance To Educational Work.

At a meeting of the city board of education last evening, at which were present Messrs. Oberndorfer, Thomas, Martin, Chessman, Ellerbeck and Cummings, a number of important items of business were considered. Clerk Boyd was instructed to readvertise for bids for the construction of a new school building between Main and West Temple streets, in the south part of the city. This action was necessary from the fact that the former bids did

OPINION BY BREEDEN.

In the Matter of Probate Proceedings Fees.

Atty. Gen. Breeden gave out today an opinion in the matter of probate proceedings' fees in the office of the attorney general, in response to an inquiry from County Attorney E. E. Sprague, at Junction, Utah.

Sir:—Replying to your favor of the 11th inst. relating to the clerk's fees in probate proceedings, you are advised that under the provisions of section 572 Revised Statutes of 1898, that upon the filing of the petition and the issuance of letters testamentary, a fee of \$2 must be paid to the clerk, and if subsequently letters are issued to a special administrator an additional fee of \$2 must be paid the same as in the original case. And further, upon filing the inventory of the estate an additional fee of \$5, where the value of the estate does not exceed \$250, must be paid to the clerk. That is to say, from the filing of the first petition for letters testamentary up to and including the filing of the inventory and final settlement of the estate, when its value is less than \$250, fees amounting to the sum of \$12 must be paid to the clerk, if special letters are issued, then \$15 more must be paid.

Come Up Where You Belong.

Perhaps you know why you fall in the plans for money, fame and position.

Just why the brain does not produce practical money making results is a puzzle to many men.

Strong, healthy natural brains can be made from food, and good brains can work keenly when they have their proper food.

Unsuccessful brains often come from improperly selected food.

A distinct improvement in mental power will follow in a week or 10 days, when the brain-building food

There are well established and very clearly understood reasons for these sure results from the change in food. You can make Money, Position, Fame if you have the kind of Brain that works that way.

There's a Reason.

LIVESTOCK MEN ARE INTERESTED

In the Packinghouse Investigation Which Has Been Going On.

SOME EVILS ARE ADMITTED.

But They Deplore "The Wild Stories In Circulation" Which do Great Deal of Damage.

(Special to the "News.")

Cheyenne, Wyo., June 12.—The livestock men of Wyoming are taking a deep interest in the packinghouse investigation now being conducted by President Roosevelt and his lieutenants. Wyoming stockmen, while admitting there are some evils in the packing industry that should be corrected, deplore the wild stories in the circulation and the evil effect that these tales will have at home and abroad. These reports cannot but effect the consumption of mutton, beef and pork, they argue, and the markets cannot but feel the effect.

Many admit that the house cleaning will do good, but all say that the producers of meat are paying for it, and will also pay for the meat inspection if Congress passes laws levying the cost of inspection against the packers. The latter undoubtedly control the business of sale of livestock, and they will pay prices that will enable them to assume the additional expense of meat inspection and not effect their dividend.

Leading stockmen say it will be many years before our export trade will recover from the present knocking of the meat business. They say they hope the president and Congress will get through with this house cleaning at once, for the sooner the agitation is over the sooner will the livestock business begin to recover from the evil effects of the muck-raking that has been going on for several weeks.

Did ever occur to you that promissory medicines are a blessing to mankind generally? The good ones have long continued sale; the poor ones have short life and soon leave the market.

If we had to depend entirely upon physicians and druggists it would be expensive and very inconvenient at times, especially in the country and at night when neither could be conveniently reached. For nearly forty years Boech's German Syrup has been used in many families, and thousands of lives of adults and children have been saved by its use, when it was impossible to reach a physician. German Syrup is the best household remedy for cough, colds, throat and lung trouble. It quickly relieves the hacking cough, loosens the phlegm, and brings sound and refreshing sleep. Twenty-five and seventy-five cents. Get a copy of Green's Prize Almanac. At all druggists.

SKIN DISEASES

FIERY ACIDS IN THE BLOOD

All skin diseases are due to the same cause—an excess of acid in the blood caused by faulty assimilation of food and poor bowel action; this fiery acid matter is forced to the surface through the pores and glands. Pustules are formed, discharging a sticky fluid which dries and makes a crust, causing intense itching. When the crusts or scabs are scratched off the skin is left raw and bleeding.

Sometimes skin diseases are in the dry form, and bran-like scales come on the flesh, or the skin becomes hard and dry, often cracking, and the painful itching causes acute suffering. It does not matter how the trouble is manifested, the cause is the same—an excess of acid in the blood.

Salves, powders, cooling washes, etc., while they relieve the itching and give the sufferer temporary comfort, cannot cure the trouble because they do not reach the acid laden blood. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable and one which acts directly on the blood with a cleansing, healing effect. S. S. S. neutralizes the acids, and purifies the blood so that the skin instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. Special book on Skin Diseases and any medical advice desired will be furnished without charge.
