The United Service for April is out, containing much instructive and entertaing reading matter, particularly to naval and military per-

the New York World: "For Presiharmony and hard money." This is when needed for use. brief and to the point, and appears to be simple. But the question, who is the best Democrat that can be had? is broad enough to allow of splits sufficient to disrupt the whole party.

The American Agriculturist gives the following as the highest inhabited houses in the world. In this country, a miner's house on Mount Lincoln, Colorado, is 14,157 feet high. In Peru, a railway village, called Galera, is 15,645 feet high. Near this place is the celebrated railway tunnel of La Cima, which is being bored through the peak of the mountain. The tunnel is 3,847 feet long, and is located 600 feet above the line of perpetual snow.

An English scientific journal relates that while the sailors of H. M. S. Faraday, aided by the new electric system of illumination, were one night lowering a cable, they noticed an immense number of fishes of all shapes gathering around the spot. By promptly throwing out nets they were enabled to make an extraordinary haul. The electric light may perhaps be employed to advantage by fishing boats.

The pious Mormons are said to be grasping all the fertile land in Utah by means of an ingenious system of township entries." So says the Cincinnati Times. What the "Mormons" are "said to be" doing would make a big book, but the truth in the volume would be like the nigger's one grain of wheat in three barrels of chaff. Mr. Times, why don't you find out something before you say anything more about the "pious Mormons?"

A floating bottle picked up at Portland, Oregon, a few days ago, contained a note stating that the unfortunate writer was at the bottom of the river, and urged that his wife in the East be notified of the fact. The lady had better be careful. Haste to wed again may involve her in trouble. It is quite possible, in these days of deceit and ledgerdemain, that her supposed defunct spouse has only been playing off a variety of the "bottle trick."

canal a violation of the Monroe doctrine, may be seen from the following extract from the London Standard: "This pretension the British Government is bound to watch, and, if necessary, to resist. No more at Panama than at Suez can the preponderating influence of another power be allowed to lay hands on the trade of England."

> Reno, late Major in the United States army, whose sentence has been confirmed by President Hayes, has met the partial reward of his misdeeds. His record shows that he was not only a rowdy, an inebriate, bills are of great importance, and and an insulter of women, but the would-be seducer of brother officers' wives. And it is still believed by many that he left the gallant Custer to his doom and intrenched himself for his own safety, while Sitting Bull's hordes, a little distance away were slaughtering Reno's comrades. The sentence is just.

There are in the committee of the whole House 109 bills and other propositions, on the House colonel entered into precautionary calendar thirty-two bills, etc., and over 250 bills on the private calendar. There are on the table over 100 bills from the Senate. Some of these members interested in them will make a fight for them even as against the appropriation bills.

"Be temperate in all things," is a wise motto. Some of our young ladies would doubtless be surprised if we charged them with intemperance. But they indulge too freely A Mrs. Williams, of Kansas City, in the dance, and frequently injure from the above.

> The Jewish Times, a paper recent ly started in San Francisco, congratulates Israelites on the distinction which is being achieved in the large cities of America by Hebrew receiving from foreign journals. One mark of distinction obtained by a Hebrew of American birth is that of Dr. Boerne Bettman of Cincinnati, O. This young man, of whom the Jews in the whole world should be position of First Assistant Surgeon in the Opthalmological Hospital and clinic of the University at Heidelberg. The fact is remarkable, insomuch as it is a paid position under the government, and Dr. Bettman is but twenty-five years of age, was graduate of the medical college of his native State.

BATTALION HISTORY.

BEAVER, U. T., March 3d, 1880.

Editors Deseret News.

I take pleasure in copying a few AT THE the benefit of your numerous read-

"Jan. 18th, 1847.—Some of the ly pure. Manufactured by Jewert & Sherman Co., men travelled and slept at intervals and did not reach camp until daylight this morning. The sheep arrived about noon. They number NOTICE TO CREDITORS. from 70 to 80, but they are so poor that when the skins are taken off, the hones have but a very thin covering, and there is but little nourishment in what little meat remains.

were eating their last four ounces of our government wagons have been abandoned but five. The Indian magistrate (alcalde) of the town of | Sr., deceased. Phillippi and a companion brought a letter to the colonel from the governor of San Diego, announcing the arrival of our men sent for supplies comes our approach. The governor's messengers were nearly naked and not unlike the Apaches in appearance. We did not travel to-day. This evening the colonel expressed great surprise at seeing the halfstarved, worn-out men who last night staggered into camp like so many inebriates now playing the fiddle and singing merry songs.

The messengers having brought word that it was rumored several more battles had been fought, the measures, as it was thought we might meet a large force of the enemy retreating towards Sonora.

Here Brother Henry Standage says: "We have nothing but beef, and very small rations of that. Today I was glad to go and pick up the pork rinds that were thrown away by the colonel's cook, although they were in the sand." Kind reader, make your own comments.

After about three or four miles of hard travel, mainly up hill, we came to a halt, even Weaver our main guide believed "we were penned up." Our indefatigable commander however, seemed to think it was too Buy the Cheapest and the Best. late in the day to abandon the wagon enterprise. He very sternly told the guide if he did not find a crossing or passage through these rocks and mountain gorges he would send men that would do it.

We had a rugged mountain ridge some two hundred or more feet high to surmount. Owing to rumors of PRICE, probably meeting an army of Californians the colonel ordered the This remedy has been known and formidable barriers now presented children's medicine. themselves. Our route lay up a dry ravine, through openings in the solid rocks. Our guides who had always traveled either north or south watch had a value to many, apart doctors, and the notice that they are of this route were as ignorant of its practicability as ourselves. As we traveled up the dry bed the chasm all cases of Children's complaints. became narrower until we found Let it be the first thing resorted to in a passage ourselves least eighteen inches narrower than our wagons. Nearly all bottle. proud, was recently called to fill the of our road tools, such as picks, shovels, spades, etc., have been lost in the boat disaster. The only ones remaining were a few axes, which the pioneers were using, at the time the boat was launched. These were brought into requisition; the commander taking one and assisting the pioneers. Considerable was done before the wagons arrived. One wagon was taken to pieces and carried over about an hour before sunset. The The London Underground Rail- passage was hewn out and the reroad, (the part known as the "Me- maining wagons got through about tropolitan") carried during the year sundown, by unloading and lifting The custom of the mother through the trunk, 60,747,553 passengers, and earned through, all but two, which were £506,504, or at the average rate of hauled through by the mules. Both just about four cents per passenger. men and teams were now exhausted, On this road, however, fares vary and the water we had expected to according to distance and class of reach early in the afternoon was at car, and a large proportion of the least seven or eight miles furpassengers only pass over a very ther on.
