inflammation and intolerable itching, reduces the little tumors, and its us-ringent properties cause the enlarged food vessels to countract to a normal, althy condition. A Balthnore gentleman relates his ex-

rience in these words; "It affords me unusual pleasure to add. my endorsement to those of others rel-ative to the really remarkable cures made by the Pyramid. "I was a sufferer for years until told

y a fellow salesman of the Pyramid Pile Cure, It has entirely cured me and I cheer-

WARD ENTERTAINMENTS. Samanana (

A farewell reception will be tendered to Elder John Perkins, in the Sixteenth ward meeting house. Monday evening, January 21. Elder Perkins leaves in a few days for the missionary field, and the following excellent program has been prepared:

Much Can be Done to Suppress Crime and Corruption.

New York, Jan, 19,-The World says: The vigilance committe favored by Bishop Potter is being formed by individual members of the City club. There will not be 25,0000 of them, nor 5,000, and only men of tried and proved trustworthiness and conservatism will be in the ranks. The total number may not exceed 500. bled for a considerable period with

The City club as an organization is not yet the official sponsor for the com-mittee of vigilantes, but after the organization has been perfected a prop-osition may be submitted to the memsbers of the club to father body. Bishop Potter said, in spoaking of the vigilance committee last night:

"I think that a body of earnest, honest men who would promptly re-port to a central committee every vio-lation of the laws for the restraint of vice which came under their notice, so that the propte of the nit, might know that the people of the city , might know the extent of official laxity, would render a service of the very greatest

Referring to an objection made by some of the members of the committee of fifteen to the employment of young men in the work, the bishop said:

"That has struck me as rather funny. Soberly, I don't see how the young men of the city are likely to fall into any greater danger than now meets any greater danger than how meets them all over the city. Of course, I do not advocate any promiscuous delv-ing into the secrets of disorderly houses, or any participation in gam-bling. But there are few men in the city who have not at one time or another been solicited to vice, or seen it faunted in the streets. How is it go-ing to hurt them to make a record of that fact and report it to the central commttee for investigation? I con-

fess I don't see. "I have on my desk a letter receved this morning from Harlem telling me of the existence of a disorderly house in a certain street and of the 'roping-Sunday, Jan. 20, 1901. Now how is it gonig to hurt a young man who sees that from across the street to report the meters? the matter?

"It seems to me that no reform such as we wish to see accomplished can be brought about in any way save by the persistent publication of the abundant instances of police corruption and collusion with vice. It has been shown that the whole city is suffering from a reign of terrorism on the part of the police force. On the East Side this is particularly marked. Many small tradeznen do business there sole-ly by grace of bribing the police." "The bishop told of other forms of po-lice cupidity. He cited the case of a policeman who found the lost son of one of his friends recently. The police-man simply did his duty in taking the small boy to the station house where seems to me that no reform

days and demanded payment for ind-ing the little fellow. "I'm afraid that that indifference is at the bottom of a good deal of the trouble. What we need most of all is a constant concentration of public at-tention upon the present conditions. That is what I believe to be essential to softe of the present of actions. o reform. I see no better way of ac-omplishing it than through such a viglance committee as I advocated in St.

One Against Compulsory Vaccination and Another on State Salaries.

Probably the most important bill that has been introduced in the House is what might be called the anti-vaccination bill introduced by McMillan, mak ing it unlawful for any board of health board of education or other body to make vaccination computery, or to make it a condition precedent to the admission of children or teachers to public or private schools. Judge Hall Dismisses the Carbis Contest-Appeal to Supreme Court.

As announced some days ago Judge Hall this morning decided the Carbis-Dale election contest for the county treasuryship. It will be remembered that the contest simmered down to the question as to whether or not the contest was begun within the statutory forty days from "return day." The court decided that "return day" was November 12, the day on which the ounty commissioners commenced anvass of the returns, and not the day n which the canvass was comple on which the calibration was the contrast and the result declared, (Nov. 12). The court in deciding this point, in the man-ner stated, of course threw the contest out as not having been begun within the forty days provided by law within which decider contests must be comwhich election contests must ed, and therefore Judge Hall held he had no jurisdiction, dismissing the case. This settles the matter so far case. This settles the matter so far as the district court is concerned and quiets Mr. Dale's (Dem.) right to the office. Mr. Carbis and his attorneys, however, say they will take the contest up to the Supreme court with the hope getting a reversal of Judge Hall's

No matter what the cause, the dark spots in the city are being held up to view and the bright spots are lost sight of. The city of New York is at present in the throes of one of these peculiar convulsions which break out in all great cities. The prevailing opinion that New York is a wicked city is the result of the efforts of a few men, whose instincts are so good that to them everything beyond their own shadow is rott. Bess and black. From what is being said about New York what is being said about New York it would appear she has a corrupt government and an incompetent govern-ment and that vice and crime flourish on the streets and everywhere.
