

SHIPPERS CHARGE DISCRIMINATION

Chicago Merchants Will Ask Commission to Revise Southern Schedules.

RATE CONSPIRACY ALLEGED.

Tariff from Chicago to Chattanooga is 111 cents, and to Portland, Oregon, only 195 cents.

Chicago, Nov. 12.—The interstate commerce commission is to be asked by Chicago merchants to revise the freight rate schedules between Chicago and Chattanooga and points south. At the hearing before the commission next Monday on the complaint of the Chicago Association of Commerce against the Pennsylvania, the Southern, the Queen & Crescent and other roads Chicago merchants will be placed on the stand to show that the present rates to Chattanooga are higher than to eastern cities to which the distance is much greater.

The first class rate from Chicago to Chattanooga is 111 cents per 100 pounds for a distance of 635 miles. The rate to New York, 847 miles; Boston, 1,060 miles; Worcester, 1,025 miles, and even to Portland, Me., a distance of 1,173 miles, is only 195 cents.

CONSPIRACY ALLEGED. The receivers and shippers association of Cincinnati has filed a similar complaint against the rates charged from that city and both cases will be heard together on Monday.

The complaints allege that the discriminatory rates have been filed by a conspiracy through which it is known as the Southern Railway & Steamship association agreement, which is said to have been condemned by the interstate commerce commission. It is also stated that the existing rates were once declared illegal by the commission, but as the commission at that time, before the passage of the Hepburn act, had no power to change the rates, they never were lowered.

TRAFFIC EXPERT TO TALK. George J. Kimbel of Denver will address meeting Nov. 8.

George J. Kimbel, a traffic expert from Denver, is billed to address a meeting of the Commercial club traffic bureau of this city on Monday evening, Nov. 16, at 8 o'clock. The meeting will be in the nature of a mass meeting, and will be held in the Commercial club rooms. Mr. Kimbel is a mattress manufacturer in the Colorado metropolis, and is said to have had more experience in the matter of freight and rates than any other man in the west. He is said to be well informed on traffic conditions in this part of the country, and his talk is expected to be of interest to the people, particularly to Salt Lake shippers. Mr. Kimbel will be a guest of the Commercial club at the noon luncheon, when he will be given an opportunity to meet as many of the business men of the city as possible.

NEW AGENTS NAMED.

Five Stations Ready for Business on Western Pacific. T. J. Wyche, engineer in charge of the Western Pacific road between Salt Lake and Shafter, Nevada, has appointed five agents for the new line. Mr. C. R. Aley is named as agent at Salt Lake with headquarters at the D. & R. G. railroad depot; Frank Morrison is agent at Grants, 31 miles west from Salt Lake; F. H. Peterson will take charge of Delta station, 50 miles away; C. H. Clark will manipulate the key at Wendover, which is the last station on the Western Pacific in Utah and 121 miles distant; while J. O. Becker is in charge of the Shafter end, 161.8 miles distant, and the present western terminus of the eastern division of the road.

Col. I. A. Benton of the passenger department, says there is a great deal of work going on along the new line, and laborers are being sent out with every train.

WORK ON D. & R. G. STATION.

With Car Tracks Out of the Way Construction Will Proceed. Operations of an active character are increasing in the neighborhood of Third West street, between Second and Fourth South streets, which is the site of the new Denver & Rio Grande railroad passenger station. Gangs of men are now busy unloading gravel and sand to build the concrete foundations already constructed, and other gangs engaged in building a high board fence around the eastern side of the station area closing out the street dedicated to the city by the railroad company and named Rio Grande avenue.

The street car company is busily engaged in changing its Jordan bridge line running west on Third South street along the new avenue north to Second South, which will be the line hereafter instead of going down to Fourth West to make the turn, as at present.

After this work is completed, Third South street will be blocked by the depot building up to Rio Grande avenue, as the new station will front directly on Third South when completed. The work of construction on

Dr. PRICE'S CREAM Baking Powder

A grape cream of tartar powder. Makes pure, healthful, delicious food. No alum, no lime phosphate.

There is an infallible test by which every housewife may detect the unhealthy alum baking powders—

The label will tell

Study the label. If it does not say cream of tartar the baking powder is made from alum and must be avoided.

the station building will be proceeded with at once, according to a declaration made by General Superintendent Ernest Steinger today, and pushed to the earliest possible completion.

EQUIPMENT FOR OREGON. With the beginning of the new year deliveries of \$2,000,000 worth of new rolling stock for the Harriman lines in Oregon will be made. The allotment includes 11 all-steel passenger coaches, 1,000 box cars of 50-ton capacity, 50 flat cars of similar capacity, 100 stock cars of 40-ton capacity, and 100 stock cars of 40-ton capacity. Eight new freight locomotives have already been delivered to the Oregon lines, and these will go into commission about Jan. 1.

SPICE AND RAIL. C. A. Walker, general agent of the Chicago & Northwestern lines in this city, is in Boise this week on business connected with his road.

S. C. Rhodes, district passenger

agent and H. H. Hunkins, traveling passenger agent of the C. M. & St. P. at Denver, Colo., are in Salt Lake City on a business trip.

H. M. Cushing, traveling passenger agent of the Denver & Rio Grande, has gone to Shafter, Nev., over the Western Pacific to familiarize himself with the business run of the road.

NON-PARTISAN CONVENTION.

Meeting Called for Friday Night in Ninth Ward Hall.

The following call for a non-partisan convention has been issued over the signatures of Julian Riley, precinct chairman, and Hugh B. Kelley, secretary:

A non-partisan mass convention of the first precinct will be held Friday night in the annex of the ninth ward

"American" Slump Shown In Second Ward Canvass

With a progress that is as steady as it is slow the official canvassers continue to go over the election returns in Salt Lake county, and the present state of their progress is that they are nearly half way through the city results. To the totals of the first precinct are now to be added the totals in the second. They tell the same story as those in the first, of a large increase in the vote of this precinct in the Republican column, and the slumping away of the "American" vote from the large figure piled up for Mayor Bransford one year ago, and 1,026 over 1906.

The slump in the "American" vote as shown in the total for Charon this year and for Bransford last year is 965 votes. In the first there was a practically stationary situation in which results were scored through the Republican complexion of the vote.

The Republicans carried the second this with a plurality of 50 votes, while their vote is practically doubled

over that of a year ago, when the "Americans" carried the precinct by a plurality of 1,599.

Nationally Taft had a two to one gain of it with Bryan, securing 4,668 votes to 2,328 votes for his opponent. Debs climbed up with a gain of over three times the Socialist vote of two years ago. He received 457 votes this year to 132 for Burt two years ago, Burt then having been candidate for delegate to Congress.

In the matter of voting the "American" ticket it seems that Knight received a smaller proportion of the "American" votes than he did in the first as the Street column is strong in the second, and this leaves Spry's plurality well ahead of the rest of the Republican county ticket. While Knight went 700 votes ahead of his nearest Democratic fellow candidate Street fell only 550 votes behind his ticket, so that there was some Republican scratching for Knight.

The tabulated second precinct results follow:

District	Total	Rep.	Dem.	Am.	Ind.	Pro.	Other
Sixteenth	632	391	163	25	2	4	5
Seventeenth	296	151	81	20	2	4	12

THE UTAH COUNTY VOTE.

Knight Leads Off With High Vote—Republicans Get Pluralities.

Special Correspondence. Provo, Nov. 12.—The official canvass of Utah county shows that the Republican ticket polled a majority of almost 1,000 votes on each nominee with two exceptions. Knight, 5,936; Spry, 5,297; Childs, 4,223; Hopkins, 3,417. The returns from Utah county for state and national nominees show:

Taft, 6,473; Bryan, 5,079; Howell, 6,131; Martheau, 4,871; McCarty, 6,236; Stewart, 4,917; Tingey, 6,192; Owen, 4,990; Barnes, 6,160; Stringfellow, 5,108; Jewkes, 6,168; Nixon, 5,006; Mattson, 6,166; Calne, 5,005; Nelson, 6,054; Robinson, 5,022.

Looking for Medicine, Found Food.

In looking for a recommended remedy in a newspaper a sick woman found the food which restored her to health. She writes: "About three years ago a spell of sickness left me so weak that it was an exertion to move my hand. "My appetite was gone and what little I did eat, distressed me so I had to let it pass. The doctor said I was getting weaker and advised me to take cod liver oil, but my stomach would not tolerate it. "Then I was told to take egg-nog with stimulants to strengthen me, but that did not agree with me. I was getting discouraged, when a lady sent me a paper in which there was a medicine advertised which she thought might help me. "In looking through the paper I saw an ad. telling how strengthening was Grape-Nuts food. I was what I was after, so I sent for a package of Grape-Nuts. "I was so bad that the cream I used with this food, distressed me. The doctor took one teaspoonful of dry Grape-Nuts and ate it, using no liquid until it was through. "To my surprise I felt no bad effect. The next time I took two teaspoonfuls with the same result. It was not long before I could eat three teaspoonfuls, with the result that I was gaining strength and my stomach was feeling much better. "I knew it was owing to the Grape-Nuts because that was all I was eating. It was not long then, until I could eat cream with the Grape-Nuts and no distress. From then on all was well, and there are very few meals eaten at our table without Grape-Nuts." Name given by Postum Co. Battle Creek, Mich. Read, "The Road to Well-being," in page, "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

schoolhouse. All votes interested in nominating a non-partisan school trustee are earnestly invited and requested to attend this meeting to nominate one school trustee for election next month.

DRINK CLAIMS THREE. Death List for One Month Shows Alcoholism as Cause.

The report of the board of health for October, shows that there were 38 deaths in this city during the month, two less than for the same month a year ago. The cause of death was assigned to various diseases as follows:

	Total	1	2	3	4	5
Smallpox	11	6	3	3	2	0
Scarlet Fever	7	2	1	0	0	1
Diphtheria	9	3	2	2	0	2
Measles	1	1	0	0	0	0
Tuberculosis	0	0	0	0	0	0
Typhoid fever	1	0	0	1	0	0
Chickenpox	25	3	6	5	8	2
Simple Meningitis	3	1	1	0	1	0
Erysipelas	0	0	0	0	0	0
Mumps	0	0	0	0	0	0
Whoopingcough	15	5	10	0	0	0
Total	79	26	24	12	11	6

Complaints received and attended to: 78; visits and inspections made, 956; written notices served 76; cesspools, vaults and grease traps cleaned, 726; notice to connect with sewer, 7; sewer connections made, 122; inspections for sewer connections, 20; loads of garbage destroyed at crematory, 342; loads of ashes, rubbish and manure disposed of at city garbage station, 1,200; horses destroyed at crematory, 30; cows 6; mules 0; dogs, 101; hogs, 2; cats, 7.

The provision inspector reported as follows: Inspections of meat markets, 83; inspections of fish markets, 28; inspections of grocery stores, 120; inspections of commission houses, 117;

General, 18; diseases of the nervous system, 7; diseases of circulatory apparatus, 14; diseases of respiratory system, 15; diseases of digestive system, 8; diseases of genito-urinary system, 7; diseases of the skin, 2; early infancy, 7; old age, 5; external causes, 5; ill-defined diseases, 5. Typhoid fever caused five deaths, and diphtheria and croup claimed two victims. Three deaths were attributed to alcoholism, and five to tuberculosis. Of the deceased persons, 57 were males and 22 females.

During the month there were 194 births in this city, males 92, females 102. Marriage licenses issued during the same period, as shown by the county records, 219.

The report contained the following items from the sanitary department:

Inspections of bakeries, 18; inspections of hotels, 11; inspections of restaurants, 75; inspections of dairies, 20; inspections of slaughter houses, 0; inspections of candy manufactories, 0; inspection of ice cream manufactories or inspections of bottling and soda manufactories, 0; inspections of horse-drawn manufactories, 1; inspections of ice ponds, 0; inspections of spices, 0; condemned food, total pounds, 2,805; prosecutions, 0.

In the matter of contagious diseases reported to the board, the first Municipal ward has generally the highest number, the total being as follows:

HEAT

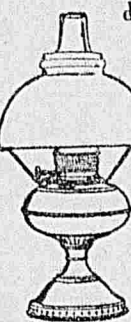

In the Right Place At the Right Time

That's it—where you want it—when you want it—and if you only knew how easy it is to carry from room to room—and how much cheery comfort you can have with a

PERFECTION Oil Heater

(Equipped with Smokeless Device)

You would no longer be without one. "No smoke—no smell"—this is the Perfection maxim. Because the smokeless device is smokeless you can have direct, glowing heat from every ounce of oil. Brass font holds 4 quarts—burns 9 hours. An ornament anywhere—finished in Japan and nickel. Every heater warranted.

The Rayo Lamp will give added pleasure to your magazine or paper—it gives a brilliant, steady light. Equipped with the latest improved central draft burner. Made of brass, nickel plated. Every lamp warranted. Write our nearest agency for descriptive circular if you don't find the Perfection Oil Heater or Rayo Lamp at your dealer's. CONTINENTAL OIL CO. (Incorporated)
