WEBER CANNERIES.

Preparing for Exhibit in Irrigation Congress at Boise.

Ogden, Aug. 15.—Some of the largest and finest canning factories in Utah are located in Weber county and their products are the best to be found on the market anywhere in the country. The delicious flavor of the Utah fruits is known in all markets. Besides the canning of fruits the local factories put up all kinds of vegetables and ketchups. Several good prizes are offered at the National Irrigation congress to be held at Boise City, Idaho, next month for the best canned goods, and there is no reason why Utah should not carry off a few of these prizes. For the purpose of interesting the canneries in preparing an exhibit of Weber county canned goods to send to Boise, Fred J. Kiesel has called a meeting for tomorrow evening at the Weber club parlors of all the canners in the county to consider plans for preparing the proposed exhibit.

BELL TELEPHONE REDUCTIONS.

Makes Concessions to Butchers and Grocers—Death's Harvest.

Provo, Utah Co., Aug. 15.—President George Y. Wallace and Manager D. S. Murray of the Bell Telephone company were here Tuesday night and conferred with the committee appointed by the Grocers & Butchers' association to represent the association in a conference to settle the dispute between the association and the company on the price of telephones, which caused the association to order the Bell 'phones taken out some time ago. The result of the meeting was an offer by the company to meet the price of the independent company for 'phones from now till Oct. 1, when the company expects to satisfy the association that the service of the Bell company within the city limits is larger than that of the independent company, and that then a new contract, based on the comparative value of the service can be entered into. This will be submitted to the association by the committee at the next meeting. It is believed the offer will be accepted.

CARTER GETS ONE YEAR.

George Carter, the young man who forged a check for \$5.00 by signing the name of H. J. Malben and passing the check at the Brunswick saloon, about a month ago, was permitted to go before Judge Booth yesterday and plead guilty, which he has been wanting to do for some time, so as to begin to serve his sentence. In view of the fact that Carter, who seems to be a very intelligent fellow, plead guilty and was drunk at the time, so drunk, he claims, that he did not realize what he was doing, he was given the minimum sentence, one year.

The contempt proceedings in the case of Spanish Fork West Field Irrigation company vs Spanish Fork City et al, have been continued till September, 19.

GIVEN UP TO DIE.

B. Spiegel, 124 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." For sale by F. J. Hill Drug Co.

GARLAND.

COMMERCIAL CLUB.

Discusses Proposition of Discontinuing Social Features.

Special Correspondence.

Garland, Boxelder Co., Aug. 14.—A special meeting of the Garland Commercial club was held in its rooms in the River block, Monday evening, Aug. 13, which was called for the purpose of infusing new life into the organization or disband. There were a large number of the members present and the matter was quite generally discussed and views exchanged. The matter of temporarily doing away with the social features of the club and thereby reducing in a very material way the running expenses of the organization and limiting it to a merely commercial organization, was considered and left open for future discussion and consideration. A committee was appointed by the chair, consisting of W. P. Eaton, Joseph Corbett and E. D. Bacon for the purpose of meeting with the board of trustees of the town of Garland to ascertain if it would be agreeable with that organization to install the club furniture in the town building for the town use in consideration of the town's permission to use its building as a place in which to meet for the purpose of discussing commercial matters in case the club is limited to a purely commercial organization. A further committee was appointed by the chair to confer with the delinquent members in an effort to induce them to liquidate their club dues. The attending committee consists of Joseph Jensen, Chas. Edwards and M. G. Hansen.

The meeting was then adjourned until Monday evening, Aug. 27, when the committee will submit their reports.

AFTON, WYOMING.

WILLIAM ROWE DEAD.

Honored Pioneer and "Mormon" Battalion Veteran Called at Eighty.

Special Correspondence.

Afton, Wyo., Aug. 12.—The cold, backward spring has caused crops to be unusually late in this section, and the farmers have not yet finished gathering a light first crop of lucern. All other crops will be above the average if they are not damaged by early frosts. The range has been unusually good and stockmen have excellent beef for the market. Cows have yielded abundance of milk to supply the several creameries here, and they in turn are turning out an immense amount of good butter and cheese, which find ready sale in this and adjoining states.

In the various ward conferences that have been recently held in this Star Valley stake, the reports have generally indicated that the people are improving spiritually as they certainly are temporally.

Star valley's only representative of the historic "Mormon" battalion, Elder William Rowe, died at his home in Thayne, July 24, Utah's pioneer day. He was born Feb. 20, 1826, was baptized by Elder Aaron Smith, and entered in the battalion July 15, 1845. He was a most exemplary Latter-day Saint, was never known to make a complaint. At his funeral the large gathering of his neighbors and friends testified to the high regard in which

There is more Catarrh in this section of the country than all other diseases put together, and in the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Haying is in progress. The second crop is fair. Grain is ripening fast these warm August days. The yield promises to be an average. People of Cowley appreciate the regular mails delivered by the railroad trains.

Now that the railroad is built through this town, affording quick transportation to the various settlements in the basin, also the country in general, it gives promise of a rapid development of this new country.
