 Those troubled with rheumatism, who have tried other remedies and still are uncured will certainly obtain relief within three days' and generally within six hours by taking Britannia. This great remedy was discovered by an eminent English physician of great experience, and who has never lost a patient to whom this medicine was a d-ministered. Britannia is not a lotton; no external application can permanent-ity cure rheumatism, which is a desease of the blood. Britannia is prepared with the greatest skill, and a teaspoon-thil being taken in a wineglass of cold water immediately finds its way to the bloood, where it corrects the pain-causing element, removes it immedi-tately by purifying the life-giving fuid, and gradually builds up the entite sys-tem. Persons who have used this a Britannia has done. Many references in Sait Lake City and elsewhere can be given.
