

ed. The court then asked Mr. Brown what he would do in case one or more of the parties concerned consented to have their telegrams produced, and stated he had received a letter from Governor Phelps, saying he was willing any telegraph office should present to the grand jury any dispatches he had sent to either Midelet or Wakefield. Mr. Brown replied, that under the rule of the telegraph company, Governor Phelps or any other sender of telegrams could obtain his dispatches on personal application or by a request written over his own signature. Judge Laughlin then continued the case till Friday when he will hear the argument on both sides. In conversation the judge said he understood and appreciated the importance of the case, recognized the wide attention it would attract, and if the Telegraph company desired to make it a test case he would not commit Mr. Brown to jail but if it became necessary in the progress of the case to inflict punishment on him it would be merely nominal.

The petition of Brown, manager of the telegraph office, to vacate the order authorizing a subpoena duces tecum and to recall the subpoena, presented in the criminal court to-day, sets forth as a reason why he should not and cannot produce the telegrams demanded, that he is simply a servant of the company and has no authority from the company to deliver the dispatches, but on the contrary has been instructed by his superior officers not to produce or to testify as to the possession by the company of such telegrams as are referred to in the subpoena, that as it is not certainly known that such telegrams as are demanded are in possession of the company, the subpoena is rather a search warrant and the process inquisitorial, not judicial, and that the telegraph company is protected.

New York, 25.—The Times, to-day, noting the large spring emigration to Nebraska, Kansas and Colorado, says: From all the railroad centres west of the Mississippi, statements are identical as to trains being crowded, and on the highway teams are as plentiful as though railroads were not running. Looking at the prospects of the northwest, it says: Assuming that American wheat can be sold in Liverpool for \$1.25 per bushel, the case of the English wheat grower is pronounced hopeless. As a matter of fact, however, wheat can be profitably grown in Red River valley at a figure which would admit its delivery at Liverpool for \$1.00 per bushel. With more reasonable charges for transportation and with the cheaper rates which will ultimately be available, it might be sold at 90 cents. Deduct from this figure the cost of ocean freight and we have a general idea of the influence which western development must have upon American farming in older states. Gradually they will give up wheat growing.

Stratton & Storms' tobacco and cigar factory, Pearl Street, is burned. Loss \$75,000. Losses of other occupants make the total over \$100,000.

The Tribune, which originated the story of the Vanderbilt compromise, says, to-day: "The withdrawal of the suit of Cornelius J. Vanderbilt, against his brother William H., tends to confirm the theory of compromise, in spite of the numerous denials heard some weeks ago."

Among the sufferers by the fire in Pearl Street, this morning, is William T. Coleman, whose reported loss is \$10,000.

The International Review for April begins with an article on the relations between the United States and China, by H. H. Hayes, who has lived long in China. The World says: He takes the opposite *te couleur de rose* view of the celestial and our obligations to them, although he is extremely temperate in tone, and makes no recommendations except that every one shall study what he regards as one of the most difficult of all current questions.

Fifteen persons were injured by the explosion of an engine on the New York elevated road. Travel is stopped.

A special to the Times from Hartford, Conn., says: Social circles are much exercised to-day over the marriage of Miss Nellie, youngest daughter of ex-Governor Hubbard, to Frederick Shepard, the family coachman.

The World's Washington special

says: Ex-Congressman Rainey will be appointed consul instead of to third auditorship.

Two seamen arrived to-day from Rio Janeiro, charged with the murder of Captain Bartlett.

The Rev. Dewitt Talmage appeared for trial this afternoon before the Brooklyn presbytery. The principal charges were falsehood and deceit. He pleaded not guilty. Dr. Spear, his counsel, moved to quash the principal specifications as they failed to indicate the time or place. After a warm debate the moderator granted the motion to strike out the specifications.

Talmage then demanded investigation upon these very charges. The people wanted to know if they were true. If they were not investigated he would appeal to the King's County grand jury. He would waive all technicalities and show he had done no wrong. It was finally decided to try Talmage on all specifications.

A fire occurred at two a. m., in Lillenthal's tobacco establishment, in Pearl street. Three alarms have been sounded, probably owing to the narrowness and crookedness of the street, and the fact that the elevated railroad which passes in front of the building, is likely to hinder the firemen. It is still burning and the whole lower portion of the city is deluged in deep smoke. The engines on the elevated railroad, which are kept over night south of the place now burning, all ran the gauntlet to north of Lillenthal's, to be ready for the day's business in any event.

St. Louis, 25.—The criminal court this afternoon issued a bench warrant for the arrest of A. B. Wakefield, on a charge of perjury. Wakefield is the head of the so-called gamblers' ring here, which has been undergoing investigation by the grand jury. Wakefield is out of town.

A Globe-Democrat special from Wichita, Kansas, says: Gold has been discovered 30 miles southeast of that place, and great excitement exists among farmers and others. A New York company is said to have bought a mile square of the land, and is trying to secure more. Four companies are already organized. Ore from a shaft sunk some time ago is said to have assayed over \$2,000 to the ton. One farmer has been offered \$30,000 for his farm and refused it.

CLEVELAND, O., 25.—A large crowd witnessed the finish at the Globe Theatre, to-night, of the long walk between Millie Roze and Sergeant Zare, the latter carrying an eleven pound musket. Both commenced walking Feb. 24th, Millie Roze to make 2,700 quarter miles in 2,700 quarter hours, and Sergeant Zare to make 1,350 half miles in 1,350 half hours. Each accomplished the task at 11 to-night.

PADUCAH, Ky., 25.—Jerry Ewing (colored) was seized by 12 masked men and shot to death last night, after which, a bag of sand being tied to his body, he was thrown into the Ohio river. Ewing ravished a 12 year old white child named Fields, by whose brother he was captured, after receiving two gunshot wounds.

PITTSBURG, 25.—The striking coal miners of Upper Monongahela, in convention to-day, decided to remain out for their demand, three cents per bushel, and committees were appointed to wait upon the miners along the Youghiogheny and urge their co-operation.

CHICAGO, 25.—The Tribunes's DeKalb, Ills., special says: George Alexander (colored) shot his white wife here to-night, with a shotgun, killing her instantly. They had lived in Sycamore lately, but this morning she left him and he following on the evening train discovered her at the house of a friend. She was 19, he 26. The left side of her head was entirely blown off.

FOREIGN.

LONDON, 25.—In the House of Lords the Marquis of Salisbury said the treaty of Berlin was not complied with and the Sultan thought the presence of the British fleet in the Sea of Marmora and Black Sea would tend to secure compliance. The Sultan was authorized to ask for assistance from his allies, but the British government did not contemplate any such contingency.

The Times reports that there were shocks of earthquake in northern Persia during Saturday and Sunday. Mirah was much damaged. The adjacent villages of Tark and Mannan were totally destroyed. Out of 1,100 inhabitants only a few escaped death.

A telegram from the Viceroy of India mentions reports that Yakob Khan has sent detachments to Khord, Cabul and Tezen. It adds, Generals Browne and Roberts are concentrating their forces at advanced points.

Parliament adjourns on the 8th of April over the Easter holidays.

The Queen started to-day for the continent.

COSTANTINOPLE, 25.—The Porte has protested against the systematic expulsion of Mahomedans from Eastern Roumelia.
