Catarrh is at home almost anywhere and everywhere. While more common in cold, changeable climates, it is by no means confined to them, but is prevalent in every state and territory in the union.

The common definition of catarrh is a chronic cold in the head, which if long neglected often destroys the sense of smell and hearing; but there are many other forms of the disease, even more obstinate and dangerous.

Catarth of the throat and bronchial tubes as well as catarrh of the stomach and liver are almost as common as nasal catarrh and generally more difficult to cure.

Catarrh is undoubtedly a blood disease and can only be successfully cradicated by an internal treatment; Sprays, washes and powders are useless as far as reaching the real seat of the disease is concerned.

Dr. McIverney advises catarrh sufferers to use a new preparation, sold by druggists, called Stuart's Catarrh Tablets. because actual analysis has shown these tablets to contain certain antiseptic qualities of the highest value and being an internal remedy, pleasant to the taste, convenient and harmless, can be used as freely as required, as well for children as for adults.

An attorney and public speaker, who had been a catarrh sufferer for years says:

"Every fall I would catch a cold which would settle in my head and throat and hang on all winter long and every winter it seemed to get a little worse. I was continually clearing my throat and my voice became effected to such an extent as to interfere with my public speaking.

I tried troches and cheap cough cures and sometimes got relief, but only for a short time, until this winter when I learned of the new catarrh cure, Stuart's Catarrh Tablets, through a newspaper advertisement. Two fifty cent boxes which I bought at my druggists, cleared my head and throat in fine shape and to guard against a return of my old trouble I keep a box of the tablets on hand and whenever I catch a little cold I take a tablet or two and ward off any serious developments."

Stuart's Catarrh Tablets deserves to head the list as a household remedy, to check and break up coughs and colds, because unlike many other catarrh and cough cures these tablets contain no opiate, cocaine or any injurious drug.
