THE ANTI-MORMON PLANK.

IT was to be expected that the Chicago Convention would make some reference to the "Mormon" question, as that would be in line with the policy of the Republican party. . We do not think, however, that the ambiguous and erroneous utterances in the platform of '88 will prove satisfactory to the radical and fanatical element, which fosters and feeds on inflammatory matter and the most extreme and rabid expressions.

The statement that the "Mormon" Church has exercised in the past any political power which can be construed as a menace to free institotions, is entirely untrue, and even if it were correct it has no bearing apon living issues. Every voter, wherever the "Mormon" Church has any influence, is perfectly free in the exercise of the franchise, so far as that Church is concerned, and the language employed to convey a different impression is nothing but empty sound.

As to legislation "asserting the seyereignty of the nation in all the Territories where the same is questioned," that is the weakest kind of flabby verbiage. "The sovereignty of the nation" in all things national, as defined in the Constitution, is not questioned either in the States or the Territories. and it requires no legislation to "assert" it. Utah recognizes that soverands of pages are written about the different caudidates, and the hapless mortal who peruses all these pages is eignty, as much as any other Territory at least.

Legislation is not required anywhere in this country that we know of, "to divorce the political from the ecclesiastical power." There is no marriage between them, therefore there can be the roster of aspirants now before the no divorce. But if such a union ex- public, it is difficult to imagine where between them, therefore there can be isted and it could be divorced by legislation, which is by no means clear, what effect that would have upon polygamy is not apparent to the naked eye. It is evident that the framers of this

errand. Men who abandoned the republican party in 1884 and continue to adhere to the democratic party, have deserted, not only the cause of honest govern-ment, of sound finance, of freedom and purity of the ballot, but especially have deserted the cause of reform in civil service. We will not fail to keep our

We therefore, repeat our decla-ration of 1880, to wit, "Reform of civil service auspiciously begun under re publican administration, should be publicas administration, should be completed by a further extension of the reform system, already established by law, to all grades of service to which it is applicable. The legislation of Congress should con-form to the pledges made by loyal people, and be so enlarged and ex-tended as to provide against the possibility that any man who honorably the inmate of an aims bouse, or de-pend upon private charity in the presence of an overflowing treasury. It would be a public scandal to do less for those whose valorous services pre-

erved the government. We denounce the hostile spirit of President Cleveland in his numerous vetoes of measures for pension relief, and the action of the demo-cratic House of Representatives in re-fusing even consideration of the general pension legislation in support of the principles herein enunciated. We invite the comparison of patriotic men of all parties, and especially all workingmen whose prosperity is seriously threatened by the free trade

policy of the present administration. The reading of the platform was re-ceived with frequent bursts of ap-plause, especially the tariff plank, which created great enthusiasm. The platform was unanimously adopted and the convention proceeded

The Washington Territory headquarters at the Graud Pacific, one ters at the Graud Facilic, one of the most pleasant in that great building, has been thronged day and night with visitors from all parts of the United States, including committees from all leading delega-tions.
