#### DESERET EVENING NEWS THURSDAY JUNE 13 1907

words from an old song were suggested by this morning's business on the local mining stock exchange. After holding up in good shape the market this morning was weak, although favorites retain their strength in spite of all. While the forenoon totals were light it does not mean that the weakness apparent in outside, markets has appeared here, because the strong underione is still felt. A number of stocks made gains in the face of active selling, while the offerings in greatest demand refuse to go down the line co any event extent

6

Park City made its bow the first thing this morning through Daly-Judge which sold at \$6,75-a figure slightly lower than market. A second block of 100 shares sold ten cents higher on the open board. The Tintics, while a little quieter than usual, were strong. May Day sold at 30½ on the regular call, and a half cent lower on the open board; Uncle Sam at 70; Iron Blosson; at 36 and 85; Mountain Lake at 70 and 69; Lower Manmoth at \$2.35, and Sloux Con, from 46 to 50. Sacramento was a lively seller and during heavy transferring gained a half point. The forenoon sales, totals and closing quotations follow: EORENOON OUTCATIONS

#### DYER CHANGES HANDS.

#### Famous Old Copper Property Near Vernal Repurchased.

The old Dyer mine has changed hands again and the best part of it is that a force of prospectors will be put to work June 20, prospecting the prop-erty for another pocket of copper, says

erty for another pocket of copper, says the Vernal Express. Mr. Gates, of Milwaukee, who at one time purchased the old Dyer mine at auction here in Vernal for \$63,000, has again secured the interests of the stockholders who have kept the mine closed down for a number of years. He writes to Nate Hunting, the watchman at the mine and smelter, that he is again in control and proposes to open up another pocket of copper that he is again in control and proposes to open up another proceed of copper and put life into the old deserted camps at both mine and smelter. He still has faith that this property is not worked out, and in this opinion he is not alone, as nearly every practical miner who evor worked there is satisfied that there are more and even larger depos-its of the rich copper ore in that nill. It is a well known fact that over 100 carloads of ore was shipped from this mine that averaged 50 per cent copper: hauled by wagon a distance of 95 miles to Carter station on the Union Pacific, and then paying a handsome dividend. Later, after the smelter was built, coke was freighted in from that point over a rough mountain road with which to coreate the smelter. over a rough mountain road with which to operate the smelter. It is also a well known fact that this mine aas paid individends something over \$800.-

worked out, and a little scratching worked out, and a little scratching around failed to uncover another pock-et, the mine was shut down. Even then the ore was so rich that the old dumps were sorted over, and enough float picked up on the side of the moun-tain below to make another smelter run. Now, copper mines are worked at a profit that average from five to 10 per cent copper. The Dyer hill has only been genetrated a few hundred feet which would only be termed sur-face workings in some of the big min-ing camps, where ore is taken from hundreds and even thousands of feet SAN FRANCISCO MARKETS. CONCENTRATES.

A car of concentrates is expected in from the Silver Shield today. The shipment will contain in the neighbor-hood of 50 tons and is the product of a little mill being worked by the com-pany. Manager Harry Joseph says another 50-ton shipment is ready at the mill. The management is auxious to learn what the mill is doing as it can handle 20 tons a day if the man-agement so desires. agement so desires.

The quarterly report of the Gold-field Consolidated Mines company, just issued, shows that the funds in the treasury of the Consolidated and the treasury of the Consolutated and constituent companies aggregate \$1.-400,339.23. In addition to this the bul-lion produced by the Combination mil during May is added, \$119,000, making the total reserve \$1,519,339.23.

#### INDUSTRIAL WORKERS AND MINERS' FEDERATION.

dividend-making manner. "The new Wilfley table was started yesterday at 2 o'clock and from the moment water started over it we could see the yel-low stuff shaking into the side boxes. I tell you it was a sight for the eyes to see the gold glittering in the boxes. The inauguration of tabling means, ac-cording to John Brooks who has had charge of installation, that we will save 85 per cent of our values, but I honest-ly belleve we will save more than that. From three to 10 test samples made daily during the past few weeks we have received returns which prom-ise \$2,000 per ton for our concentrates. We are sorting ore from the 115-foot level, which averages \$50, and we are getting milling ore which will go from \$12 to \$40. Considering the little amount of work done by the Jennie this is an excellent state of affairs and is more than pleasing to the man-agement." Denver, June 13 .- As a forerunner of the split between the Western Federation of Miners and the Industrial Workers of the World, it developed today in the report of Acting President C. E. Mahoney to the federation convention that McCabe union, W. F. M. vention that McCabe union, W. F. M., of Butte, had adopted resolutions at a local meeting charging Mahoney with having fraudulently used the funds of the federation to help the Industrial Workers and with being a traitor to the federation. Mahoney denied the charges and demanded that the union file writ-ten charges against him, that the con-vention hear evidence and if he be found guility that he be expelled from the federation. The charges are based on alleged ac-

the federation. The charges are based on alleged ac-tions of Acting President Mahoney and some other federation men at the last convention of the Industrial Workers of the World

this is an excellent state of affairs agenci." A "batch" of bullion reached the order market yesterday but the weight and returns are not known yet. The fast batch brought a big return in siver and an equally handsome return in gold. As development is opening a pring will be commenced within a short time; probably a consignment yell leave by the first of July. The Jenne shaft is now down to a depth of 175 feet and drifting has been start-ed at this depth. On the 115-foot level both ledges were cut, the first within four feet of the shaft and the scond at 15 feet. As both ledges have considerable dip, more work will be at this find is a mighty good on the 115-foot level opened a two feet of \$52 ore Grabe samples for the face of the north drift go for the face of the north drift go for the face of the present shrewd management will be paying dividends, in reasonable time. The Uvada ex-perts to cut the lege within a short im, and a gang of men is now push-ing this work. The Jernie Extension's shaft and tunnel are in the rich stuff. the World. the World, Vincent St. John of Goldfield, Nev., a member of the executive board of the federation, who was one of four federa-tion men at the I. W. W. convention, in federation, who was one of four federa-tion men at the I. W. W. convention, in his report said that the minority in the convention, supported by the officers, stole all the offices, refused to make any report of the condition of the funds and delayed meetings in order to the out the delegates. St. John declared that the officers employed thugs to slug those who protested against these high-handed proceedings. He said he him-self was knocked out with a slungshot. Mahoney, St. John charged, was pres-ent when the thugs were employed and made no protest. St. John also said that John McMullen, a member of the W. F. M. executive board, knew of the em-ployment of thugs and conspired with C. O. Sherman of the I. W. W. and others to steal the offices and run the convention with a high hand. These reports created a sensation in the convention but up to 1 o'clock, when the convention adjourned for the Butte union No. 1, no charges were officially filed against Mahoney or oth-ers.

### SMUGGLER INDICTED.

San Francisco, June 13.—Migual Cornejo, arrested in March, 1906, on the charge of having smuggled pearls here from Mexico has been indicted by the federal grand jury. Cornejo is accused of having smuggled \$8,385 worth of Mexican pearls into this port. Honey, per pound the charge of having smuggled \$8,385 coconnuts, each Potatoes, per bushel Beats in cans, each St. Louis, June 12.—Wool. PRODUCE.

CHICAGO.

In today's markets, there has been such an influx of strawberries that prices have failen to 10 and 15 cents per box, or "two for a quarter." The selling is therefore somewhat lively. The receipts of the day, include two cars of oranges, one of lemons, two of banauas, one of Bermuda oniona from California. One and a half of new potatoes from southern California, a car of Winningstead cabbages, one car car of Winningstead cabbages, one car of Idaho potatoes, a car of tomatous from Mississippi, a car of cantaloupes in boxes, also broken shipments of peas, beans, cucumbers, etc., from Texas. Strawberries from the coast are now few and far between, and the cherries are thinning out also. There has been a slight raise in the price of core meal. The figures obtaining tocorn meal. The figures obtaining to-day are as follows: RETAIL.

#### DERN IN YERINGTON.

#### Well Known Salt Lake Operator Elected President of Nevada Bonanza.

The Nevada Bonanza, owning ground The Nevada Bonanza, owning ground near Yerington, has taken up the Revenue group of 17 claims and John Dern has been selected president of the company. Its capitalization has been increased from \$700,000 to \$2,100.-000 in view of the largely increased estate. To accomplish the consolidation

equisition of new property, 700,000 shares of the capital stock of the reacquisition of new property, 100,000 sharcs of the capital stock of the re-organized company were set aside to be sold to subscribers. Among those to take up this allotment were: James C. Dick, formerly of the Utah Copper company: John Dern, J. William, Young of London, Parley Williams, James F. Dunn, Richard D. Millet, James F. Dunn, Richard D. Millet, James F. Freeze, Elias A. Smith, Wal-ter Fitch of the Calumet and Hecla Copper company, H. M. Lazette of Michigan, Bishop Abram Hatch, J. E. Langford, Jacob Moritz, Seth Pix-ton, banker of Riverton: James E. Paine. Tuttle Brothers, William H. Turner, capitalist of Chicago; Thomas M. Osman of Mercur, L. E. Morning-star, Pittsburg, Pa., and Freeman Morningstar.

Morningstar. The organization was accomplished The organization was accomplished at the annual meeting of the Bonanza company, held Tuesday when virtually the old board was re-elected, with the addition of John Dern and Richard D. Millet. John Dern was elected presi-dent; Sereno B. Tuttle, vice president; Freeman Morningstar, general man-ager; Fred C. Dern, secretary and treasurer. These with J. William Young, Parley L. Williams, W. D. Mathis, H. P. Clark, and R. D. Millet form the board of directors. form the board of directo

#### SECOND RAISE GRANTED.

Butte, Mont., June 12 .- A Miner spe-dal from Helena states that the Americhal from Helena Rates that the Ameri-one Smelting & Refining company to-day announced a proposition to its em-ployed whereby a second increase in wages of from 15 to 25 cents a day is granted, dependent upon the class of labor. The scale for yard men and mechanics remains unchanged but the inen will work eight hours instead of ten. The company also announces more liberal terms governing the recently in-augurated bonus system. The employee have presented demands to the company for an increase of 50 cents a day with the threat of striking June 16, if their demands are refused. Manager Smith states if the employees refuse the company's proposition the plant will close and all ores will be shipped to Sait Lake. The works em-ploy, about 700 men.
