SUGAR BOUNTY SUIT.

Legality of the Bond Issue Argued in Boise Yesterday.

Sugar circles in this city are much interested in the case argued before the supreme court of Idaho in Boise yesterday, as on the decision will doubtless depend the question whether or not the Idaho Sugar company and the Fremont County Sugar company, will receive the bounty offered by the State of Idaho to induce the building of sugar factories on Idaho soil.

The present suit was filed by Judge Quarles at the instance of Edward Stein, a Boise business man, who asks for a writ of prohibition restraining th governor, attorney-general, state auditor and state treasurer from issuing o registering state bonds authorized by the recent legislature. These bonds were issued in order to build bridges across some of the big streams in Idaho, to pay the expenses of the University of Idaho and to make the first payment of \$20,000 on any sugar bounty tha might be earned. The state of Idah that was represented at the hearing by Atty.-Gen. Bagley, and attorneys also appeared for other companies who yould be affected should the bond issue be declared illegal, notably the Ameri can Bridge company who have con-tracted for the bridge at Weiser.

The court took the matter under advisement. The points raised by Atty.-Gen. Bagley are as follows:

First-The official capacity of the defendants and of the boards created by the Constitution and laws of the state of Idaho, authorized to perform the acts mentioned and complained of hi the petition does not sufficiently appear therein

Second-The writ of prohibition will issue to permit or restrain the acts of executive or ministerial officers.

Third-The petition does not state facts sufficient to show that the approportations made by the last legisla-ture exceed the limitations contained in section 11, article 7, of the constitution

Fourth-The petition does not state facts sufficient to show that the state's indebtedness exceeds the limitations contained in section 1, article 8, of the constitution.

Fifth-The acts of the legislature referred to in the petition cannot be col-laterally attacked in application for Prolathitics

Sixth-The petition does not state facts sufficient to show that the plain-tiff is entitled to the issuance of the writ of prohibition in this case.

This suit planted by Mr. Stein is sep-arate and distinct from the action taken by State Auditor Turner, who nounced some time ago that he would not issue warrants for the payment of the sugar bounty till the question had been passed on by the supreme court. Should the decision be in favor of the bonds it is thought Mr. Turner's objections will be removed, and that he will issue the warrants to pay the cialms for sugar bounty approved by state board of examiners

This body has appointed a represent tative, Mr. G. G. Wright, who is daily stamping with his seal the bags of sugar now being turned out by the Idaho Sugar company.

They are personal friends of Glen Miller, with whom they are also visiting. Mr. Hastings says that up to last night's storm there was but 10 inches of snow on the ranges, so that the outlook was a little dubious. But with plenty of snow the ranges of Blaine county can not be surpassed.
