ers Apply-Harry Dake's Petition Again Goes Over.

The state board of pardons met today in regular monthly session and consid ered a number of applications for par don, commutation of sentence and pas role. It was decided by the board to hold a special session two weeks from tuday, Saturday, June 4, to consider the application for commutation of sentence of Charles Boths, . known as "Dutch Charlie," who is convicted of murder in the first degree for the kill. ing of his young wife and William Tibbetts in San Juan county and sentenced to be - executed on Friday; June 10 to be executed on Friday, June 10, The continuance of the hearing was made by the board upon request of Attorney M. M. Warner, who start d that he had just been called into the case when it was appened to the supreme court, and that he would like time in which to secure some affl-dryits which he said would clearly show that Botha is entitled to some consid-cration and would, he thought, convince the board that his sentence should be commuted from death to life impris-omment.

Before the application was continued before the application was continued, communications were read from Judge Jacob Johnson, who tried the case, and District Attorney Livingston, who pros-ecuted Rotha, in which both officials strongly opport commuting the sen-tence of Botha. They both stated that he had a fair trial in every respect and that he was not entitled to any con-sideration and was descring of the that he was not entitled to any con-sideration and was deserving of the penalty imposed upon him. Mr. War-ner, in a brief statement, sold that he could secure affidavits in support of the commutation if given Tore time, which he thought would put a different light upon the case and would show that an injustic had been done to Botha. His request for more time was granted, and the board will hold a special sec-sion on Saturday, June 4, to consider sion on Saturday, June 4, to consider

the matter. The board granted four pardons and and denied and continued all the other ap-plications for pardon, commutation and parole. There is a growing protest among clizens against permitting young girls selling newspapers on the street. These children go where they find they can sel ithe most papers, and in front of saloons seems to be where papers sell particularly well. In such places the vicest language is frequently heard, and it does not take long for this to blunt the moral senses of children of tender years, whose ears are subjected to such talk.

Mr. Mucklow's message concluded with the words 'Success is now assured." The creditors gave the company until next Wednesday to make a satisfactory adjustment of financial matters before proceeding further in the courts.

#### LONG RANGE FORECASTS.

#### Government Weather Officials Severely Repudiate Shem All.

The government weather bureau of ficials, general and local, have come out with statements that reflect soverely upon the so-valled long range forecasters, whom they roundly denounce as charlatans. The matter is called to the attention of the Deseret News by Dr. Hyatt of the Utah see

called to the intention of the Deservice News by Dr. Hyatt of the Utah section, who says in a letter:
"By direction of the chief of United States weather bureau the attention of the newspapers of this section is in-vited to the failary and unreliability of the long-range weather forecasts issued by unscrubulous persons for the sake of private gain. These long-range forecasts are repudiated by the eminent scientists of every civilized country in the world, and the authors of the same are looked upon as fakins, who endeavor to mislead the public to advance their personal interests. All eminent scientists who have carefully investigated this subject agree that there is no havin by whole long-range forecasts is of the knowledge of meteorology and astronomy.
"The chief or United States weather bureau hopes that it may be possible to discover some means approaching this end at some time in the future. But all such long-range forecasts now insued are the emanation of the future.
