BIKE RIDERS OF OTHER DAYS.

Has Become of Some of The Noted Bicycle Racers.

SOME CONE AND FORCOTTEN.

Many Are at Work With the Automobile, Some Are Teachers and Others Hotel Keepers.

"I see a great deal in the papers of late of old-time ball players, and what they are doing for a living now," said a Salt Lake cycle fan the other day. "But I have often wondered," he continued, what has become of the old-time bike racers? The men who used to enthuse thousands by their great speed and endurance, just as Iver Lawson and Floyd Mc-Farland are doing now in far away Aus-

The mention of Iver Lawson brought to mind the sprinter's famous brother John. The man who established the name of the "Terrible Swede" among the world's famous birkers, and who did so much for the in this city. John is dead, memory of his rethe Rut ability as a sprinter markable

markable ability as a sprinter and long distance racer during his prime, still lives in the minds of race fans throughout the country. Many of John's clottine competitors are now following other pursuits and are prosperous in this world's goods, while others are still pushing the pedals for fame and fortune. Charles Ashinger, a one time popular sprinter of the wheel, is now in Ohio teaching school and raising chickens. He is reported to be doing well.

"Plugger Bill" Martin, who, in the '85, was one of the kings of the track, is now in Australia. Whether he is racing or not is not known for a certainty, but reports have it that he is in the hotel business.

Another old-timer in Australia is Floyd McFarland. He is iver Lawson's team mate and still has a sprint in him. Floyd was Harry Elkes' racing partner when they won the six-day race at New York, in 180. In that race they covered 2,628 wills and seven laps.

mevertheless he was prominent in his time.

Major Taylor, the colored whirlwind, is probably on the decline. He has returned to Australia to try his speed against Iver Lawson. But even if Taylor makes little or nothing, he will not starve. It is estimated that he is worth nearly \$100,000.

Tom Cooper's name is still familiar to lake cranks al lover the country. He is now in the automobile business in Detroit, and it is said he is making lots of money and is worth more than \$75,000. Another rider in the automobile business is Raiph Temple. He is located in Chicago. "Senator" W. J. Morgan is advertising man for an auto paper, Albert Schock is another old-timer in the same business. Jack Prince is still in the game, but as a promoter. Billy Knapp is traveling salesman for a whisky house.

Every Sait Laker knows what Barney Oldfield is doing. He is now hailed as king of all the auto races. Another automobilist, who has forsaken the pedals, is charley Miller, the man who made the remerkable record of 2007 miles, and four

Leter Wilson is an automobilist in Pittsburg. Otto Maya, another six-day rider is a bartender in his father's salon in Erie, Pa. Tommy Hall, who holds the one-hour record, is still in the game in the east. Frank Waller, another favorie at the Garden, is said to be in England laying cement pavements. There are many others, too numerous to mention, who have given up the racing game, and who have given up the racing game, and are now in business for themselves.

PREPARING FOR TRACK WORK Running Course at University to be in

Good Shape by Spring. Work has been started by Director of Athletics Harvey Holmes of the university on the running track, and by spring time the course will be in superb condition, and will probably be the best of its kind in the west. The track is to be a cinder covered one, and the work of putting on the surface has already been latinched. The quarter mile and the 100 yard tracks will be repaired, and put into first class condition before the athletes are ready to to the athletes are ready to begin training.

There will probably be a track meet between the local team ad the team representing the university of Wyoming, as Manager Gates of the latter has writ-ten to Holmes asking for a date.

NEW YORK THEATERS. All to be Investigated to See if

They Are Safe. New York, Jan. 1.—Stirred by the Chicago theater horror the authorities of this city are about to institute a thorough investigation of all amusement places in order to most thoroughly guard against a similar happening. However, the managers of all the leading theaters declare that they already have taken every means for insuring the safety of their patrons. Nicholas J. Hayes, who today becomes fire commissioner, announced that his first official act will be to order an investigation of all the theaters in the city to ascertain whether or not they are so constructed and so equipped as to safeguard human life in case of fire or other causes of panic. New York, Jan. 1 .- Stirred by the Chi-

of panic.

"In this work no one will deter me from doing my full duty," he said. "It is certain that the protection of human life is the first and most important duty of the fire commissioner and next to that comes the protection of the people's property. I shall order this investigation at once, and I shall take means to ascertain what is necessary to be done by the department itself to throw further protection about our ditizens and their property."

City Supt, of Schools Maxwell has issued special fire instructions to the district superintendents and principals of schools whom he directs to take every precaution at once to ensure a perfect understanding of fire drills and rapid dismissal for the hundreds of thousands of children under their care. New York, Jan. 1.—By means of a clever and carefully prearranged scheme, a man calling himself S. W. Spencer, repreman calling himself S. W. Spencer, representing himself to be the British vice consul at Washington, an office that does not exist, is declared by a banking and exporting house to have been traveling through Europe since last October defrauding banking houses with spurious drafts and forged checks drawn on prominent bankers and business men in New York.

The scheme he is alleged to have operated involved his presence here a few months ago. He is said to have visited exporting houses, and representing himself as British vice consul at Washington, secured drafts for large sums on forcing correspondents for shipments of ton, secured drafts for large sums on for-eign correspondents for shipments of watches for New Jersey makers for whom he pretended to hold power of at-torney. The shipments never reached Eu-rope, but Spencer did, he took along the drafts upon the proceeds of which, it is alleged, he is enabled to live without la-bor for the time being. FIFTY MILES OF TRACK DOWN.

Sixteen at This End and Thirty-Four Out From Daggett is the Total to Date.

Work on the San Pedro, Los Angeles & Salt Lake is being pushed with vimfrom both ends of the line. Reports from Calientes state that graders are now working 77 miles out of Callentes with about 50 miles of grade completed. This work, which is finished, however, is not consecutive track and there are yet gaps to be closed up. To date there have been 16 miles of track laid, but the gangs are temporarily held up owing to a rock cut which yet remains unfinished in the Meadow Valley wash. The contractors, however, have agreed to build a temporary track around this cut so that the operation of tracklaying may not be delayed. By Jan. 10 it is antici-pated that there will be about 25 miles

of track laid. At the California end of the line Norton & Co. are pushing operations, but are temporarily delayed by a short tunnel which is now being driven.

About the second week in September the construction company commenced work on its part of the contract which calls for the completion of the line to the Nevada state line. The rails are now laid as far as Daggett, a distance of 34 miles, and the necessary buildings, such as roundhouses, etc., are in progress of construction. The forces of Norton & Co. are to be reinforced by the company which built the Chatsworth tun-nel for the Southern Pacific and the work will be rapidly pushed through to

It is anticipated that the contract for the closing up of the 100 mile gap be-tween the Daggett and the Callentes extensions will be let in the near future.

J. A. BENSON ARRESTED.

Charge Against Him is Bribery of Public Officials.

New York, Dec. 31.—John A. Benson of San Francisco is in Ludlow street jail tonight, owing to his inability to furnish \$10,000 bail. He was arrested here today on a charge of bribery, at the instance of secret service officers, who feared he was about to leave the

Benson was recently indicted in Washington for bribing a federal offi-cial. The indictment, which reached here today from Washington, contained 60 typewritten pages. It first charged that Benson and Frederck A. Hyde of San Francisco were engaged in the business of unlawfully obtaining pos-session of titles to the public lands in California and Oregon known as school

The indetment stated that following the securing of the lands by the two men, the interior department special agents, A. B. Pugh and H. E. Steece, commenced an investigation. It is charged that on May 15 last Benson paid Woodford D. Harland, chief of the police service of the interior depart-ment, \$200 to furnish him with advance

information concerning the report of Messrs. Pugh and Steece. It is further claimed that a second payment of \$200 was made to Harland on March 20, a third on March 25 of the same amount and a fourth on Dec. 18 to the same federal official of \$250. A claim is also made that on Dec. 16 Benson paid William E. Volk, a clerk in the land office, the sum of \$150 to permit

him to see certain reports. After his arrest the accused man was taken before United States Commissioner Shields, who set his examination for Jan. 12. Being unable to secure bondsmen, Benson was taken to jail, J. G. Campbell, one of Benson's counsel, said his client had appeared before a United States commissioner in Washington, Dec. 17, and that the examina-

tion had gone over until Jan. 7.
"Not caring to wait," said he, "the federal officials there yesterday indicted Mr. Benson on the identical charge he was arraigned on there. We expect to be able to show that Benson had been guilty of no such crime. We will furnish ball for him tomorrow.

Feudal Battle Songs Revived.

Tokio, Jan. 1.-It is now stated that Sir Claude MacDonald, the British minister to Japan, urged the purchase by England of the Chilian battleships, the Constitution and Libertad. A significant and curious feature of the New Year's festivities, now at their height, is the revival of the old feudal battle songs by the people here.

Gravelle Guilty.

Helena, Dec. 31 .- The jury at 3:10 p n, returned a verdict of guilty against Isaac Gravelle, charged with sending blackmailing letters to the Northern Pacific officials and dynamiting its trains. Gravelle will be sentenced on Monday. The trial was begun Dec. 14. One hundred witnesses were called, and in all respects it was the most noted criminal trial in the history of the Montana courts.

A CLASH WITH COLOMBIA.

Danger of It Abates With Each Succeeding Day.

Washington, Dec. 31.—State department advices of recent date tend to show that the danger of a hostile clash with Colombia is abating, and these, taken in connection with Minister Beaupre's courteous treatment by the Colombian officials on his way home, tend to confirm the official impression here that there is no danger of failure to reach a satisfactory adjustment of whatever issues may exist between the United States and Colombia.

If the Colombian government follows the advice of Gen. Reyes, all idea of the breaking out of hostilities between Colombia and the United States may

be dissipated. Even though the reply of this government to the note of Gen. Reyes may not be of a nature to afford him much comfort, he said today that he would use all the influence in his power to prevail upon his government Amusements to refrain from any hostile demonstra-tion toward the United States. Mollie Thompson as the drunkard's wife, and Miss Florence Sutliff in the character of Little Mary, acted very cleverly.

Between the acts litle Florence Sutliff sang a solo, showing that she has a remarkably strong voice for a child of her age, in fact an almost phenom-enal organ which is being ruined by being used at such an early age, and strained to excess. There was also a biograph display to entertain the audience between the acts.

DESTROYED BY FIRE.

The fire was in the roof and the occupants of the house had barely time to dress and Three Men Sought to Rob Store remove the furniture when the burnt timbers came down with a crash. The cause of the blaze is said to have been an overheated stove. The Mawsons live on Third East between Thirteenth and Fourteenth South streets.

Children Poisoned.

Denver, Jan. I.—Mrs. Amanda Young-blood was shot and killed and her son Robert was seriously wounded by three men who attempted to rob the grocery store conducted by the family at Valverde. The robbers gained entrance to the store on the plea of calling a doctor. Once inside they ordered Thomas Youngblood aged 53, to throw up his hands. The old man refused and grappled with the robbers. Mrs. Youngblood ran to the assistance of her husband, at the same time calling for her son, who was in the adjoining room. The robbers immediately opened fire, killing the aged mother, wounding the son, and then made good their escape. Many children are poisoned and made nervous and weak, if not killed outright, by mothers giving them cough syrups containing opiates.
