

House of Commons on Monday during the debate on the proclamation of the Ennals meeting. They have decided to apply the cloture rule the first night. The nationalists are exultant over the

#### GOOD FIGHT

they made yesterday. A Tipperary boy broke through the square composed of twelve policemen and fought them single-handed. The police finally overpowered him, but the mob made a rush and rescued him from his captors. The police paraded this morning. The majority of them wore bandages over the wounds they received yesterday. Fourteen policemen were injured during the rioting and have been carried to the hospital.

**PITTSBURG, Sept. 10.**—Master Wm. B. Rogers, in the suit of Henry Warner, assignee of the defunct Pennsylvania bank, against Wm. N. Riddle, president of the bank, and M. K. McMullen and J. B. Beal, oil operators, for the purpose of charging defendants with certain moneys of the bank lost in oil transactions during the years 1883 and 1884, has just completed his report. The assignee charges that defendants unlawfully and repeatedly withdrew from the bank sums of money aggregating nearly \$1,000,000 for the purpose of making a corner in oil, which was illegal. The Master finds that Riddle, Beal and McMullen were all parties to

#### THE CONSPIRACY

and that the bank itself not being a party, its assignee may recover the loss from the conspirators. He concludes the report by recommending that a decree be made against the defendants for \$927,001, less \$62,000 on deposit to the credit of McMullen at the time of the bank's suspension. The defendants filed separate answers to the suit.

President Riddle denies that he had control of the officers and employees of the bank or its money or assets, but that the directors had such control, as he was absent from the bank by reason of illness. He also denies any improper or illegal withdrawal or use of funds of the bank or any combination with the other defendants in relation to any thing connected with the bank. He further claims that the bank has

#### NO RIGHT

to maintain this suit, because the court in a suit at law, in 1884, for the same cause brought suit and abandoned the same, paying costs.

McMullen and Beal also deny that they were in any combination or unlawfully withdrew money from the bank.

**BUFFALO, Sept. 10.**—The Buffalo division of the Buffalo & Philadelphia Railway, according to a decree of court, was sold this morning. It was bid in by the reorganization committee of the syndicate for \$3,453,471.

**LONDON, Sept. 10.**—The steamer *Endymion*, which arrived yesterday, had on board the crew of the British bark *Orgueil*, from Barrow for Perth Amboy, which was abandoned in a sinking condition.

**LONDON, Sept. 10.**—All was quiet throughout the night at Mitchellstown, the scene of yesterday's rioting. All persons who attended yesterday's meeting have returned to their homes. Fifty-four constables were injured to such an extent that physicians' services were required. One hundred and fifty civilians were also injured. The police assert that yesterday's trouble was due to the nationalist leaders shouting for the mob to hold together. The town to-day is quiet.

**MONTREAL, Canada, Sept. 10.**—Henry Porter's extensive tannery and five adjoining tenement houses burned to the ground this morning. Twenty-six families are homeless. The total loss is estimated at \$200,000.

**BOSTON, Sept. 10.**—The executive committee of the furniture finishers and painters association have decided to call the men out of all the shops next Monday where the employers will not concede nine hours as a full day's work. If the strike occurs it will lay off about 2,000 men.

**DUBLIN, Sept. 10.**—The *Freeman's Journal* says: The blood stain is indelibly attached to Balfour, chief secretary for Ireland, and to the government. The *Journal* accuses the officials of sending a force of police and reporters to Mitchellstown on whose evidence warrants were issued.

**NEW ORLEANS, Sept. 10.**—A special from Key West to the *Times-Democrat* says: While in ambush some miles from Montanzas on Thursday afternoon, just after landing, the band of Cuban filibusters which left here recently, were attacked by a detachment of 300 Spanish soldiers. The latter were repulsed, leaving three of their number dead and carrying off five who had been wounded by dynamite bombs thrown by the filibusters. Four of the Cubans were wounded but not at all seriously, by shots from the soldiers. The filibusters then made their way into the interior and joined those who had preceded them.

**LONDON, Sept. 10.**—Mary Anderson opened at the Lyceum this evening in "A Winter's Tale." The house was jammed. Miss Anderson received an enthusiastic welcome. Parts of the play she performed splendidly, but the staying powers of the piece are doubtful.

A dispatch from St. Paul de Loando, dated September 9th, states that Major Barteliot had received

#### NEWS FROM STANLEY

dated July 12th. Stanley was then ten days' march in the interior and still proceeding toward the Aruwimi, which he found navigable above the rapids.

He expected to arrive July 22nd at the center of Mabodi district and reach Wadai by the middle of August.

In the Commons, to-day, Sexton appealed to the government to give such justifications as they could for the murderous act at Mitchellstown yesterday. It was beyond doubt, he said, that the bloodshed resulted from the wanton attack of an armed force upon a body of citizens engaged in the exercise of their undoubted

#### CONSTITUTIONAL RIGHT

in a public meeting. Who ordered the firing? What steps have been taken to identify the men? Who committed the murderous catastrophe? It was the result of the language and acts of the government, who had found it easier to begin than to end the conflict.

Balfour claimed that Sexton's account of the affair differed materially in the substantial particulars from the accounts telegraphed to the government. He claimed that Coudon shouted to the people to close up against the police, and that was the signal for a wanton and brutal attack upon the police, utterly unprovoked. The responsibility rested with the band of politicians, calling themselves leaders of the Irish people, who spoke of the government reporters

#### AS SPIES.

If those persons, instead of talking about constitutional agitation, had exercised their influence to keep the people within the law, the people would not have to deplore these scenes.

Sir Edward Reed warned the government that English electors would resent the interference with a public meeting, and the people of Great Britain would not allow their fellow subjects in Ireland to be treated in this manner.

**DUBLIN, Sept. 11.**—Mr. O'Brien was arrested to-day while seeing Mr. Labouchere off on the steamer.

Mr. O'Brien spent the day at Ballybrack with Messrs. Dillon and Harrington. He received a telegram from Labouchere and Mr. Brunner, requesting him to accompany them to London. Mr. O'Brien, accompanied by Harrington, went on board the Kingston boat for the purpose of declining the invitation to go to London when a detective met him and said he would not be arrested if he pledged himself not to go to England.

#### O'BRIEN REFUSED

this condition, when he was taken into custody and escorted to the Imperial Hotel by the detective, who informed him that he could stay there all night if he would give a promise that he would not make a speech. This promise was not given and O'Brien addressed a crowd from the balcony of the hotel. In the course of his brief remarks he said: "So long as there is breath in my body, my voice will not be silent until I am gagged. I am proud to suffer for Mitchellstown. When in Kingstown I was told I would not be arrested if I did not undertake to go to England. That shows that the government is beginning to dread us in England."

#### MR. O'BRIEN

will remain at the hotel to-night and proceed to Mitchellstown in the morning. A crowd gathered in front of the hotel and was very enthusiastic.

**MITCHELLSTOWN, Sept. 11.**—The victims of the fight on Friday will be given a public funeral on Monday. It will be the occasion of a great demonstration. The man Chinnick and the boy Casey are dying from the effects of the wound they received on Friday. Casey's ante-mortem deposition has been taken. He states that he was standing near Shinick at one corner of the square when head constable O'Sullivan came to the window of the barracks and fired at him. Four witnesses confirm this statement. The nationalists say they have evidence to establish the identity of the policeman who shot Kiordan.

**LONDON, Sept. 11.**—A French smack reports the loss of a vessel with fifty hands in the English Channel.

**NASHVILLE, Tenn., Sept. 11.**—A terrible accident is reported from Needmore, a small island village, three miles north of Manchester. Rev. J. W. Carter and Dr. Logan were to speak there yesterday in favor of prohibition. When they arrived they found a big revival meeting in progress, and did not speak. The revival was conducted in a two-story church building, the upper floor being used for a church, and the lower floor given up exclusively to school purposes. Yesterday there was an immense audience in the upper story, listening attentively to the exhortation of a minister, when suddenly and without warning, the rear end of the floor gave way with a crash, carrying 60 or 70 people with it. The fall was 13 feet and hardly one of them escaped injury.

#### THE INJURED

were quickly rescued from the wreck and three of them found to be seriously injured. One man is fatally hurt. Every physician in the county was immediately sent for and the work of relieving the injured promptly began. No further particulars have been received from the scene of the disaster.

**TUCSON, 11.**—The storms of Thursday and Friday were the most severe ever known in this section. Five miles of the Southern Pacific track between this point and Benson were washed away. Two large bridges at Cinago and Rillita rivers were destroyed. The telegraph wires are down and in some places imbedded ten feet in the sand. Steel rails were carried a quarter of a mile down the river and ties scattered for miles down

the stream. Southern Pacific trains are being run over the Atlantic & Pacific road. Washouts are also reported from Tucson to Yuma. From parties in from San Pedro and Ullita rivers, it is learned the flood is the worst ever known in Arizona; old landmarks are washed away and fields of grain swept over. Southern Pacific officials say travel over the road cannot be resumed for a week.

**ST. LOUIS, Sept. 11.**—A special from Matamoros, Mexico, says: It is reported that the murder of Valeriano C. Altamirano, of El Paso, was committed by three policemen under orders from prominent authority. The unfortunate editor had been at a ball at the house of Donna Howpasa Ochoa, which he left at 1:30 o'clock accompanied by Senor Mercelina Cardenas. At the corner of Brisa's pawnshop the pair were stopped by three policemen, who took Altamirano to the corner of the India Bakery by force, where they attacked him and

#### BROKE HIS SKULL

with a blow from a pistol, fired five shots into his body and stabbed him in the left side, leaving him stretched on his back dead. Fourteen shots in all were fired at him by the policemen. Cardenas, who attempted to assault him, was fired on twice and obliged to fly for his life. The affair has a very black look, as the murdered man was a staunch supporter of the federal authorities against those of the city.

**LONDON, Sept. 11.**—Twenty thousand nail makers of Worcester and Staffordshire are on a strike for an advance of wages.

**LONDON, Sept. 11.**—General Bullers has definitely resigned his post at Mitchellstown.

The *Daily News* speaking of the occurrence at Mitchellstown says: The more we examine into the tragedy the more evident it becomes that it was nothing less than a murder by persons unknown. The ominous silence of the government and its agents on the question of responsibility is one of the worst features in the case. What are we to expect but crime answering to crime, a devilish outrage following devilish repression?

**LONDON, Sept. 11.**—Labouchere, in a long letter describing the affair at Mitchellstown, says when he entered the barracks he found the police had dragged two men inside and were beating them with bludgeons as they lay face downward. Dillon had great difficulty in preventing the chief constable from rushing out of the barracks with his men and shooting right and left. Capt. Plunkett visited Mitchellstown and the detectives and magistrates of Eaton and Seagrave held an informal inquiry, inspected the barracks and

#### VISITED THE WOUNDED.

Less than twenty police were actually injured and only one seriously. Brunner says he saw a dozen constables attack one man with their batons. He also saw a policeman pierce a horse with his bayonet while another constable thrust his bayonet in the rider.

An independent witness states when the first blow was struck it was impossible to control the Tipperary men, who attacked the police like fiends. The walls of the barracks bear evidence of the throwing of stones. The lower half of the door was broken in.

**GLOUCESTER, Mass., Sept. 12.**—The schooner *Arethusa* arrived here this a. m. from the Grand Banks. It reports that a terrible hurricane swept over the banks on August 26th. Great damage was done to vessels and many fishermen were lost. Fourteen men belonging to the schooner *Idonee*, of Provincetown, N. S., were swept overboard and drowned.

**DUBLIN, Sept. 12.**—Editor O'Brien, who was arrested at Kingstown, yesterday, was conveyed to Mitchellstown this morning in custody of an officer. He was accompanied by Harrington, M. P., and his counsel. O'Brien emphatically denies that he boarded the steamer at Kingstown to avoid arrest, his object being simply to see Labouchere, who was about to leave for London.

**LONDON, Sept. 12.**—Sir Charles Young, author of the play "Jim the Penman," died suddenly last night.

**NAPLES, Sept. 12.**—Three soldiers at Trapani were sent to perform a disinfecting duty and were assailed by a mob who tried to force them to swallow carbolic acid which they had been sprinkling about the streets and houses. One of the soldiers imbibed the liquid and soon after died in horrible agony. The other two refused to drink the acid and were killed.

**BERLIN, Sept. 12.**—Prince Bismarck gave an audience on Saturday to several merchants, manufacturers and others who are interested in colonial enterprises. The manufacturers of rolled iron have founded a syndicate with the object of increasing prices. The combination will begin operations on the first of October.

**PARIS, Sept. 12.**—The *Figaro* publishes a letter written by Prince Ferdinand expressing delight at his enthusiastic reception in Bulgaria. The Prince says he believes the people of the country are thoroughly attached to him. He complains of the opposition of the three great powers and regards their war against him as unjust. He hopes to rescue Bulgaria from the crisis in which she is placed and is resolved to do his duty whatever happens.

**PARIS, Sept. 12.**—A dispatch to the *Journal des Debats* from Bucharest says that ex-Premier Radoslavoff and several officers have been arrested in

Bulgaria for connection with an alleged military plot. It is reported at Sofia that the police have invented a plot in order to further the ends of M. Stambuloff, the present prime minister of Bulgaria.

**SOFIA, Sept. 12.**—It is stated that when the Sobranje meets the government will propose the impeachment of Karaveloff, Mikiforoff, Seakoff and others suspected of complicity in the overthrow of Prince Alexander.

**CARUL, Sept. 12.**—The Ameer is seriously ill at his residence in Paghman Hills.

It is reported that Ayoub Khan is at Kilisalsalar.

**LONDON, Sept. 12.**—The number of nail makers on a strike in Staffordshire alone is 15,000.

**DUBLIN, Sept. 12.**—Moonlighters last night murdered Constable Whelan and mortally wounded another officer near Ennals, County Clare. Whelan was killed with a bludgeon. Eight arrests have been made on suspicion.

**DUBLIN, Sept. 12.**—O'Brien was enthusiastically received by a large crowd on his arrival at Limerick. In his address O'Brien said he never went on a journey which promised better for the cause of Ireland than this one. The government might close his lips, but there was a spirit left in Ireland to-day that all the bayonets at their command could not silence.

#### RAIDING IN IDAHO.

The Crusaders Resume Work in the North.

Friday morning, Sept. 2d, three U. S. deputy marshals arrived in Paris on horseback about 4 a. m. They immediately proceeded to the residence of Walter Hoge, tied their horses to the picket fence and surrounded the house. Two of them guarded outside while the other went inside and made a diligent though unsuccessful search. Brother Hoge seemingly not being at home to entertain the gentlemen, they again mounted their horses and called at Bro. J. U. Stucki's, Prest. Budge's and several other places in town with no better success; they did not find anybody they seemed to want. They acted very gentlemanly, however, and their actions contrast very favorably with those of Dubois' minions who took delight in terrifying defenceless women and children.

Deputy Hopson and his minions last Friday night and Saturday morning raided Ovid and Liberty, searched quite a number of houses but didn't find those they were seeking and consequently returned to their "stamping ground" at Montpelier empty handed.

The deputy marshals had better success outside of Paris. On Thursday, about 10 p. m., they arrested Wm. Severn. They then proceeded to Preston, where they arrested Bishop Dalrymple, about 12 a. m., took the Bishop to Montpelier and started for Paris, where they arrived about 4 a. m. Not finding anyone they wanted there, they next proceeded to Ovid and arrested Brother John Johnson, Sen., whom they found milking his cows. The brethren were all taken before U. S. Commissioner Breeze at Montpelier, where they were put under bonds of \$1,000 to appear before him on Monday next when it is expected U. S. Attorney Hawley will be present to conduct the cases for the government.—*Southern Idaho Independent*.

#### Cache County Notes.

Mrs. G. S. Hayball, who was sometime ago badly injured with lightning, so much that it was thought she would lose her eyesight, is now rapidly recovering.

There are no more cases of diphtheria in Providence, and as the greatest care has been taken to prevent the spread of the disease, it is thought that its career has been checked.

Mr. Freeman Rollins, of Paradise, was binding a load of wood on Monday when he slipped and fell from the load, striking on his head. The gentleman was unconscious for two hours after the occurrence.

A few days ago Newman Bickmore, nine years of age, son of L. D. Bickmore, of Paradise, fell from a wagon when it was in motion. The wheel passed over his body, causing him considerable pain and injuring his back.

On Monday a little son of George Marler, of Providence, was kicked in the head, causing a depressed fracture of the skull just above the temple, and rendering him insensible. Dr. Ormsby dressed the wound. At last accounts the boy was in a comatose state.

Deputy Marshal Steele was in Paradise last Thursday. He summoned Mr. Chas. Housely to appear before the First District Court, to answer to a charge of trespassing on railroad land. It appears that Mr. Housely has let his sheep go on the railroad land, which joins his homestead. Action has been brought against him for \$5,100.

Willard Mitton, nine years old, was riding with J. J. James, through Hyrum, on Wednesday last, when from some cause he fell out of the wagon. The hind wheel passed over his head, bruising it and knocking out three of the little fellow's teeth.

A little son of C. A. F. Orlob, a former resident of this city but now of Salt Lake, aged about two years, died in this city on Monday of pneumonia. The bereaved parents brought the little fellow here thinking that a change of climate would do him good. They have the sympathy of many friends.

Last Saturday a man named Jens Jensen, who lives along the line of the railroad near Pocatello, came to town for treatment for a bad fracture of the arm near the shoulder. Dr. Ormsby attended the injury and the man is progressing favorably, but it will be some time before he will have the use of his arm.

On the 3d Inst. John Pearson, of the Second Ward, Logan, accidentally fell from a heavily laden wagon and was run over. He was taken home, and Dr. Ormsby was sent for, and upon arrival found that Mr. Pearson was badly injured internally. He was made as comfortable as possible, and although he is quite old, hopes are entertained for his eventual complete recovery.

Last Saturday evening a prominent Third Street merchant called in at our office and sat down in the editorial chair. A short time after the business manager came along, and, being unaware of the presence of the merchant, quietly locked the front door. A short time after a P. T. S. M. might have been seen crawling out of the back window of the printing office.

Wm. Kidd, Wm. Reese, George Farnes, John Reese, Fred Jenka, J. Smith, J. Hendricks and John Peacock on last Saturday evening appropriated to their own use two hand cars and went to Mendon. Railroad men followed them up and secured the hand cars, and on Monday five of the boys were arrested and fined \$2.50 each, and costs. The other three yesterday had a hearing with a like result. The practice of using the hand cars by the boys has been going on for some time, and it is time it was stopped. J. Hendricks and John Reese remain in durance vile because of lack of funds.—*Utah Journal, Sept. 7.*
