

There is a movement on foot for the forming of a company to purchase the ground and put in machinery at once.

DALLAS, Tex., 3.—Circulars have been received from administration circles in Washington looking to a "Mahone" movement in Texas. The circulars are sent to republicans, Greenbacks and Independents and favors Wash Jones for Governor. A request is made to be forwarded to Washington a list of the counties that can be carried against the democrats; also a list of those that are doubtful, and the amount of money needed in a vigorous, red-hot campaign. Nearly all the opponents to the democracy are outspoken against the candidacy of General Robertson. They say he has little strength, is self-nominated and promulgated his own platform. It is evident things are being fixed to support Jones.

DALLAS, Texas, 3.—From a source eminently reliable, it is learned here to-night that the reported sale of the Chicago, Texas & Mexican road to the Gulf, Colorado & Santa Fe, is confirmed. The price paid is stated to be \$16,000 per mile, instead of \$19,000. It is said the papers are ready for signature and submission to the two directories, and a transfer of the property will be formally made July 1.

ATLANTA, 3.—Wm. Moon was sentenced to be hanged yesterday at Carrollton, but who received a respite of 24 hours on account of attempted suicide, was executed today.

CHICAGO, 3.—The fast time between the Missouri River and Denver, that is being made by rival railroads, is attracting a good deal of attention. The Atchison, Topeka & Santa Fe made the first move, announcing a schedule time of 28 hours between Kansas City and Denver. The Missouri Pacific division of the Union Pacific retaliated with a 26 hour train, and it now announces a new through schedule, embracing not only Denver, but also Cheyenne, Ogden and San Francisco. Beginning to-morrow, the trains will leave Kansas City at 9.45 a.m. and reach Denver at 8.30 a.m., the actual running time being 22 hours and 45 minutes. The same train will reach Cheyenne at 1.15 p.m., or 27 1/2 hours, connecting with the overland train for San Francisco. A similar record is made east. Trains leave Cheyenne after the arrival of the overland express, at 3 p.m., leave Denver at 7.30 p.m., and arrive at Kansas City in 22 hours and 15 minutes. The Union Pacific threatens to make a hot fight now, and bring about even faster time. The Burlington will soon begin to run its passenger trains and will probably be a lively factor in the fight. As yet there has been no cutting of rates.

CHICAGO, 5.—The journeymen shoemakers have gone on a possible strike to the number of 250, the bosses having refused to abandon the use of machine made shoes. Incidentally, the Union demand an increase of 25 cents a day wages which would be acceded to if not coupled with the other demand. The strikers say they are certain to win and will go to work in a few days.

The rains of Friday and Saturday and Sunday have brought gloomy messages from some of the corn countries in Illinois. Farmers begin to fear that it will be impossible to finish planting in time to secure the crop, and that the growth of corn already up, will be seriously retarded. This morning, however, the sun rose to a clear sky, and the weather is growing warmer every hour. The prospects are for fine corn weather, which will largely compensate for the rain. A little more sunshine would work a revolution in the appearance of farm lands. Outside of Illinois, all dispatches continue to predict the splendid condition of cereals.

CHICAGO, 5.—Regarding the Doyle case, a Washington special says: Mysterious things are constantly happening. Only a little while ago the custodian of the bureau, Bell, was dismissed for carelessness in leaving two important files outside the safe when the closing up time came. Now since Bell is out he refuses to talk about his case and adds to the mystery of his dismissal by apparently being very well satisfied with his disgrace. Upon this comes the mysterious poisoning of Brooks, chief of the secret service. One day during last week, he was violently ill with a number of the members of his family. Examination shows arsenic in the beef tongue eaten by the family.

Why should Brooks be poisoned? At a time when rumors are plenty at the Treasury that the counterfeiters hold enough stock in reserve to dictate their own terms. Why are there rumors that other counterfeiters in some government transfer work are heard constantly in official circles? In all this medley of roguery and intrigue, the case of Doyle at Chicago is made to look very small. Whether he gets out or not is not now regarded of much consequence, if the government can really get at the bottom of the affair. One thing is certain, the Treasury people will not be able to go on much further without attracting the attention of Congress. If it were not so near the close of the session, when so many interests are pressing to the front, a resolution of inquiry would have been introduced and pushed for consideration. It is believed this week the treasury people will order Brockway and Smyth released. If this is done, the interest will be concentrated upon the treasury investigation of alleged facts submitted in the interest of Doyle. Stories are afloat of 23,000,000 of government bonds having been issued by means of stolen dies.

WASHINGTON, 5.—Guiteau is failing mentally and physically. His condition yesterday was startling in the extreme and forbodes a total break up before the 30th. A certain sign of physical and mental disintegration is the failure of a person's appetite in a case like this. Guiteau's appetite is failing. He has become taciturn and uncommunicative since Lawyer Reed's visit yesterday, and spends the entire time between rising and retiring, lying stretched out on his cot pondering, perhaps, on the few intervening days between life and death. That he will surely fall before the hanging day, is the opinion of those who see and know him, and the jail officers will have to carry him to the scaffold and prop him up until the fatal drop falls. Abject fear is taking possession of him and the assassin will present a pitiable appearance when the penalty is reached. Some are inclined to think he will go stark mad a few days prior to the event, and present indications surely point in that direction. One thing is certain, and that is Guiteau will surely sink into abject fear, become seriously sick or become wholly crazy before many days elapse.

CLEVELAND, 5.—The Cleveland rolling mills at Newburgh started up this morning. About 500 men are at work. No violence yet, but trouble brewing.

FOREIGN.

LONDON, 1.—In the House of Commons, Dilke, Under-Foreign Secretary, said: The government, at the suggestion of France had agreed to invited the other powers to a conference for the settlement of the Egyptian question on a basis of *status quo*. The government had already proposed to Freycinet to take the powers into their confidence. It might be objected that the conference would cause delay, but the government believed that on the contrary it would expedite a settlement. It had been suggested to the Sultan that it was desired that the Turkish flag be displayed in Egyptian waters and that the Turkish commissioners be conveyed there under Admiral Seymour. He said he had been instructed to take steps to protect the Suez canal. The papers on the subject will be presented immediately. Gladstone did not apprehend the immediate landing of troops.

Cairo, 1.—Arabi Pasha is employing every means to win over the Bedouins of Alexandria. The Khedive drove out without an armed guard to-day, and afterwards held a crowded reception. Arabi Pasha kissed the Khedive's hand, and professed himself the Khedive's most humble slave, but directly afterward set in circulation a petition denouncing the Khedive. More than 200 influential persons hostile to Arabi advised the notables to return to their homes so as to be beyond the reach of Arabi Pasha's soldiery.

MOSCOW, 2.—The national exhibition opened here to-day and the Czar's health was drunk with enthusiasm.

St. JOHN, N. F., 2.—The *Phoenix* has arrived from Queenstown with a large number of immigrants, mostly Germans, for the United States. Many icebergs were encountered in the track of the ocean steamships.

BERLIN, 2.—Bebel, the Socialist,

was re-arrested for contravening the law of October.

DUBLIN, 2.—It is stated that Clifford Lloyd, special magistrate for County Clare, received additional letters from America warning him that he will be killed if he does not quit the duties of his office. Thirty-two men are employed to protect him.

KILKENNY, 2.—Brennan, the secretary of the land league has been released from custody.

ROME, 3.—Garibaldi is dead—great demonstrations of sorrow.

ROME, 5.—The Pope, on hearing of the death of Garibaldi, remained silent awhile, then raising his eyes to heaven, said, "There has gone another figure of revolution, oh, God, be merciful to him." The Vatican organ—the *Voce Delle Verita* (Voice of Truth), says: Garibaldi was one of the most determined, but also one of the frankest of our adversaries. Not from him the heaviest blows and bitterest troubles. He was no hypocrite. May the prayers of his pious mother have smoothed the last moments of her son's agitated life.

CALCUTTA, 4.—It is stated that the Khoonds an aboriginal tribe in the central provinces, have taken Bhowna Patra, whom the Khoonds accuse of agrarian encroachments. They robbed the treasury and murdered over 400 people. Portions of the hair and flesh of the victims were distributed among the hill Khoonds to induce them to join the revolt.

SUDDENLY WEAKENED.

"I suffered with rheumatism of the back and hip for a number of years," said Mr. Thomas Morgan, Superintendent of Streets. "I was waited on by physicians, but they gave no permanent relief, and I resolved to try St. Jacobs Oil. My rheumatism weakened at the first attack of its great enemy, St. Jacobs Oil, and soon I was well."—*Cincinnati Times-Star*.

Mr. Michael Robbett, 77 Fargate Street, Cahoes, New York, was cured of a very severely injured knee by St. Jacobs Oil, says the Rochester, New York, *Sunday Herald*.

The points of cutting, delivering, binding, knot-tying, compressing and consumption of twine are the indispensable essentials of a good Binder, and should be closely scrutinized by all farmers before selecting a machine. Examine the knot tied by the McCormick, the so-called Appleby Binder, and you will see that it is not a bow knot, but that the loop is drawn through and the ends cut off, consuming about 4 1/2 inches of twine. Then examine the knot made by the Wood, which is the only Binder that takes the twine furnished by the compression to make the knot. Here is a clear saving of from 2 1/2 to 5 inches on every bundle bound by a Wood machine. While the "Appleby family" of Twine Binders are pulling hair and scratching each other all up about their patents, just go quietly down to Mattison's and arrange to try one of the Walter A. Wood Twine Binders, the simplest, most durable, and the only Twine Binder that has proved its ability all over the world to handle all kinds of grain and in all conditions with perfect satisfaction to the farmer. It is made by the oldest and strongest company in the business who own and control their own patents.

NOTICE.

In the District Court in and for the Third Judicial District of Utah Territory, County of Salt Lake.

MARY R. HOWELL, Plaintiff, vs. WILLIAM S. HOWELL, Defendant.

SUMMONS.

The People of the United States in the Territory of Utah send Greeting:

TO WILLIAM S. HOWELL, Defendant.

YOU ARE HEREBY REQUIRED TO APPEAR in an action brought against you by the above named plaintiff in the District Court of the Third Judicial District of the Territory of Utah, and to answer the complaint filed therein within ten days, (exclusive of the day of service) after the service on you of this summons—if served within this county; or, if served out of this county, but in this district, within twenty days; otherwise within forty days, or judgment by default will be taken against you, according to the prayer of said complaint.

This action is brought to have a judgment and decree of this Court dissolving the bonds of matrimony between plaintiff and defendant and restoring to plaintiff her maiden name of Mary R. Pollock, and for costs of suit. The above relief is asked upon the grounds alleged in the complaint, 1st—The habitual drunkenness of the defendant; 2nd—Failure of defendant to provide plaintiff a support; 3rd—The abandonment of plaintiff by defendant in the month of March, 1882, and continuously since, and you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to the court for the relief demanded therein.

Witness, the Hon John A. Hunter, Judge, and the seal of the District Court of the Third Judicial District, in and for the Territory of Utah, this 23rd day of May, in the year of our Lord one thousand, eight hundred and eighty-two.
