

LAST SESSION OF MINING CONGRESS

Closes Today. Selection of Place of Next Meeting Being Left To Board of Directors.

LIVELY TIME ON FORESTRY.

Refused to Adopt Report of Committee Asking for Condemnation of Government Policy.

Goldsfield, Nev., Oct. 2.—The twelfth annual session of the American mining congress, which convened here last Monday, will close today. The delegates gathered for this morning and the session promises to be a short one, the only business being the adoption of the report of the committee on resolutions, to which no opposition developed.

The question of the meeting place for the convention next year was left to the board of directors of the congress. Assurance were given the Idaho delegates that Spokane is being given favorable consideration. It is possible, however, that the directors may decide next year in a coal mining region, this being the opinion expressed by some of the delegates.

FORESTRY QUESTION.

In the closing hours of its convention yesterday the congress refused to adopt its report of its forestry committee, which asked for an "emphatic condemnation of the practices of the forestry service of the United States government."

The measure by inference of Chief Forester Gifford Pinchot thus was forestalled. The defeat of the movement which threatened to cause the adoption of the committee report was accomplished only by the personal exertions of Judge J. H. Richards of Idaho, retiring president of the congress, to whom the highest honor that can be conferred by that body was extended yesterday, when he was elected a permanent honorary director. Judge Richards threw into the balance all his personal popularity and influence, even to resigning the chair and addressing the delegates from the floor, when he made his effort to defeat the committee report by resolution had seemed to fail. His address was a cool survey of the situation, and the report, which had immediate effect upon the delegates. He was seconded by M. B. Johnson of Idaho, Nev., who protested against the effort to "throw insult in the face of the government, from whom you are seeking aid." The motion to adopt the report was withdrawn under the pressure brought to bear.

The controversy on this matter has been simmering ever since the Congress convened. Oscar Smith of Reno, chairman of a state subcommittee on forestry, was the leader of the opposition to Pinchot, while Judge Richards was determined that no censuring resolution or report should be adopted. The matter was brought up this

SUFFERED FOR TWENTY YEARS

A Kansas Woman, Cured of Chronic Rheumatism, Recommends the Treatment That Cured Her.

Pure, red blood is the body's only defense against disease. When healthy, the blood attacks the poisons of disease and so changes them that they can be thrown off through the lungs, skin, kidneys and bowels. In fact this is what the blood is constantly doing and disease occurs only when the blood becomes impure through errors in living, such as overwork, worry, lack of fresh air or of nourishing food. It is then unable to overcome the poisons and they are carried throughout the body and in the weakest organs the disease gains a foothold.

The tonic treatment aims to build up the blood, drive out the impurities and enable it to do the work of preserving the normal health of the body that nature intended for it.

It was this tonic treatment with Dr. Williams' Pink Pills that cured Mrs. J. W. Thompson, of Uniontown, Kansas, of rheumatism. She says:

"I suffered for about twenty years with rheumatism in my limbs and with pains through the small of my back. When the pains were the worst, I could not stoop or rise. I could not get any rest at all without taking opiates. I was restless and out of sorts and could not do my work. I was frequently confined to bed for two or three days at a time."

"I was treated by two doctors but received little relief. I also tried different remedies, liniments and balms, but my feet and limbs in hot water but nothing cured me. I had read about Dr. Williams' Pink Pills and thought I would give them a trial. They gave me new blood and I was soon able to get around and do my work. I am in good health now and recommend Dr. Williams' Pink Pills to other sufferers from this disease."

Nature needs some help in most cases in fighting disease and the tonic treatment with Dr. Williams' Pink Pills is the most efficient that can be given. They contain no stimulants, opiates or narcotics and cannot injure the most delicate constitution. Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid, on receipt of price, 50c. per box; six boxes, \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

morning when Chairman Smith's report was read. The response of W. W. Dyer of Washington, D. C., who appeared as the personal representative of the forestry service, did much to smooth out affairs, but late in the afternoon Smith moved the adoption of the report of the general resolution which had been circulated among the delegates in printed form the preceding day. Atty. Kepner of Reno, in seconding the motion, warned the delegates that "the tendency of the national government for 40 years has been to encroach upon the rights of the individual citizen." Judge Richards, from his place on the floor, sought recognition, but surrendered his right to allow the welcome to the Los Angeles delegation, which arrived yesterday, to proceed. At the close of the mutual felicitations by Goldfield and Los Angeles men he was again on his feet and pleaded earnestly for the voting down of the motion. According to his own resolutions, adopted this morning, which, he said, had been presented in apprehension of such a movement, he created a subcommittee of five to work with the forestry commission, endeavoring to remove cause for friction and to this committee referred the forestry committee report as memoranda for their work.

Mr. Smith withdrew his motion with the consent of Stopper, stating that harmony was all he desired, and what he expected since he had heard Mr. Dyer's address in the morning.

MRS. ANNIE BESANT GIVES HER IDEA OF HELL

New York, Oct. 2.—In an address here Mrs. Anna Besant, president of the Theosophical society, has given her idea of what hell is.

"The real man," she said, "ultimately slips out of a gross physical body, as he does at night in his sleep, though without even the slight connecting link that exists between the consciousness and the body in that state. This consciousness goes out upon a more subtle plane and there it goes through all the pleasures and pains it has had here on earth. And this is a hell or a paradise, on the final and complete heaven, according to what the man has done and thought on earth."

"For instance, the drunkard would not cease to know the terrible craving for liquor," she said. He would experience it intensified a hundredfold, she declared, because his substance would be more subtle and more subject to vibrations of pleasure and pain. He would be surrounded always by liquor which he could not drink and thus he would go through years and years of unrelenting agony, until finally the consciousness of his state would be refined until the point where he would receive another chance on earth whereupon he would be reincarnated into another physical body and begin gathering experiences again.

CROTIAN WANTS UNIVERSITY IN AMERICA

Cabinet, Mich., Oct. 2.—The National Croatian society, in convention here yesterday, decided to raise \$100,000 in the next three years for the purpose of establishing a national Croatian university at some central point yet to be decided upon, probably Chicago, for Croats only.

Paul Hadzil was re-elected president and Thomas Lacey, of Chicago, treasurer. Financial Secy. Maribor of Allegheny was defeated by the candidate of the young men's faction, Joseph Jurasek of St. Paul.

Ask for \$03—it's government inspected. It's the meat you should eat—it's never rejected. The meat that's the finest that's sold in Salt Lake. Uncle Sam says it's good, and he stands for no fake!

INT'L MOUNTAIN PKG. CO.

EXCURSION TO OGDEN.

Round trip, October 2nd, via O. & L. Round trip \$1.10. Round trip on other Sundays in October only \$1.00. Any train.

JOHN STEVENS' COURTSHIP.

A story of the Echo Canyon War. Mrs. Susan Young Gates has written a beautiful romance on early pioneer days.

The story opens with the famous picnic in Big Cottonwood canyon in July, 1857. The startling announcement of the approach of Johnston's army, furnishes the overture of the story, and into this scene is woven the plot of the whole narrative. The incidents of danger are well mingled with the innocent pleasures and laughter of the pioneers, follow in rapid succession.

It contains 371 pages and is handsomely bound in green cloth and gold. Price \$1.00 postpaid.

RESTRICTIONS IN IMMIGRATION LAWS

American Federation of Labor Would Have Congress Enact Legislation on Subject.

WOULD INCREASE HEAD TAX.

Would Also Require That Immigrants Between 14 and 30 Should be Able to Read Constitution.

New York, Oct. 2.—The American Federation of Labor, through Vice President John Mitchell, who is also chairman of the trade agreement department of the National Civic Federation, has issued a public statement declaring that certain steamship lines are bringing undesirable immigrants to this country, and suggesting that American wage-earners advocate the incorporation of the following restrictions in the immigration laws:

"First, that in addition to the restrictions imposed by the laws at present in force, the head tax of \$4, now collected, should be increased to \$5.

"Second, that each immigrant, unless he be a political refugee, should bring with him not less than \$25, in addition to the amount required to pay transportation, to the point where he expects to find employment.

"Third, that immigrants between the ages of 14 and 30 years should be able to read a section of the Constitution of the United States, whether in our language, in their own language or in the language of the country from which they come."

HOW TO CURE A COLD.

Be as careful as you can, you will occasionally take cold and when you do get a medicine of known reliability, one that has an established reputation and that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. For sale by all druggists.

UTAH STATE FAIR RATES

Society Islands—Office of Cannon & Cannon, Sunday, Oct. 3 at 4:15 p. m.
Netherlands-Belgium—Sunday, Oct. 3.

DEAFNESS CANNOT BE CURED

By local applications, they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.
