His conclusions were that they were writings, and whether proven to the what they murnered in an interce what they purported in origin and destination it was still a question of law whether they could be tion of law whether they could be admitted as evidence. He did not by any means admit that this proof and identification had been shown. To the great majority of these telegrams there were produced no answers at all. Such were merely hearsay; merely letters, relating to facts and making inquiries, which did not convey the slightest hint of a conspiracy, but none of these eascades of the Columbia river, Oregon, fer commerce.
