

GEORGE Q. CANNON,
EDITOR AND PUBLISHER.

Monday, June 25, 1890.

EDITORIAL CORRESPONDENCE.

PARIS, JUNE 18, 1890.

We started yesterday morning, accompanied by President C. C. Rich and a number of brethren on horseback, for Soda Springs. We reached there about 11 a.m., remained a few hours to give the animals time to rest, and then started back. We arrived at Montpelier a short time before sun-down, having, during the day, traveled seventy miles. The water of the springs made some of those who drank it, sick.

This morning, we had a very interesting meeting at Montpelier. The speakers were Elders Wilford Woodruff, Ezra T. Benson, Geo. Q. Cannon, B. Young, Jr., and President Brigham Young. As this is the first visit this place has ever had from the President and his company, subjects which might have been trite in other settlements that are more frequently visited, possessed a freshness and interest that were charming to both speakers and hearers. One point was enforced very plainly and emphatically, that any person selling liquor here should, if the practice were persisted in after to-day, be cut off from the Church. The sale of liquor must cease, or the standing and fellowship of the person selling it be forfeited. This is a decision that every right feeling man and woman in the community will endorse.

After the meeting, we drove to the ferry, crossed, and came on to this place, passing through the little town of Ovid, a place which I forgot to mention, we passed through on our way down, which is a thrifty little place, and principally settled by Scandinavians. They had erected an arch of evergreens for us to pass under, and all the population was out to welcome us.

LIBERTY, June 20th, 1890.

Yesterday—Saturday—meetings were held in the Bowery at Paris, which had been prepared for the occasion. The morning was occupied by President D. H. Wells and Elder B. Young, Jun. The afternoon by Elders W. Woodruff, John W. Young and E. T. Benson. After the meeting a School of the Prophets was convened, and this morning, previous to the public meeting, the members again met, and the School was fully organized. Twelve elders were also selected and set apart as a High Council for this Stake of Zion, and Elder David P. Kimball was chosen to preside over the Stake, which includes for the present all the settlements in this valley.

The public meeting in the morning was addressed by Elders George Q. Cannon and Wm. H. Hooper, and in the afternoon by Presidents Brigham Young and Daniel H. Wells. The President informed the meeting of the selection of Elder David P. Kimball to preside over the Stake, under the direction of Elder Charles C. Rich, and in his remarks, alluded in a very feeling manner to Elder Kimball's father, the late President Heber C. Kimball, and the long, intimate and brotherly intercourse which he had with him, extending over about forty-five years. No person who had known President Kimball, his steadfastness and inflexible integrity, could listen to the touching tribute which was paid to his memory this afternoon by President Young without his sympathy being moved. Their love for each other had been as the love of David and Jonathan, "passing the love of women."

The vote to sustain Elder David P. Kimball in his new position was unanimous. All feel that the selection is a judicious one, and to Bro. Charles C. Rich, upon whose shoulders the entire responsibility of presiding in this valley has heretofore rested, the appointment is most welcome, as his duties have been very onerous. He will have the aid of a young, active man of good judgment.

Very plain and pointed instructions have been given at these meetings upon the "Word of Wisdom," co-operation and improvements in building, fencing, planting orchards and shade trees, and the construction of a road from St. Charles, in this valley, to Logan, Cache Valley. This road is to be built up St. Charles canyon, and across a divide into Logan canyon, and when completed it will have, it is stated, an easy grade and the distance from St. Charles to Logan will not be more than thirty miles. This will be a great saving of travel, and will bring the people of this valley within one and a half or two days' travel of the railroad.

These instructions, it is hoped, will give a great impulse to improvements of every kind throughout this valley, and produce a marked change in the appearance of the settlements by the time the President and his company again visit them.

Liberty, where we now are, is distant from Paris about seven miles. As soon as the meeting dismissed at Paris this afternoon, we bade our friends farewell, stepped into the carriage, which were waiting for us at the Bowery, and drove here. This is a small but thrifty settlement, situated on a beautiful stream

called North Creek. The facilities for the few families which are here are excellent, and though they inform me the snows are deep in the winter, there seems to be no serious obstacle in the way of their accumulating wealth. The elements which are usually viewed as constituting wealth are here in sufficient abundance to make it a comparatively easy matter for an industrious, skillful man to surround himself with all the comforts of life. Elder E. N. Austin presides here.

(Special to the Desert Evening News.)

By Telegraph.

GENERAL.

Richmond, Va., June 23.—Edmund Fontaine, projector of the Chesapeake and Ohio Railroad, died to-day, aged 68.

General O'Connell, Callahan, who killed Kelly, to be tried by a military commission.

Chicago, 26.—The Times' Washington special says the National Intelligence suspended to-day for the first time in 69 years; cause, financial embarrassment, owing to the loss of Government patronage. There has been for some time a talk of merging it with an evening paper, but it is not probable this will be done.

The Tribune's special contains an account of some important negotiations going on with Canada and England, relative to a new reciprocity treaty, but it is not known what they are.

The President has selected Cogswell's full length portrait of Lincoln to be hung in the White House.

Kaladago, the new Russian Minister, came to Washington about 15 years ago as Secretary to Minister Bodisco; he remained here a year, making a very favorable impression. For some time past he has been one of the Emperor's counsellors in foreign affairs.

The political contest in Virginia increases in excitement; both parties have arranged for a number of meetings before the election. Registration closed to-day.

The change in the Cabinet took everybody, both inside and outside the Navy Department, by surprise. It was well known that Borie accepted his position originally with much reluctance, and has frequently expressed his intention to retire. The President saw Robinson last Monday during a trip to the north, and made arrangements, which were consummated yesterday. Borie gave a little dinner party on Thursday, but probably nobody present, except Admiral Porter, knew it was his farewell reception, and the secret was so well kept that nobody knew of the intention to make a change. Admiral Porter will probably continue virtually to manage the department.

Chicago.—The Republican, this morning, publishes the report of Col. J. N. Morris, the commissioner appointed to inspect the unaccepted portion of the U. P. R. R., which will be submitted to the President to-day. The report is very long and rather unfavorable to the road, saying that the road is not well built in many places, and the Government should have withheld at least, we think, the subsidy until the road was made first-class. The report recommends the Government to declare the first mortgage bonds null and void, as such, and to make its own bonds the first mortgage bond on the road, and reduce the present first mortgage bonds to the second mortgage bonds.

Morris thinks Congress erred in allowing two companies to build the road, without fixing the point of junction, as in consequence of the enormous grants of land and other subsidies each company has endeavored to build the greatest number of miles of the road, and time, with them, was too precious to incur any delay in procuring the best material or doing the work in the most perfect manner. The report thinks the road dangerous, as in many places the cross ties are soft white pine, laid at extremely irregular intervals, and not parallel with each other; but spiked wherever they fell. The report very confidently asserts that these ties will never answer the purpose for which they were intended.

Col. Morris has arrived at the following conclusion: first, the road is not, as the law required, a first class road; second, it is not supplied with the necessary buildings; third, it has not safe and substantial bridges; fourth, the tunnels are not made wide enough for a double track; fifth, the road bed at the grade of the line is not of uniform width, nor has it been properly leveled nor the rails laid straight; sixth, it would be extremely dangerous for heavy trains to pass over the western portion of the road; seventh, the ties have sunk in many instances, sometimes entirely, the dirt being washed from under them. This is more generally the case on the embankments, miles upon miles of which were made during the winter while frost was in the ground, the rails consequently have an uneven bearing in numerous instances, and are bent and appear, as you look back upon them, like a succession of small waves. The road is not ballasted in any part of it, true. The hands have been now here and now there, employed, in throwing with shovels such material as the road bed is composed of, which has been taken, in all cases, from the sides of embankments where they exist, between the ties. This, says Col. Morris, is a complete non-compliance with the provisions of the law under the head of ballasting, established by the board convened to fix upon the standard of construction and it is certainly of the highest moment that the road through Salt Lake valley, which passes mainly over alkali land, should be well ballasted with stone, and with certainly not less than eighteen inches in thickness. The report says, with the exception of the cross ties, which are also of white pine, the Central Pacific is better constructed than the Union Pacific.

Rain still continues throughout the north-west; it is feared the corn crop will be entirely destroyed in many parts of the country; it is also feared that wheat will damage the wheat, although the present prospects for a fine crop of grain are very good.

New York, 26.—The Herald's special from Richmond, Va., says there is great rejoicing there among the whites over the increased majority of 20,000, which the recent registration gives them. The prospect of regaining power seems to have liberalized the minds even of representatives of the straight Virginia sect, and to such a degree that Conservative men of prominence are putting on foot

a move to elect Dr. Alexander Sharp, former Postmaster there, and brother-in-law of the present Marshal of the District of Columbia, to the United States Senate. The movement for Sharp is an evidence of a most radical change in the feelings of Conservative politicians.

New York, 26.—The arguments on the writ of error in the case of John Real, convicted of the murder of officer Smedick, were heard yesterday in the Supreme Court, which adjourned till Monday without giving a decision, at a very late hour last night. Captain Collet Beaman, and Hannan, a soldier said to be engaged in enlisting recruits for the Cuban army, were arrested and lodged in Ludlow jail to-day.

It is expected that the Cubans confined in jail will be liberated on bail. Gen. Sickles has accepted a complimentary banquet tendered to him on the evening of the 30th inst., by some of the leading citizens of this city.

At a meeting of the Woman's Rights Association last evening Mrs. Phillips, Mrs. Gibbons and Mrs. Lassier were elected delegates to the Woman's Rights Convention to be held at Chicago to-day.

A raid was made yesterday on the store of Charles S. Gilbert, of Nassau street, when a large quantity of obscene pictures, cards and books were seized; Gilbert was committed to prison.

At the Court of Sessions, the complaint against John A. Briggs, Robt. L. Briggs and Henry C. Ross, charged with setting fire to Briggs Bros. stable, on 23d street, in December last, was dismissed, a witness having made affidavit before the Recorder that his statement against Messrs. Briggs was untrue, and made while laboring under insanity, which he was subjected to.

Chicago, 27.—The Republican's special says the President has decided to take another trip this summer, about the middle of July; he will not take an extended tour, but will remain within easy reach of Washington. Secretary Rawlins will also be absent about a month; he will go over the Pacific Railroad. Secretary Fish will also take a holiday next month.

Commissioner Delano telegraphed to Supervisor Noah, of Tennessee, that his resignation would be accepted, whereupon he resigned by telegraph. The same trouble about General Butterfield's appointment as Assistant Treasurer at New York, he being a Colonel in the regular army cannot hold two offices.

The Times special says the new Secretary of the Navy does not intend being a mere figure head, but intends to run the office himself.

The Tribune's New York special says four persons were arrested yesterday for alleged violation of the neutrality laws, in fitting out an expedition for Cuba. Orders have been sent from Washington to United States Marshals to make no more arrests unless fully satisfied they are needed to prevent a violation of the neutrality laws.

Chicago, 26.—It is believed that the weekly gold sales will soon be stopped, there being but sixty millions of coin in the Treasury. Government bonds, yesterday, were firm, State bonds irregular. Railways firmer.

The signals constantly received through the new cable are excellent.

The Illinois Central Railroad Company have leased the St. Louis, Vandalia and Terre Haute road for a term of years.

The lease of the Pittsburg, Ft. Wayne and Chicago railroad is approved by the stockholders.

Washington.—A meeting of the printers of this city, employed in offices outside the government printing office, was held last night, at which the action of the National Typographical Union, in the Douglas case, was endorsed. The object of this meeting was to condemn the management of the government printing office, and to declare that the printers retaining positions therein are "rats," on the ground that they have violated the laws of the organization.

New York.—The Herald states, positively, that a Cuban expedition of about 800 men left this port last night, under the command of Col. Ryan, in person, accompanied by Col. Currier, General Spear, a Fenian of some notoriety, Gen. Glaszari, Captain Peters and other officers. This body of men will be known as the First New York Regiment. They were presented with a handsome flag by the Junta.

Providence.—The funeral of Kelly, killed by Callahan, the policeman, was largely attended; the affair assumed a political cast.

St. Louis.—Several members of the Congressional Committee on the Pacific Railroad are in the city, where they will be joined on Thursday by other members and will proceed over the Kansas Pacific Railroad to Denver and Cheyenne.

Edward Haintjohr, a German, has been arrested on a charge of offering for sale fourteen thousand dollars in bonds, and a quantity of checks stolen from a Brooklyn bank in February last.

One of fifteen gunboats, building for the Spanish Government, was launched yesterday and was towed to the machine works at the foot of Vessey street, to receive its machinery. The entire number will be completed by August first.

Louisville.—Geo. E. Webster, insurance agent, died in this city yesterday, from injuries received by falling from his horse while riding out for pleasure.

Nashville.—At half past one this morning a fire was discovered in the second story of Hicks and Rouston's china store at the corner of the public square; it progressed rapidly notwithstanding the most active efforts of the firemen, and soon all the three stories, comprising the Hicks' block was in flames, and the block was destroyed; the loss is estimated at \$255,000.

James W. Barker, formerly a noted policeman, and head of the Grand Council of the "Know Nothings" in this State, died of paralysis, at Rahway, N. J., to-day.

The boiler of a pleasure tug exploded on the Passaic river, this afternoon, seriously injuring several.

Nashville.—In the case of the taxpayers against the Mayor and City Council of Nashville, Chancellor Smith to-day, rendered a decision appointing a receiver and vacating all the city officers; the appointment of a receiver is the result of speculation and funds by the city authorities, tending to bankruptcy.

Louisville.—At the Sulphur Wells, six miles from this city, James Arnold and James Lowell got into a quarrel, when the latter drew a pistol and shot Arnold, killing him, and then fled.

Cincinnati.—The vote to-day on an appropriation to the Southern Railroad will probably be 10 for to 1 against, in a total vote of 17,000.

Leavenworth, Kas.—A terrible storm prevailed yesterday and last night through the western portion of this State, doing considerable damage. A special from Junction says, the Kansas Pacific bridge, over Chaplin's Creek, 12 miles west of this city, was swept away. The railroad bridge over the Republic was standing this morning, but fears were entertained that it would yield to the rising flood. Trains from the West will probably be delayed a day or two, as the damage to the bridges cannot be repaired until the subsidence of the floods.

The prospects are flattering for beautiful crops throughout the State; the wheat harvest has commenced in the southern portion.

Key West, Florida.—The United States steamer Narragansett has arrived; six officers and three men are sick of yellow fever, but all are doing well.

Boston.—The mixing mill, at the American Powder Works, at South Acton, exploded last night; J. P. Gray was terribly burned.

Wilkesbarre, Pa.—The wife of Hon. Geo. W. Woodward, M.C., died yesterday morning.

Richmond, Va.—J. Kelly, who was shot on Thursday evening by Captain Callahan, died this morning; his death creates much feeling, he having been held by three policemen while Callahan, who had a personal feud with him, shot him. Callahan, who was under bail, has been arrested.

Washington.—Ex-Secretary Borie left for Philadelphia this morning. Secretary Robison is at the Department engaged in official business.

The President, to-day, appointed John T. Delapain, of New York, Secretary of Legation, at Vienna; and Wm. M. Wood, Surgeon of the U. S. Navy, to be chief of the Bureau of Medicine and Surgery in the Navy Department, in place of P. F. Howitz.

Among the clerks removed from the loan branch of the Treasury, this morning, was J. C. Walker, former reading clerk in the House of Representatives.

Lieut. C. H. Roebel, of St. Louis, died in quarantine yesterday, of the yellow fever.

New York.—The Tribune says the steamer Catherine Whiting, which cleared for Galveston on Friday, was seized on Saturday night, as she was about leaving the harbor on suspicion of being a Cuban revolutionary transport; she was partly laden with hay and provisions.

The public debt statement, which will appear on Thursday, will show a reduction of about six millions; but the yearly statement, which will be issued later, will probably show two millions greater reduction. There are about twenty-eight millions in currency and ninety millions of gold on hand.

Baltimore.—The remains of John Wilkes Booth were interred in the family lot yesterday, in the presence of the family and a few friends.

London.—It has been officially announced by the British Minister at the capital, that an international exhibition of the products of workmen's labor will be held in London in 1870.

Mr. Thornton has been requested to make the matter known to the citizens of the United States, which he will do when more fully advised with regard to the details. The great aim is to develop personal labor throughout the world.

New York.—The latest returns from the vote on lay delegation in the Methodist Church, as received at the office of the Methodist in this city to Saturday evening, 26, is as follows: the whole number of votes cast 38,458; for lay delegation 27,587, against 10,871, majority for lay delegation, 16,716.

San Francisco, 27.—Legal tenders 74.

Horse cars will be placed in streets of Wilmington, N. C., this week; this is the first enterprise of the kind in that State, and it has been accomplished by carpet baggers.

The Tribune's New York special says, that Cuba sympathizers say 1,100 men sailed on Saturday night, by a steamer, supposed to be the Quaker City; another steamer, from a southern port, with 400 men, will meet her at sea and accompany her to Cuba. It is said that the Quaker City has been lying off the coast ever since her departure and has been supported with coal by a schooner from Philadelphia. No more recruits will be received at present, the Junta being confident that this expedition, added to the previous ones, will secure the independence of Cuba.

The members of several Fenian Circles held a meeting on Saturday night and passed resolutions of sympathy for Cuba; some of their leaders have been in consultation with the Cuban chiefs, with the view of offering their services to the Cuban cause.

At an auction sale of velocipedes on Saturday, the prices of the best machines ranged from 5 to 30 dollars; about 40 were sold. Many were withdrawn for want of bidders.

Chicago.—The first pig iron produced by the Grand Tower, Ill., Mining and Manufacturing Company, whose works are located at the southern portion of the State, on the Mississippi River, is said to be of a very superior quality. The Company is a wealthy one and owns a large area of coal land in Jackson County, Ill., and a large quantity of valuable iron land in Missouri, opposite their works. The company designs making all kinds of bar and rolled iron.

A freight train on the North Western Railroad ran off the track between this City and the Mississippi River yesterday, detaining the regular trains nine hours. The accident was caused by damage to the track by the late heavy rains, which are unprecedented in the north west.

The weather is pleasant to-day.

A special from Nashville, Tenn., says the order of Chancellor Smith, appointing a receiver to take charge of the corporation of Nashville, has created much excitement. The greater number of the citizens received the order favorably, but good and wise men look upon it as a high handed usurpation over the city of Nashville and an abuse of judicial authority. They say the appointment of a man by a Judge living outside of the district to collect taxes, borrow money, disburse funds, and perform all functions which the people appoint certain officers to perform, is a violation of the city charter, as opposed to the nature of American institutions and is unparalleled in the history of this country. It is not known whether Mr. Ross, the Receiver, will attempt to oust the present city officials or leave them in their places and operate through their agency. He is required to give bonds to the amount of half a million dollars for the faithful performance of his duties. Some think he will be unable to give bonds, such

as the clerk and the master in the chancery court at Nashville will accept. If the receiver attempts to oust the present city officials there will probably be trouble.

Horace White and J. D. Caton, now at Salt Lake, on an excursion over the Pacific Road, telegraphs that Morris' report is in all essential particulars unmitigated nonsense, and that the Union Pacific is undoubtedly the best conducted road, considering its newness, ever built in this country. Richardson's letter to the New York Tribune bears the same testimony, and says that those portions of the track laid while the ground was frozen, will soon be made equal to any other portion of the road, and the road will be first class in all respects.

FOREIGN.

Havana advises say the cholera has broken out in Guantanamo and Santiago, and rages with great severity.

Washington.—The text of Lopez' reply, under date of May 23rd, to the demand of the allied guard, that he should lay down his arms and terminate the war is published. Lopez repels the charge that he is guilty of causing unnecessary bloodshed, because he has defended his country against the allies' assaults, and declares that he is now, and ever has been, disposed to treat for peace upon a basis equally honorable to all the belligerents, but is not disposed to hear a word as to laying down arms to treat for peace.

Madrid.—In the Cortes, the Republican members were warned that their presence in the chamber was permitted as an act of patriotism, but they could not be tolerated as accomplices in a scheme for building up a republic; that the present combination of affairs would not long continue, and it would become necessary to repress the people or anarchy would be the result.

Madrid.—An exciting debate took place in the Cortes to-day on the policy of the government towards the Republicans; Sojetta said the government was determined to punish unconstitutional manifestations.

Brest.—Advices received from the Great Eastern, up to this forenoon, say that some difficulty had been encountered, but everything was favorable at last accounts. At noon on Friday she had made 497 knots from Brest, and had paid out 542 knots of cable. This, Saturday morning, a fault was detected in the short communication, when the steamer was instantly stopped, and measures taken to localize the fault. This was found impossible, but the signals soon became perfect again, it was resolved to proceed.

Florence.—The official newspaper contains the following: The country is tranquil everywhere; the vigilance of the authorities prevent further disturbances.

Milan.—The government has forbidden the circulation of subscriptions to aid persons injured in the late disturbances.

London.—This evening, the Queen reviewed the guards at Windsor, in honor of the Viceroy of Egypt; there were 20,000 spectators present. Great enthusiasm was manifested. It is said, to-day, that it will cost the government six and a half millions of pounds sterling, to purchase the telegraph lines in the country, as contemplated.

Paris, 26.—M. Schneider, to-day, resigned the Presidency of the Corps Legislatif, in consequence of the indecorum of M. David, one of the Vice Presidents; the Emperor refused to accept the resignation.

Zurich, 26.—In consequence of the order forbidding Mazzini to reside in certain parts of Switzerland, he, to-day, departed for London.

Montreal.—Hon. John Young sailed for England this morning. He goes to organize the Canadian and European Telegraph Company.
