IS IT A CANARD?

THE Great Salt Lake, of Utah, from its vast dimensions, its inland situation, and the fact of its having no known outlet, has long been regarded by scientific men as one among the anomalies and wonders of creation.

A special telegram received this morning, per Western Union Telegraph Line, makes the somewhat startling announcement that a subterranean outlet to the waters of the lake has been discovered. If this be true, a considerable portion of the mystery in regard to the Lake will be done away, as well as the wonder to which that mystery has given rise.

The dispatch reads as follows: "CORINNE, 9.—A subterranean outlet to Great Salt Lake has been discovered opposite Corinne, and between Fremont and Kimball's Islands. The schooner Pioneer, Capt. Hannah, sailing in the vicinity last Tuesday, was drawn into the opening, which is an immense maelstrom or stupendous whirlpool, and the descent and circular motion of the water were so rapid that the vessel was made to spin round in it with frightful velocity, and it was only by a high wind prevailing at the time that she was enabled to sail beyond the influence of the awful chasm. Captain Hannah reports that he has no doubt whatever that this opening, never before discovered, is the grand outlet of the Lake.

A party of scientific men will leave here immediately on the steamer to investigate this greatest of modern wonders. The result will probably show how, for ages, the accumulations from a thousand mountain streams, have disappeared through the earth's surface.

We shall await with considerable interest further developments from the investigations and explorations of the party of "scientific men," referred to in the telegram. Our faith in the report, at the present time, is very slim indeed. Science, however, has proved many things, and it may prove the truth of this report. Until it does we remain skeptical.

(SPECIAL TO THE DESERET NEWS.)

By Telegraph.

AFTERNOON DISPATCHES.

CONGRESSIONAL.

SENATE.

Long debate on Hatch's case—Indian appropriation bill.

The long debate in the Senate, on the memorial of Mr. Hatch, setting forth that his right as an American citizen had been violated, by unjustifiable arrest, imprisonment and sentence of death by the Dominican authorities, and his release prevented by the intervention of General Babcock, a U. S. officer, the acting commissioner for the annexation of San Domingo, resulted in the appointment of a special committee of seven to investigate the matter and the circumstances therewith connected. The Indian appropriation bill was considered without final action.

HOUSE.

Fitch excited; he is exonerated by Butler—Currency bill, etc.

In the House Sargent introduced a bill to amend the act of 1863, for the survey and sale of public lands, by providing that money deposited for surveys shall be credited as part payment for the land.

Hayes reported a bill to amend the pension act, by giving permanent disability to the date of disability at the rate of \$25 per month.

The report from the conference committee on the bill for the supply of artificial limbs to soldiers was agreed to.

Fitch, as a question of privilege, announced, as an unmitigated falsehood, a newspaper statement that he was implicated in certain professed disclosures as to the corrupt use of Cuban bonds, and the author as a wicked and cowardly liar.

At this, Butler, chairman of the subcommittee, stated that there was no evidence whatever to implicate Fitch in any improper transaction relative to Cuban anything else.

Garfield's currency bill was taken up. Several amendments were offered, and finally, after the previous question had been moved, the House, by a vote of 79 to 75, adjourned, thus sending the bill to the bottom of the bills on the Speaker's table, or virtually defeating it.

Morrill reported the consular diplomatic bill from the committee on appropriations, with amendments.

Stewart, from the judiciary committee, reported, with amendments, the bill prohibiting contracts for servile labor.

Patterson introduced a bill to facilitate telegraph communication between New York and Bermuda; referred.

WASHINGTON.

President going to Pennsylvania—Indian appropriation bill passed—Noble red men leaving for home—Red River affairs—The Crows want ammunition, but can't have it.

The President leaves to-morrow for Pennsylvania, at the invitation of Senator Cameron; he returns on Monday morning.

The Senate has passed the Indian appropriation bill. Amendments were adopted, providing for the removal of the Osages to the Indian territory, and for the payment of the balances due the Potawatamie Indians.

General Babcock has been summoned

before the Senate special committee to-morrow, with reference to the case of Hatch.

The naval practice squadron, this year, consists of only one vessel, the Savannah, in consequence of the scarcity of seamen in the navy.

Spotted Tail and other delegates, Brule and Sioux, took leave of the President to-day, and will go home to-morrow. Red Cloud and his delegation will remain a week or ten days, and will have a final interview with the President to-morrow, and another with Secretary Cox and Commissioner Parker in a few days.

The Minnesota delegation fear that the course of Canada towards Reilly will involve the whole north-western territory in war. The Manitoba act more than concedes Reilly's demand, except the important omission of an amnesty. The news from Fort Garry shows that Reilly will resist the Canadian troops with 3,000 men. Every day's delay makes the situation more critical and renders more necessary the interposition of our government for the security of our frontiers.

Senator Ramsey's resolution, calling for mediation will soon be the subject of a report from the foreign relations committee.

Captain DeCamp recently had a conference with the Crow Indians, in Montana. Their chiefs want ammunition to fight the Sioux, as well as to hunt buffalo. The request will not be granted.

VERMONT.

Serious railway accident.

RUTLAND.—Three men, named T. R. Abbott, of Lowell, Mass., and Jas. S. Hardy and M. M. Crocker, of Rutland, were killed, and fifteen or twenty injured, by an accident near the Summit on the Rutland and Burlington Railroad, last night; one train ran into a culvert, and a relief train, sent to its assistance, met with a similar accident.

NEW JERSEY.

\$100,000 Fire.

NEWARK.—W. P. Nail's hat factory was burned to-day; loss upwards of \$100,000, partly insured, including \$7,000 in San Francisco offices.

MARYLAND.

Naval Diplomas.

BALTIMORE.—Fifty-five diplomas were distributed in the graduating class of the naval academy to-day. John Hurlburt, of Arizona, stands fifth in the class.

FOREIGN NEWS.

GREAT BRITAIN.

Seizures of arms, etc.—The crops—Twelve persons drowned—Accident at Concert Hall.

CORK.—Extensive seizures have been made of arms and ammunition, concealed by the Fenians, here and in the vicinity.

LONDON.—The wheat crops in England are fine everywhere and larger than average crops. The prospects are encouraging for oats, barley and beans, of which there will only be about half a crop. Potatoes will be about as usual.

There is still some excitement and anxiety about the Fenians. The Pall Mall Gazette intimates the continuation of Fenian outrages, as it thinks the leaders are forced to some show of activity to sustain the sinking cause.

A well informed correspondent of the Manchester Guardian says that the leading ministerial reform measures will be shelved for this year; the land bill, however, is safe, and probably the educational bill.

The new scheme regulating admission to the civil service is promulgated.

A yacht was capsized off Hastings, and twelve of the party drowned.

A distressing accident occurred at the Alhambra Concert Hall last night; a trap gave way and a number of dancers were precipitated into the space under the stage, which was unusually deep and filled with machinery. Eleven were badly injured, some of it is feared fatally. There was a panic among the audience, but no serious results therefrom.

Ashbury has given a banquet to yachtsmen; Douglas, of the Sappho, was present.

PRUSSIA.

Refugees arrested.

BERLIN.—Many Italian refugees have been arrested on the border by the Swiss authorities and sent into the interior.

ITALY.

Maximilian to be banished—The Fathers protest, etc.

FLORENCE.—It is reported that the government has conclusive evidence that Maximilian is personally implicated in the rebel movements on the Swiss frontier, and a demand will be made on the Swiss government for his surrender or expulsion from that country.

Rome.—The Fathers opposed to infallibility have presented an address to the Pope, through the Cardinal Legate, remonstrating against the violent proceedings at the closing of the debate on the dogma of infallibility, and protesting against the vote terminating the debate.

It is asserted that Ollivier sent a dispatch to the French Ambassador here, instructing him to make no effort to restrain the action of the Council. Bonnevill, accordingly suspended negotiations with the subject with the Papal government, but told the French Bishops it was their duty to defend the opinions of their government, and he advised them to obtain a modification of the scheme. It is now added that the Duke de Grammont, since his accession to the ministry of foreign affairs, has confirmed the instructions of Ollivier.

THE AMERICAN BUILDER AND JOURNAL OF ARTS.—We have received, from the publishers, the June number of that excellent monthly, The American Builder and Journal of Arts. Its illustrations are elegant, and its contents throughout are of the utmost interest to artists, architects and builders as well as to the non-professional reader. It is a marvel for its price, and is published by Charles D. Lakey, 151 and 153, Monroe street, Chicago.

Special Notices.

BUILDING ROCK: One to two hundred cords of good Building Rock, for sale.

For particulars apply to J. J. Thayer, 1st Ward. d12-1f

"Good Measure and Running Over." Doolittle's Baking Powder has already taken the precedent over others, from its well known strength and purity; but aside from these facts it is put up in cases holding the full weight as represented, which is rarely the case with those of ordinary manufacture. Hence Doolittle's Baking Powder is the best, purest, strongest and cheapest ever offered to the consumer, and every one who has used it will readily testify to this assertion.

A DELICATE AND SWEET PERFUME—Burnett's Florida.

THE STEAMER Scotia recently took out a supply of Burnett's Cologne Water to Germany, to fill a private order.

Beware of unprincipled imitations of Wrappers and bottles, of Burnett's Cologne, Cocaine, &c.

THE ATTENTION of hotel keepers, and families is respectfully invited to Burnett's Flavoring Extracts.

DR. BURNETT'S reputation as a scientific druggist renders his productions reliable.—N. Y. Advocate and Journal.
