The *Tribune's* Norfolk correspondent says of the Wilmington expedition, the transports were off Fort Fisher three days before the war ships arrived, in good weather, and the enemy was known to be in full force; that their coal was exhausted and they had to return to Beaufort, leaving again as soon as possible; that without waiting for their return, as agreed, Porter exploded the powder boat and opened fire; that the troops were to land when the powder boat was exploded and take advantage of the shock produced; and that when the troops did land, Weitzel found the fort uninjured and that an assaulting party would meet a more bloody repulse than at Fort Wagner. He advised a withdrawal, to which Butler assented.

The *Richmond Dispatch*, speaking of the bombardment of Fort Fisher, says, such a rain of shot and shell never before fell upon any spot on earth since gunpowder was invented. —The human being is not formed to grow altogether upwards like plants and deers horns, nor yet altogether downwards like feathers and upperjaw teeth; but like mussels, at both ends at once.

—A lady who sings in the choir of a certain church having been laughed at for marrying a very small man, remarked that she had always found short metre *hims* the easiest to get along with.

—A person in public company accusing the Irish nation of being the most unpolished in the world, was mildly answered by an Irish gentleman "that it ought to be otherwise, for the Irish met with hard rubs enough to polish any nation upon earth."

—The Russian telegraph from Omsk to Irkoutsk is completed—a distance of 3,985 miles. This renders the great telegraph chain between the most westerly part of Great Britain and the most easterly part of Asia complete.

—Always heed a baby's cries. They are the poor little fellow's only signal of distress.

—The more vigorous and elevated a man is, the higher tenderness he is capable of, as on high trees the fruitrounds itself into a milder and sweeter form than on low ones.

—The heart of a man is like a garden, capable of producing, under good culture, everything beautiful in humanity, while, if neglected, it is choked up with every kind of rank and poisonous weeds. The hand of a virtuous woman is best adapted to the task of sowing good seed and rearing beautiful flowers.

—An editor thus distinguishes between different sorts of patriotism:—"Some esteem it sweet to die for one's country; others regard it sweeter to live for one's country; but most of our patriots hold it sweetest to live upon one's country."
