73 South, Main INTERFERED WITH OFFICER John Smith Makes a Vain Endeavor

to Rescue a Prisoner. While en route to the county jail Saturday with a prisoner named Frank Zimmerman, convicted at Murray of peddling fake jawelry without a license and sentenced to sixty days imprisonment, Deputy Sheriff W. H. Goldman was accosted by a fellow, who afterwards gave the name of John Smith who commanded the officer to release his man. Goldman told Smith to stand to one- side otherwise he, too, would be taken to the jail. Smith then attempted to rescue Zimmerman, but Goldman was too quick for him. Holding fast to his prisoner with one hand the deputy reached for his gan with the other. The sight of the revolver caused Smith to take to his needs hut a shut fired at to take to his beels, but a shu als feet brought him to a sudden halt. Goldman then handcuifed the men to-gether and told them to walk on ahead of him. When within a few rods of the county jail Smith made another attempt to down the officer and

this time got a stinging blow over the head with the gun for his pains. He then behaved himself. At the jail he informed Jatler Thomas that he and Zimmerman were "pale."

WIND STORM IN OCDEN.

Terrific Breeze Sweeps Over the Junction City.

Large Plate Glass Windows Blown in on Washington Avenue-Trees Uprooted - Gale in Bavis County.

On Saturday evening a windstorm arose in Ogden, in the early part of the evening it did not blow so heavy, but continued to increase in velocity as the night rolled on, and by midnight it was realized that a real mountain wind was on, and the people commenced to prop up their barns and weak outsheds. The wind blew from the east and continned the whole night. At about five o'clock in the morning, it commenced to rain and the wind abated and by noon yesterday it was quite calm and remained so, only a little breeze blow-ing. There was considerable damage done by the wind. One of the large plate glass windows in Burt Bro's, store was blown out at about midnight and the wind and rain swept through the store doing much damage to the stock of goods. The show window was decorated with fine lace curtains, fancy vases and other costly articles, and the falling glass cut the curtains and de-molished the breakable articles, doing

about \$2,000 damage, A large plate glass window was blown out of Richards & Allison's office in the Utah Loan & Trust company's building. and in a number of other buildings, windows were crushed in. Awnings all over the city were torn in ribbons and signs were demolished on many of the business houses, several skylights were shattered. A barn belonging to Wilson Wright, situated on Wall evenue be-tween Twenty-second and Twenty-third streets was blown over injuring one of the horses so that it will die, several other small buildings were overturned. The old Thomas dancing hall on the corner of Twenty-fourth street and Grant avenue was very much damaged the whole of the north and part of the rees were torn up by the roots all ove the city, Liberty Park looks almost di lapitated, at lease seventy-five of the trees in the park were torn up by the roots, especially along the east side, only a few trees are left standing. Lester Park was less damaged only a few trees were torn up, but in some parts of the city particularly upon the north side of the bench the sidewalks are impassable because of the fallen shade trees, other kinds of trees seem to have stood the wind better. The R. M. B. Telephone company and the Union light & Power company had extensive osses. Many telephone wires were torn lown, as were also the electric wires, by the falling trees, and nearly all the telephone wires that were not broken got crossed and by midnight hardly a 'phone in the city could be used, and the lines both south and north were materially injured. The live electric light wires that were flying around were dangerous. The telephone company place their damage at from \$800 to \$1 000 and the electric light company think that it will cost them about \$600 to place their line in order. It cannot yet be fully estimates what the entire damto, but it will run up into several thou-

WM. RIDD PASSES AWAY. Prominent Contractor and Builder Sucs cumbs to Pneumonia.

William Ridd, one of the most prominent mechanics in the State, succumbed o pneumonla yesterday afternoon, at his home in this city. Several weeks ago Mr. Ridd contracted a severe cold, which soon developed into pneumonia. He was born in Linton, England, December 19, 1831. He emigrated to I'tah cember 19, 1831. He emigrated to tata while a young man, arriving in Salt Lake in 1854. He at once began work at his trade, that of carpentry, and soon became a very skilful workman. In the early days he did considerable contracting, constructing several saw mills in Little and Big Cottonwood canyons. He superintended the construction of the Provo woolen mills. He had charge of the construction of the Assembly Hall under General Superinsembly Hall under General Superin-tendent Grow. Mr. Ridd also worked many years on the Salt Lake Temple

many years on the Salt Lake Temple where he did excellent work.

The funeral services will be held from the Twenty-second ward meeting house Tuesday afternoon at 2 o'clock. Friends may view the remains from 12:15 to 1:30 p. m. on the day of the funeral.

A Testimonial from Old England. "I consider Chamberlain's Cough Remedy the best in the world for bron-chits," says Mr. William Savory, of Worrington, England, "It has saved my wife's life, she having been a martyr to been chits for over six years, below bronchitis for over six years, being most of the time confined to her bed. She is now quite well." It is a great pleasure to the manufacturers of Cham berian's Cough Remedy to be able to publish testimentals of this character. They show that great good is being done, pain and suffering relieved and valuable lives restored to health and happiness by this remedy.

TWO MISSIONARIES REPORT.

The Turks are a Pure and Virtuous People - Mohammedan Missionas ries Meeting with Great Success.

The Tabernacle services yesterday afternoon were presided over by President Angus M. Cannon.

Opened by the choir singing the hymn beginning: 'Earth with her ten thousand flowers.'

The opening prayer was offered by Elder E. D. Woolley.

Continued by the choir singing the hymn beginning:

'Lord Thou wilt hear me when I pray." Elder Ritchle Harkness, recently returned from a mission to North Caroling, was the first speaker. He was set apart on his mission in May of 1898, and on arriving at Chattanooga was as-

signed to labor in North Carofina. He abored mostly in the eastern counties, next to the coast, where he met many kind and honest hearted people, who are obeying the Gospel. The conference is being well organized, many branches of the Church Sunday schools being built up. In behalf of the Saints orth Carolina the speaker was prepared to say that they wanted to live as near to the spirit of the Gospel as possible. They also have a spirit gathering. They have a desire to gathering. They have a desire to ome to Utah where they can be taught more fully in the ways of the Gospel The speaker organized three Sunday schools, assisted in baptizing many souls and organized several branches. The Saints should have better teachers in their Sunday schools, although there is talent in that country. There are

nany bright children there. In one county, just before he left the South, the speaker had the privilege of dedicating a meeting house, and the Saints in that locality are very devout. He rejoiced in his mission, and is ready to respond to any call that is made upon him by the servants of God here on the earth.

The next speaker was Elder Ezra Robinson, also a missionary from North Carolina. He had seen the power of the Lord manifested on many oc-The speaker explained that Elder Harkness had been a minister in South Carolina before he espoused the cause of the Latter-day Saints, and many of the thrilling experiences he passed through were related by the speaker. Elder Robinson read from fifth chapter of third Nephl, in the Book of Mormon, wherein the men are denounced who say that God no more works by miracles or by revelation. The speaker traveled in North Carolina for three years, he presided over the conference, and met with all classes of people. During those experiences he had seen the power of God manifest-He had been delivered from the hands of mobs, by dreams and visions and an instance of that kind was re-lated by Elder Robinson. He was impressed with the line that it was necessary to follow the counsel that is given him by the Priesthood. The faithful The faithful Latter-day Saints who have the testimony that Joseph Smith was a Prophet of God, will know that the counsel comes from God. Instead of being a priestridden people, the speaker said that the Latter-day Saints were the freest people on the earth. He had never felt any undue restraint in his life, and by the help of the Lord he would continue to obey the servants of God. The speaker told how his prayers had been answered in asking the Lord to bestow the gift of tongues upon one of the Elders. The prayer was answered, and the Elder arose and spoke in tongues, under the power and demonstration of the Holy Ghost . Elder Robinson related an in-

cident of bealing, where young lady was possessed evil spirits which were cast out answer to fasting and prayer. T speaker testified that the power of the Holy Chost attended the Gospel, that this is the Church of Jesus Christ of Latter-day Saints, that Joseph Smith and his successors were Prophets of God, and that the signs of miracles, prophecy, healing, etc., follow the be-

Elder F. F. Hintze, who recently re-turned from a mission to Turkey and Palestine, was the concluding speaker. said that the Church of Jesus Christ Latter-day Saints was the leaven hat God had placed in the earth and hat it would leaven the whole lump. The speaker stated that the moving off Port Gamble, a mill town thirty-five of some of the Saints in Zion to dwell and work among people in a oblem. While in Turkey the speaker nd others had published 29,000 tracts, Chey were printed to Armenian and Greek characters. There are only four or five Elders in that country, so they cannot cover much territory. While there is religious liberty in that counry it is almost impossible to preach o the people. The Elders have not yet to the people. The Elders have not yet succeeded in preaching to the Mohammedans. The speaker, however, had met with and conversed with some of them, but it generally vexed them. Among them, however, are many noble people. The speaker said the Türkish Mohammedans were the best people he had ever traveled among. Their senses had ever traveled among. Their sense of honor and purity was of the highest order. The Turks are a very diplomatic

copie, but their diplomacy consists in checking progress as enlightenmen means the overthrow of their govern-ment, and with the destruction of the government, their church would fail. The social cvil that is prevalent among the Christians, said the speaker, could not be found among the Turkish people a few years ago, but the vices of the world are creening in among them. The speaker went to much further length in describing the religion and character of the Arme dan missionary is meeting with greater success in the heathen nations than al success in the heathen nations than all the Christian missionaries combined. The speaker said there was no question in his mind that Mohammed was an inspired man. That he was called af God to perform a mighty work, because he had raised millions of people from a low form of worship to a very high form of worship. The Protestant missionaries also were doing much wood as their teachings prepared the good as their teachings prepared the minds of the people to receive the Gos minds of the people to receive the Gospel. There are hundreds of Armenians who look to "Mormonism" for their redemption, but under present conditions they cannot join the Church. The speaker had gone over the country where the Armenian massacres occurred, which were more horrible than he had conceived of. He had been in cities where thousands of men had been in cities where thousands of men had been killed and the city completely sacked. In one city 19,600 men were killed. In Constantinople during the raid on the | cents.

Ottoman bank, 5,060 people were killed. It was estimated that 120,000 lives were lost during the massacre.

The Armenians who have embraced the Gospel have received the gifts of the Holy Ghost. They have been given testimony of knowledg and bear their testimonies as intelligently and fervently as any other people in the world. Not one native Saint was killed during the massacres. One man only lost his property, but all the others saved their lives and their property. In one city the Saints fasted a week and the trouble passed over them and none were injured. The speaker closed his very interest-ing discourse by bearing a strong testi-

AN OBJECT LESSON.

In a Restaurant.

A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of hearty, vigorous old men a the tables; men whose ages run from 60 to 80 years; many of them bald and all perhaps gray, but none of them feeble

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an dect lesson which means something If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of new fangled health foods; on the contrary they seem to prefer a jucy roast of beef, a propor-ly turned loin of mutton, and even the eadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavor to live pon bran crackers,

There is a certain class of food cranks who seem to believe that meat, coffee and many other good things are rank poisons, but these cadaverous sickly looking technicals. ooking individuals are a walking con-lemnation of their own theories.

The matter in a nutshell is that if he stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly di-gested; if the stomach does not do so, and certain foods cause distress one or two of Stuart's Dyspepsia Tablets afer each meal will remove all difficulty because they supply just what every week stomach lacks, pepsin, hydro

chloric acid, distastes and nux.

Stuart's Dyspepsia Tablets do not act
upon the bowels and in fact are not
strictly a medicine, as they act almost entirely upon the food caten, digesting it thoroughly and thus gives a much eeded rest and giving an appetite for the next meal,

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets know-ing them to be perfectly safe to use at any time and also having found out by any time and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, the traveling public for years have pinned their faith to Stuart's Tablets.

All druggists sell them at 50 cents for full sized packages and any druggist from Maine to California, if his opin-ion were asked, would say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach
