The Eastern Slump Has Had Little Effect on Local Buying.

THE NEVADA LIST ACTIVE.

Closed on a Sale of \$3.77 1/2—Transfers of Silver King—Closing Quotations and Sales.

Utah stocks held their own this morning on the exchange. A noticeable difference in the records of the week just ended and the corresponding week last year is that in the number of shares sold, and difference in the two values. A total of 224,524 shares changed hands during the past week. These had a total value of \$347,317.18 while 357,754 shares sold during the corresponding week last year were valued at \$177,595.42, a difference in value of \$169,721.76 in favor of the week just ended. This difference may be attributed to the prevalence of high priced Nevada stocks, which have appeared upon the market since a year ago.

Silver Shuffled at 14 and 14 1/2 cents looked good to buyers and 2,700 shares changed hands during the regular call. 1,200 at the first price and 1,500 at the second. Uncle Sam went down the morning starting out at 51 cents. Shortly after a block of stock comprising 500 shares went at this price, 100 went at 48 1/2, followed closely by 200 at 48. This price marked a turn for the better and at 48 1/2 cents 1,100 changed hands. Uncle Sam ended up at 49 at which figure 1,500 shares were bought. A block of 15 shares of Silver King at \$22.50 was exchanged during the regular call. Sixty shares at the same price moved during the open board call. Daily Judge closed at \$10 on the open board and 300 shares went at that price. This stock weakened during the past six days as it opened the week buying at \$11.50 mark. Star Con. held its own, commencing and closing comfortably close to 31 1/2. Uncle Sam came down slightly during the week. Lower Mammoth at \$2.50 is a quarter of a dollar lower than the week's first quotation. Nevada Hills has been active and closed strong at \$1.75. All in all the past week has been strong with Utah stocks lively.

The closing quotations this morning and the day's and week's totals follow:

TRouble OVER MINE.

W. B. MacSherry Made Defendant in Suit Filed Yesterday.

David W. Medbury has filed suit in the district court against W. B. MacSherry and the Lincoln Nevada Mining & Milling company to compel the defendants to transfer to him 200,000 shares of the stock in the company for the sum of \$100,000.

The suit was filed yesterday at 11 o'clock. The complaint alleges that MacSherry and the company have been guilty of fraud in the sale of the stock to him.

The suit was filed yesterday at 11 o'clock. The complaint alleges that MacSherry and the company have been guilty of fraud in the sale of the stock to him.

COPPER BELT ACCIDENT.

Col. E. A. Wall's Mill in Bingham Canyon Demolished.

Col. Wall's "Jim Crow" concentrating mill in Bingham canyon is a wreck today on account of another serious accident on the Copper Belt railroad.

The accident occurred at midnight Friday. While coming down the mountain with a train of two loaded cars of ore engine No. 3 got beyond the control of the train crew and came tearing down the mountain at terrific speed.

At a point just above the mill the runaway train jumped the track and crashed into the plant demolishing it almost completely.

A barn belonging to C. E. Adderly was also destroyed and a horse contained therein escaped severely bruised.

Damage to the Wall mill is estimated to be about \$10,000.

It is the greatest wonder in the world that the trainmen were not killed; but they took the desperate chance of saving their lives by jumping shortly before the engine left the track.

No one was seriously injured except Fireman Charles Carlson, who sustained the injury of a broken leg.

Conductor McCaffrey, Engineer Rawles and Brakeman Glinner, got off with slight bruises.

His services in securing a purchaser for the property now in the hands of the corporation. It is alleged that Medbury agreed with MacSherry on June 15, 1906, to find parties who would put up the necessary funds to purchase the property and launch the company and that MacSherry agreed to give him 200,000 shares of stock for his services.

The deal was consummated by plaintiff, but he claims that the defendants have not given him the stock. In the event that the stock cannot be secured he seeks judgment against defendants for the sum of \$100,000, the value thereof. He also asks that the company be restrained from transferring stock to MacSherry until he has paid plaintiff the stock coming to him.

HERE TO CLOSE DEAL.

Byron E. Hartwell Interested in Promising Copper Group.

A well known Park City, Byron E. Hartwell, is in the city for the purpose of closing up a deal which involves the sale of a large block of stock in the Utah Copper Consolidated company, which owns a group of claims now in the city of the Park City.

Fine copper and silver values were obtained when the surface in the big fissure that crops through the property and a shaft is now being sunk to develop it. At a depth of 50 feet the line is becoming highly mineralized with pyrites of iron and the expectation is that the vein will be shortly exposed and that fine values will be encountered.

Over a mile from this property in the mouth of Thayne's canyon, or rather on the northwest side of it, a shaft was sunk in a fissure a few years ago that was trending in the direction of the First National Mining company, which was so open that the passing over it of the Rio Grande Western train, away out in the flat near the First National ground, was so distinctly heard by the workers that they often thought the wheels were passing close to them. The property in the Thayne canyon is now a portion of the holdings of the Silver King Consolidated company.

WORKING TOM MOORE.

Bingham Property Near Lead Mill is Active Again.

Work on the Tom Moore group at the lead mill in Bingham has been resumed. A contract has been let for the extension of the tunnel a distance of 1,000 feet. This is the first part of extensive plans for the development of the property.

Work in the tunnel was suspended last December on account of the caving in of the tunnel, caused by the heavy shooting on the railroad. At the point where the work was stopped there were fine strings of copper ore running across the face.

The first work will be clearing out the tunnel and timbering it up, and the work of development will be pushed rapidly. The company has enough money in the treasury to justify them in crowding things, and it is expected that in a short time the large ore bodies believed to cross the territory will be reached.

The Tom Moore lies close to the Bingham Consolidated property at Lark and is in a good locality.

DOLLY VARDEN SHOWING.

The showings at Dolly Varden improve with development, says the White Pine News. Supt. Charles F. White, of the Root interests there, was in Cherry Creek a few days ago, and said that the Victoria shaft was 50 feet deeper in sulphides than when he took hold of the operations.

The new hoist has been installed and two shifts of miners are kept at work.

The Victoria shaft has an interesting history. It was started by a group of men from the United States mint at Washington in the '70s because the site is suitable for alloy in coloring money. Distances from transportation lines caused the enterprise to be abandoned at that time.

IS NOW A BROKER.

Lewis H. Beason Leaves the "News" To Engage in Business.

Lewis H. Beason, for a number of years, mining editor of the "News," today severs that connection and with Louis D. Gordon will open a mining and brokerage business at once.

Mr. Gordon is the man who made the first discovery in the Round Mountain district, Nev., cleaning up a fortune in a few months. Under the firm name of Gordon & Beason these two men are today conducting a "house warming" in their suite of offices in the Herald building. Mr. Gordon retains heavy interests and holds a large block of stock in the Round Mountain district but he plans making his permanent home in this city, where he is already heavily interested in real estate and other holdings. Mr. Beason has lived in Salt Lake for a number of years and as his work has taken him all over the mining west he is known in every camp within the intermountain region. Both men are as popular as they are well known.

"The firm holds a seat on the Min-
