REVIEWS.
When is a young lady "very like a child?" When she is putting.

On one of the late terrible hot days, a little boy of three years and a half, who was perspiring very freely, ran to his mother, saying: "Oh, mamma, I'm melting all over."

A lady who was a passenger on board a packet ship, sprang out of her berth and jumped overboard, on hearing the captain, during a storm, order the mate to haul down the sheets.—IX.

Judge Sawyer has ruled it wrong to strike a police officer. It is wrong in law, but in a gentleman it is a temperate and graceful expression of disapproval.—IX.

Some people are never contented. After having all their limbs broken, their heads smashed, and their brains knocked out, they will actually go to law and try to get further damages.

Apologies of the many remedies proposed for preventing boiler explosions, the Louisville Courier-Journal says, the only absolutely sure way to keep them from exploding is to fill them with ice water and set them away in a cool place.

A lady writes to one of the society papers that she has a friend who cannot enter her friends' houses without turning her house into a restaurant, beginning to die out among sensible people, and entertainments where only one and two persons are present, and she is considered more select than the upper society.

The United States is the only country in the world that, either in ancient or modern times, produced peaches in sufficient quantities to allow them to become a common marketable commodity, so cheap that the poor as well as the rich can afford to eat them.

In 1860 the citizens of St. Anthony wanted a committee to meet Mr. Seward and others who were proposing to visit the town. By some chance the committee did not meet the party until they had reached their hotel, when the citizens, by way of apology, said: "Mr. Seward, we are very sorry indeed that we did not have the opportunity of escorting you into town; but we try to make up for it by making you out of it."

The society for decorations in England has been organized. It is a committee of the London Times, who say that people without decorations should be treated with little respect, and what is called good society. Only the other day a Judge was insulted by a person at the bar, because he had no decorations in his buttonhole. "Wives and children," said the Judge, "if their husbands have no medals, let them record a deed, or make a speech or write an article that will be rewarded at the next annual meeting." There are some people who are very busy in collecting all the decorations granted by the various governments of Europe, Asia and Africa, and the mode of obtaining them has become a perfect art.

About the most ludicrous incident that ever occurred in the history of an ordinary village in England, was a case of a woman who had been married for many years, and who was very much respected in the village. One day she was sitting in her room, and she was very much surprised to find a heavy substance, which, upon examination, proved to be her husband, lying on the floor. She was very much startled, and she was very much surprised to find that her husband was dead. She was very much surprised to find that her husband was dead, and she was very much surprised to find that her husband was dead.

SALT LAKE CITY, UTAH TERRITORY, MONDAY EVENING, SEPTEMBER 18, 1871.

NEW YORK.
The Registered Communists.
New York, 16.—A correspondent writing from Paris September 13, speaking of the sentence of transportation passed upon Assi, Billioray, Champy, Regue, Grouzet, Verdun and Ferrat, is still regarded in Paris as a mockery of justice. The very next revolution that happens there will, as a matter of course, be set at liberty and be able to recommence their old trade as "patriotic agitators." Ten years hence we may live to see the very men, who have just been condemned to life in France, as a punishment, is looked on as a ridiculous when compared with his crimes against the state. With the exception of Ferrat, all the prisoners were agreed to surrender at the leniency of their punishment.

Died from Starvation.
POUGHKEEPSIE, 16.—A dispatch from Fishkill Landing says that a little boy, aged seven years, belonging to the strong woman attached to O'Brien's menagerie, died of starvation at Poughkeepsie, New York, on Sunday night. The dispatch adds that while at Poughkeepsie he was shut up in a room alone, with his hands tied behind his back. Looking from the window he begged a cook to get him a piece of bread, and she got a ladder to ascend to the window and threw bread on the floor. She says he looked as if he had not a drop of blood in him. It is stated that the woman bought the child in Paris for a hundred dollars, to perform with her in the menagerie. The poor little fellow was buried yesterday. Steps have been taken to arrest the woman.

A Deputy Comptroller Appointed.
New York, 16.—The Times to-morrow will publish a letter from W. T. Havemeyer to Comptroller Connolly, advising the latter not to resign, but to appoint Andrew H. Green, deputy comptroller, and leave him to exercise the full control of the office without conditions or interference, and with the complete custody of all books and papers relating to the office, with the appointment of all persons he may think necessary to protect the public property and interests, and enable him to carry out the most searching investigation to aid the committee appointed for that purpose. Connolly has accepted Havemeyer's advice, and appointed Andrew H. Green deputy comptroller, vice Richard A. Sturges removed. In accepting Havemeyer's advice, Connolly states that he is governed by a warm desire to restore the city department over which he presides, to the confidence of the community.

Municipal Affairs.
The political situation here continues the topic of conversation. Governor Hoffman is said to be desirous of having Sweeney continued in his position, while he is not unwilling to have Hall, Tweed and Connolly displaced. Sweeney is known to have been the originator of the principle of the present city charter, which has been the cause of his unpopularity among the Tammany politicians. The Democrats will make strenuous efforts the coming fall, to have the strongest and best men, who are opposed to corruption, returned for legislative offices, and to this end propose to act in harmony with the Republicans of the city. The divisions of the Republican party here have almost destroyed the power of the party for doing anything in the city.

The March of Plagues.
A correspondent writing from Berlin, August 31st, says that the most melancholy intelligence still comes from Russia concerning the progress of the cholera in that country. The disease does not seem to have much exhausted its virulence, though in some places there was a slight diminishing of the number of deaths. European Russia is entirely overrun with the disease. Destitution and uncleanness, the busy handiwork everywhere of disease in Russia, are allies more powerful even than superstition. A large portion of the people's food consists of sour and half fermented stables and drinkables. The cattle plague is reported to be again appearing in southern Russia.

FRANCE.
Customs Treaty Accepted.
VIRRAILLES, 16.—The Assembly has just accepted, by a vote of 533 against 31, the customs treaty concluded between France and Germany.

WEST INDIES.
Earthquake.
KINGSTON, JAMAICA, 15.—The earthquake on the 21st shook the entire coast, both north and south, very severely. The sea was greatly agitated, and for a time it was impossible for vessels to enter the port.
