BY TELEGRAPH.

From Associated Press Telegraph Lines.

Last Night's Dispatches.

FORTY-FIFTH CONGRESS.

SENATE.

WASHINGTON, 4.—Ferry, Davis and Randolph were appointed a committee to inquire about the omission of the Hot Springs clause from the enrolled sundry civil appropriation bill, last season.

Saulsbury introduced a bill authorizing the Secretary of the Treasury, in redeeming United States legal tender notes, as required by the special resumption act, to pay 75 per cent. in gold coin and 25 per cent. in standard silver dollars.

Harris' resolution regarding the preventing of epidemics was agreed to, with the amendment that the committee may sit with a similar committee of the House.

The motion of Matthews to take up the Texas Pacific Railroad bill was rejected, 19 yeas, 22 nays, on the ground that it would lead to a long discussion.

Edmunds gave notice that on Monday next he would call up the bill relating to presidential elections and the counting of votes.

Eustis introduced a bill appropriating $3,000,000 for improving levees in the southern states. Laid on the table.

Executive session followed, and when the doors were reopened the Senate adjourned.

HOUSE.

WASHINGTON, 4.—Foot asked leave to offer the following resolution:

Resolved, that the legal tender quality of the silver dollar, 412½ grains of standard silver, shall be maintained and enforced and that any discrimination against the said silver dollar by any national bank, in refusing to receive them and treat them as legal dollars, shall be deemed a defiance of the law of the United States; and the committee on banking and currency is hereby instructed to mature and bring in a bill for the withdrawal from circulation of the notes of all such banks so offending.

Several objections were made and the proposition was not received.

Schleicher offered a resolution calling on the President for a copy of the dispatch of Oct. 9th, 1878, from the Secretary of State to the United States minister in Mexico, together with the order of documents on the subject of our commercial relations with Mexico. Adopted.

Kelly offered a resolution asking the Secretary of the Treasury for information regarding the deposit of government money in any national bank, on the 30th of September and November, 1878 other than by disbursing agents. Adopted. Adjourned.

EASTERN.

Purchase of Silver.

WASHINGTON, 4.—The Treasury purchased about 400,000 ounces of silver to-day, at a trifle below London rates.

The Texas Pacific Railroad Bill.

The vote of 22 against 19, by which the Senate refused to take up the Texas Pacific bill, to-day, does not seem to be considered discouraging by the friends of that measure. They say that they hardly expected that the Senate would consent to go to work on it during the first week of the session, and that the motion was made because the bill had been postponed to this day from the last session, and they wanted to show that they had not forgotten it; besides which, they say a larger proportion of their friends than of their enemis were absent.

Senator Sargent Recovering.

Although Senator Sargent is recovering from his second attack of malarial fever, his physicians are of the opinion that he cannot regain his strength without complete rest. He therefore intends to leave Washington as soon as he gets strength enough to go with his wife to Nashua, New Providence, which he hopes to do in about a week. He will be gone a month or longer, if necessary. If able, he will examine the immense accumulated correspondence before he leaves town, and turn over to his colleagues such matters as they can attend to.

The Chinese Immigration Question.

Representatives Horace Davis and Page called at the State Department, to-day, to make joint inquiry concerning the progress of the diplomatic negotiations for a modification of the Burlingame Treaty. They had a long and very cordial conversation with Secretary Evarts, but although they found him earnestly, even warmly in favor of the adoption by our government of a restrictive policy in regard to the Mongolian immigration, yet, nevertheless, they came away convinced that what they previously apprehended is still to be expected, namely, that the Chinese will be able, by the use of ordinary diplomatic delays and artifices, to postpone almost indefinitely any concerted action by the two governments in the nature of a treaty revision, and that the purpose of the Chinese embassy in Washington is merely to pursue the Fabian policy of wearing out their opponents by inaction. A point blank refusal by the Chinese government to consent to a modification of the treaty by ordinary means, they perceive, would strengthen the chances of direct legislative action to restrict Mongolian immigration, and the Chinese ministers, therefore, seem disposed to postpone, as long as possible, any expression of their real wishes or intentions. Davis and Page, and doubtlessly other members of the Pacific coast delegation, will, however, treat this delay on the part of the Chinese authorities as equivalent to a refusal and, with all possible vigor, urge upon Congress the necessity of using its unquestionable power to enact an immediate legislative remedy for the evils which negotiation would still leave for it to cure, and which, if convinced of their existence, it should remedy with or without the consent of the Emperor of China, under the higher international law of self-preservation. A report is current here, and may obtain publication elsewhere, that the President has referred the subject of Chinese immigration to Secretary Evarts for investigation, with a view to making it the subject of a special message, not to this Congress, but to the next Congress. There is no foundation whatever for this story, except the pendency of negotiations with the Chinese government under the concurrent resolution adopted last session.

An Indiana Murderer.

CHICAGO, 4.—Jacob Villinger, who murdered his wife in a brutal manner, was to-day acquitted of murder by a jury, on the ground of insanity. He will be sent to an asylum.

Excursion to Mexico.

The Mexican excursion party leaves here under the management of the Illinois Central Railroad on January 4th. Advices state that the Mexican government has appropriated $50,000 for their entertainment, and the funds placed in the hands of a reception committee.

Hill Suspended.

The *Tribune's* Washington special says: Supervising Architect Hill was, this afternoon, suspended by the peremptory order of the President, pending his trial on the indictments found in Chicago. Secretary Sherman was averse to this action, but the President was firm that the indicted man should not have access to, and charge of the records on which his guilt depends.

$200,000 Fire.

NEW YORK, 4.—A fire this evening destroyed the Pacific flour, grain and feed mills, and the grain elevator, situated on Columbia Street, between Pacific and Amity Streets, Brooklyn. Loss, $200,000. Insured.

The Commercial Convention—The Texas Pacific Scheme.

NEW ORLEANS, 4.—The commercial convention was called to order at 11 o'clock, and Gen. Fitzhugh Lee was made permanent president. He made a speech, expressing gratification at the peaceful relations existing between the various States and sections. Several resolutions were offered and referred to committees. Seventeen States are represented. The following was unanimously adopted, with the exception of three votes from Southern Texas:

Whereas, The commercial interests of our country emphatically demand, as a necessity, a competitive line of railway connecting the waters of the Mississippi River with the Pacific Ocean by the most practicable route along or near the 32d parallel of north latitude, and

Whereas, In order to secure cheap transportation over said line, cheap cost of construction is absolutely necessary, which can only be secured by such measures as will secure cheap money upon the securities of the Texas and Pacific Railway Company, now seeking to complete its line on the 32d parallel as an open highway, free to all railway business, with its earnings subject to the regulating power of Congress, and

Whereas, A government guarantee of a low rate of interest on bonds of the Texas and Pacific Railroad Company would seem to afford the most certain means of obtaining funds necessary to construct this line, and

Whereas, What is known as the Texas and Pacific Railroad Bill now pending before Congress to complete said company's line from Fort Worth, Texas, to San Diego, California, is one which confides in no person or character connected with the enterprise, but inculcates wisdom and a suspicion and jealousy of those who are not to receive the national trust, by provisions which have reduced the application of the company for government aid down on an extreme of harmony with the interest of the people, the government and the company, and is a bill which seems best adapted to secure the speedy completion of such a line, and to enable the company to obtain money at low rates of interest; therefore,

Resolved, That this convention recommend and urge upon Congress to take immediate favorable action on said bill to the end that the Texas and Pacific road may be constructed at the earliest possible moment, that competition by an independent competitive line of railway may be secured, and that the laboring and manufacturing interests of the country may be stimulated, and

Whereas, Competing lines north and south of existing roads is essential to the welfare of the whole country.

Be it resolved, That said already granted by the general government to the Northern Pacific Railroad Company should not be withdrawn; and,

Whereas, Unless the Union and Central Pacific Railroad Companies are held to the strictest accountability, the benefit of competing lines will be lessened or lost, therefore,

Resolved, That the Union and Central Pacific Railroad Companies should be held to the strictest compliance with their charters and the laws regulating them.

Adjourned till to-morrow.

Convicted of Perjury.

CINCINNATI, 4.—John O'Connor, ex-member of the legislature, was convicted to-day, in the United States court, of perjury, in swearing to false affidavits for the purpose of procuring a pension from the government.

National Base Ball League.

CLEVELAND, 4.—The National Base Ball League met to-day. Syracuse, Buffalo and Cleveland were admitted and Indianapolis resigned. N. E. Young was re-elected secretary. The petitions of Craver, Hall and Nolan for admission were refused. The rules were amended, making the pitcher's position six feet long by four wide, and requiring the pitcher not to turn his back to batsmen while delivering a ball.

Information Wanted.

RICHMOND, 4.—The legislature met to-day. A resolution was adopted requesting the governor to communicate to the senate all the information he has in relation to the recent action of Judge Reeves, of the United States district court for the western district of Virginia, in removing from the custody of State officials certain persons held for trial for murder, and in nowise purporting to try said persons in the federal courts for said crimes against the State laws, which proceeding is considered an infringement of the police regulations and an assumption to control the domestic affairs of the State by federal officers.

Destructive Fire.

BURLINGTON, Iowa, 4.—Smith, Cook & Co.'s large tobacco factory, known as the Mississippi Valley Tobacco Works, which pays an annual tax of $100,000, burned to-night, and but for the efficiency of the Holly waterworks system, the whole business section of the city would have been destroyed. Loss on the building $10,000 and on the stock $40,000; all insured.

The Indian Bureau Transfer—Joint Commission.

The joint commission having under consideration the proposition of transferring the Indian Bureau to the War Department met, to-day. The first witness was D. A. C. Barstow, of Providence, R. I., chairman of the board of Indian commissioners. He said, in his judgment, the proposed transfer was unwise, that if effected, it would certainly work adversely to Christian operations now in progress. He recited at length many interviews had with army officers on the subject and said those favoring the transfer appeared to have but one reason therefor, namely, that the War department paid better salaries for similar duty than did the department of the Interior. He considered that there are some very good men in the army, but did not think them adapted to the requirements of Indian agents, and was positive they are incapable of promoting religion, civilization, etc.

J. M. Kingsley, of New York, member of the Board of Indian commissioners, was the next. He said: We need an army with hoes and spades for the Indians rather than swords and rifles. If the commission so desired he would produce the books of his office for every expenditure made by the board and where purchases were made, where forwarded, and the disposition made of the same. He favored the continuation of the existing peace policy. Should the transfer be made the board would not feel that they had any active sympathies. The good work done by the board had, in many instances, been demoralized by the surrounding military posts. Adjourned.

and that the cures which it effects are as prompt as they are complete. The two following extracts are all we deem it necessary to insert.

Geo. R. Lincoln, Pres't of the Board of Health, N. Y., writes: Your Carbolic Salve is an excellent article, and I thank you for. This is another evidence of the great value of the discovery of carbolic acid."

D. R. Locke (Petroleum V. Nasby), of New York, states that he had "on the forefinger of his right hand one of those pleasant pets, a 'gum-round,' the finger became inflamed to a degree unbearable.

* * * A friend dressed it with Carbolic Salve, and in twenty minutes the pain had so much subsided as to give a fair night's rest. * * * * * * * The inflammation left the finger in a day."

Henry's Carbolic Salve

is used extensively in Hospitals, and is found to be not only a thorough purifier and disinfectant but also the most wonderful and speedy healing remedy ever known. Sold by all Druggists.
