

SPECIAL BUSINESS NOTICES.

THE WORKINGMEN'S CO-OPERATIVE ASSOCIATION announce the removal of their establishment across the street to the Town Clock Store, No. 87, about the 1st of May, and invite everybody to the "house-warming," where will be found a choice stock of boots and shoes of the best qualities and at reasonable prices. Read their advt.

UNWHOLESOME FOOD.—By the unnatural combination of different articles by ignorant persons for baking powders, (even if articles are pure) they render the food very indigestible, as the chemical action, when they enter the stomach, prevents their being digested. Of these mixtures it requires but a small quantity to make food very unwholesome. Dr. Price's Cream Baking Powder is the only powder prepared by the application of scientific principles, combining all the elements of a perfect powder, thus making it safe, economical, and nutritious, and only to be equalled in purity and strength by his True Flavouring Extracts, with which every housekeeper should be supplied.

WALNUT LUMBER for sale by H. Dinwoodey. d99

HUMAN HAIR.—Hair cleaned, combed straightened and made up cheap, at the Standard Hair Store.

Dr. Pierce's Favorite Prescription is very strongly recommended by the medical faculty and is largely prescribed among their female patients. It is worthy of all confidence, as may be seen from the following testimonials:

Dr. G. B. Chapman, Plattsmouth, Neb., writes: "I have under treatment a lady, who, for the past seven years has been afflicted, and, after trying several physicians without receiving benefit, is gaining rapidly on your favorite prescription."

ATLANTA, Ill.
Dr. R. V. Pierce, Buffalo, N. Y.: "Dear Sir—I have not words to express my gratitude to you for your advice and assistance in my case. There is not one who has used your medicines since they have been brought here, but that can say with me they have been greatly benefited. Since I have been so helped by its use, six or seven around me left off all doctors and other medicines, and now use it in their families, after being cured of the same disease as mine. You do not know what a wonder it created in our city, by its restoring my sister I wrote you about, for she had been under the care of three of our best doctors, but could not sit up but for a few minutes at a time. I begged of her to try your medicines, and before she had used half the bottles she could go all around the yard, and has now just come home from a visit five miles away."

MRS. THOMAS MCFARLAND.
Dr. Pierce's Favorite Prescription is sold by dealers in medicines generally.

GOVERNOR'S PROCLAMATION No. 2nd. As he, President Grant has not removed me 4 measures in office, I will take care of the 4th of the season.

TREMENDOUS RUSH for "Compton's Surprise" Potatoes, at Crocheron's. Be in time. d117

IMPORTANT TO THE TRAVELING PUBLIC.
It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and most pleasant to travel.

We take pleasure in stating, that the Chicago and North-Western

RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore and Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburgh, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route.

The Chicago and North-Western.
You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d54

PRICE OF GOLD.
Corrected daily by Deseret National Bank.
SALT LAKE CITY, April 2, 1875.
Buying at \$113; selling at \$115.

EVENING NEWS.
Tuesday, April 13, 1875.

Local and Other Matters.
THERMOMETER 63 degrees F in the shade at 1 p.m. to-day. Fine.

Periodicals.—If you want "Harper's Monthly" for May, or "Harper's Weekly" or Leslie's "Illustrated Newspaper" for April 17, go to Dwyer's book store, they are for sale there.

About Time.—Now is the time to commence the manufacture of cloth and straw Summer hats. Last Summer people were hunting for home-made hats and couldn't find them. Time should be taken by the fore-lock in the matter this season.

Scandinavian Meeting.—Elder Erastus Snow will preach in the Scandinavian language this evening, in the 14th Ward Assembly Rooms, services commencing at 8 o'clock. A full house is anticipated.

S. L. C. Medical Society.—This morning's mail brought us the following on a postal card, without signature:

"Please put this notice in your paper Monday evening, 12th inst. 'The Salt Lake City Medical Society will meet this evening at the office of Dr. Fowler, April 12.'"

The British Mission.—Pres. C. G. Larsen, writing from Copenhagen March 10th, says, "We have determined to hold our Spring Conference in this mission, as follows: Christiansia, April 17th and 18th; Stockholm, 24th and 25th; Gothenburg, May 1st and 2nd; Aalborg, 8th and 9th; Aarhus, 15th and 16th; Copenhagen, 22nd and 23rd; and in Malmo, Skanane Conference, May 29th and 30th. All is well here, everything is moving harmoniously and our meetings are well attended. My health is not so good at present as I could wish, as I have caught a severe cold, but I hope by the blessing of God soon to be right again. On the whole the winter has been very pleasant, very little snow, but cold, the ice preventing navigation and interrupting the mails."—*Millennial Star*, March 25.

A Brutal Assault.—Yesterday John Wardell, a miner from Bingham, appeared in the police court and gave evidence in the case of the proprietors of the two liquor establishments, the Headquarters Saloon and the Overland House. A fine of \$50 was imposed in each case, Mr. Patterson of the first named establishment paying the amount, but Pope and Cupit, of the Overland, giving notice of an appeal to the District Court.

About eight o'clock last night Wardell left the City Hall, going a short distance past the engine-house, where he met with an acquaintance who desired him to go to the Overland House, which he refused to do, believing the party to be connected with a plot to induce him to go there to be attacked because of his having acted as informer. He started to go along the block eastward, when he states that he met Thomas Cupit and several others, the person named being a little ahead of the others. He tried to pass Cupit, but the latter made a spring at him and he turned and fled as fast as he could run. Cupit pursuing him hotly.

As Wardell got to the door of the City Hall he gave a shout, which was cut short by his receiving a blow on the head, which brought him to the ground insensible. When thus prostrate he must have been struck several more severe blows, there being two gashes in the upper part of the forehead, his nose being rendered in that condition commonly denominated "busted," while his mouth was mashed, cut and swollen, as if on that part of the face he had received a powerful kick.

This brutal and ferocious attack must have been consummated in a few moments, as Officer Phillips, who was in Captain Burt's room, heard the shout and immediately ran to the door, where he found Wardell prostrate upon the pavement, covered with blood, and apparently lifeless.

A short distance away was John Pape, of the Overland House, Michael O'Neil, Frank Talley and Frank Miller, Cupit having apparently got away from the spot. All the parties named have been arrested, and were to be tried before Justice Fyler, by a jury of six persons, at three o'clock this afternoon.

Supt. Z. C. M. I.—At a special meeting of the Directors of Z. C. M. I. this afternoon, H. B. Clawson, Esq., was elected Superintendent of the Institution by a unanimous vote.

Personal.—John M. Neals, Esq., the well known and popular representative of the firm of Benedict, Hall & Co., boot and shoe manufacturers, of New York, arrived in the City this morning, in good health and fine spirits.

The Hair.—To-day our reporter called at the Standard Hair store, on the Kimball Block, Mr. William Irvine proprietor, and was greatly surprised at the completeness of the establishment.

It has frequently been said that a fine, luxuriant head of hair and a good set of teeth mark among the chief ornaments of the fair sex, and therefore any information that will tend to the cultivation and preservation of the first named, of those natural embellishments will be esteemed valuable, especially to the ladies, and as a matter not devoid of interest to the sterner sex. In conversation with Mr. Irvine we found him well informed regarding this subject. He keeps some "hair restoratives" for the especial benefit of those who are determined to use them and ruin their hair, and when asked by persons if such mixtures will encourage a hirsute growth, he invariably informs them that they will not only not do so, but will encourage baldness and general ruin of the hair. Practical experience in his business has led him to the firm, unalterable conviction that the only hair restorer and preserver in existence is composed of soap and soft water, and the oftener applied the better, there being not the slightest doubt that those persons who wash their heads the most frequently, keeping them clean, have the most luxuriant growth, with the highest gloss and most silky texture. No well water should be used, rain water being the best, and that from the creeks the next. Not a particle of oil or grease of any kind should be used, as everything of that nature rots and destroys the hair.

Mr. Irvine states that about one lady in fifty in this country has what might be termed a splendid head of hair, the average length being fourteen inches, while in France it is from 24 to 40 inches. This is attributable to the alkali in the water and in the dusty particles which cling to the hair and fill it in dry weather. The fashion of wearing the hair hanging down loose is the very worst method, as the alkali dust gets into the hair more readily in that way than when done up in some tasteful manner. Persistent cleaning of the head and hair is a much better plan to adopt when the hair begins to fall from a lady's head than to cut it short, for in this country when the hair is cut very short it seldom grows out again to a respectable length.

When a lady has her hair cut off for the purpose of making it up into switches or otherwise, it should be at once cleaned, for if it should not be it gets muddy and loses its lustre and other qualities. The process of curing it, which was explained by Mr. Irvine, is nothing more nor less than a kind of embalming process.

All the hair used by Mr. Irvine is imported from France; it is in its natural condition of nearly every shade and hue, and of every texture, and it is astonishing to find so wide a variety in the quality and color of the human hair. All the rest of the materials used by Mr. Irvine are of home manufacture. He has had in his employ from three to four young ladies who have become very expert in the business.

Mr. Irvine showed us some samples of basewood bark switches, which resemble hair wonderfully, but nothing is more injurious to the head than to wear such material. The gentleman explained that in the fibres were a kind of antacid, unobscurable to the naked eye, but which could be detected by the microscope, and there are certain almost invisible fibres, which break off, enter the pores of the scalp, irritate the skin and destroy the roots of the hair, and no person should therefore wear basewood fibre switches, curls or puffs.

Before closing we will reiterate the opinion expressed by Mr. Irvine, and which we believe to be correct, that the best hair restorative in existence, so far as known and proved, is soap and soft water.

Salt Lake City.

Ayer's AGUE CURE.
For the speedy relief of Fever and Ague, Intermittent Fever, Chills, Fever, Remittent Fever, Dumb Ague, or any of the affections which arise from malarious, marsh, or miasmatic causes.

It has been widely used, during the last twenty years, in the treatment of those distressing diseases, and with such uniformly successful results that it has gained the reputation of being infallible. The shakes, or chills, come broken by it, do not return until the disease is contracted again. This has made it an accepted remedy, and trusted specifically for the Fever and Ague of the West, and the Chills and Fever of the South.

Ayer's Ague Cure eradicates the malarious poison from the system, and leaves the patient as well as before the attack. It thoroughly expels the disease, so that no return is possible. It is a safe and reliable remedy, and is recommended by all the leading physicians of the day. It is a safe and reliable remedy, and is recommended by all the leading physicians of the day.
