A BONANZA IN ANY HOME.

Hard Times Book.

In all parts of the world there have been and still are found certain persons, many gifted by nature, who have discovered and learned how to use simple home remedies for all the ills of the flesh. Some of these persons have become very expert in the cure of disease. These "experts" are generally nurses, though not always, or mothers of large families, who have acquired skill by long experience.

The fact had often been expressed that if some one would obtain and bring to the attention of the world the value of which could hardly be estimated in dollars and cents.

To do this of course would involve immense labor and much expense, which would not deter anyone from making the attempt.

It however remained for the publisher of a book known as "Vitalogy" to undertake this Herculean task, by bringing out a book under this title. In 1905 they began their labors. After gleaning this country and Europe they found in Japan remedies that were regarded of extraordinary value, and the Japanese method of applying them made these simple remedies still more valuable.

After more than 30 years of gleaning they have finally given to the world in "Vitalogy" a volume whose practical value can hardly be measured by money. In fact it must prove a "bonanza" in any home. It can truly be termed a "Hard Times Book" for there is scarcely a family in this land to whom it would not prove a saving of many dollars each year during the whole year.

The more needy a family is, or the harder the times are, the more valuable this book is to them.

That value which this book lies not alone in saving money, and saving suffering and often life itself; there is another consideration that is of no less importance, for it will be a means of preventing people from falling into the system. As the Japanese would say, "taking an unknown medicine into an unknown stomach to produce an unknown result."

Drugs generally leave a deposit in the body that weakens or injures it for the rest of life. We often take medicine and think that the medicine does us good. Yet we get well in spite of the medicine.

The following is a pertinent paragraph from the writings of the late Dr. R. P. Clayton: "The medicine which could be practiced on the people than to follow upon the so-called Family Doctor Books found in almost every home. The medicine which could be practiced on the people than to follow upon the so-called Family Doctor Books found in almost every home. The medicine which could be practiced on the people than to follow upon the so-called Family Doctor Books found in almost every home."

The literary division of this book is, too, of special importance, as every part of it is of unusual value to the reader.—Morning Chronicle.

FOR SALE—REAL ESTATE.

HOUSES BUILT ON HONOR ARE THE KIND REAVIS CONSTRUCTS.

You run no risk nor have to worry when you have built your home on honor. My houses are founded upon system, honor and a perfect knowledge of the building business.

I employ a competent superintendent, who maintains the strictest espionage over my building operations.

No unmechanical work is allowed to enter into a house I build and all material must be up to the high standard provided for in my specifications.

Every foot of lumber used is the best that can be purchased, and I can refer you to any of the principal lumber dealers for the proof. Ask Morrison-Merrill, Pacific Lumber Co., or Taylor-Kennedy, Armstrong, for the proof.

Every one who has ever owned a house of mine will give you corroborative proof of my statement that I use only the best material and succeed in producing only the highest grade of brick work, all walls being laid, true, plumb and mechanically, producing an appearance remarkable for beauty and solidity.

I make a specialty of solid foundations, laying all stone masonry on cement concrete foundations, constructing a crack-proof, adamant-like bearing for the building and insuring a safe and well-wearing home.

Remember, what the tradesman brings to the mason is not the mason's work. Go and see with your own eyes the foundation I have completed for Robert H. Harrison's residence on the E. S. of 9th East, just south of 8th South. Look at the foundation of the new building on 8th St. and 4th South for Mr. F. M. Tveit, the owner of the great Main St. bazaar store.

And although my prices are lower than others and my competitors stand by and marvel.

"How can Reavis build so cheaply?" is a common question and I'll answer it candidly by stating that nothing goes to waste. I am brought in immense quantities, cheaper than you can buy; brick are purchased in enormous quantities and laid close together to keep down the cost of my client's houses.

But I don't make these discounts and charges for the sake of a few dollars for you, for I give you the benefit of my careful management of building.

It is a fact that I will readily concede that it is a cinch that where I am building a house that I can build you a better house for less money than you can build a house for less money than you can build a house at a time and making their entire living out of such a limited amount of work.

My profits are small on each house, but the volume of business strikes a balance for providing the money.

I employ the highest skilled draughtsman and my plans are plans—no makeshifts, no compromises, no shortcuts, no don't believe in extras and when I build a house I furnish everything, from the hair range to the picture hanging and electric bell.

I can refer you to a dozen persons for whom I have built houses that have cost less than you can build a house on homes costing \$1,000 to \$3,000.

If you don't know anything about the building business, call on me for a free estimate from a cellar plan, you are sure to get a square deal when you negotiate with me.

Don't hesitate. Get my references. Ask E. M. Jones, the proprietor of the great Main St. bazaar store, about me. I am building four houses for him. Ask the manager of the Union Grocery Co., on 8th South St., will tell you I build good houses. I built his and he says he is pleased.

Interrogate McGurkin & Co., bankers, about my standing.

Ask the manager of the Union Grocery Co., on 8th South St., will tell you I build good houses. I built his and he says he is pleased.

There is a fast-growing army of people in Salt Lake whom I have helped to get homes of their own and the good and kindly feeling toward me of those I have dealt with is the greatest encouragement I have to work hard to build better and better houses and earn money to be able to secure their own cozy homes through my agency.

Paying rent is the bane of every family and to continue paying rent, when you have a way of getting out of it, is a servitude is an evidence of indecision and poor business judgment.

If you have a small sum of money or if you have a good lot, make up your mind to visit me at once and make a contract to build a home. The price of a good house is small, when buildings can be erected so cheap and when the demand for houses is so great.

My terms are easy and my agreements are simple and eminently just and fair. Provision is made in the contract for sickness, so that you won't lose your property. Interest rates are low and there are no charges for plans, plot of advice.

I'll take you around to the building I have just completed for the late Dr. R. P. Clayton, and you will see that I will guarantee that out of the many houses I am building you'll be sure to find the kind of a home you have always wanted.

MAKE UP YOUR MIND RIGHT NOW TO VISIT ME.
