DESERET EVENING NEWS WEDNESDAY NOVEMBER 11 1908

BADGER BROS.,

The Bullfrog Pioneer is the latest Nevada property to spring the news of a consational discovery, which, in a word, is said to be the uncovering of ten feei of ore whose average value is \$100 to the ton, with practically the entire value in gold.

6

News of the strike was taken to Rhyolite by Superintendent J. R. Bryan, who carried with him samples of some of the ore discovered. The quartz in which the heavy values are contained, is very heavy and black, and is said to resemble greatly the ores of the Mohawk and Florence mines of Goidtield.

The strike occurred ten days ago, and has been sunk into, according to the superintendent's report, some ten feet by means of a winze. This winze is five of a winzer for a winze. This winze is five feet ten inches by seven, and there is ore on all sides. That found on the hanging wall is the real picture rock, while that of the foot wall is only slightly less rich. No crosscutting has so far been done, but drifting on the ledge has started

No crosscutting has so far been done, but drifting or: the ledge has started, sund as soon as distance enough from the whize is obtained, crosscutting wild be commenced. The ore was uncov-ered on the 150-foot level. Although the mill is being run on \$40 rock, 1.000 sacks of the high grade have been taken out, and it is intended to make a shipment which will not be less than a carload, during the present week.

As a result of the spreading of the news of this strike, it is said that many applications for leases have been made.

STRONG. STEADY MARKET.

Bulls and Bears Lie Down Together In Peace and Quiet.

Although trading on the stock ex-change was brisk this morning, at the regular session, the activity displayed indicated nothing so plainly as a steady indicated nothing so plainly as a steady market, in which there was no note of anything but entire confidence, with-out ay undercurrent of either the pre-dominating characterizing of the buff dominating characteristics of the bull

dominating characteristics of the pite-dominating characteristics of the bull or the bear. The demand for standard securities was fair, but there was none of Usa feverish rush and snap which indicates expectations of sudden rises. The morn-fug session showed a slight falling off in pilees, but nothing more than what was to be expected, and what generally occurs when the market is steady. It was thought by a few that the re-port of the unwatering of the Wabash would tend to strengthen the price and demand for that stock, but it did neith-er, the offering remaining at 38 without the chalking of a bid. four miles from the town of Mazuma. in the heart of the Seven Troughs district, and is the nearest town to all least one developed mine of the district, possesses the only newspaper thus far published in the district, and has many patriotic citizens, who are

has many patriotic citizens, who are all justy boosters, for some reason, little is ever heard of that part of the district, further away than Lovelock. Many very promising discoveries have been made in its near vicinity, and were it not for the fact that the Seven Troughs district, supplied, as it is with three towns, is beset by inter-nal jealousy and sectional strife, there is little doubt that more of Vernon would be heard of on the outside. As it is, occasionally something of what is being done in that end of the dis-trict finds its way to the outside world, as in the present instance.

Although Vernon is situated only

trict finds its way to the outside world, as in the present instance. Word was received through private sources yesterday, of a recent strike made by Ed Moran on the Gold Prize ground, a mile and a half to the north of Vernon, which careful development, since the discovery was first made, a copule of weeks ago, is proving to be of considerable immeriance

copule of weeks ago, is proving to be of considerable importance. Mr. Moran states that he has ex-posed the formation, which is com-posed of quartz stringers of varing values, with phonolitic porophry, for a distance of 140 feet, by five feet long surface trenches, which practically ex-pose an ore zone of 50 feet in width He also states that every one of tho trenches exposes the same network of He also states that every one of the trenches exposes the same network of quartz stringers, which carry much hige grade ore, and the porphry is all low grade milling ore, but this in such great quantity that it is in itself a large proposition, and one bound to attract the attention of practical min-ers and investors, who are not much riven to enthuslasm over the network given to enthusiasm over the nicture

given to enthusiasm over the picture rock which nearly never Nevada min-ing camp has to show strangers. Thise quartz stringers are describ-ed as being all the way from a few inches to several feet in thickness. To the west of the gold bearing zone, as the discovery is described, there is a three-foot quartz body which the writer believes will run into an enor-mous body of rich ore. Then follows the statement that the writer has pan-ned and made various other tests, which lead him to believe that if the whole 50 feet of width could be brok-en loose it would all average a good

en loose it would all average a good shipping ore. This of course applies only to the quartz. Shipping one. This of course applies only to the quartz. This phonolitic zone, is said to aver-age about 200 feet in width, and has been traced for a distance of 1.500 feet north and south, and that values have been found up to 1,000 feet of this dis-tance.

COPPER WITHDRAWAL.

Having provided its customers with month's supply of copper at the cur-rent market prices, Calumet & Hecla has withdrawn from the market and expects to stay out for przetically a month.-Boston Financial News.

WABASH UNWATERING.

Whether or not any great damage has been done the workings of the Wabash mine at Park City by the flooding, will probably be disclosed within the next few days, as in all probability the mine few days, as in all probability the mine will be relieved of water some time during the present week. The new pumping plant is now in operation there, and as it has a heavy capacity, and the amount of water in the levels has been very closely es-timated, the time when it will be cleared can be very accurately told. There is some heavy ground in this

There is some heavy ground in this mine, in its flooded workings, but as this was left well protected by proper timbering, it is believed by Manager Nicholas Treweek, that slight, if any, damage will result.

IN SILVER ISLET.

The Silver Islet district is again be The silver Islet district is again be-ing heard from through the energetic work of R. S. Boyle and several as-sociates, who with him are employed by the Western Pacific. The artfroad-ers acquired a group of nine claims adjoining the Haphazard property, not long ago, and within the past few days uncovered some very flattering indica-tions, which, taken in conjunction with the fact that they are such store neighthe fact that they are such along heigh-bors to a steady producer, makes them feel that "it is good to be there."

OLD EUREKA SHIPPER.

The old Ruby-Dunderburg mine at Eureka, Nevada, has again entered the lists of ore shippers, under the name of the Ruby-Pioneer, and the second

or the range-Fioneer, and the second car of its product has reached the Salt Lake Smelters. This old mine paid a profit to its English owners many years ago, when a much higher smelter toil was de-manded and how here the react of the manded, and there is every reason to suppose that the old property will, with proper management, under the better facilities enjoyed, pay greater dividends in the near future than it ever did in the past.

VISITED PIOCHE.

A party of Salt Lake mining men, prominent in heavier promotion cir-cles, consisting of John S. Bransford, James Farrell, Col. Holmes and others, have been paying Pioche, Nevada, a visit, and have returned from the camp which has, in times past produced so many millions. They were very favor-ably impressed with not only the mines but with the future outlook for newed prosperity of the old camp in general. Whether or not the object of the visit of some of the party, had behind it the prospect of new, or increased smelter work, cannot be said, but the great amount of blocked out ore, which would furnish food for the smelters, seems to have made the greatest im-pression on most of the members of the visiting party, who speak with ut-most enthusiasm, of the Prince Con-solidated, in particular.

tomed elimination of the noise, which, to a great degree marks the opera-tions in unlisted securities. All told, only six stocks recorded sales, and these had nothing startling about them.

sales, and these had nothing starting about them. Ohio Copper recorded a few sales at \$4.80 and \$4.85, strengthening slightly toward the close of the trading. East Crown Point recorded a few sales at 2½ but only a few, as the prevailing prices demanded was 5. Mineral Flat sold at 15, declining somewhat, as early in the session 16 was offered.Nail Driver changed hands at 17, and Silver King Coalition received offers of \$4.05, but the demand of \$4.10 was unfaltering. Central Standard gold at 41½. Seven Troughs Coalition could not be had at the \$1 offered, and those who wanted Uinta Treasure Hill at 22 also failed to buy. Utah Copper sold for \$1.50 and Seven Troughs Columbine at 60.

GREAT BODY OF COPPER.

Supprior and Pittsburg Mines Out of Difficulty.

bought them yesterday on the rumors that dividends were to be advanced at the directors' meeting today. Yester-day's rumors were disoredited over night and the belief prevalled that only regular dividends would be declar-ed. Soon after the opening Southern Pacific sold down to 1064, compared with 1173; at the close last night and 1195; at the highest yesterday. The low price for Union Pacific on the break was 1793; compared with 181 at the close last night and 185; at the high-est yesterday. The whole market de-clined in sympathy, losses running from 1 to 2 points in the active stocks. Support became effective in the course of the first half hour and prices rai-lied, with the effect of quieting the ac-tivity which had been at a furious rate. There was a good deal of irrega-tarity in the opening stock market caused by heavy realizing in some of the recent speculative favorites while other stocks advanced sharply. The opening in the Harriman Facilies while other stocks advanced sharply. The opening in the Harriman Facilies was wild, sales of 7500 shares of Union Pa-cafic being made at 180% and 178%, compared with 181 at the close yester-day. The first sales of Southern Pa-cafic being made at 180% and 178%, dreat. Northern preferred opened 2 points lower, Amalgamated Copper 1/2; American Smelling 1/4, and American Locomotive 1/2; American Can pre-ferred made a gain of 1%, Canadhan actific 1%, Cleveland, C. C. & St. Louis and Utah Copper 1, and Kansas & Tex-as 54. Difficulty. According to a wire received by Jas. A. Pollock & Co. from their Chicago office this morning, a report is current there to the effect that the Superior there to the effect that the Superior there to the effect that the Superior and Pittsburg mines have opened an immense ore body 120 feet wide, which carries 13½ per cent copper. This indicates to the minds of those most familiar with the past troubles of the mines, that their worst difficul-ties are behind them, and that the clearing up of their troublesome debts will now take but a short time, after which, if copper continues its present prosperous course, a brighter future than ever before is promised for the producers. producers.

SAN FRANCISCO MARKET.

James A. Pollock & Co., bankers and brokers, furnish the following quota-tions from San Francisco on Nevada mining stocks today:

COMSTOCK.

and Utah Copper 1, and Kansas & Tex-as 54. The rush to sell continued, the col-lapse of the Harriman stocks encourag-ing the professionals to sell heavily for both accounts. Lower prices were made before any serious effort was made to check the decline. St. Paul, Delaware & Hudson, Norfolk & Western Yielded a point, A feverish rally lifted prices sharply, but the list was sold frequent-ly. Towards 11 o'clock Southern Pacific was driven to 115%, or more than 2 points below yesterday's closing. Union Pacific's decline was 1%. A number of the less active stocks were rushed for-ward. Whis-Fargo Express jumped 10 points, exas & Pacific Land Trusts 6. Granby Mining 5. Chicago Terminal preferred 2, St. Louis Southwestern 1. the preferred 2% and Tennessee Cop-per 19. 15 YEARS IN FIELD.

the preferred 2% and Tennessee Copper 1%. The renewed decline was followed by the professionals with short sales and when the liquidating sales diminished this element had to advance bids to cover shorts. A rally of a polut or more from the lowest was the conse-quence. An advance of 1% in Erle was an effective stimulant to the rally.' A number of low priced rallroad stocks rose 1 to 1%. At the low point South-ern Pacific showed a loss of 2, National Biscuit 3, Union Pacific 12% and Read-ing 2. Trading became dull on the rally.' A stronger and broader market re-suited after 12 o'clock with the demand for the low priced rallroad stocks the most noticeable feature. The declara-tion of the regular dividends on South-ern Pacific and Union Pacific was fol-lowed by a fresh dip of a slight tro-ilon folowed by recovery. The stand-ard railroad stocks all moved up when the low priced stocks began to jump. but the ramifest profit-taking in the Harriman stocks kept them from gdin-ing much, Pacific Mall advanced 1. Ti was evident from the action of the market that the large interests had sold the high priced stocks freely un-der cover of the demostration in the low priced securities. When the profes-stocks heavily all around the room and drove prices as low or lower than in the forenoon. The market closed extremely active and generally strong. Prices broke again with violence in the final hour when such declines were shown as 4 in Smithes of 1 to 2 followed when shorts bought to cover. Some of the low priced stocks got back to their best prices.

per 1%. The renewed decline was followed by

GEORGE M. CANNON CO., Rooms 512-513 Templeton Bldg.

When the control of the Tecopa Consolidated Mining company was sold to N. Z. Graves and associates of Phil-adelphia the management stated that in four months' time and with an out-lay of a certain sum of money, at leasi \$1,650,000 worth of ore, net, could be blocked out in the Gunsight and Noon-day mines. .30 1.0214

day mines. The four months' time has passed and it is stated upon the authority of Harry G. McMahon that the two mines today show more than \$1,650,000 worth of ore in sight, after deducting all ex-

penses. The properties have been equipped in up-to-date mining shape, air drills having been installed, and equipment has been placed with the idea of con-

has been placed with the idea of con-tinuous work on a large scale. Mr. Graves, who is one of the best known capitalists in the Quaker City, left Philadelphia Thursday of this week for Tecopa, where he will make a thorough inspection of the mines, It is expected that definite plans for the big concentrator, which has been un-der advisement for some time, will be wade in the near future

PERUVIAN IS ACTIVE.

Men and Supplies for Winter Work Sent to Mine.

Supplies for the winter work on th Peruvian Mining company's ground in the Cottonwood district were forward-ed from here last night, and this evening the five men who are to compristhe crew for winter development work, will be taken out by Manager C. F. Clays, who has been in the city since yesterday attending to the business of buying and shipping winter supplies for the mine. This laying in of a stock of supplies for the winter is consid-ered necessary because the condition of the winter roads is often such that otherwise there would have to be a cessation of operations. Not long since the Perevian com-

Not long since the Perovian com-pany, was reorganized, and the cap-ital stock increased from 159,000 to 459,000, under which plan, the old stockholders surrendered their stock at the tratio of two for one, which left 50,000 shares in the treasury, after settlement. This was at once taken by the new stockholders thus newiding the new stockholders, thus providing oney for the further development of

THE CURB TAME.

The curb traders were a quiet lot this morning, effecting their transac-tions with dispatch and an unaccus-

the Coopers claim that the affair was merely a street duel in which both sides met and began firing; that the Coopers had tried to avoid a meeting with Mr. Carmack and that they were on their way to the state capitol in response to a telephone message from Gov. Patterson when the tragedy oc-curred; that Senator Carmack had curred; that Senator Carmack had been warned and was expecting trouble.

The friends of Senator Carmack strenuously claim that the killing was strenuously claim that the killing was the result of a conspiracy in which men high in authority were cennected; that Mr. Carmack was waylaid and as-assinated while he was on his way to his boarding house and while he was talking to a lady; then when he left the Tennesseean office for his boarding house the fact was telephoned from a house near the Tennesseean office and house near the Tennessean office and that thus the Coopers were notified that the senator was on his way and to

be on the alert. It now develops, according to friends of Mr. Carmack, that there was a third party with the Coopers just be-fore the shooting, an ex-county official who is a close personal friend of both the Coopers and Gov. Patterson, Friends of the dead senator intimate that there will be some sensational developments within the next day or so regarding the affair. Neither Col Cooper nor his son will give out any statement for publication. be on the alert. statement for publication.

REAR ADMIRAL MILLER DEAD.

REAR ADMIRAL MILLER DEAD. Philadelphia, Pa., Nov. 11.—Rear Ad-miral Miller, governor of the naval home in this city, died today after a brief illness. He was 61 years old, and was appointed to the navy from Mis-souri in 1863. He commanded the cruiz-or Columbia, later coming to Philadel-phia navy yard where he commanded the receiving ship Lancester. He had been in charge of the naval home for the last year and a half.
