GEORGE Q. CANNON,
EDITOR AND PUBLISHER.

OUR SUBSCRIBERS in the country can at any time ascertain the date on which their subscription expires by referring to the numbers attached to their name on their paper, i. e., 1-9-3 means first day, ninth month, third year, or October 1st, 1873. 1-2-4 means February 15, 1874, &c.

Those names having no numbers close with the end of the volume.

Subscribers understanding this will be able to renew their subscriptions prior to the time of expiration, so that their paper may continue without interruption.

LOCAL AND OTHER MATTERS

FROM TUESDAY'S DAILY, JULY 1.

FROM PROVO.—Brother James Dunne, superintendent of the Provo branch of Z. C. M. I., was in town to-day. The institution under his management is doing a good business.

LAMB FOUND.—Godfrey Leinhardt, 20th Ward, found a black lamb the other day. He took it to the Tithing Office Corral, where the owner can get it.

MORTUARY.—Here is the Sexton's report for June.

Males, 22; females, 11; of these adults, 19, children, 14.

Died from the following causes as reported:—

Lung disease, 7; killed accidentally, 4; marasmus, 2; consumption, 2; measles, 2; premature birth, 2; still born, 2; child bed, 2; measles, 1; smallpox, 1; dropsy, 1; tumor, 1; cancer, 1; convulsions, 1; liver complaint, 1; pueris, 1; paralysis, 1; hemorrhage, 1; suicide, 1. Total interments, 33.

JOSEPH E. TAYLOR, Sexton.

BRUTAL ASSAULT.—John Suedaker, a dairyman, resident of Mill Creek Ward, was assaulted in a most brutal manner to-day, on the State Road, about a mile south of the City, by a young fellow, named John Leonard. Mr. Suedaker's injuries consisted of a severe cut on the left temple and another on the upper part of the forehead, inflicted by a large rock in the hands of Leonard. The blood was streaming from the wounds when Mr. Suedaker reached the City Hall. He alleged that Leonard desired to ride in his wagon, but Mr. Suedaker declined to allow him to do so, as his vehicle was filled with milk cans and that, on this account, he was assaulted by Leonard. The latter was arrested and was to be tried before Justice Clinton this afternoon.

LEVAN, Juab Co., June 25.

Editor Deseret News:

Dear Sir:—In behalf of the subscribers to your paper, I must say that the papers have not arrived at their due time of late, sometimes being three or four days behind. Who is to blame? Complaints come to me about this, and I will give them my attention and try to get track of the cause of the delinquency.

Yours respectfully,
H. HARTLEY, P. M.

The fault is not at this office, the papers being mailed regularly from here. Will the parties whose business it is to rectify this matter give it their attention, that the people of Levan may not longer be subjected to the annoyance?

RESIGNATIONS.—We understand that Mr. Theo. F. Tracy, who has long had the supervision of Wells, Fargo & Co's business in this part of the country, has resigned his position in connection with that firm. Mr. Tracy has, by his gentlemanly behavior during his residence in this Territory, gained many friends here.

Mr. Charles F. Smith, who has been identified with the interests of the same firm hereabout for several years has also resigned. His unobtrusive manners have gained for him the respect and esteem of the many who have made his acquaintance in the Territory.

Mr. Henry Hague, a young man of rising ability, who has been in the employ of Wells, Fargo & Co. for some time, has resigned his position in the company's bank.

A MYSTERY CLEARING UP.—Here are still further particulars from "A. J." regarding the Provo accidental drowning case, which came to hand under date of June 28th:

"From Mormon Miner, of North Bend, Sanpete Co., the following has been gleaned in relation to the body found in Provo River, on the 2th inst:

"The body is that of James Johnson, aged 25, who has resided, since last fall, with his parents at North Bend, Sanpete Co. James Johnson and his brother, Peter Johnson, left North Bend together, on the 17th inst., James riding a bay mare, which he, Miner, had recently bought. Miner supposes they saw the grey mare from the range, and he thinking the Indians had stolen the mare, did not get on track of the thieves until the following Tuesday. Suspecting

the Johnson brothers, he followed them, passed Provo, and searched Little Cottonwood and Bingham Canons for them in vain. Returning to Provo he found and took possession of the grey mare, and heard the story of the drowning of James Johnson.

"Peter Johnson is still at large. He is about thirty years old, of dark complexion, and has black hair and beard. He came into the Territory last spring."

ARRIVALS.—On the evening of May 25th, the following brethren arrived at Liverpool on board the steamship Nevada: For England: Robert W. Heybourne, Henry Leigh and Arthur B. Taylor. For Scandinavia: C. G. Larsen, L. S. Anderson, John Franzen, Niels Anderson, Andrew Jensen, Andrea S. Nielsen, Even Forgeron, Loftuz Johnson, Magnus Blarnason. On business and visiting their friends: James Williamson and James Jackson. All were in good health and spirits, having made the trip across the Atlantic in eleven days. The Scandinavian brethren went right on to Denmark in charge of Elder C. G. Larsen.

Tuesday, June 3rd, Elders Jesse Cleverly from Bountiful, and John Fawson from Salt Lake City, arrived in the steamship City of Washington.

On the evening of June 8th, the following Elders, on missions to the British Isles, arrived at Liverpool on board the steamship Idaho: Robert T. Burton, Lester J. Herrick, John Clark, Elijah N. Freeman, John C. Graham. Sister Douglas and son, on a visit to their friends, accompanied these brethren. All are feeling well.—Millennial Star, June 10.

BURGLARY.—About midnight last night the house of Mr. Edward Dolman, chimney sweep, 5th Ward, was entered by a burglar, who carried off two silver watches, one silver and one gold chain, the latter worth \$30; also a pair of new blankets and \$10 dollars in legal tenders.

Mr. Dolman's house faces eastward and, as the usual custom during the warm season, the north window was left open when the family retired. Through this window the burglar must have quietly entered, picked up the articles named, and then "glently stolen away."

This is quite a loss to Mr. Dolman, he being a poor man. The \$10 dollars he had been saving, to add to it till he should have sufficient to enable him to send to England for a proper chimney-sweeping apparatus.

On Sunday night a man was observed sneaking around the premises, and it is supposed that he either actually committed the burglary or was an accomplice of the party who did. No arrest has as yet been made.

People living in the outer wards should take all necessary precaution against burglars, and at least be prepared to give such ugly and unceremonious visitors a warm reception.

OLD CONSTITUTION BUILDING.—This building is undergoing a process of internal and partially external metamorphosing. Three new bay windows in front, a new platform and plank sidewalk at the entrance, with a general overhauling, re-modelling, re-fitting, fixing up, painting, etc., in the interior of the building. When the improvements are completed the retail grocery and hardware departments of Z. C. M. I. will be one of the most tasteful and inviting establishments in the West. The north compartment of the building is now exclusively used for the stove, tinware and wooden ware business, and everything is there arranged in "apple pie order." In the central or main compartment the grocery and general hardware business is carried on, but the south division provides the greatest attraction, to the eye at least. This is being fitted with suitable shelving, and with a row of crockery stands down the centre, and the glassware, queensware, clocks, etc., are being arranged in artistic order and in such a way as to catch and tempt the eye of the customer.

Besides the improvements and alterations mentioned a divisional compartment is being constructed at the south side of the building, which will be used as a salesroom for plows, rakes, shovels, and all the smaller agricultural implements.

Those improvements are commendable, and were called for in a branch of Z. C. M. I. doing a business of the magnitude now being done by the one occupying the Old Constitution Building, and we may say that the other branches are in a similarly sound and prosperous condition.

OGDEN.—The following are from the Junction of yesterday:

Last night some desperate characters, who and how many they were we have not ascertained, knocked at the door of a house on Fourth street, occupied by a colored family named Jones. The door was opened, Jones and his wife appearing in answer to the summons. A large boulder was hurled at them, hitting Jones on the shoulder. It glanced off, and the woman was struck in the forehead. Her skull was slightly fractured.

On Saturday, at about 3 o'clock p. m., Jessie, daughter of Mr. C. W. Penrose, while walking across a room in her father's residence, stepped upon a needle, which penetrated the ball of her foot to the depth of an inch. Dr. E. G. Williams was sent for, and with great difficulty extracted the needle, which had been partially broken.

On Wednesday, the 18th inst., a lad fifteen years of age, son of Myrtillo Shaw, at Mound Fort, was thrown from a horse he was riding. A partial dislocation of the left wrist, a breaking of the large

bone of the arm, and a fracture of the right collar bone, were the injuries received. The arm and neck became so much swollen that the seriousness of his wounds was not discovered until the inflammation began to abate, when the protrusion of the bones gave his friends an idea of the severity of the injuries inflicted. Yesterday P. L. Anderson was called in, and relieved the sufferer. He was successful in replacing the bones. The patient is doing well and is under good care.

PISCICULTURE.—Yesterday Hon. A. P. Rockwood, received from the U. S. Commission of Fisheries from 5,000 to 7,000 shad. The original intention was to place those shad in the fish ponds, but that was deemed impracticable, the temperature of the spring water of the ponds being much too low. Mr. Rockwood has been in correspondence, for some time, with the department, and he received the appended instructions with the shad:

"DIRECTIONS.

"The shad should be placed in natural waters as soon as possible. In preparing to do this the young fish should be carefully dipped out of the can with a dipper, and so transferred to a barrel or tub, or other large vessel, and the water from the river or lake gradually dipped into the water containing the fish, until the temperature of the shad water is gradually raised or lowered to the temperature of the river or lake. The fish can then be poured into the lake or river, but this should be done very gently.

"The fish should on no account be kept in the cans over night, but should be transferred with the least possible delay.

"I would recommend that the fish be placed in the freshest part of the Salt Lake, or in its warmest tributary. Their natural temperature is about 60 to 70 degrees. They should be placed in deep water. They require fresh water now, but no salt water. All the handling and transferring of the fish cannot be done too gently.

"Very respectfully,
LIVINGSTON STONE,
Commissioner of Fisheries."

Those instructions have been minutely and faithfully followed by Mr. Rockwood, and the shad, which were so small as to be barely discernable to the naked eye, were placed in the Jordan, last night. The little fish came from the commission in a tin vessel, the construction of which is adapted to the purpose, and which is not much larger than a dairy-man's ordinary sized milk can.

FROM WEDNESDAY'S DAILY, JULY 2.

FROM CENTERVILLE.—The Centerville Sunday school and choir have been spending the day at Lindsey's Gardens.

MORTALITY.—Mr. Joseph C. Taylor, City Sexton, informs us that the mortality among the adult population, especially males, is increasing, while it is decreasing somewhat among children.

CO-OPERATIVE BRICK YARD.—The stockholders of the Bountiful Co-operative Mercantile Institution have opened a Co-operative brick yard, which is now in full running order, and turning out large quantities of excellent brick. This is a commendable step.

THAT ASSAULT CASE.—The case of John Leonard for brutally assaulting John Suedaker, because the latter declined to let him ride in his wagon, the vehicle being full, was tried to-day. The evidence showed that the case was a very aggravated one, the attack being entirely unprovoked. Leonard was fined \$50 and, in default, was committed to jail.

A. CLEANING OUT.—The police authorities have commenced a vigorous and needed raid on the demi-monde, several members of which are now looking through the bars of the city jail, having been sentenced to a term of imprisonment for plying their disreputable and disgusting vocation. It is to be hoped that the police will continue their course, which can scarcely fail to have a beneficial effect in reducing a great and deplorable evil.

FINED.—The two men connected with the semi-lottery-gambling concern, on East Temple Street, who were arrested the other day for swindling Ed. Clay out of \$5, were fined \$100 each. To understand Clay's \$50 was also to be returned to him.

We are informed that the lottery concern alluded to is run by a gang of from eight to ten persons, some of whom attend to the internal arrangements of the affair while others act as runners in fishing for green-horns and dupes.

HOME MADE WATCH.—This morning we were shown, by Mr. A. C. Grue, whose place of business is at Squires' barber shop, a very fine looking watch manufactured by his own hands. It is constructed upon the best known principles of watch mechanism, with lever escapement. The plates and barrel are made of hardened silver and the centre, third and fourth wheels are of hardened gold. This is the only watch we have heard of the works of which were constructed of silver and gold.

Mr. Grue is an experienced and skilled mechanic.

SUCCESSFUL OPERATION.—C. H. Lundberg, of Logan, writes that a child of his, ten months old, has been successfully operated upon, for hair-lip, by the Doctors Ormsby. The child has completely recovered from the effects of the operation and of course its appearance is wonderfully improved. Mr. Lundberg had two other children surgically treated at Salt Lake City, for the same cause, but both of them died from the effects of the operations.

MUSICAL JUBILEE ON THE FOURTH.—On the afternoon of Friday next—the Fourth of July, Madam Anna Bishop will hold a

Grand Musical Jubilee in the New Tabernacle in this city, commencing precisely at 4 o'clock. Besides her own talented troupe Madame Bishop will be assisted by Professor and Mrs. Careless, Mr. Croxall, and the Tabernacle Choir.

The Bishop troupe, as a whole, is probably as talented as any that has ever appeared in this city, and this Jubilee on the Fourth promises to be well worthy of patronage of the general public. To give as many as possible the pleasure of attending, the price of admission will be 25 cents, reserved seats 50 cents. Tickets may be had to-morrow at the Music Store of Calder & Careless.

THE NEW CO-OPERATIVE STORE AT LOGAN.—The new Wholesale Co-operative Store, now being erected at Logan (city), will be an immense and substantial building when completed. The ground plan is 81 x 80 feet. It is a rock building, the corners and front of cut stone, the piers, cornice, window caps and sills of massive iron, imported from the east. The store will have three storeys, and a large underground cellar 75 x 25 feet. The first storey is 15 feet high, the second 13 feet, the third is to be 12 feet. The second storey is now about up to the square, and the work is being pushed vigorously ahead. Mr. Henry Brown, builder, of Providence, has the contract for the whole of the mason and plaster work, and he is superintending the job. Mr. Munson, of Richmond, is the contractor for the carpenter work, and judging from present appearances this store promises to be one of the finest buildings of its kind in the whole Territory.

FOURTEENTH WARD SCHOOL EXCURSION.—Yesterday there was an excursion to Lake Side, projected and managed by the superintendents of the Sunday school in the 14th Ward. There were 175 adults and 275 children, the latter including attendants of the Sunday school and of Professor Riggs' day school. There was general regret at the absence of Elder Geo. H. Taylor, superintendent of the Sunday school, who was not able to attend on account of sickness in his family. His place was supplied by his assistant superintendents, Messrs. H. P. Richards and Joseph Horne. Bishop Taylor accompanied the party and had the general oversight thereof.

Six cars were chartered to convey the excursionists to their destination and they were comfortably filled. They landed from the cars at about 9 o'clock and as many as wished were conveyed thence in vehicles to Haight's Grove at Lake Side. A very pleasant day was spent, nothing occurring to mar in the least the general enjoyment. A good quadrille band was in attendance. There were swings, quito, and other games and amusements. The excursionists left for this city at five o'clock in a special train of five cars, which were rather too full to be comfortable. With this trifling exception, all seemed well satisfied with their trip.

FROM THURSDAY'S DAILY, JULY 3.

BORN.—In this city, July 2nd, to the wife of Mr. John Alford, a son.

IN TOWN.—Major Powell, explorer and United States Indian Commissioner, is in town.

THE HOUR.—The firework display, on Arsenal Hill, will commence at half past eight or a quarter to nine o'clock to-morrow night.

PERSONAL.—Bishop L. E. Harrington, of American Fork, called in briefly yesterday afternoon and reported things at his town and in Utah Valley generally moving along finely. Good prospects for crops.

A GENERAL HOLIDAY.—It is generally understood that to-morrow will be observed as a general holiday by all classes of people, and that all stores and other places of business will be closed.

"MOST FOUL."—The fouling of the waters of City Creek, immediately east of East Temple Street, by the washing of dirty vehicles of every description and the feet and legs of animals.

PAROWAN.—Wm. Marsden writes from Parowan June 8, that business there was very dull, but the people generally enjoyed good health.

MORE EMIGRANTS.—It will be seen by our dispatches that 750 emigrants, (most if not all) for Utah, sailed on the steamer Wisconsin from Liverpool yesterday. They may be here on the 23d or 24th of this month.

MEAT.—The "knights of the cleaver" intend having a holiday to-morrow. The large public market will be closed at half past six o'clock this evening and will not be opened again till Saturday morning. We presume the Twelfth Ward market will also be closed.

WILL BE HOME THIS EVENING.—We are informed by Brother B. H. Schettler that he received a telegram from his brother, Paul A. Schettler, dated at Omaha, which stated that the latter would reach home to-night.

CALL'S FORT.—This is a settlement of twenty families, in Box Elder County, established, in 1859, by Brother Anson Call. J. May, of that place writes, July 1st, that the people there are healthy, prosperous and happy, crops look fine and cattle are fat. A rock school house, 20 x 40 ft., has been built and the inhabitants of the little town have no desire to change their location.

THE GLORIOUS FOURTH.—To-morrow being the anniversary of "Independence Day," and the Printers being like other people, having more or less patriotism, and, moreover, being fond of an occasional holiday, we trust our readers will take this as a sufficient reason for there being no paper till Saturday evening.

COMFORT FOR THE "SQUIBBERS."—The juveniles who delight in the firing, crackling, humming, and booming of fire works and

fire arms, and who are prevented from indulging in this kind of sport within the limits designated by the city ordinance on the subject, should take comfort in the assurance that they can have their proclivities in this direction gratified by the display to be provided by the City, on Arsenal Hill, to-morrow night.

THE PARADE.—The Fire Brigade have made ample preparations for an imposing parade to-morrow. The members of the Brigade will appear in procession in full equipments, with all the apparatus belonging to the different companies, and with suitable decorations. The distance to be traversed by the procession, according to the published route, is about five miles, or thirty-two and a half blocks.

WELCOME.—John P. Jones writes from Spanish Fork, June 30th:

"Yesterday afternoon, immediately after the close of our Sunday school, a procession proceeded from the meeting house to greet and welcome home Elder John A. Lewis, who had just returned from a mission to Wales.

"The procession marched to the residence of the returned missionary, in order as follows:

"Ecclesiastical and municipal authorities, led by two veterans in the ministry, bearing a banner with the inscription 'Hail to the friend of the poor, welcome home.'"

"The Spanish Fork Choir, conducted by Prof. W. R. Jones.

"The Sunday school, each class guided by its respective teacher, followed by a large number of other citizens.

"Speeches of congratulation were made by brothers Wilkins, Ferguson, Creer, Martell and Evans, and warmly responded to by Elder Lewis, which, together with the sweet music made by the choir, rendered the event very interesting."

SLOUGHS OF DESPOND.—"A Fifth Warder" informs us, by letter, that in the Fifteenth, Sixth and Fifth wards, on both sides of and contiguous to the track of the Utah Southern Railroad are numbers of unsightly holes, or pools filled with stagnant water, for which, being lower than the ditches, there is no escape, save by absorption or evaporation. The effluvia arising from these places is described by "Fifth Warder" as being far from aromatic in its character, and is not at all gratifying to the olfactory of the residents of that part of the city, not to speak of passing pedestrians. To make the matter worse rubbish of various kinds is sometimes thrown into these pools, which serves to increase the uninviting stench.

We coincide with our correspondent's opinion that such nuisances are strongly detrimental to health, besides being very unsightly, and that they should be at once abated. Whose duty is it to see that these pestiferous breeders are removed? If the party or those parties upon whom it devolves to see that this matter is attended to should see this allusion to the subject, it is to be hoped they will take the hint.

CATTLE THIEVES.—We have reports from various quarters that numbers of cattle thieves are prowling around in various parts of the Territory, from north to South, and plying their vocation wherever and whenever opportunity offers. This class of scoundrels probably feel encouraged since the escape through judicial humbuggery and perversity of the parties who perpetrated the who-eale cattle robberies at Corinne. Individuals of the cattle thieving stripe try their hand at their business occasionally even in this City. A short time since a resident of the 20th Ward had his team, upon which he was measurably dependent for a livelihood, taken out of his corral while he was absent from home about two hours one evening. Parties living in the neighborhood saw a man running the animals off, but, it being dark at the time, they thought the person was the owner of the team and that he was taking them to water. No trace has yet been discovered of the animals. They are the property of Elijah White, and were advertised for the other day.

QUIT CLAIM Deeds for sale at this office.

THE SAXES import more stock. Col. Rollin P. Saxe, son of Col. Peter Saxe, the well known importer of and dealer in fine blooded stock, has now at Ogden fifteen choice Durham bulls. Three of them are for Idaho, the remainder will be offered for sale for a few days to the stock breeders and farmers of Utah. These animals are said to be of the best strain of beef Durhams, and persons who desire to improve their stock have now a splendid chance if they will but take advantage of it. The Messrs. Saxe will not be in Utah again until next December. This is their sixth trip, with the best breeds of sheep and cattle to this Territory. They have already sold ninety-one head of cattle to the stock raisers of Utah. They guarantee their present importation to be first class, and they challenge the inspection of experts. Mr. Saxe offers a prize of \$100 in gold to the exhibitor, at the next Territorial Fair, of the best bull and heifer imported to Utah by him. This is the way this enterprising importer encourages the efforts of the stock-raisers to improve their animals. See advertisement, and remember that if not sold these choice Durhams will leave the Territory in seven or eight days.
